(1) Must use Bluetooth® compatible phone. (2) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (3) Requires SIRIUS Radio, Subscriptions governed by SIRIUS Terms and Conditions available; at siriuscanada.ca (4) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (5) Always use seat belts. Children 12 and under should always be in a back seat correctly using an infant or child restraint system, or the seat belt properly positioned, dependent on the child's age and weight (6) Always check entire surroundings visually before backing up. (7) Always check visually prior to changing lanes (8) ACC is a driver convenience system, not a substitute for active driver involvement. (9) FCW system is solely an alert system for the front of the vehicle which does not take any actions to change vehicle dynamics to avoid collision; not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. (10) GPS mapping may not be detailed in all areas or reflect current road regulations. Navigation function uses part of the 30GB HD capacity. ‡ Prices as shown are MSRP. Excludes freight (\$1,400). Visit dodge.ca for complete details. Printed June 2011.
