

panda

## ALL THE WORLD NEEDS IS A PANDA

Whoever you are. Wherever you are. There's truly a Panda for everyone. How about the Panda Easy for the driver with an uncomplicated, no-frills attitude towards the road? Or for those who enjoy the finer things in life, the additional features of the Panda Lounge make it the ideal car. And for those who have a more rugged taste, why not try the Panda Lounge 4x4 or the Panda Cross 4x4. It's more than just a pocket-size SUV. It's the Panda with a wild side. Take home a Panda today and rediscover your love of driving.

DISCOVER  
THE GEOMETRY  
OF FUN.

Panda has a really unique line. Its design combines functionality and good looks with a spirit that never says no to originality, always ready to evolve to give you more. Like the lighting clusters raised to a higher position, or the third window with its rounded corners to create a glazed surface that gives you even more visibility. Discover the steering wheel design, the graphics of the instrument panel, and let yourself be won over by the fabrics with contrasting stitching.

panda

ALWAYS LOOK  
ON THE BRIGHT  
SIDE OF LIFE.

Whatever your outlook on life, the Panda range can brighten your world with a series of happy-coloured and fun-shaped cars. Choose the version that suits you. Easy. Lounge. Or Cross. Now get ready for a world of fun, with a wide selection of models and colours, so original, and so like you, that the two of you will look like a perfect duo.

#### **EASY** MAIN STANDARD EQUIPMENT

**Style** - Specific hub caps and protective strip  
**Equipment** - Radio CD/MP3 with 4 speakers, rear headrests, remote control central door locking and air-conditioning.

#### **LOUNGE** MAIN STANDARD EQUIPMENT (in addition to Easy version)

**Style** - Body-coloured door mirrors and door handles, side mouldings, 14" wheels.  
**Equipment** - Height adjustable driver's seat, fog lights, longitudinal bars, Uconnect™ Bluetooth® radio and leather steering wheel with controls.

DISCOVER  
A WHOLE NEW  
DIMENSION  
OF COMFORT.

The Panda is so comfortable, practical and cosy you'll fall head over heels in love. This makes it the ideal car for those long, languid road trips. Especially alongside a loved one. Because something this good needs to be shared. And with 14 different storage compartments there's more than enough space for two. Because two's company. And three's a Panda.

But the Panda isn't just about space. It's about next-generation ergonomics. Because, let's be honest, if you're going to be doing it in style, you might as well be comfortable too. So, get ready to relax with the Panda's innovative space management interior design. And get ready for new levels of comfort with a redesigned steering position, gear knob and steering wheel. Because, if it's not ultra-comfortable, it's not a Panda.

MULTIPLY YOUR  
WANDERLUST.

With Panda Lounge 4x4, all adventures are within reach. And even the most inaccessible road will become an excuse to have fun – the Panda way! And just in case you thought the Panda Lounge 4x4 was all style and no substance, think again. With the Torque-on-Demand four-wheel drive function you can proportionally distribute the traction onto both axles. And thanks to the Electronic Locking Differential system, the motive power can be effortlessly transferred to all four wheels, giving you grip and traction when and where you need it most. Just because you're going off-road, doesn't mean you have to rough it. Or look anything less than super-stylish doing it.

Optional wheels shown

panda  
4x4

LOVE EVERY  
CORNER AND EVERY  
LINE, WHETHER  
STRAIGHT OR  
CURVY.

When it comes to compact SUV's, the Panda Lounge 4x4 has no equal. Its smaller size combined with unparalleled agility creates a winning formula – making it the uncontested segment leader in the compact off-road class. And like every winning personality, the Panda Lounge 4x4 comes with loads of attitude. Like its rugged wheels, silver skid plates and mud and snow (M+S) tyres. While the all-wheel-drive with automatic shifting means the Panda has the technology to walk the talk.

MAIN STANDARD EQUIPMENT  
(in addition to Lounge version)

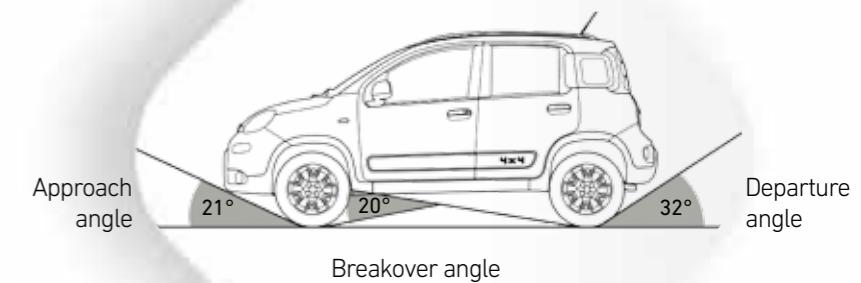

**Style** - Bumpers with silver skid plate, side mouldings with 4X4 logo and wing side strips, 15" wheels.

**Equipment** - 4x4 drive, ELD (Electronic Locking Differential), ESP, M+S (mud & snow) tyres, heated electric mirrors.

FOUR-WHEEL DRIVE "ON DEMAND"

Panda 4x4 has the "Torque on demand" four-wheel drive that homogeneously distributes the traction onto both axles. Thanks to the Electronic Locking Differential system, it excels even in the toughest situations by braking the wheels that lose grip and transferring the motive power to the wheels that have better ground grip.

# LEARN PANDA'S THEOREM: COMFORTABLE 4X4 TIMES

Every space on board the Panda is designed to always offer you ultimate comfort wherever you go, without sacrificing style in an ambience full of practical and original solutions. While passenger compartments and ergonomic design improve the quality and comfort of every journey.

The position of the controls and gear knob make driving more enjoyable too. All this with an updated style provided by the new steering wheel design and cool interior.

REMEMBER: THERE  
ARE THOSE BORN  
ROUND, SQUARE,  
AND CROSS.

It takes natural talent to stand out in a crowd. Just like the Panda Cross, which has everything you need to steal the show. Again and again. And all it takes is just 370 cm of pure design genius. One look and it's clear – the Panda Cross is artistic innovation on wheels. Let's be honest. When it comes to design, it doesn't get much better than this.

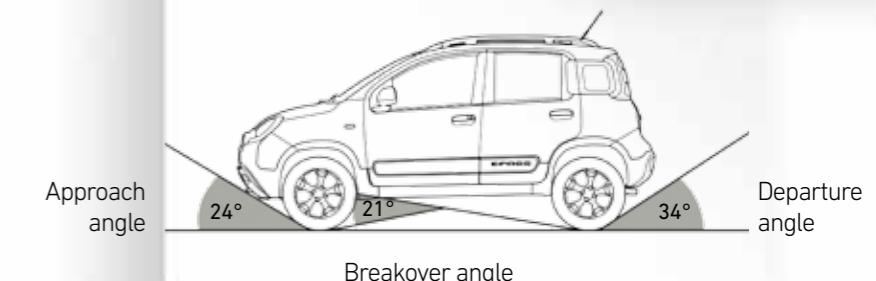

Optional Cross Plus Pack shown

**panda**  
**cross**

CHOOSE  
THE RIGHT CURVES  
TO GET INTO  
EVERY CORNER.

With the Panda Cross Drive Mode Selector, you can personally select whether to use the four-wheel drive and choose from three different options designed to help you in and out of any situation - and all types of terrain: Auto, Off-road and Gravity Control.

The **Drive Mode Selector** lets you select the type of four-wheel drive, choosing from 3 different options:

#### AUTO

Automatic distribution of the traction onto the two axles, depending on the road grip conditions.

#### OFF-ROAD

All-wheel drive is always engaged with a torque distribution between the four wheels, with the motive power transferred onto the wheels that offer better ground grip thanks to the ELD system (Electronic Locking Differential).

#### GRAVITY CONTROL

This offers full control on particularly steep descents, even on broken terrain, by braking automatically and controlling vehicle speed.

TRY ANOTHER  
DIMENSION  
OF COMFORT.

Let yourself be guided by the personality of Panda Cross. Wherever you go, the comfort of its interior will pamper you to the fullest. The natural fabric seats with matching side and door panels, while the dashboard forms an integral part with the rest owing to its high quality black trim with satin finish instrument frame and central unit. The steering wheel with integrated controls and gear knob - both in leather - come standard.

Optional Cross Plus Pack interior (9UX).

# DESIGN YOUR WORLD WITH A NEW APP.

Always staying one step ahead to amaze you: that is the new challenge of Panda that, with the new Uconnect™ radio, offers you new content and entertainment. Uconnect™ offers you Bluetooth®, streaming audio, AUX and USB ports, a voice recognition device with SMS reader, MP3 and much more. And now, an absolute novelty awaits you on board: the Panda Uconnect™ App, available for Android and IOS. Download it for free onto your smartphone, connect to the car via Bluetooth® and discover the Panda Uconnect™ world. Now you can listen to your favourite playlist, check the weather, news and infotraffic and safely access your favourite apps in your car. Just hook the smartphone onto the dashboard cradle, the practical accessory easy to use while driving.

## NAVIGATION

With Panda Uconnect™ you have access to your favourite navigation applications, such as Google Maps and Waze.

## MY:CAR

Taking care of the maintenance of your Panda is simple! With my:Car you can find the repair shop closest to you, receive notifications on the servicing intervals, contact Fiat assistance and quickly consult the operation of the on board warning lights.

## MUSIC AND APPS

In addition to choosing and managing your favourite radio stations with the Uconnect™ radio, you can also connect your smartphone via Bluetooth® or a device via USB/AUX and listen to the music you love the most. Moreover, the Panda Uconnect™ App lets you access the apps you have installed on your smartphone so you can play your music in streaming, directly on the radio, such as Deezer, Tuneln, Spotify and many others.

## TELEPHONE AND FUNCTIONALITY

You can call and answer with a simple voice command and check your phone book without being distracted from driving. Plus, you receive information on the weather in real time and notifications on your calendar appointments.

CALCULATE  
YOUR SAFETY  
MARGIN.

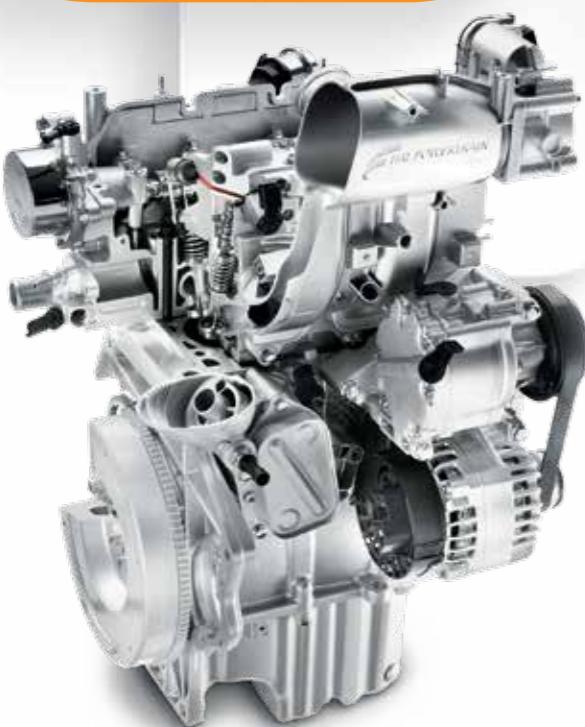

Travelling while feeling serene and protected is essential. That's why Panda has up to four airbags as standard.

ABS complete with Brake Assist System, front anti-whiplash headrests, seatbelts with double pretensioners and ISOFIX attachments on the rear seat offer you peace of mind.

For the hill starts, you can rely on the Electronic Stability Control with Hill Holder, capable of measuring out the sprint of your Panda in the best way possible.

**ESC WITH HILL HOLDER**  
Electronic Stability Control with Hill Holder also assists you in hill starts. With Panda, you enjoy driving and trouble-free travelling because it knows when to brake.

TRUST AN ENGINE  
THAT ALWAYS  
MEETS YOUR  
EXPECTATIONS.

## eco:Drive™

eco:Drive is a real eco-driving personal trainer always at your disposal. By connecting your smartphone via Bluetooth® to the Uconnect™ radio of Panda, eco:Drive records your driving data and places them at your disposal on both your smartphone and your eco:Drive on-line profile, providing you with a detailed analysis of your driving technique and personalised tips to reduce fuel consumption and emissions.

Whatever your expectations, Panda has the motoring power to suit your taste. At your disposal are two different petrol-driven engine options. Choose from one of two innovative and eco-friendly selections: the 85 HP and the 90 HP TwinAir Turbo engines.

The TwinAir Turbos represent the next step in cutting-edge automotive design. Both types are able to reduce emissions and fuel consumption by as much as 30% while ensuring you lose nothing when it comes to pure driving enjoyment and fun. Just because you care about the planet doesn't mean you have to compromise on motoring bliss.

To avoid pollution and consume less fuel, Panda offers you simple and effective solutions like the Start&Stop system, which switches off the engine when you are stopped at traffic lights or in traffic, and instantaneously switches it back on when starting off.
