

2016 CHRYSLER 300

Most Luxurious Vehicle in its Class^{1*}

300C Platinum shown in Jazz Blue Pearl. 300S shown in Redline Tri-Coat Pearl.

THE CHRYSLER 300 STANDS FOR ATTAINABLE LUXURY

Each stunning interpretation embodies world-class craftsmanship and advanced technology. The lineup is amply suited with available leather interiors and offerings like the most advanced available all-wheel-drive (AWD) system in its class¹. Each lifestyle-driven model highlights the appeal of the Chrysler 300 featuring the award-winning 3.6L Pentastar™ Variable Valve Timing (VVT) V6 engine and standard, class-exclusive¹ TorqueFlite® 8-speed automatic transmission.

The available 5.7L HEMI® VVT V8 engine, with FuelSaver Multi-Displacement System (MDS), is paired with the 8-speed transmission for the ultimate combination of power and efficiency. Each model delivers delight in driving with attributes like advanced aerodynamic design in a full-size sedan. Along with sculpted curves, the exterior reveals a modern, athletic profile. Trademark grille designs stand as tribute to the shape that represents its own larger-than-life character.

90TH ANNIVERSARY EDITION

In recognition of Chrysler brand's bold, iconic style and dynamic spirit, a premium 90th anniversary edition of 300 Touring offers unique details along with select convenience features. An expansive dual-pane panoramic sunroof, 8.4-inch Uconnect® multimedia centre with navigation,² ParkView® Rear Back-Up Camera,³ LED fog lamps, remote

start, a universal garage door opener,⁴ and an anniversary logo start-up screen and floor mats outline the model's key elements. Additional features include 18-inch polished aluminum wheels with touring tires, comfort suspension, power-adjustable heated front seats, Nappa leather-faced seats and a rear-seat armrest with storage and illuminated cup holders.

2 *A note about this brochure: all disclaimers and disclosures can be found on the inside back cover.

Award-Winning Indulgence

300C Platinum interior shown in Indigo and Linen.

EVERY STITCH MAKES THE CUT

A two-time winner of *Ward's* "10 Best Interiors" that boasts sophisticated style with world-class materials and craftsmanship. The elegant 300C Platinum interior offers leather-faced, heated and ventilated front seats, and heated rear seats. Matte-finish Mocha real wood bezels and tambour door finish add warm accents, along with the heated two-tone leather-wrapped steering wheel with chrome accent ring. Recline in the comfort of premium quilted and perforated Nappa leather-faced seats, available leather-wrapped instrument panel, door bolsters and centre console, and class-exclusive¹ heated and cooled front console cup holders for the ultimate in convenience.

ABUNDANT MODERN CONVENIENCES

When heated, the driver and front-passenger seats offer two settings, or can also be ventilated for faster cooling of occupants in warmer weather. With the available remote start feature, the driver's heated seat and steering wheel will automatically activate if outside temperatures are below approximately 4°C (40°F), while cooling ventilation activates above 27°C (80°F). The standard Keyless Enter 'n Go™ enables push-button ignition from a personalized fob. Upon approaching the vehicle, either holding the key fob or carrying it in a pocket or purse, simply pull the front door handle to unlock the vehicle and open the door. The standard, class-exclusive¹ satin chrome-finished Rotary E-shift, located on the integrated centre console, electronically selects gears for a smooth, lightweight automatic shift experience.

Performance Built
To Get You Ahead

Advanced Powertrains
with Segment-Leading¹
7.7 L/100 KM HWY* Fuel Efficiency

300C Platinum shown in Gloss Black. 300S shown in Redline Tri-Coat Pearl.

BEST-IN-CLASS¹ FUEL ECONOMY 3.6L PENTASTAR™ VVT V6 ENGINE

The standard, award-winning 3.6L Pentastar Variable Valve Timing (VVT) V6 engine yields a best-in-class¹ V6 highway fuel economy rating as efficient as 7.7 L/100 km (37 mpg)*, while producing a potent 292 horsepower and 260 lb-ft of torque. All-wheel-drive (AWD) models benefit from an active transfer case with front-axle disconnect, part of the most technologically advanced AWD system in its class¹, which assists Chrysler 300 in achieving best-in-class¹ AWD fuel economy as efficient as 8.6 L/100 km (33 mpg) highway*. It seamlessly connects wheel power from rear-wheel drive to AWD as needed — and automatically disconnects when not required to maximize fuel economy.

EXHILARATING ACCELERATION — 5.7L HEMI® VVT V8 ENGINE WITH FUELSAVER MULTI-DISPLACEMENT SYSTEM (MDS)

The 5.7L HEMI VVT V8 engine with FuelSaver MDS is available on Chrysler 300S, 300C and 300C Platinum rear-wheel-drive models. It delivers an impressive combination of V8 horsepower and remarkable fuel economy as efficient as 9.3 L/100 km (30 mpg) highway*, optimized by the segment-exclusive¹ TorqueFlite® 8-speed automatic transmission and FuelSaver MDS technology. This innovative technology seamlessly alternates between four-cylinder mode when less power is needed — and all eight cylinders when required. The result is acceleration that more than meets the demands of the get-out-and-go-faster driver with 363 horsepower and a surprising punch of 394 lb-ft of torque.

CLASS-EXCLUSIVE¹ TORQUEFLITE® EIGHT-SPEED TRANSMISSION

The standard TorqueFlite 8-speed automatic transmission provides world-class shift quality, outstanding fuel efficiency and commanding performance thanks to a wide gear-ratio spread. A low first gear ensures quick takeoff, while close fifth- through eighth-gear ratios deliver smooth shifting and a lower cruising RPM for refined performance and optimal fuel economy.

SPORT MODE DYNAMICS

The available Sport (S) mode turns ride and handling dynamics up a notch. Chrysler 300S, 300C Platinum and 300C V8 models feature an S gear on the Rotary E-shift and Sport Mode. Selecting S on the Rotary E-shift enables sport engine and transmission calibration, more responsive accelerator-pedal calibration and manual shift mode via steering wheel-mounted paddle shifters. The Sport button located on the instrument panel centre stack enables sport-tuned Electric Power Steering (EPS) calibration and a temporary paddle-shift mode in addition to the S gear settings.

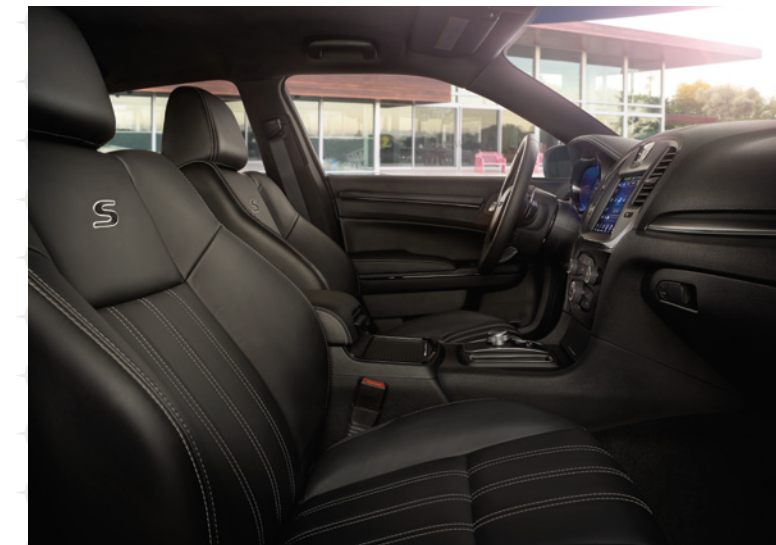

300S Bold Manoeuvres

300S shown in Redline Tri-Coat Pearl.

AMPLIFIED STYLE AND PERFORMANCE

The Nappa leather-faced performance seats in Black with Silver stitching, or two-tone Black/Ambassador Blue, signify the stealth stance the 300S stakes as its own. The leather-wrapped steering wheel with paddle shifters and accent stitching, Piano Black accents and Matte Carbon hydrographics, along with a unique S overlay graphic treatment to the instrument cluster, brand this model with an attitude. You'll definitely want to switch to Sport Mode and turn up your favourite tunes on the 10-speaker BeatsAudio™ premium sound system, standard on the Chrysler 300S.

POWER-SUITED

Equipping the 300S with the forceful 5.7L HEMI® VVT V8 engine with FuelSaver Multi-Displacement System gives it a fierce ambition to take on the road. With the added performance comes exclusive side-sill cladding and a rear spoiler, lending to the styling cues by taking on that "planted" look — combining a Black Chrome surround with the Gloss Black 300S grille gridwork, Black Chrome lower front-fascia accent strip, 20-inch Hyper Black aluminum wheels and available black roof for a classic extroverted look and feel.

ILLUMINATED ATTITUDE

The Chrysler 300S adds LED taillamps with black surrounds, distinctive headlamps with black bezels along with LED fog lamps, and a Gloss Black daylight-opening surround moulding, giving it an extra dose of street attitude.

Largest Touchscreen Display in its Class¹

NEW CONVENIENCE AND SAFETY FEATURES

Uconnect[®] introduces three all-new features to the standard and largest-in-class¹ 8.4-inch touchscreen multimedia centre found on Chrysler 300. The **Drag and Drop** menu bar allows you to personalize the dashboard with your top six features and services. With **Siri Eyes Free**⁵ you can initiate Siri sessions with the voice recognition button on the steering wheel to give voice commands⁵ to send text messages, play music, dictate and send emails, set reminders, place phone calls and access turn-by-turn directions on iPhone[®] 4S and later. The **Do Not Disturb** feature enables you to route all incoming calls to voicemail and suppress texts. You may also choose to receive a visual prompt for incoming calls and texts, as well as send an automated reply.

UCONNECT MULTIMEDIA CENTRE WITH NAVIGATION²

The Uconnect system takes non-distracted driving very seriously, which is why the Chrysler 300 has user-friendly conveniences built in to keep your eyes on the road. The standard Uconnect 8.4 touchscreen allows you to stay connected and focused on driving with hands-free communication, Bluetooth[®] streaming audio, voice command technology and available integrated 3D navigation.²

VOICE TEXT REPLY⁶

With your compatible phone paired to the Uconnect system, the Voice Text Reply feature will announce incoming text messages and read them to you when you press the Phone button and say, "Listen." It also allows you to reply with any of the 18 predefined responses.

SIRIUSXM SATELLITE RADIO⁷

SiriusXM satellite radio with one-year subscription is standard and includes a variety of music, news, sports and specialty channels to satisfy any listener. It also allows you to receive alerts when your favourite song, artist or sports team is playing on another channel. SiriusXM includes an Instant Replay feature to pause and rewind, then replay programs, songs and sports broadcasts, and a new Tune Start feature, which starts songs from the beginning when switching between favourite preset SiriusXM channels.

HANDS-ON-THE-WHEEL MANUAL SHIFTING

The die-cast steering wheel-mounted paddle shifters, with engraved + and - symbols, are used to manually control gear selection of the 8-speed transmission. Standard on the Chrysler 300S, 300C Platinum and 300C V8 models, the paddles are engaged by turning the Rotary E-shift to S.

HEATED STEERING WHEEL

The available heated steering wheel delivers a 360° surround, single level of warmth and can be turned on or off using the Uconnect touchscreen display. With the available remote start system, the heated steering wheel can be programmed to automatically activate when temperatures outside dip below approximately 4°C (40°F).

Best-in-Class¹ All-Wheel-Drive Technology

300S shown in Granite Crystal Metallic.

BEST-IN-CLASS¹ ADVANCED ALL-WHEEL DRIVE (AWD)

Available on all models with the 3.6L Pentastar™ VVT V6 engine, the AWD system automatically engages as needed. It activates when wheel-slip is detected, wipers are activated, Sport Mode² and steering wheel-mounted paddle shifters are activated, or when the Electronic Stability Control (ESC)⁸ system is turned off. This advanced AWD system also activates when the ambient temperature dips below approximately 4°C (40°F) or when road slope significantly inclines or declines. The active transfer case with front-axle disconnect provides a seamless transition between rear-wheel drive and AWD. The result is outstanding all-weather performance while delivering best-in-class¹ AWD fuel economy.

LANE DEPARTURE WARNING (LDW)³ WITH LANE KEEP ASSIST

With a forward-facing camera mounted inside the rearview mirror, this available system gauges where the vehicle is positioned between the road lines and monitors the vehicle's movement down the road. Should the vehicle begin to move onto either line without the turn signal being activated, the LDW system will warn the driver through a slight vibration in the steering wheel. If nothing is done to correct the drift, the system uses the Electric Power Steering system to automatically realign the vehicle to its correct lane position.

ADAPTIVE CRUISE CONTROL (ACC)² WITH STOP

Utilizing radar and video sensors, this available feature identifies vehicles in the forward path and maintains a safe, driver-selectable distance. ACC with Stop has the ability to stop the vehicle while it is in motion, hold for two seconds, then resume with traffic. If the vehicle is stopped longer than two seconds, an audible chime alerts the driver to press the Resume button to continue driving at the preset cruise speed.

AVAILABLE SAFETYTEC™ PACKAGES

Advanced safety features that respond and activate as needed are part of the available SafetyTec packages, including innovations such as Adaptive Cruise Control with Stop, Forward Collision Warning with Active Braking, Blind-Spot Monitoring, Lane Departure Warning with Lane Keep Assist, Park-Sense® Front and Rear Park Assist and many more.³ They are additional layers of protection guided by the design principles of automatic intelligence to enhance the driver and passenger experience and safety. (See page 18 for SafetyTec 1 and SafetyTec 2 package details.)

Offers Over 70 Standard and Available Safety and Security Features

300S shown in Gloss Black.

FORWARD COLLISION WARNING (FCW)³ WITH ACTIVE BRAKING

Using radar and video sensors, this available system detects whether the vehicle is approaching another vehicle or large obstacle in its path too rapidly. When an object is detected, the system will provide audible and visual warnings and assist the driver in avoiding the incident by actively applying the brakes. The driver has the ability to adjust the sensitivity and turn brake support on or off.

BLIND-SPOT MONITORING (BSM) WITH REAR CROSS-PATH DETECTION³

While the vehicle is driving forward, this available system continually monitors blind spots on either side of the vehicle. When an object is detected, a light illuminates in the appropriate exterior mirror and, if the turn signal is activated, an audible notification sounds. Rear Cross-Path Detection monitors for vehicles and objects in the perpendicular path of the vehicle when it is manoeuvring backward and provides feedback via audible chimes and/or visual icons.

PARK-SENSE® FRONT AND REAR PARK ASSIST³

Parking your Chrysler 300 in close range to other vehicles or objects is made easy with available ultrasonic sensors positioned in the front and rear fascias. They provide object detection and driver feedback, including audible chimes and a visual reference located in the 7-inch customizable in-cluster display centre.

REACTIVE FRONT HEAD RESTRAINTS⁹

The reactive front head restraints automatically move forward and upward in the event of a rear-end collision to decrease the space between the head restraint and the occupant's head, helping to reduce the chance of injury.

ADVANCED LIGHTING TECHNOLOGY

Automatic bifunctional halogen projector headlamps feature integrated LED daytime running lamps that form a signature "C" shape for unmistakable road presence. The available Bi-Xenon High Intensity Discharge (HID) headlamps feature adaptive forward lighting to better illuminate road curves, and automatic levelling to keep the headlamps aimed down at the road regardless of road slope, ensuring a visible path ahead.

ADVANCED BRAKE ASSIST³

Advanced Brake Assist automatically increases brake force to ensure the shortest possible stopping distance in emergency braking situations. This system works with the FCW³ system using both camera and radar inputs.

ELECTRONIC STABILITY CONTROL (ESC)⁸

In adverse conditions, ESC and Brake Assist work with an All-Speed Traction Control System to help maintain vehicle stability, limit oversteer or understeer, and selectively apply brake force when needed.

PARKVIEW® REAR BACK-UP CAMERA³ WITH DYNAMIC GRID LINES

This available system displays a visual reference of what is behind your vehicle when in Reverse. The dynamic grid lines adjust when the steering wheel is turned to assist you when manoeuvring into parking spaces or narrow areas.

300 TOURING

STANDARD 17-INCH TECH SILVER ALUMINUM AVAILABLE 18-INCH POLISHED ALUMINUM AWD 19-INCH POLISHED ALUMINUM

POWERTRAIN

- 3.6L Pentastar™ Variable Valve Timing (VVT) V6 with TorqueFlite® 8-speed automatic

INTERIOR

- 7-inch full-colour customizable in-cluster display centre
- 12-volt centre console power outlet
- Acoustic windshield and front-door glass
- Air conditioning with dual-zone automatic temperature control, air filtering and humidity sensor
- Auto-dimming rearview mirror with microphone
- Dual remote USB ports for charging
- Front and rear solar-control glass
- Full-length floor console with illuminated front cup holders
- Hands-free communication⁵ with Bluetooth® streaming audio
- Illuminated rear assist handles
- Leather-wrapped steering wheel with mounted audio and cruise controls
- Power 12-way driver's seat including 4-way lumbar adjust
- Power windows, front one-touch up and down
- Premium cloth high-back front bucket seats with 60/40 split-folding rear seat
- Rear-seat armrest with cup holder
- Rotary E-shift
- SiriusXM satellite radio⁷ with one-year subscription
- Sun visors with illuminated vanity mirrors
- Tilt/telescoping steering column
- Uconnect® 8.4 multimedia centre with 6 speakers

EXTERIOR

- 17-inch Tech Silver aluminum wheels
- Automatic and bifunctional halogen projector headlamps with chrome surrounds
- Black grille with bright surround
- Body-colour door handles
- Body-colour, power, heated mirrors, manual folding
- Chrome-accented LED taillamps
- Dual bright exhaust tips
- P215/65R17 low-rolling-resistance tires
- Touring suspension

SAFETY & SECURITY

- 4-wheel antilock disc brakes with Rain Brake Support and Ready Alert Braking
- 7 air bags¹⁰
- Compact spare tire
- Electric power steering
- Electronic Stability Control (ESC)⁸ with Hill Start Assist, Electronic Roll Mitigation, Trailer Sway Control and All-Speed Traction Control
- Keyless Enter 'n Go™ with proximity entry and push-button start
- Reactive front head restraints⁹
- Security alarm
- Sentry Key® anti-theft engine immobilizer
- Tire pressure monitoring display

OPTIONAL EQUIPMENT

- All-Wheel Drive (includes 19-inch wheels)
- BeatsAudio™ Group
- Class I Hitch Receiver
- Dual-Pane Panoramic Sunroof
- Limited Group

DISCLAIMERS: (1) Based on *WardsAuto* Large Regular Car segmentation. Excludes other vehicles designed and manufactured by FCA US LLC. Most luxurious claim based on 300C Platinum model. (2) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. (3) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. (4) Not compatible with all garage door openers. (5) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. (6) Preset voice-to-text messaging and incoming text message reading require a MAP-enabled phone. (7) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca (8) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (9) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (10) The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (11) Additional fees will apply for Retailer-Activated Navigation.
