

Ford Capri

The Ford Capri

The Ford Capri is the perfect compromise between good looks and good sense. Now it is possible to own the sort of car you've always wanted without leaving your passengers behind or being impractical about luggage.

The Ford Capri L, like all the Capri range, has a split squab folding rear seat so that you can make your car two, three or four seater in moments—with just the luggage space you need, too! As a four seater, there's 9.3 cu ft of usable space. As a three seater, 18.1 cu ft. And as a two seater, an impressive 22.6 cu ft!

The Capri L also features sports road wheels, bodyside double tape stripe, black rocker panel, black radiator grille, a door mounted driver's mirror and safety glass all round.

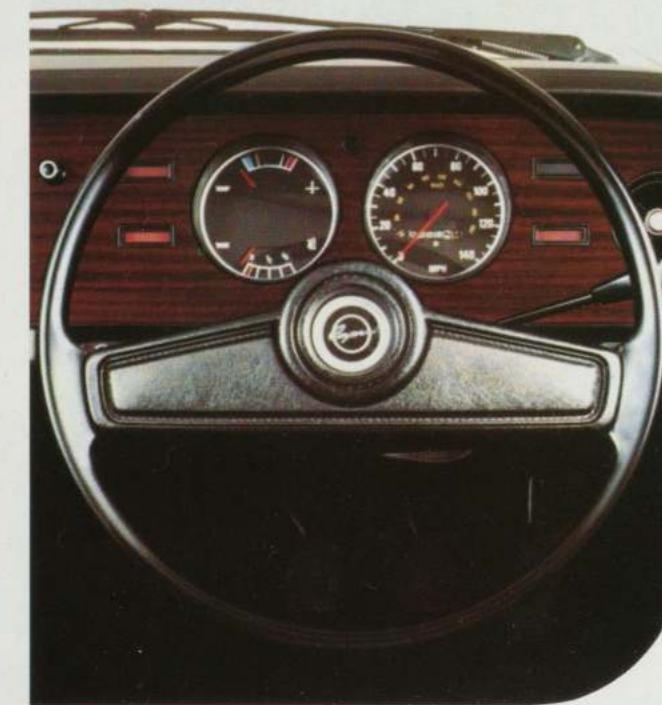

The stylish interior of the Capri L includes easy-to-read instrumentation set in a rosewood finish facia, two-speed windscreen wipers incorporating intermittent wipe facility and electrically operated washer control, cigar lighter, illuminated heater controls, Aeroflow ventilation, cloth inserts on the seat trim, a dipping rear view mirror and fully reclining front seats.

Standard too are servo assisted brakes, colour keyed floor carpet and black carpeting in the load compartment.

Under the bonnet, you can choose from the range of 1300/1600 low and high compression engines.

And remember, that's just the Capri L. You can also choose from the GL, the S and the Capri Ghia!

Seat belts are available as an optional extra.

Head Turner

The Capri GL will turn heads wherever it goes. And no wonder. Look at the elegant exterior with the styled steel sports road wheels with embellishers, bodyside and tailgate moulding, the bright metal grille surround and black back panel, the door mounted driver's mirror and the smart GL badge.

Notice the rectangular halogen headlights.

These are some of the outward signs that say the Capri GL is something special.

And the inside story confirms it. There's the split squab folding rear seat to give you the passenger space or loading space you need. The fully reclining front bucket seats with cloth trim inserts. The rosewood finish on the instrument panel. The Centre console unit complete with clock and gearshift gaiter. Carpet covering both passenger area and load compartment (the load compartment has its own light, too).

Powering all this style and comfort is the standard 1600 OHC engine—sporty performance with sensible economy.

The Capri GL gives you the little extras that mean such a lot.

The Ford
Capri GL

Pace Setter....

The Capri S is a car for the enthusiast. It offers a choice of three engines—an increased performance (2v) 1600 OHC, 2000 OHC or the flexible 3000 V6 (with power steering). Exhilarating with mile-stretching economy.

But there's more to the S than performance. It rides and handles like a sports car. And it shares the superb good looks of the other models in the range. Plus some features all its own.

Front spoiler with brake cooling ducts. Black bumpers with inserts. Two black finish door mirrors. Black finish on the window surrounds and door handles. Black grille. Alloy road wheels. Bodyside tape stripe and sporty 'S' badging. Together they give the Capri S a chic, sleek look.

There's a smart touch of black on the inside as well—with the black instrument cluster and black vinyl head restraints on fully reclining front seats. The rear seats, of course, fold down individually and all four seats include wide Cadiz cloth inserts. There's black carpeting in the passenger and load compartment. A sporty gear shift knob and three spoke steering wheel.

Other standard S features include halogen headlights and heated backlight.

The Capri S has few rivals in its class—and none at its price.

The Ford Capri S

Style Setter

The design genius of Ghia of Turin, the engineering skill of Ford—together they've produced the Capri Ghia, a combination of performance, good looks and sumptuous interior design.

Performance is effortless, road holding rock steady, steering light and positive.

Bright grille whiskers, overriders, Ghia tailgate script together with the sports road wheels enhance the exterior appearance.

Inside, there isn't a better appointed car in its class. The seats are contoured for maximum hip support, cut away for comfortable elbow and shoulder room. The front seats have adjustable, integral head restraints, the back of the front seats have deep map pockets. And, like all Capri models, the Ghia can change to a two, three or four seater in next to no time.

The Ghia has a specially developed fabric material and a high grade deep pile carpet. There's a full length centre console with a soft feel arm rest that lifts to reveal a useful glove box. A high quality leather covered steering wheel, remote control door mounted driver's mirror and tailgate wash/wipe are just three more of the many standard features.

The Capri Ghia really is a once-in-a-lifetime car.

CAPRI

When you own a car that's special you'll want to keep it in peak condition. That's also the way Ford feel about the cars they build. So no matter where you live you'll find one of the Ford dealers just a short drive away. Every Ford dealer offers the mechanical know-how, the equipment and the parts needed to give Ford owners the fast efficient and reliable servicing that you expect to keep your Capri in mint condition.

Ford Service

If you take your car to any Ford main dealer, you will get all the benefits of Ford's service programme. It's an intelligently thought out scheme that brings together some of the finest technicians and the latest servicing equipment so that customers can be sure of an extra thorough, quality-controlled service. Ford are proud of the after sales service that goes with their cars. It's what Ford Service is all about.

Performance Figures

All performance and economy figures quoted are Ford computed figures based on typical production vehicles.
