DODGE DURANGO

It's long been the SUV choice for fleets, and now — after two years of no-nonsense development — it's more efficient with more power, offers a better ride, is more sharply appointed inside, and is more focused than ever on safety and security. The engineering that went into 2012 Dodge Durango gives you a total package that leaves nothing to want and all others behind. It starts with the best and most fuel-efficient V6 in Chrysler history, the Pentastar® with VVT, delivering up to 23 mpg on the highway. An enormous interior — think 84 milk crates — offers huge cargo-carrying capacity or up to seven-occupant seating for total comfort. Consider it all: Forward Collision Warning.⁽¹⁾ Rain Brake Support. Ready Alert Braking. Hill Start Assist. Trailer Sway Damping. Exterior styling that reflects ruggedness and refinement. Whether you're transporting cargo, trailer or family, it's all about confidence: that's the distinctive 2012 Dodge Durango.

⁽¹⁾Always sit properly in the seat with the seat belt fastened. Children 12 and under should always be in a backseat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight.

⁽²⁾Always check visually for vehicles prior to changing lanes.

⁽³⁾No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt.

⁽⁴⁾Always check entire surroundings before backing up.
