

500X

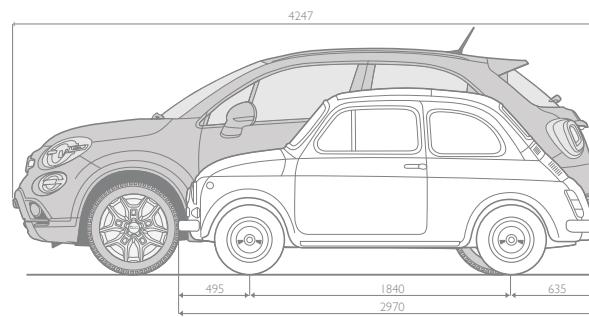

A man in a grey knit hat and sunglasses is in the foreground, looking towards a woman in a white cable-knit sweater and grey beanie. They are in a snowy, mountainous area with a red Fiat car in the background. The woman is waving her hands. The scene is filled with falling snow. In the top right corner, there is a graphic of four red circles arranged in a 2x2 grid.

Design that connects

FIAT® 500X Design

FIAT 500X expands on FIAT functionality, agility and capability, with the added confidence of All-Wheel Drive.

Designed at Centro Stile in Turin, Italy, 500X design cues capture the unique charm of the iconic 1957 FIAT 500 — while adding more space, utility and ground clearance.

Crossover done right

Special Edition

FIAT® 500X Urbana

Made in the shade

Throwing off an extra degree of cool, the FIAT® 500X Urbana Edition sets itself apart with eye-catching accents and colors. Look for distinctive interior and exterior touches in Miron (Metallic Iron) Black and Copper, along with a choice of four dedicated colors — Grigio Moda (Graphite Gray), Vibrante Green Metallic, Bianco Gelato (White) and Nero Cinema (Black). Urbana returns the gaze with a wink from distinctive, automatic bi-function LED projector headlamps and LED fog lamps.

Turbo for all

1.3L 16V MultiAir® Turbo Engine

For 2019, FIAT® 500X engineers delivered their latest take on turbo technology with an all-new direct-injection 1.3L 16V MultiAir Turbo engine. Standard on all 500X models, it will power all of your adventures with 177 horsepower and 210 lb-ft of torque. Featuring Engine Stop/Start (ESS) technology, the efficiencies of this engine mean better fuel economy¹⁰ lower emissions and improved performance compared to naturally aspirated 4-cylinder engines.

A
W
D

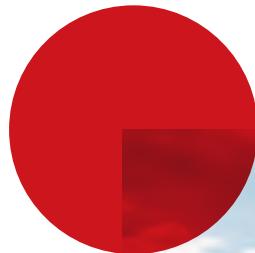

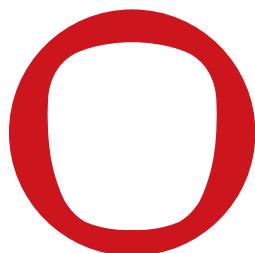

D

X = AWD

Every FIAT® 500X comes equipped with the don't-think-twice-about-it confidence of All-Wheel Drive (AWD). This technologically advanced standard feature arms 500X drivers with an innovative drive system that brings additional functionality and improvements over previous AWD systems. It provides excellent traction and responsive performance on slippery surfaces and during aggressive starts.

This is a system that requires no input from the driver when in Auto mode — FIAT 500X knows when to fully engage its AWD. The secret is a disconnecting rear axle that automatically selects Front-Wheel Drive (FWD) or AWD based on various input. All actions are intelligently and seamlessly engaged based on conditions and driving style. And while the system boasts traction management advances, it also works with the Electronic Stability Control (ESC)^{II} system to improve dynamic handling.

Control matters

The FIAT® Dynamic Selector puts three customized driving modes at your fingertips:

AUTO MODE is designed for the everyday, routine stuff — it will smooth things out to help optimize fuel efficiency, emissions and comfort.

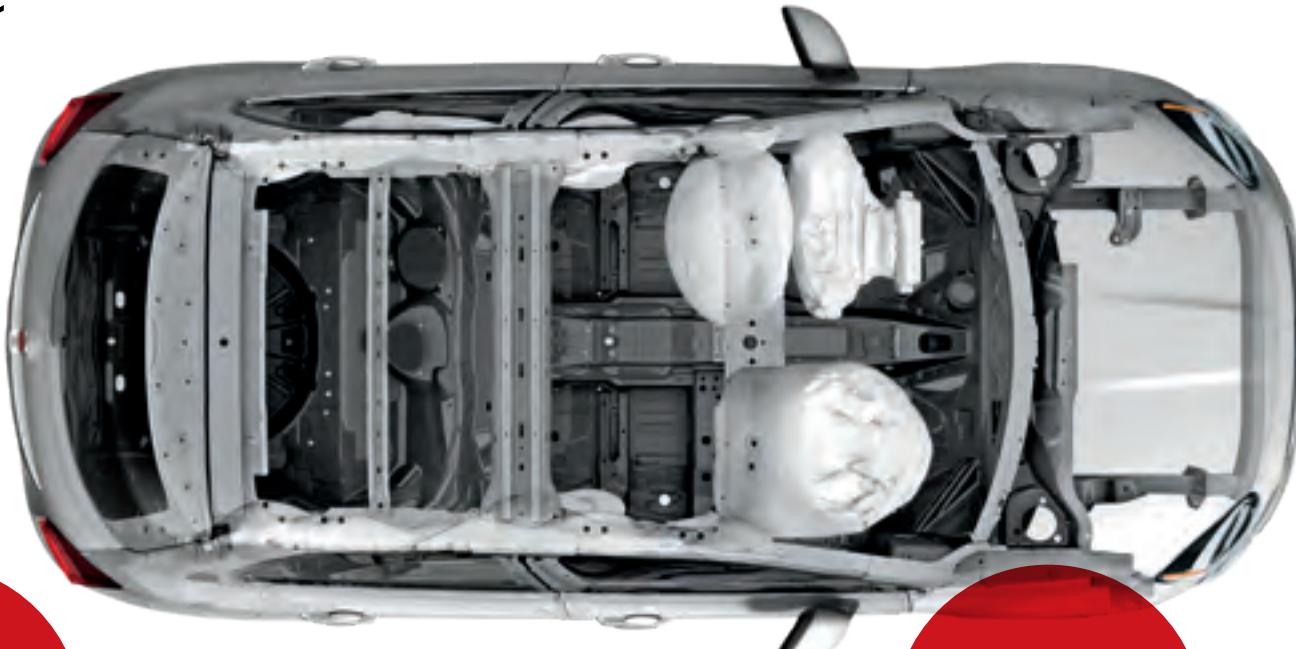

SPORT MODE is for those who'd prefer spirited performance with a little more road feel. With it, the Electronic Stability Control (ESC)¹¹ and steering calibrations are tuned for a sportier feel and faster driving response. Additionally, Sport Mode optimizes the transmission shift points for improved performance and accelerator feedback.

TRACTION+ MODE maximizes low-speed traction — the kind you need when things get a little slick or bumpy. It all works by providing additional wheel-slip through specially tuned chassis controls and a more direct engine response.

Stress-free zone

SAFETY AND SECURITY

Electronic Stability Control (ESC)¹¹

This feature assists the driver in maintaining control of the vehicle during extreme steering maneuvers. Standard.

ParkSense® Rear Park Assist System¹

When vehicle is in Reverse, this system uses sensors to provide audible and visual warnings to help detect nearby objects in the rear pathway. Assists with maneuvering in tight spaces at parking speeds. Available.

ParkSense Front Park Assist System¹

This system alerts the driver with audible and visual warnings when objects come in close proximity to the front of the vehicle. Available.

7 Standard Air Bags¹²

Front-seat-mounted side, front and rear side, knee and advanced multistage front air bags¹² all work together, providing protection. Standard.

Hill Start Assist

Maintains brake pressure when the driver lifts the foot off the brake during uphill stop/start moments, helping to prevent rollback and smoothing out starts. Standard.

High-Strength Steel

The innovative safety-cage body structure is constructed with high-strength steel. It is designed to transfer energy absorbed during impacts to help reduce the chance of injury. Standard.

Blind Spot Monitoring⁹ with Rear Cross-Path Detection¹

This feature uses sensors to constantly monitor the space between you and other vehicles, assisting you when changing lanes. It alerts you of traffic in your vehicle's blind spot zones with an illuminated icon in the corresponding exterior mirror. In parking-lot situations, it warns drivers who are backing out of parking spaces with visual and audible alerts of lateral traffic. Available.

LaneSense® Lane Departure Warning⁷ with Lane Keep Assist

Tracks the vehicle's lane position via a mounted camera, alerting the driver with a visual warning if the vehicle is drifting outside the marked lane. Also provides corrective steering input to encourage driver to keep within lane boundaries. Available.

Full-Speed Forward Collision Warning⁸ with Active Braking

This system uses radar sensors to detect when you may be approaching another vehicle too rapidly. It readies the brakes and alerts you with visual and audible warnings when it senses a potential frontal impact. If you do not respond, the brakes can bring the vehicle to a full stop. Available.

ParkView® Rear Back-Up Camera¹

Provides a wide-angle view with dynamic grid lines on a color touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

Adaptive Cruise Control²

This system automatically adjusts highway cruising speed to maintain a preset distance between you and the vehicle ahead. Available.

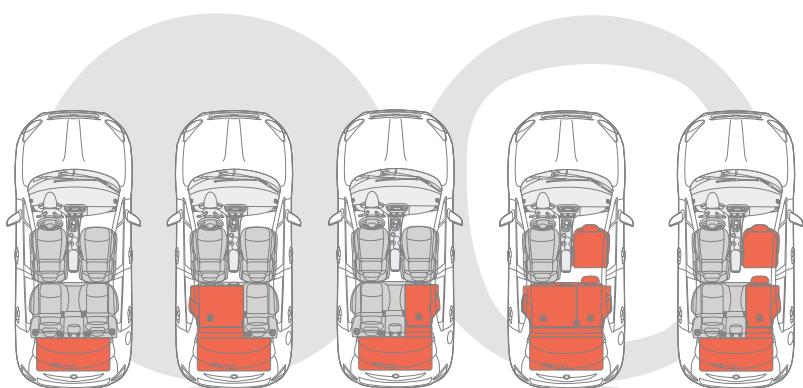

I N S I D E

With all the versatility and accommodations offered by FIAT® 500X, adventure begins the minute you get behind the wheel. An available dual-pane power sunroof broadens the view with a sliding front panoramic panel. The glass panel matches seamlessly with the body, creating a wide, spacious feeling. A large rear cargo area, available height-adjustable rear cargo floor, 60/40 split-folding rear seats and fold-forward front-passenger seat make plenty of room for all the things — and people — you once had to leave behind.

S T O R Y

Properly secure all cargo.

In every FIAT® 500X, drivers will discover what is conspicuously missing: noise. Engineers started with a chassis that demonstrates strength and rigidity, then added innovative sound dampening materials throughout to create the exceptionally quiet 500X cabin.

MONITORING SYSTEM

Their aim was to create an inviting environment, not merely to decorate. For FIAT® 500X interiors, our designers were acutely attuned to tactile, visual and aural responses; the driver and passengers are surrounded by that undeniable difference which is uniquely Italian. Distinctive materials and available premium leather-faced surfaces telegraph comfort and durable quality. Wide-ranging choices in color and texture encourage personal style. Clearly, this place is intended to be a destination in itself.

Uconnect®

AT YOUR BECK AND CALL

U C O N N E C T®

With the next generation of Uconnect® radio systems, your FIAT® 500X becomes your portal to the rest of the world. A large 7-inch touchscreen and intuitive hands-free¹³ technologies deliver essential information and entertainment, keeping you focused on driving. The systems offer a wide range of services: radio, phone, available navigation, Integrated Voice Command with Bluetooth® and more. Listen to and/or charge media players, iPods®, iPhones® and smartphones.

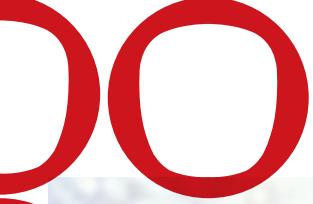

The 3.5-inch reconfigurable Electronic Vehicle Information Center (EVIC) clearly displays everything, from safety alerts to fuel usage to Dynamic Selector data.

Good notes

music

APPLE CARPLAY™³ is a smarter, more convenient way to use an iPhone® inside your vehicle by seamlessly integrating your favorite apps and features with the Uconnect® touchscreen and Siri®¹⁴ voice control, allowing you to stay focused on the road. Standard.

SIRIUSXM® RADIO⁵ Access to 150 channels offered on this available satellite radio, including news, commercial-free music, sports, talk and entertainment. Listen wherever you go on your portable devices with the SiriusXM app⁵ (one-year trial subscription included). Available.

ANDROID AUTO™⁴ With your Google Assistant and Android Auto, you can keep your eyes on the road and your hands on the wheel while using your voice to help you with your day. Just say, "Ok, Google," or in compatible cars, long press the voice control button on your steering wheel. Easily access the best of Google Maps with voice-guided navigation and Google Play Music; call, send messages, read notifications while you're driving, just with your voice, in an easy and intuitive way. Standard.

The available BeatsAudio™ Premium Sound System creates studio-quality sound just the way the artist intended. Features 8-channel performance with 506 watts of power, 8 speakers and a 6.5-inch subwoofer specifically tuned for the FIAT® 500X.
