GOES

WITH PANDA CROSS IT IS ALL ABOUT GOING OFF THE BEATEN TRACK: FROM THE **TORQUE ON DEMAND** TRANSMISSION SYSTEM, UNIFORMLY AND PROPORTIONALLY DISTRIBUTING TRACTION BETWEEN THE FRONT AND REAR AXLES DEPENDING ON ROAD GRIP CONDITIONS, TO THE **ELECTRONIC LOCKING DIFFERENTIAL** FUNCTION, WHICH PROVIDES EXTRA SUPPORT WHEN DRIVING IN POOR GRIP CONDITIONS SUCH AS SNOW, ICE OR MUD.

ANYWHERE

DARE TO GO OFF THE BEATEN TRACK, FORGET ABOUT THE CONVENTIONAL, MONSTER SUVs THAT PUT RESTRICTIONS ON YOUR SENSE OF FREEDOM AND CLIMB ABOARD THE PANDA CROSS. **NIMBLE** AND **FUN**, THE PANDA CROSS IS **THE MOST COMPACT CAR IN ITS CATEGORY** AND OFFERS ALL THE EXCLUSIVITY OF HIGHER SEGMENT OFF-ROAD VEHICLES, IN JUST **370 CENTIMETRES**. IF YOU WANT TO DISCOVER NEW TERRITORIES AND TAP UNEXPLORED EMOTIONS, THE PANDA CROSS IS ALL SET TO SURPRISE YOU.

ROUGH AND CHALLENGING TERRAIN POSES NO PROBLEMS FOR THE PANDA CROSS. **THANKS TO ITS GENEROUS GROUND CLEARANCE AND EXCELLENT "APPROACH", "BREAKOVER" AND "DEPARTURE" ANGLES**, THE PANDA CROSS ALLOWS YOU TO TACKLE UNEVEN TERRAIN WITHOUT DAMAGING THE UNDERSIDE OF THE VEHICLE. IN ADDITION, **THE 185/65R15 MUD+SNOW "ALL SEASON" TYRES** ENSURE EXCELLENT DRIVEABILITY, WITH SUPERB TRACTION ON LOW-GRIP SURFACES AS WELL AS HIGHLY RESPONSIVE STEERING.

TERRAIN CONTROL

Panda Cross offers the **Terrain Control** selector which allows you to select the use of all-wheel drive, choosing from three different modes:

AUTO automatic distribution of drive between the two axles in accordance with the grip of the road surface.

OFF-ROAD all-wheel drive remains selected with torque distributed between the four wheels, transferring the drive force to those with the best grip on the ground thanks to the ELD "Electronic Locking Differential" system.

HILL DESCENT CONTROL this mode allows you to tackle particularly steep descents, over rough terrain too, automatically employing the brakes and controlling the speed of the vehicle.

The Panda Cross exterior perfectly encapsulates its off-road character. The front features a generously-sized ultrashine silver skid plate, which protects the mechanical components and is complimented by tow hooks in brilliant red. Additionally, the side mouldings emblazoned with the word Cross and the new roof bars, which echo the finish of the skid plate, combined with the pronounced wheel arches confirm the Panda Cross' capabilities.

Panda Cross is available with two engine options: the 90hp petrol 0.9 TwinAir Turbo and the 95 hp diesel 1.3 MultiJet, both with **Start&Stop**. The TwinAir 90 hp features a specific 6-speed gearbox with a shortened first gear, which accentuates the model's off-road characteristics, ensuring optimum setting off during hill starts. Furthermore, the engine favours a more 'eco-friendly' driving with reduced fuel consumption, simply by pressing the ECO button on the instrument panel and thus restricting torque to 100 Nm at 2,000 rpm.
