(1)Based on Ward's 2011 Small Van segmentation. (2) Always check entire surroundings before backing up. (3) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (4) Always use seat belts. Children 12 and under should always be in a back seat correctly using an infant or child restraint system, or the seat belt properly positioned, dependent on the child's age and weight. (5) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (6) Requires SIRIUS Radio. Subscriptions governed by SIRIUS Terms and Conditions available at siriuscanada.ca. (7) Must use Bluetooth® compatible phone. (8) Always check entire surroundings before backing up. (9) Always check visually for vehicles prior to changing lanes. (10) Never program while driving. GPS mapping may not be detailed in all areas or reflect current road regulations. Navigation function uses part of the 30 GB capacity. † Prices as shown are MSRP. Excludes freight (\$1,400), air tax (\$100), insurance, registration, license, retailer administration fees, new tire. Duties in Quebec and dealer accessories are not included. Retailer may sell for less. Visit chrysler.ca for complete details. Printed June 2011.
