# SIERRA

---

## L A S E R

SALOON & ESTATE

---

## THE SIERRA LASER

**S**ome highly individual styling characterises the newest member of the Sierra family. But good looks and a smart interior are not the

only strong points. All the established Sierra qualities are there in plenty, too, adding to big-value motoring.

---

---

*There's a lot of character in the new Sierra  
Laser, not to mention all the motoring  
value that typifies the range*

■ Externally the Sierra Laser is distinguished by Tricoat white wheel trims, a discreet bodyside moulding and colour-toned bumpers with bright inserts. There's also a wide choice of exterior colours that includes black or metallic paint at no extra cost. Ford's

high-security locks on the doors, tailgate and filler cap make a contribution to reducing theft, and radio aerial vandals are beaten by incorporating the radio's antennae in the rear windscreen.

---

---

## THE SIERRA LASER ESTATE

**T**he highly practical Sierra Estate is a firm favourite and the very affordable Sierra Laser Estate is certain to extend the appeal still further. Distinctive exterior

styling and highly individual specification make this a newcomer with a lot of character, without losing any of the established qualities of this fine range of estates.

---

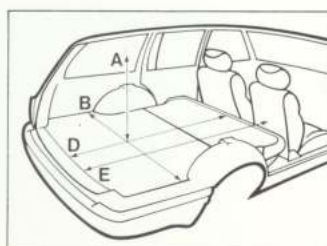

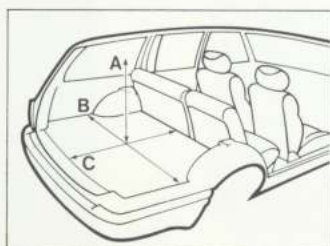

---

*All the appeal of the big-capacity  
Sierra Estate range, plus a little extra  
style and character*

- Ⓐ Maximum cargo height 30"
- Ⓑ Maximum floor width 53"  
(width between wheel arches  
43")
- Ⓒ Loadspace length to back  
of rear seat 42"
- Ⓓ Loadspace length with rear  
seats folded down 64"
- Ⓔ Loadspace length to rear of  
front seats 74"

**T**he Sierra Laser and Sierra Laser Estate are the only models in the range to have chic Barcelona cloth trim. The front seats are fully reclining and the headrests fully adjustable. The driver's seat also benefits from height adjustment. The rear seating has a 60:40 split back for extra versatility, and the rear seat cushion can be tipped as a unit. There is plenty of stowage space inside the load compartment, and the rear grabhandles are thoughtfully provided with coat hooks.

■ The fascia of the Sierra Laser and Sierra Laser Estate is particularly well-equipped. The instruments are clearly visible through the "soft feel" steering wheel, and fresh air comfort is assured by the four face-level vents which are complemented by dedicated side-window demister vents. Sierra Laser models also benefit from an Electronic AM/FM Mono Radio Model 2001, with security coding (see inset).

## SPECIFICATIONS

### TECHNICAL FEATURES

#### ■ 1.6 OHC ENGINE WITH FIVE-SPEED GEARBOX

#### ■ MAINTENANCE FREE BATTERY

#### ■ BRAKES:

Ventilated front discs 10.5 inch, rear drums, servo-assisted with G-valve

#### ■ FUEL TANK — 60 LITRES

#### ■ RADIATOR FAN THERMOSTATICALLY CONTROLLED

#### ■ RACK AND PINION STEERING

#### ■ SUSPENSION:

Fully independent

Front MacPherson struts with coil springs and rearward mounted stabilizer bar

Rear semi-trailing coil spring system

### STANDARD EXTERIOR FEATURES

#### ■ NARROW GREY BODYSIDE MOULDINGS WITH BRIGHT INSERT

#### ■ COLOUR-TONED POLYCARBONATE BUMPERS WITH BRIGHT INSERT
