...functionality of the design adds to the driving experience."

Every switch and every button easily reached.
Every dial and display easily read. Nothing
designed for mere effect. The simple thing
done well.

"As a designer I like the fact that the look is distinctive and that the functionality of the design adds to the driving experience."

...small, agile and easy...

Precise steering. Crisp acceleration.
Big car stability. Clear intent,
classic execution.

*Ka's engine fully complies
with latest EEC emission
and exterior 'drive-by'
noise regulations.*

*The braking system
features asbestos-free
pads to give a long life to
both linings and disc
faces.*

*The EEC V module is the
most powerful engine
management system
available with Ford cars.*

"We designed Ka to be small, agile and easy on the driver and on the environment."

Fuel and performance

Fuel consumption in L/100 km (mpg)[†]

Urban

Extra Urban

Combined

Performance (Ford test figs.)

Max. speed (mph)

0–60 mph (secs)

30–50 mph* (secs)

Ka						
1.3i	8.8 (32.1)	5.5 (51.4)	6.7 (42.2)	96	14.3	8.9

[†] All figures in L/100 km (mpg) are from officially approved tests under the Passenger Car Fuel Consumption Order 1983 and in accordance with EEC Directive 93/116/EC.

* In 4th gear.

The Government fuel consumption test figures shown in the chart do not express or imply any guarantee of the fuel consumption of a car of the class in question. See back cover.

Note: All vehicles are 5-speed manual and are equipped with a catalytic converter.

Note:

Urban

An engine started from cold in laboratory conditions operated at varying speeds, maximum 31 mph, average 12 mph over a theoretical distance of 4 km (2.5 miles).

Extra Urban

Conducted immediately after the urban cycle, it consists of half steady speed driving and half varying speed driving, maximum 75 mph over a distance of 7 km (4.3 miles).

Combined

This is an average of the two parts of the test, weighted by the distances covered in each part.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular car. The cars themselves have not been tested and there are inevitably differences between individual cars of the same model. In addition, a car may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the car has been driven and the standard of maintenance, will affect its fuel consumption.

Insurance Groups are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer.

Optional Equipment. Throughout this publication, wherever a feature is described as being an 'Option' or 'Optional Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary.
