

THE SPIRIT OF FREEDOM

FALCON GL AND FAIRMONT WAGONS

THE FREEDOM WAGONS

Freedom. It's something that's built in to each Ford Falcon and Fairmont wagon - the freedom to do things normal sedans can't. Freedom to pack up at a moment's notice, with room to spare for the luggage, the tent, the barbecue, the dogs, the gear for a long relaxing weekend.

Freedom to specify a wagon that suits your style with as much comfort, as much practicality, and the power you need. Freedom to travel wherever the road takes you, knowing that the Falcon GL and Fairmont wagons are built especially for Australian conditions.

Falcon GL and Fairmont.
The freedom wagons from Ford.

THE SHAPE OF FREEDOM

Dynamic styling has given the Falcon GL and Fairmont wagons an impressive difference. Up front the look is sleek. The quartz halogen headlights and driving lights and the tail lights are integrated within the total design.

The high-strength polymer bumpers are styled to neatly wrap around front and rear and give you added protection.

The tailgate has a hard-working washer-wiper system to give you better visibility. Styled wheel covers add to the distinctive look.

FREEDOM AT YOUR FINGERTIPS

These freedom wagons feature an exciting instrument panel with fingertip controls and electronic efficiency.

Information is yours at a glance with an instrument cluster featuring electronic speedometer, fuel and temperature gauges in

easy-to-read scales. A variable brightness digital clock featuring larger digits for clearer reading in daylight. More convenience is added in the binnacle which surrounds the instrument cluster where control switches are within a finger's stretch of the steering wheel.

EFI engine

THE POWER OF FREEDOM

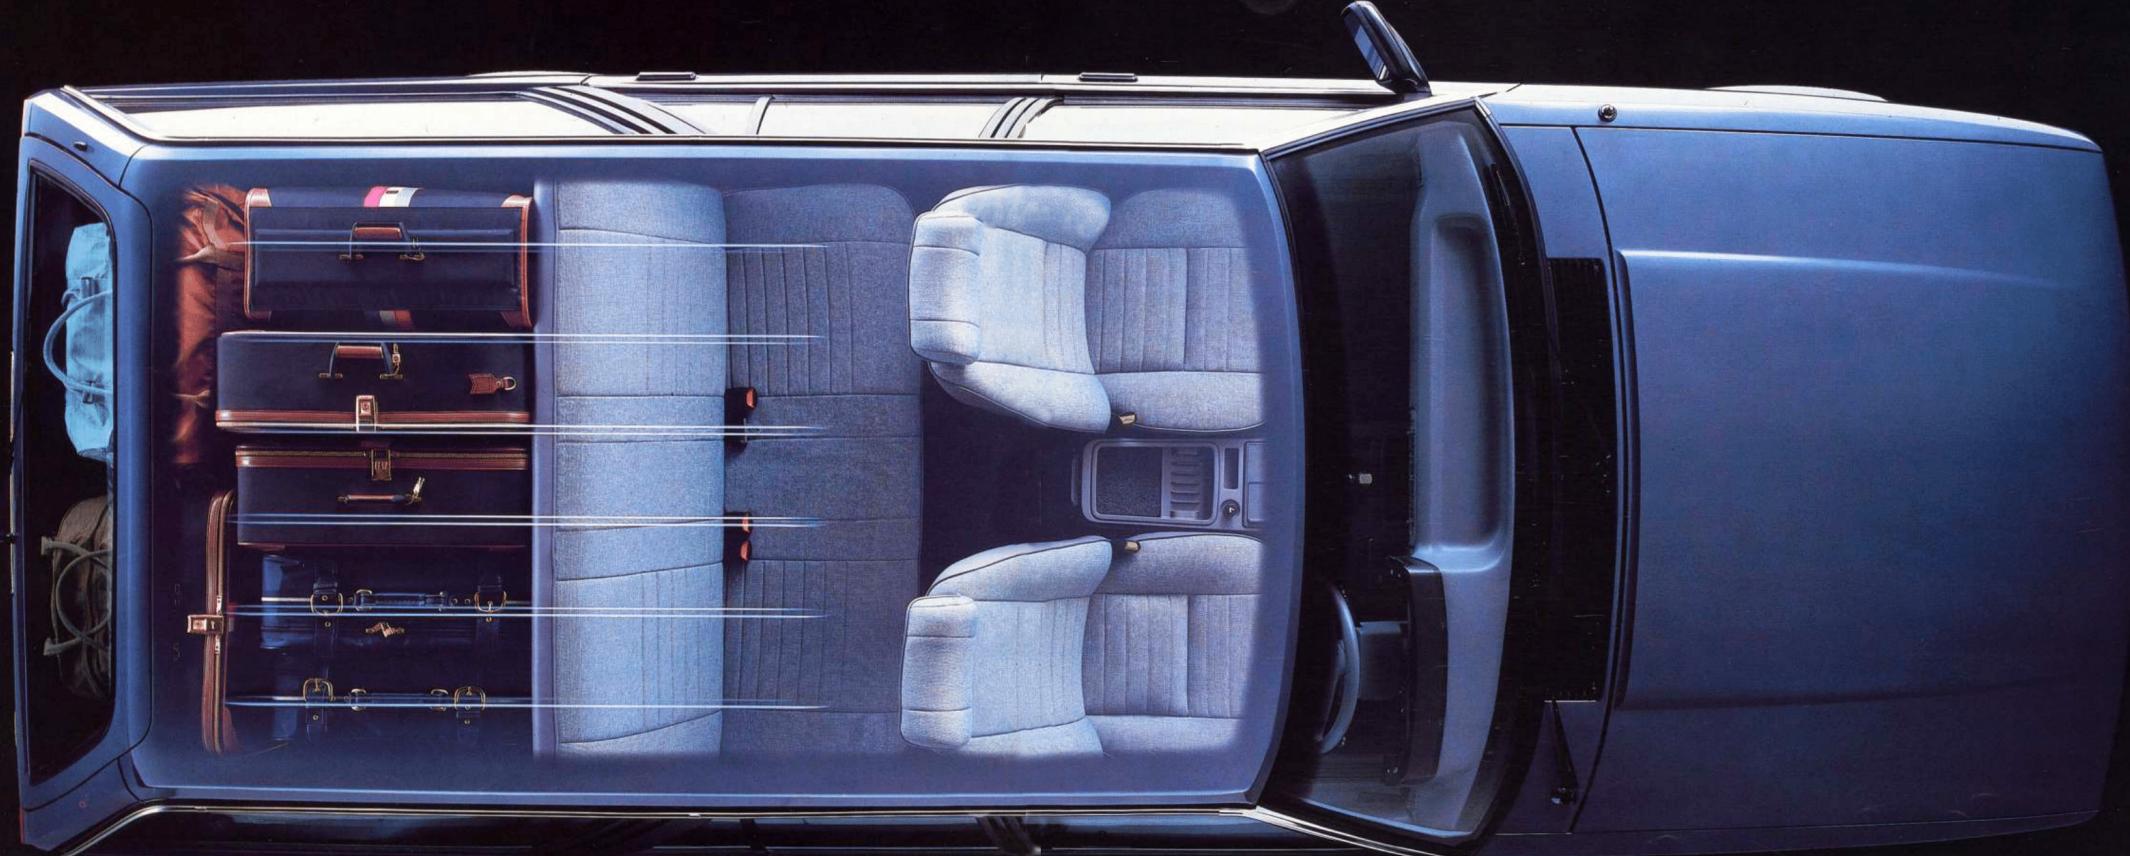

The Ford wagons are powered by an advanced Alloy Head engine (3.3 litre for Falcon GL with 4.1 litre optional, 4.1 litre standard for Fairmont). The latest in 'lean-burn' technology, provides cleaner, more efficient combustion for improved performance, yet even better fuel economy.

FREEDOM TO RIDE IN COMFORT

Comfort is a priority in the freedom wagons. The woven cloth seats are padded, shaped and sprung to support the driver and passengers in comfort. The interiors are tastefully colour co-ordinated with dash, steering wheel and moulded door panels blending with the colour scheme of the seating and carpeting, to create an environment that's warm and welcoming.

FREEDOM OF THE WIDE OPEN SPACES

Amazing space: it's a major feature of the Falcon and Fairmont wagons. With their long wheelbase and wide track, the Falcon GL and Fairmont wagons provide more loadspace than any other Australian wagon. Just fold down the rear seat and you've got room to stow luggage, sports gear... just about anything you need to tote. Powerful gas struts support the tailgate, so you can lift it with ease.

FALCON GL AND FAIRMONT WAGONS

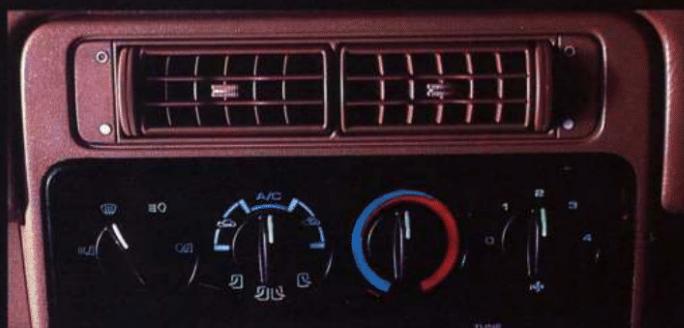

FREEDOM TO CHOOSE

Ford offer you a host of options to meet your special needs.

AIR CONDITIONING

Ford's exclusive factory-fitted air-conditioning system gives you the cool comfort you need when travelling in the hot Australian summer. In all wagons with a floor mounted

transmission, the integrated air-conditioning includes ducting to provide cool air direct to back seat passengers.

Ford's electronic fuel injected engine gives you the power and torque reminiscent of a V8.

Illustrated: 'S' Pack instrument panel and optional 5-speed manual transmission.

About this brochure. This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheets. Because of changes in conditions and circumstances Ford* reserves the right, subject to all applicable laws, at any time, at their discretion, and without notice to discontinue or change the features, designs, materials, colours and other specifications and the prices of their products,

 **Ford Australia - We're moving with you.**

And now the EFI engine comes equipped with the EEC-4 Electronic Engine Control—an onboard digital micro computer, which monitors and adjusts when necessary vital engine functions like fuel flow and ignition timing more than 80 times a second, giving you better performance, smoother engine running and improved fuel economy.

CENTAFOLD

Need your wagon to take six? Specify the Centafold front seat instead of the standard bucket seats, and with the flip of an armrest, you have an extra backrest and front seating for 3.

'S' PACK

Individualize your wagon with features available in the 'S' Pack option, including special styled wheel and trim rings, racey body stripes, fog lamps and a comprehensive instrumentation package with tachometer and speedometer; electronic vacuum fluorescent display incorporating the digital clock and dual function bar graph displaying water

temperature and fuel level—at the touch of a button the display changes to battery voltage and oil pressure.

and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchasers.

The latest specification sheet should be referred to for information on the availability, ordering and use of optional equipment. Always consult an Authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.
