

# FIAT® 124 SPIDER

**FINALLY, THE CLASSIC ROADSTER HAS COME FULL CIRCLE.**

Commemorating its 50th anniversary, the FIAT® 124 Spider is back, all-new, and has plenty to celebrate. It's all that you've been missing: seductive Italian styling matched with performance derived from a long and storied race history.

**CONVERTIBLE 101** The high design of the soft top may (literally) be over your head, but it couldn't be easier to operate. Engineers doubled down to create a soft top that opens and closes simply and effortlessly. An assist spring enables top-down fun in three seconds or less, and automatic window adjustments mean drivers only have to think about the road ahead. Acoustic windshield glass, added insulation and aerodynamic enhancements further ensure the cabin is remarkably quiet. Whether the top is above or behind you, this convertible is your reason to escape everyday life.

A high-angle, wide shot of a dark blue Fiat 124 Spider convertible driving on a paved road that curves along a steep, rocky cliff overlooking the ocean. The car is moving from left to right. Two people are visible inside: a man in the driver's seat and a woman in the passenger seat. The car's top is down, revealing orange interior seats. The background features a deep blue sea and a rugged coastline with some greenery and a stone wall. The overall mood is one of freedom and luxury.

BLOW *the top off*

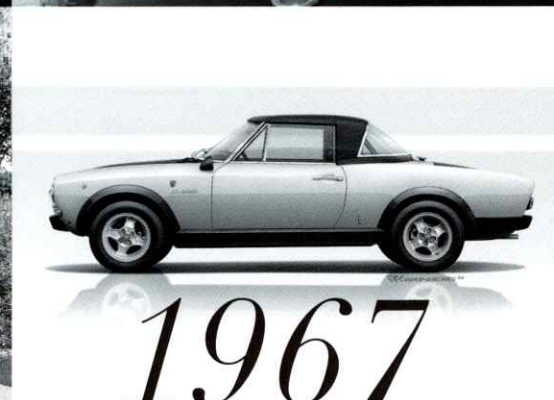

# 1967

## 124 SPIDER FEATURES

Class-exclusive<sup>1</sup>\* Turbo Engine  
 Up to 164 horsepower and 184 lb-ft torque  
 FIAT<sup>®</sup> 124 Spider reaches peak power  
 and torque at much lower RPM than  
 any vehicle in its class<sup>1</sup>  
 6-speed Manual or 6-speed AISIN<sup>®</sup>  
 Automatic Transmission<sup>†</sup>  
 Class-exclusive<sup>1</sup> Quad Exhaust Tips<sup>‡</sup>

## TECHNOLOGY

FIAT Connect 7.0 with 7-inch Touchscreen  
 Display and Command Dial<sup>†</sup>  
 Hands-free Communication System<sup>2</sup> with  
 Integrated Bluetooth<sup>®</sup> and Voice Command

Best-in-Class<sup>1</sup> Cargo Room  
Heated Leather-faced Seats<sup>†</sup>  
Leather-wrapped Steering Wheel  
and Shift Knob  
Illuminated Entry  
Lockable Rear Storage Console

## SAFETY & SECURITY

ParkView<sup>®</sup> Rear Back-Up Camera<sup>5†</sup>  
Park-Sense<sup>®</sup> Rear Park Assist System<sup>5†</sup>  
Blind-Spot Monitoring with Rear  
Cross-Path Detection<sup>5</sup>  
Security Alarm System<sup>†</sup>  
Electronic Stability Control (ESC)<sup>6</sup>  
Tire Pressure Monitoring System

# 124

**THE TRUE SPORTS CAR IS BACK** With its thrilling airplane parachute-drop introduction at the 1966 Turin Auto Show, the original FIAT<sup>®</sup> 124 Spider was literally a gift from above. It was an immediate sensation as 1967 European Car of the Year, and its Pininfarina design remains as fresh and relevant today as it was fifty years ago. Unlike most sports cars of the day, the 124 Spider interior and storage were surprisingly roomy, and its advanced coil spring rear suspension, disc brakes and agile manner are just a few of the reasons it remains a favourite among collectors. Today's all-new FIAT 124 Spider not only possesses class-leading talents in all those areas, but also the most defining feature of its beloved predecessor: *la passione*.

THREE TRIM LEVELS MEAN THERE'S A BEST FIAT® 124 SPIDER FOR EVERYONE.

# CLASSICA

Classica distills the best of the FIAT Italian design sensibility into a brand-new, exciting take on top-down fun. While it retains the essence of its iconic 1967 namesake, the Classica looks squarely ahead with its 160-horsepower MultiAir® Turbo engine, push-button start, LED taillamps and body-colour accents. This is classic beauty and driving pleasure together in their purest forms.

# LUSSO

Lusso is *La Dolce Vita* on four wheels. "The sweet life" presents itself with decidedly Italian accents: luxurious heated leather-faced seats, crafted double stitching and Piano Black interior details. FIAT Connect 7.0 with 7-inch touchscreen and command dial adds a premium touch. Lusso is a car that believes you can never be too comfortable.

# ABARTH®

ABARTH is the Spider born with a competitive streak. Racing legend Karl Abarth's "go faster than yesterday" philosophy comes to life with performance-enhancing features like a mechanical limited-slip differential, a Sport mode selector, plus the inclusion of paddle shifters with the available six-speed automatic transmission. Packed with 164-horsepower thrills, technology and unmistakable Italian style, the authentic roadster is back.

UP TO *164* HORSEPOWER

**GOOD DRIVERS BECOME GREAT DRIVERS** Your reputation behind the wheel gets a boost with a class-exclusive<sup>1</sup> turbo engine. The FIAT® 1.4L MultiAir® 16V I-4 Turbo delivers up to 164 hp and 184 lb-ft of torque with its four cylinders and twin intercoolers. Teamed with either the standard six-speed manual with short-throw shifting or the available six-speed automatic transmission, the FIAT 124 Spider gets to peak power and torque at much lower RPM than any vehicle in its class<sup>1</sup> — which means easy passing when you need it most.

Additionally, near-perfect weight distribution, an electric power steering system and Electronic Stability Control (ESC)<sup>6</sup> all contribute to tighter corners and fast straightaways. Double-wishbone front and multilink rear suspension further enhances steering and handling. Beyond its performance prowess, FIAT 124 Spider owes its extraordinary, captivating appeal to compelling lines, exquisite materials and fine finishes.

**TOP-DOWN THRILLS — NO WAITING** You'll head off to your next adventure that much faster thanks to the available Keyless Enter 'n Go.<sup>TM</sup> Once your key fob is in close proximity to your FIAT 124 Spider, Keyless Enter 'n Go automatically unlocks the driver or front-passenger door when you pull the handle, or unlocks the trunk when you press the access button. Once the key fob is inside the vehicle, simply depress the brake pedal and press the Start/Stop button to start the engine. Getaways don't get any smoother than this.

**TRUE TO ITS NAME** Abarth® reveals the wild side of FIAT® I24 Spider. Whatever the day's course throws your way, Abarth amps things up with 164 horsepower, a mechanical limited-slip differential, a Sport mode selector, Bilstein® front and rear shock absorbers, 17-inch Gun Metal aluminum wheels and optional Brembo® brakes. Specially tuned quad exhausts and optional race seating turn up the adrenaline even more. Finishing touches include Gun Metal roll bar covers, windshield surround and Matte Black interior accents. With FIAT I24 Spider Abarth, the seduction never ends.

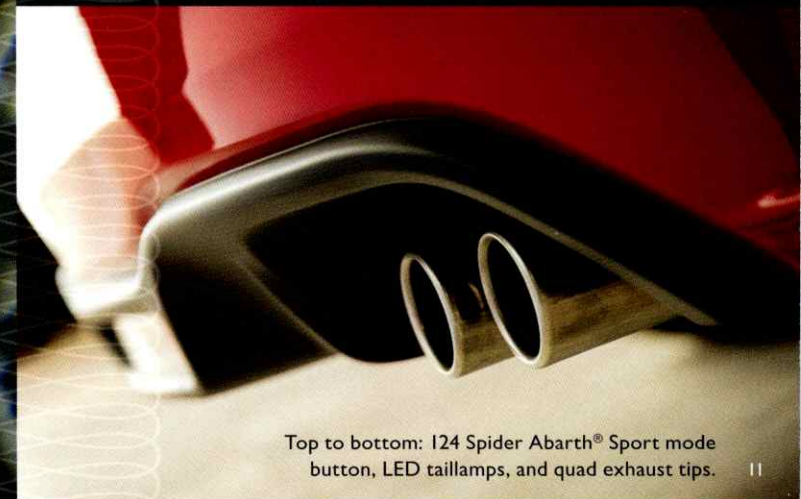

FAST

Beyond its exhilarating power,  
FIAT® I24 Spider offers alluring  
interior amenities that encourage  
“one more time around the  
block” spontaneity.

Top to bottom: I24 Spider Abarth® Sport mode  
button, LED taillamps, and quad exhaust tips.

**LIVING ROOM** Taking a cue from its 1967 namesake, the all-new FIAT® 124 Spider manages to create what other roadsters can't: space. Boasting best-in-class<sup>1</sup> cargo room, the meticulously designed interior takes into account every real-world driving scenario. Hands rest comfortably on a leather-wrapped steering wheel and notably soft touch points. Standard and available features like heated seats, automatic temperature control and auto-dimming rearview mirror take the edge off the day. Advanced technology and efficient storage are expertly delivered. The one thing that's not an option on 124 Spider? Sacrifice.

Available FIAT® Connect 7.0 with 7-inch touchscreen display.

Command dial for radio/feature controls.

**CONNECTIONS ARE KEY** With FIAT Connect 7.0, you'll enjoy full access to the world at large via a 7-inch full-colour touchscreen display and an advanced multimedia system. The available SiriusXM Satellite Radio<sup>4</sup> and six speakers work together to create a soundtrack for your drive. A comprehensive media hub that includes two USB ports, an auxiliary audio input jack, an SD card reader and command dial keep you fully plugged in. Standard Bluetooth<sup>®</sup> capability allows you to take phone calls with a Bluetooth-enabled smartphone, and hands-free communication<sup>2</sup> gives you voice command control of your cabin, so you can do things like ask for directions or switch up your music safely. Of course, with FIAT I24 Spider, you'll always be up for adventure, and available GPS Navigation<sup>3</sup> will become your indispensable tour guide.

A close-up photograph of a car's interior, focusing on the headrest of a black leather seat. The headrest features a circular Bose speaker grille with a fine mesh pattern. The leather is accented with white double-stitching along the edges. A small, rectangular Bose logo is visible on the side of the headrest. In the background, another similar headrest is visible, and the car's interior trim is partially seen. The overall lighting is soft, highlighting the texture of the leather and the details of the stitching and speaker.

Top up or top down, the exclusive Premium Bose® Sound System\* features dual headrest speakers that deliver music to driver and passenger with headphone-style clarity — plus drivers are able to field phone calls with ease.²

Look forward to every trip:  
FIAT® 124 Spider offers over 40 standard and available safety  
and security features that help drivers avoid hazards.

#### **BLIND-SPOT MONITORING (BSM)<sup>5</sup>**

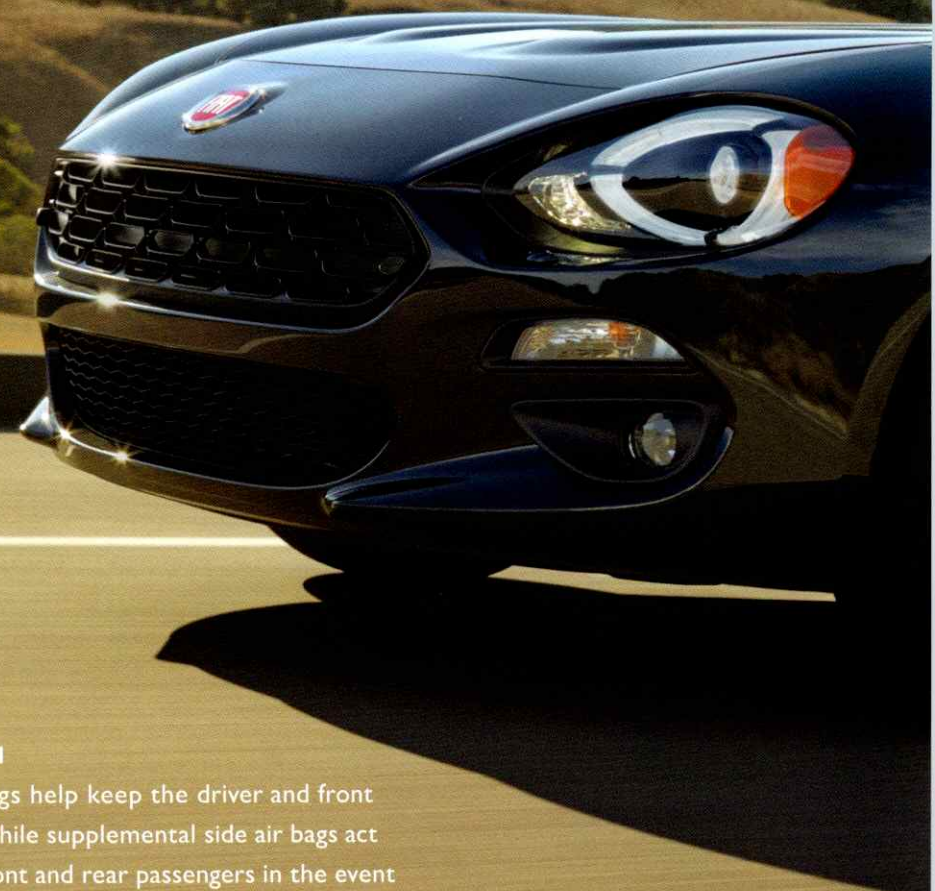

BSM uses dual ultra-wideband radar sensors to aid the driver when changing lanes, and can warn of vehicles encroaching on the blind spot via an illuminated sideview mirror icon and an audible alert if the turn signal is activated.

#### **SEE AND BE SEEN**

Standard projector halogen headlamps and halogen daytime running lamps (DRLs), as well as available LED headlamps and DRLs, help other drivers to see you coming. Additional available lighting enhancements include: automatic headlamps, headlamp washers, auto high-beam headlamp control, and an adaptive front lighting system that uses the steering angle and vehicle speed to adjust the headlamp position to maintain a wide field of vision.

#### **AIR BAG<sup>7</sup> SYSTEM**

Dual-stage front air bags help keep the driver and front passenger protected, while supplemental side air bags act as a cushion for both front and rear passengers in the event of an impact.

#### **REAR CROSS-PATH DETECTION<sup>5</sup>**

Activated any time the vehicle is in Reverse, Rear Cross-Path Detection lets the driver know vehicles are crossing behind with an audible chime and illuminated icons on the sideview mirror.

#### **PARK-SENSE<sup>®</sup> REAR PARK ASSIST SYSTEM<sup>5</sup>**

When driving at low speeds in Reverse, this proverbial extra set of eyes utilizes ultrasonic sensors to detect stationary objects and provide an audible chime and visual warning.

#### **STEEL SAFETY FRAME**

At the very core of FIAT<sup>®</sup> 124 Spider is a strong unibody constructed with high-strength steel. Crumple zones are designed to help absorb energy and redirect it away from occupants in the event of a collision.

#### **PARKVIEW<sup>®</sup> REAR BACK-UP CAMERA<sup>5</sup>**

This feature, standard with the FIAT Connect 7.0, provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before reversing at low speeds. Grid lines aid the driver when manoeuvring into parking spaces or narrow areas.

## EXTERIOR COLOURS

Grigio Moda (Meteor Grey)\*

Rosso (Red)

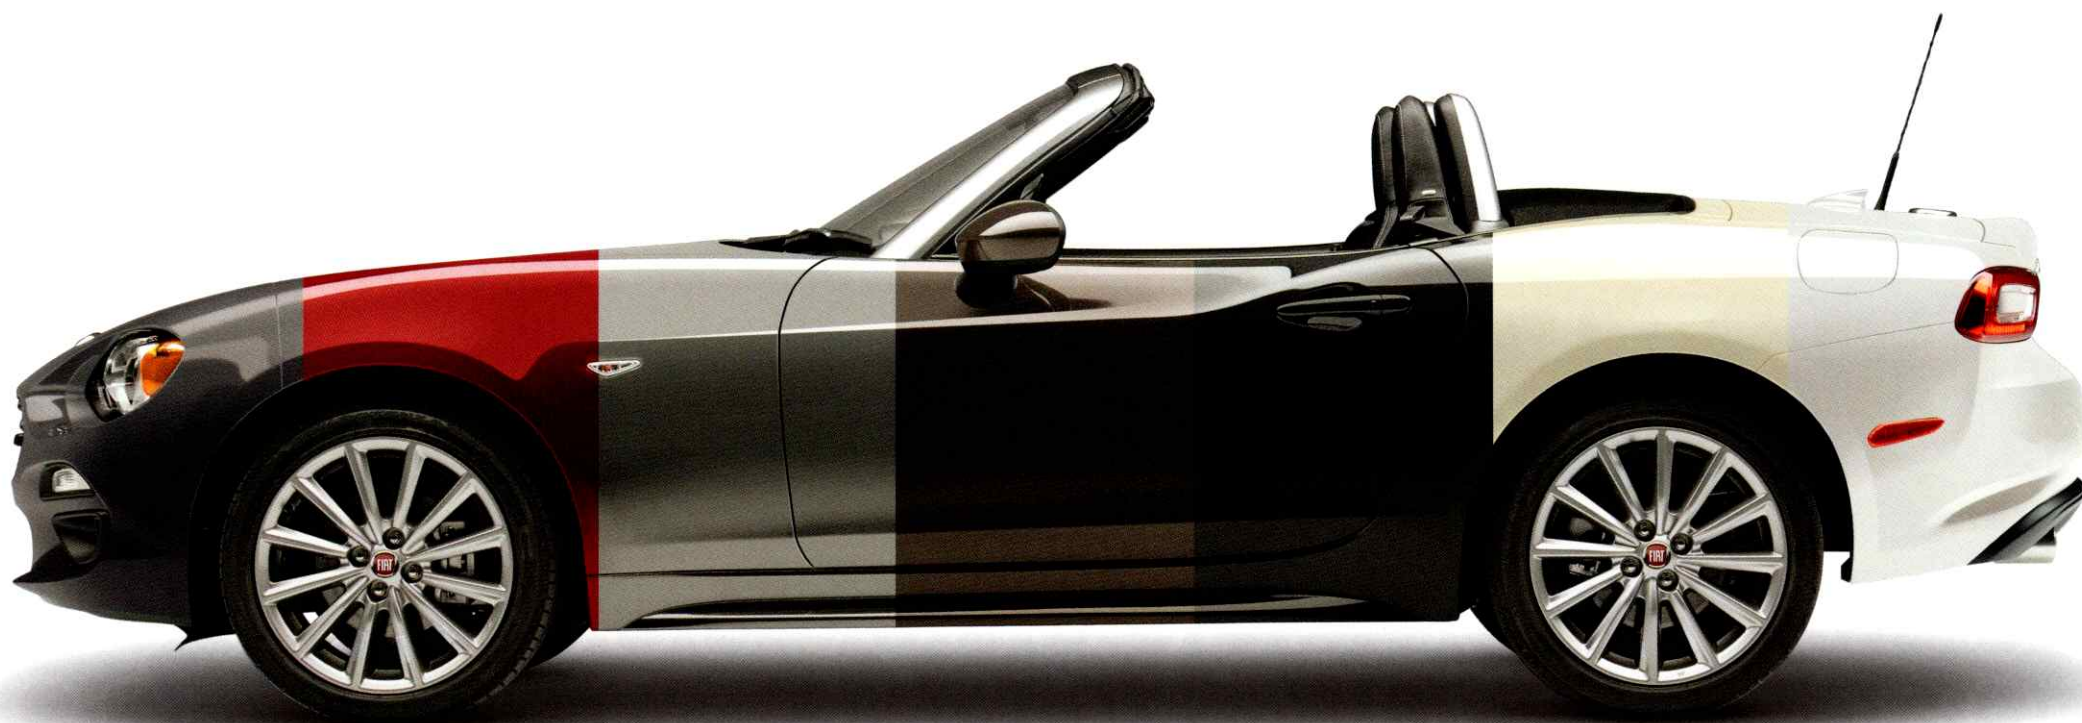

Grigio Argento (Aluminum Metallic)

Bronzo Magnetico (Titanium Flash Mica)†

**ALWAYS A DRAMATIC EXIT** True pedigree reveals itself in the smallest details. It's clear the all-new FIAT® 124 Spider was created with the same passion for exquisite design as its popular predecessor. Among a number of original 124 design cues, the aerodynamic rear features dual or quad chrome exhaust tips and FIAT signature squared horizontal LED taillamps that enhance the roadster's curves. A quick glimpse tells you: this is a natural-born Spider.

fiatcanada.com

(1) Based on 2-seat Roadsters in *WardsAuto* Small Specialty segmentation (Nissan 370Z and Mazda MX-5). (2) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. Visit [UconnectPhone.com](http://UconnectPhone.com) for system and device compatibility. (3) Never program while driving. GPS mapping may not be detailed or available in all areas or reflect current road regulations. (4) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at [siriusxm.ca](http://siriusxm.ca). (5) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. (6) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (7) The advanced front air bags in this vehicle are certified to the federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (8) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (9) Not compatible with all garage door openers.
