

2002 Caravan

DODGE  CARAVAN

The #1 selling vehicle in Canada.

A role model on a roll.

About this catalogue:

Since the time of printing, some of this information may have been updated. Ask your retailer for details before ordering. Some of the equipment shown or described throughout this catalogue is available at extra cost. Sentry Key and Easy Out Roller Seats are trademarks of DaimlerChrysler. HomeLink is a registered trademark owned by Johnson Controls, Inc.

It began with a vision and the courage to take a chance on a vehicle that was unlike anything else on the road at the time. Eighteen years and a trophy case packed with awards later, Dodge Caravan continues to be the yardstick... and the ruler... by which all imitators are measured. Since the first minivan rolled off the line, Dodge Caravan has steadily evolved from a vehicle that was practically unassuming to today's practically ingenious offerings. Just a few of the evolutionary leaps include: dual power sliding side doors, Easy Out® Roller Seats, integrated child seats, power liftgate and the first three-zone temperature control system. In fact, whether your journey takes you to the golf course or the school field trip, you'll find people-friendly innovation everywhere you look in Caravan. Like the available new audio system with wireless headphones and rear audio control or the optional Electronics Convenience Group that monitors tire pressure, to name just two. Bottom line? Canada's #1 Selling Minivan* has always delivered more of what you want and need in a minivan. After all, what else would you expect from the company that invented it? For more information about everything Dodge Caravan offers, just visit www.dodge.ca.

*Based on total registrations, September 2001, CYTD.

†Whichever occurs first. Some conditions apply. See your retailer for more details.

You'll
wonder
how you
ever managed
without it.

Functional Comfort. Thoughtful touches like integrated cup holders and a row of grocery bag hooks on the rearmost seatback come in handy. The available 50/50 split rear bench seat doubles the versatility of a bench and cuts the lifting weight by about half. What's more, these Easy Out® Roller Seats can also be split, folded, tumbled, relocated or removed to create maximum cargo room.

Easy Come. Easy Go. Industry-first innovation puts the convenience of available power sliding side doors and a power-operated liftgate with two-way obstacle detection in the palm of your hand. Each can be individually operated by a push button on the remote keyless entry key fob, or in the overhead console. Whether you've got your arms full or just have a little trouble reaching up to grab the liftgate handle, it's a popular feature that opens up a new world of convenience.

Another powerful new idea.

The industry's first removable, powered centre console features a place to plug in a cell phone, game, appliance or laptop computer, plus it's got lots of specialized storage. It mounts in seconds between the front or available second-row Quad-Command/Captain Seats.

Hidden disc-covery.

Concealed in the base of the centre instrument stack on Grand Caravan ES is a tilt-out CD storage unit that puts your favourite tunes right at your fingertips.

Comfortably

High technology. Most Caravan models feature a sleek, low-profile overhead console which houses an easy-to-reach home for the available five-function trip computer, three-channel HomeLink® Universal Transceiver,* and switches for the available power sliding doors and liftgate. Grand Caravan ES can also be equipped with the available Electronics Convenience Group that provides a variety of data, including ambient outside temperature, distance-to-empty, and a tire pressure monitoring system.

*Not compatible with all garage door openers. See your retailer for details.

in command.

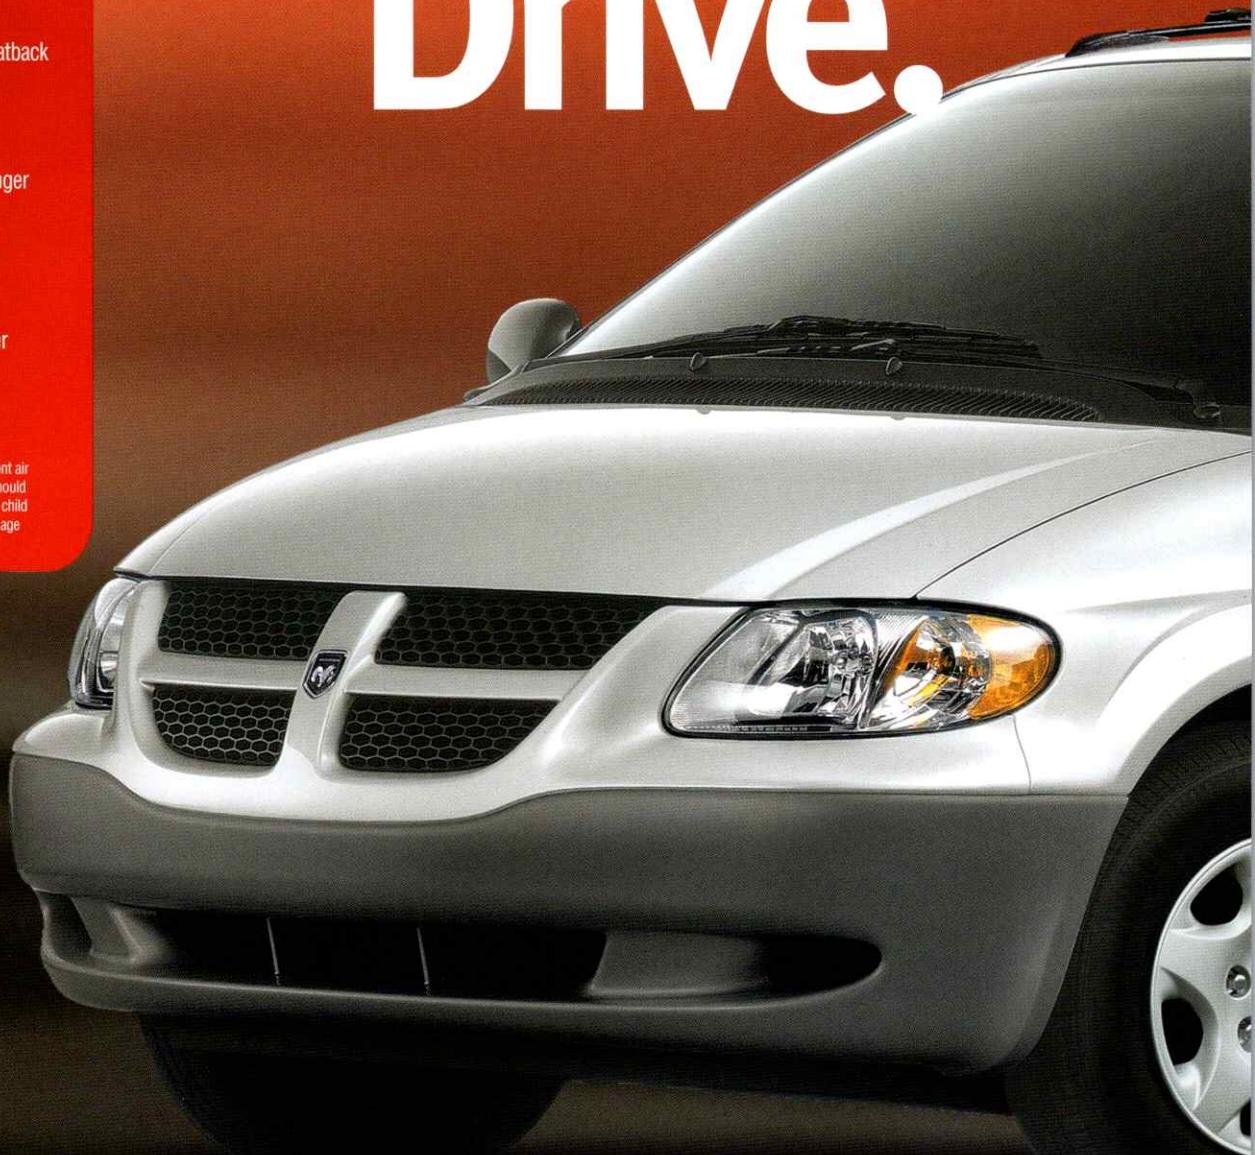

KEY FEATURES

Caravan SE with the 28D Package

*Certified to federal regulations using less forceful front air bags. Always use seat belts. Children 12 or under should always be in a back seat correctly using an infant or child restraint system, or a seat belt, that is right for their age and size.

See. Compare. Drive.

With eighteen years of leadership and innovation to its credit, it should come as little surprise that Dodge Caravan has perfected the art of instilling minivans with optimal comfort and convenience at an attractive price. Take the 2002 Dodge Caravan with the 28D Package. The minute you slip behind the wheel, you'll feel right at home in the smart, functional interior that you will quickly come to love. You'll appreciate the collection of standard features like power door locks, Sentry Key® engine immobilizer, air conditioning, power windows, and tilt steering to name a few. Take Caravan to the street and you'll feel the inspiring power of the 3.3-litre 180-horsepower V6 engine. You'll feel how Caravan puts you in control with crisp, precise handling and impeccable road manners. And you'll experience a surprisingly quiet driving environment that speaks volumes about the solid Caravan foundation. But all this is just talk, right? No. Bottom line: just drive one and find out why this is the best Caravan ever. You may also want to compare the 28D Package with other Caravan models by visiting www.dodge.ca.

This Beast Ha

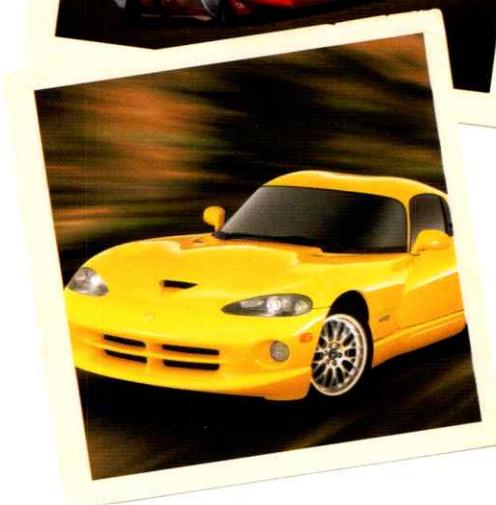

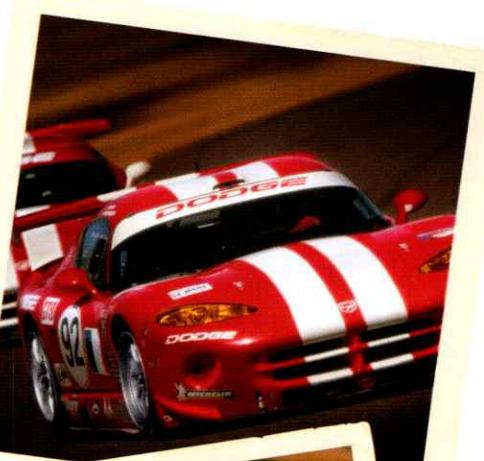

Once you **experience** this exotic machine with its wildly powerful 450-horsepower V10, why we named it after one of nature's most menacing creatures should be obvious.

Maybe it's the serpentine way it handles twists and turns. Maybe it's the sleek, sculpted body, hypnotic headlamps and the optional racing stripe pattern. Or, the fact that it ate up the competition at the 24 Hours of Le Mans.* Inside, the Viper interior is a bold reminder that you're getting a real sports car in the most noble tradition. Instrumentation is kept to essential items like the 350-kilometres-per-hour speedometer and 7000-rpm tachometer which feature crisp black graphics on a bold white background. All other gauges rest on the dashboard where they are easy to read, yet won't distract you from the real task at hand... driving. Bred to perform, 2002 Dodge Viper comes in three subspecies, each an exhilarating experience. There's Viper RT/10 Roadster, Viper GTS Coupe and Viper ACR... a breed of performance vehicles with the instinctive power to alter your ideas of space and time.

*1999, 2000.

†Whichever occurs first. Some conditions apply. See your retailer for more details.

Meet the new Mayor of Truckville... 2002 Dodge Ram 1500. The first thing you'll notice is the grille. After all, it's huge... standing like a sentry carefully guarding the standard 215-horsepower 3.7-litre Magnum® V6 or the available Magnum® 5.9-litre V8 that generates the 245 horsepower lying behind it. Inside, Ram takes versatility to the extreme with innovative seating that configures just about any way you want it. Other thoughtful features include available power-adjustable pedals, a storage compartment underneath the rear seat, sliding sun visors with map pockets, and illuminated power mirror, power window and door switches. Dodge Ram is also the only pickup in its class* to offer the added protection of available supplemental side-curtain air bags,** plus it comes with the peace of mind of our 5-year/100,000-kilometre*** powertrain warranty. Intrigued? Just visit www.dodge.ca to find out why the all-new Ram is the only truck with enough heart to be called the Mayor of Truckville.

*Source: *Automotive News*, full-size pickups, half-ton light-duty models.

**Always use seat belts. Children 12 or under should always be in a back seat correctly using an infant or child restraint system, or a seat belt that is right for their age and size.

***Whichever comes first. Some conditions apply. See your retailer for more details.

*Whichever occurs first. Some conditions apply. See your retailer for more details.

With bold, in-your-face styling, inspired Magnum® V8 power, and more capability than any other compact pickup, it's no wonder Dodge Dakota is the #1 selling pickup in its class.* Sure there are imitators, and to their credit they try their best, but no matter what they do, they've never been able to match the best-in-class available torque, towing and payload. With fifteen years of experience under the hood, Dakota continues to raise eyebrows with the most powertrain choices and an engine lineup that includes a 3.9-litre V6, a Next-Generation 4.7-litre V8, and an awe-inspiring 245-horsepower 5.9-litre Magnum® V8. And, this year, there's a new way to dress up your driveway... 2002 Dodge Dakota SXT – a daring new member of the Dakota family that combines V6 power, cast aluminum wheels, graphite metallic bumpers and grille, and All-Season tires (4x2 models). Of course, whether Regular Cab, Club Cab®, or four-door Quad Cab™ with two-wheel or four-wheel drive is the pickup that fits your lifestyle, one of them will deliver the power, convenience and comfort you want and deserve. Maybe that's why Dodge Dakota has won numerous accolades and awards from the industry experts... prestigious honours this pickup has been proud to accept and the 2002 version is destined to repeat.**

^{††}Whichever occurs first. Some conditions apply. See your retailer for more details.

Most newcomers to the sport-utility vehicle stage play the role quite competently, but only Dodge Durango has the talent to take the lead. First the ready-for-action stance and stable road manners make this a thespian among mere understudies. Inside, you'll find spacious accommodations for up to eight passengers and best-in-class cargo room.* Durango also dominates the marquee when it comes to power, with a choice of commanding Magnum® V8 engines. A performer with many faces, the latest incarnation is Durango SXT... a veritable price-leader in the SUV world. With 16x8-inch cast aluminum wheels and a distinctive graphite metallic grille wardrobe, SXT may be new on the stage, but it comes from a family with a powerful presence. So if you're searching for a handsome, powerful, comfortable sport-utility vehicle that will fit your lifestyle and garage, you might want to follow the spotlight to discover 2002 Dodge Durango, or visit www.dodge.ca for more information.

*With available eight-passenger seating (or three rows of seats), Dodge Durango has best-in-class cargo room versus compact sport-utility vehicles designed and built in North America, excluding other DaimlerChrysler vehicles.

Ram Van

Ram 2500

Dependable toughness that helps you get the job done is what Dodge Ram 2500 and 3500 Pickups are all about. These proven performers have it all, beginning with a lineup of tough Magnum® V8 and V10 engines. Or, for the ultimate in torque-producing muscle, the legendary Cummins Turbo Diesel that comes with a 5-year/160,000-kilometre* warranty. And because Dodge engineers know that Ram Pickup is counted on to do a variety of jobs, you can choose the cab, box length, powertrain, luxury level and special equipment that's right for you. For the same advantages in a full-size van, look no further than Dodge Ram Van and Ram Wagon. A menu of factory-installed Tradesman Group equipment packages offers everything from professional-grade shelving and ladder racks to the popular Ram Crew Van. And, while they're all business on the job, you'll still find all the safety, comfort and convenience features it takes to keep you and your crew happy.
