AEROSTAR

## 1994 AEROSTAR

Ford Aerostar Wagon is a most versatile mini-van, a popular, proven vehicle designed to meet the multiple transportation needs of today's family.

An especially important consideration is safety. Aerostar includes a standard driver's side air bag to supplement the safety belts, rear anti-lock brakes for more controlled stops, and optional integrated child safety seats.

Another consideration is user friendliness. Aerostar's instruments and controls are designed and located for driving comfort and convenience.

And then there's Aerostar performance: V-6 power coupled with rear-wheel drive delivers Class III towing capability (when properly equipped). The 4-corner coil spring suspension with nitrogen gas-pressurized shock absorbers delivers a smooth ride as well as capable handling.

With Aerostar, you have a wide range of choices. Seating for 5 or 7 passengers, regular- or extended-length models, 2-wheel drive or the extra traction of the optional electronic 4-wheel-drive system.

Some equipment shown on these pages may be optional.

Right: The luxurious Aerostar Eddie Bauer 7-passenger interior with quad captain's chairs and 3-passenger seat/bed.

Below: A driver's side air bag to supplement the safety belts is standard equipment.

Aerostar offers optional integrated child safety seats.

### AEROSTAR EDDIE BAUER

The Eddie Bauer is indeed a very special Aerostar. Forged aluminum wheels, a unique two-tone paint treatment, and a roof luggage rack grace the exterior.

Inside, dual front captain's chairs (with power lumbar supports) with 2- and 3-passenger seat/beds add up to comfortable seating for 7. The front and rear AC/heating system has a separate fan control for the 2nd row passengers. The stereo system includes a cassette player with premium sound components and a graphic equalizer.

Electronic automatic transmission, speed control and tilt steering wheel, electronic instrument cluster, trip computer, autolamp system, auto-dim mirror, power windows and locks and electric remote mirrors are also standard. And you get a special luggage set sent to you from Eddie Bauer.

Above: The extended-length Aerostar Eddie Bauer in Electric Red Clearcoat Metallic and unique Mocha Frost Metallic lower accent treatment.

Left: The optional floor console includes cup holders and storage bins.

Below: The versatile rear seat/bed option (standard in Eddie Bauer) is the kind of feature you would find in a luxurious van conversion.

## AEROSTAR XL, AND XLT

### AEROSTAR WAGON XL

Aerostar XL has 3.0 litres of V-6 power and seating for five. And it has the features you would expect in a well-equipped mini-van: power steering, electronic AM/FM stereo radio with digital clock, tinted glass, rear window wiper/washer and defroster, full wrapover door trim, interval windshield wipers. And there's air conditioning in the Preferred Equipment Package.

### AEROSTAR WAGON XLT

Aerostar XLT is distinguished by its own lower two-tone paint treatment and premium wheel trim. Inside its roomy 7-passenger interior you'll find deluxe appoint-

ments and comfort features including dual front reclining captain's chairs with 2- or 3-passenger bench seats or optional 2- and 3-passenger combination seat beds. There are convenience features such as deluxe door/quarter trim panels, air conditioning, speed control/tilt steering wheel, automatic transmission, and the illuminated entry system.

Choose the XLT Preferred Equipment Package and get power windows/door locks, electric remote-control mirrors, Privacy™ glass, and the electronic AM/FM stereo sound system with cassette player which includes six speakers, rear controls, and two sets of stereo headphone jacks.

Above: Aerostar XL in Ruby Red Clearcoat Metallic.

Above: Aerostar XLT interior in Medium Gray. Standard 7-passenger seating features dual front captain's chairs (with power lumbar adjustment and map pockets) and 2- and 3-passenger rear bench seats.

Above: Extended-length Aerostar XLT in Bimini Blue Clearcoat Metallic.

Left: Aerostar XL in Raven Black with the optional Sport Appearance Package, which includes silver metallic bumper/floor body-side paint and other features (see the back cover for complete package contents).

Some equipment shown on these pages may be optional.

# DESIGN & SAFETY

Because Aerostar is such an ideal family vehicle, its design and engineering technologies work to make driving efficient and comfortable. But far more important than this is safety, and built into Aerostar are features designed to help protect you and your family while you're on the road.

A driver's side air bag to supplement the safety belts, for example, is standard. Used in conjunction with the seat belts, it's one of the most effective protection devices in existence today.

The rear anti-lock brake system, also standard, is computer controlled. And along with the added stopping control the rear anti-lock brakes can provide, you may choose the extra traction of Aerostar's state-of-the-art electronic 4-wheel drive (4WD) option.

Aerostar 4WD is engineered to help you maintain control in all kinds of

weather. And the system operates "full time," without your having to touch a single switch.

Normally, the system assigns 1/3 of the engine's power to the front driving wheels and 2/3 to the rear driving wheels. But when wheel slippage is detected, the computer briefly "locks" the drive shaft of the slipping wheel to the drive shaft (front or rear) with *non-slipping* wheels.

The transfer case differential lock is then released and the computer "checks" to see if slippage still exists. If so, the shafts are relocked. This cycle is repeated until normal 4-wheel traction is achieved.

Some other notable features you'll find standard in Aerostar are a front and rear energy-absorbing structure, energy-absorbing steering column and steering wheel, and a rear window wiper/washer, with defroster.

The 3.0-litre V-6 is standard. The 4.0-litre V-6 is included with Eddie Bauer extended-length models and all 4WD models; optional with extended-length 2WD models. Both engines feature multi-port electronic fuel injection controlled by computer.

The 4-corner coil spring suspension is equipped with nitrogen gas-pressurized shock absorbers for a ride that is smooth, yet firm enough for rough going. Plus a front stabilizer bar and variable-rate rear coil springs which enhance handling.

A 5-speed manual overdrive transmission is standard. The optional 4-speed automatic features an electronic torque converter clutch; its brake shift interlock feature is designed to prevent shifting into gear unless your foot is on the brake pedal.

The anti-lock rear brake system is designed to inhibit braking-induced rear wheel lockup under most operating conditions. When it detects rear-wheel lockup, the system modulates rear brake pressure, providing more controlled rear braking.

A properly equipped regular-length 2WD Aerostar Wagon is rated to tow up to 2177 kgs. (4,800 lbs.) (reduced by passenger and cargo weight in the towing vehicle). With the 4WD Aerostar, driving control in towing applications is enhanced under most conditions.

Integrated child safety seats are available with either the 2-passenger bench seat or the 2-passenger combination seat/bed. Each seat has a 5-point restraint system and is designed to carry a child at least one year of age, 9 to 27 kgs. (20 to 60 pounds), and less than 1016 mm (40 inches) tall. And the cloth liner can be removed, so the seats are not only easy to use but easy to clean.

Aerostar standard equipment includes a driver air bag to supplement the safety belts. Outboard occupants, front and rear, have 3-point lap and shoulder restraints.

(a) Aerostar stereo systems provide rear radio controls and headphone jacks.

(b) Left to right: forged aluminum wheels; premium wheel covers; styled wheel covers; full-face wheel covers.

(c) Optional speed control.

(d) Power windows, door locks and dual electric mirrors comprise the Power Convenience Group.

## COLOUR AVAILABILITY

	XL	XLT	Eddie Bauer
Mocha Frost Clearcoat Metallic	■	■	
Medium Mocha Clearcoat Metallic	■		■
Ruby Red	■	■

### WARRANTY COVERAGES

Ford of Canada's vehicles are backed by:

- 36 month/60,000 km bumper-to-bumper no deductible warranty
- Corrosion perforation protection warranty on all sheet metal for 6 years/160,000 km (whichever comes first)

### ROADSIDE ASSISTANCE PROGRAM

Every new Ford of Canada car and light truck now includes the assurance of an emergency Roadside Assistance Program during the 3-year/60,000 km bumper-to-bumper warranty period. Help is a toll-free phone call away 24 hours a day — anywhere in Canada or the continental United States — should you ever need any towing assistance, fuel delivery, tire change, a jump start or even help when you're locked out of your vehicle. Ask your Ford of Canada Dealer for complete details on this outstanding Program.

Ford of Canada encourages the use of safety belts and child/infant restraints.

### CUSTOMER SERVICES

Ford of Canada is proud to offer a wide range of customer services including vehicle financing and leasing, replacement parts and after-sale services. See your Dealer for more details.

### Motorcraft

QUALITY REPLACEMENT PARTS FROM FORD

Ford has chosen to print this catalogue on recycled paper containing 10% de-inked post-consumer materials and uses vegetable inks.

## MAJOR STANDARD FEATURES

### Exterior

Colour-coordinated front and rear bumpers  
Tinted glass  
Aero foldaway mirrors (RH convex)  
Flush windshield, bodyside and liftgate window surround mouldings  
Underbody space saver spare tire carrier (except with regular-length 4WD)  
Front spoiler
