

NEW
CORTINA
THE HAPPY
MEDIUM

New Ford Cortina. As close to a big car as a small car can get. Roomy and comfortable on the inside, neat and compact on the outside. Carefully designed and engineered to meet the demands and needs of today.

We spent a lot of time and care to discover what you wanted and how you wanted it. And we listened. Carefully.

You told us you liked Cortina's shape and size. So that was something we didn't change, but we contoured a new grille and introduced sporty new wheel trims.

We designed a handsome new European dash. Fitted a deluxe push-button radio into XL and XLE models.

Put in a second steering column control stalk so windscreen wiper controls are right at your fingertips. Very convenient.

So are the fully retractable inertia reel front seat belts — standard equipment on all models. We know you'll like the new directional face-level ventilation system too. But the things you can't see are the features that are likely to impress you most. Like Cortina's new precise handling. The smooth, easy four-coil ride that irons out the road ripples.

The in-built strength and rugged dependability. New heavier side-beams absorb road shocks and reduce noise level. A rear anti-sway bar improves cornering and handling through the rough and rugged. In fact, as you read on, you'll discover a whole lot of new comfort and convenience features that come together to make new Cortina outstanding value-for-money in its class.

Illustrated: Cortina XLE with optional passenger side styled exterior mirror.

**NEW
CORTINA**
THE HAPPY
MEDIUM

Printed August 1975

Cortina XLE.

It's your own special world.

Picture yourself in those deeply cushioned, reclining corduroy trimmed bucket seats. Lounge back. Way back. Now look around. Deep pile carpeting, padded leather steering wheel, "woodgrain-finish" fascia and door trim, deluxe push-button radio, a centre console unit — and a fully colour keyed interior.

Add to this the finishing details. A clock, map pockets, padded armrests and you're driving a mid-size luxury limousine that makes a lot of common sense.

XLE Standard Equipment Highlights:

250 CID, "six" . . . 3-speed, T-bar Automatic transmission . . . Power-assisted front disc brakes . . . Radial ply tyres . . . Deluxe push-button radio . . . Deep-cushioned, high, backed reclining bucket seats . . . Centre console with armrest, storage bin, electric clock . . . Deep-contoured rear seat with foldaway centre armrest . . . Special luxury-grade vinyl and cloth upholstery . . . Front inertia reel seat belts . . . Deep-pile carpeting . . . "Woodgrain-finish" instrument panel . . . Face-level ventilation system with individual ball vent controls, separate foot level vents . . . 2-speed heater/demister . . . Lockable and illuminated glove box . . . Front and rear floor lights, boot light, interior courtesy lights operated by all doors . . . Instrumentation including tachometer, metric speedometer/odometer, trip meter, fuel, oil and temperature gauges . . . Coat hooks, 3 roof-mounted grab handles . . . Map pockets . . . Bumper over-riders front and rear . . . Colour-keyed wheelcovers . . . Vinyl roof . . . Steering column stalk controls, right hand for turn indicators, lane change, high/low beam, headlight flasher and horn, left hand for 2-speed windscreen wipers and 4 jet washers . . . Remote control exterior mirror . . . Leather bound steering wheel . . . Day/Night interior rear view mirror . . . Full length body side moulding with vinyl insert . . . Distinctive grille with rectangular quartz halogen headlights . . . Rear end applique . . . Emblem on rear pillar . . . Combined steering and ignition lock . . . Cigarette lighter . . . Dual-tone horns . . . Electrically heated rear window demister . . . Heavy-duty battery and all Ford Lifeguard Safety features listed on pages 14 and 15.

Options include:

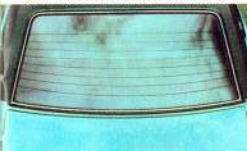

4-speed, all-synchromesh manual transmission. Sliding sunroof and sports road wheels. (See back cover for full listing.)

Illustrated opposite: Cortina XLE interior with optional 4-speed floor shift.

Printed August 1975

Remote control rear view mirror.

Heated rear window demister.

Cortina XLE dash.

12 cubic feet luggage capacity.

Articulated windscreen wipers.

Dual column-control stalks.

Cortina XL.

Luxury, and then some.

It's not unusual for people to want all the personal comforts of a big limousine. But it is unusual when they find them in a mid-size car. Cortina XL keeps on surprising people.

Not only for its uncompromising luxury and superb appointments, but the way it rides and feels. Handling is totally Cortina. A sporty 4-speed floor shift moves you. A lively 4-cylinder 2000 cc engine powers you. Precise rack and pinion steering aims you. And four coil suspension irons out all road ripples for a smooth big-car ride.

Illustrated opposite: Cortina XL with optional six cylinder engine and vinyl roof.

Printed August 1975

Fully retractable inertia reel seat belts that move with you.

2-speed heater/demister.

New ball-vent controls.

FORD LIFEGUARD SAFETY FEATURES ENGINEERING AND EQUIPMENT HIGHLIGHTS

The closer you look the better it looks

Inside, outside, underneath. Wherever you look you'll find the kind of features and attention to detail that puts new Cortina in a class of its own. It's built strong and it's built right.

We engineered stronger side rails for greater durability.

Increased the diameter of mounting bushes, to soak up bumps and thumps and isolate the passenger compartment from road noise.

Improved handling with the combination of a new rear anti-sway bar, higher spring ratings and new design shock absorbers. Very careful changes, that make so much sense in terms of ride, handling and dependability.

Code for charts opposite: **NA** means Not Available, **Std** means Standard Equipment, **Opt** means Optional at extra cost, **O/R** means Optional at reduced cost.
