TRUSSARDI

## PANDA WEARS TRUSSARDI

Are you ready to steal the scene? With the New Panda Trussardi you'll always be in the spotlight. Its elegantly designed exterior and fashionably comfortable interior, create a car which you don't just need, but want.

Elegantly designed and unmistakably Italian. Glossy black design elements such as roof rails, door mirrors and skid plates exquisitely compliment the new Caffè Italiano paint available in both matt and metallic. The look is rounded off with unique glossy black alloys with Trussardi centre wheel caps.

The glossy black side moulding with Trussardi logo adds to the overall character, and is a reminder of the car's stylish yet practical attribute.

One of many unique design cues is the distinctive greyhound Trussardi logo in the rear window, adding to the confident and charming spirit.

The charismatic design and attention to detail continues inside, with exclusive Trussardi inspired cloth seats with techno leather inserts finished with double white stitching. Trussardi's optimal balance between design, practicality and comfort makes every journey pleasant.

The exclusive Caffè coloured dashboard combines seamlessly with the upholstery to create a cohesive and classy look. The steering wheel with Trussardi logo in the center has controls to allow you to toggle between radio stations, choose your favorite song or make and receive calls thanks to the Bluetooth® radio with smartphone cradle. Create the perfect ambience with the automatic climate control whilst driving to your destination with the aid of the Waze navigation maps available through the Panda Uconnect™ app.

\* The specification (B) indicates the value of CO<sub>2</sub> and fuel consumption determined on the basis of the measurement / correlation method referring to the NEDC cycle as per Regulation (EU) 2017/1152-1153.

The specification (C) indicates the value of fuel consumption determined on the basis of the new WLTP test procedure as per Regulation 2017/1347. The CO<sub>2</sub> and fuel consumption values obtained according to applicable regulation are indicated in order to allow the comparison of vehicle data. The homologation values of CO<sub>2</sub> and fuel consumption may not reflect the actual values of CO<sub>2</sub> and fuel consumption, which depend on many factors related, by way of example but not limitation, to the driving style, the route, the weather and road conditions, the condition, use and equipment of the vehicle. The indicated value of CO<sub>2</sub> and fuel consumption refers to the versions of the vehicle with the highest and the lowest values. Those values may change with the subsequent configuration depending on equipment selected and/or size of tires selected. The indicated values of CO<sub>2</sub> and fuel consumption are not definitive and may evolve as a result of changes in the production cycle; more up-to-date values will be available at the selected official dealer of the FCA network. In any case, the official values of CO<sub>2</sub> and fuel consumption of the vehicle purchased by the customer will be provided with the documents accompanying the vehicle. In cases where the values of CO<sub>2</sub> and fuel consumption are relevant for the purposes of calculating taxes and duties related to the vehicle, reference should be made to the applicable laws in each country.
