Desirable looks, flexible space

It's amazing what you can fit into one life. One day you're a DIY expert, the next you're a team coach. You might be in a presentation at work this morning, at the garden centre in the afternoon and at the cinema tonight. Modern life is a diverse tapestry of work, leisure and the many places in between.

So, with active lifestyles in mind, we take pleasure in introducing the all-new Focus C-MAX – a car that's designed for modern living. Whatever's on your 'to do' list, with Focus C-MAX, it's 'can do'.

It's a Focus – expect to feel the great sense of confidence and style that comes from driving a car proven to be one of the most enjoyable and reliable vehicles on the road today. Plus with the all-new C-MAX you get new levels of flexibility and convenience.

The wheelbase is longer with a wider track, so there's no need to compromise your desire for a truly rewarding ride. The stylish Focus C-MAX delivers genuine driving quality with an advanced Control Blade independent rear suspension that improves driving control and safety.

You have a choice of power, performance and practicality from seven engines, including three brilliantly smooth and quiet TDCi diesels. An all-new six-speed transmission combined with the 2.0L diesel engine maximises performance and economy. Electro hydraulic power-assisted steering (on selected models) increases manoeuvrability and control.

You can be confident that with Focus C-MAX you're making an intelligent choice that cleverly integrates flexible, useable space with a supremely satisfying ride.

Stylish and contemporary, Focus C-MAX is designed for modern living*.

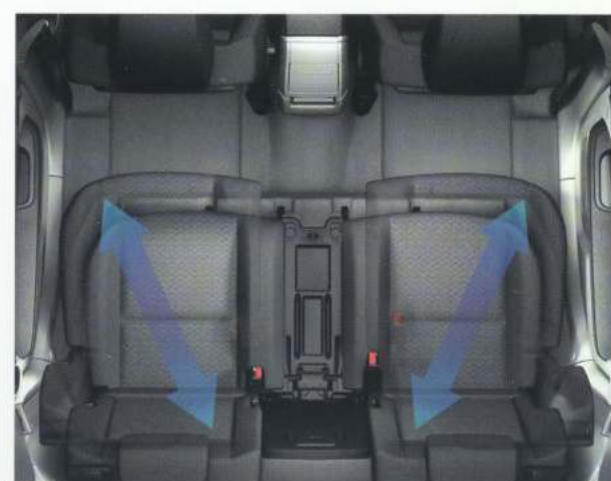

The choice of engines includes three smooth, responsive TDCi diesels*.

Focus C-MAX provides easy and versatile passenger and load carrying capability*.

The Comfort Seat System optimises leg room and comfort for rear passengers*.

Room for everything except compromise

Inside is extremely spacious and thoughtfully designed – modern thinking in a modern world. Whether your journey is an everyday 'A to B' or an eagerly anticipated adventure, the space in Focus C-MAX doesn't just adapt, it transforms to create the environment you need.

The Comfort Seat System provides optimum space and flexibility in the rear passenger area. For long journeys, the rear centre seat neatly slides away to enable the outer seats to converge diagonally, creating even more leg room and body space for two people. This Comfort Seat System provides optimum space and flexibility in the rear passenger area. Ample storage space is cleverly designed too – generous, flexible and conveniently located, but not at the expense of passenger space or comfort. The electric parking brake allows even more space between the front seats.

The boot space (437 litres) will accommodate everyday essentials from a child's buggy to the week's shopping. The removable rear seats also tip and tumble to make even more room for all of your needs.

Beneath the sleek lines and contours of Focus C-MAX is an Intelligent Protection System that adds to the overall feeling of confidence and safety. It includes dual-stage driver's and front passenger's airbags*, front seat side airbags and side curtain airbags.

The instinctive, contemporary driving experience is enhanced by the instrument panel-mounted gear shift while the commanding driving position increases control and driver confidence.

Ford Focus C-MAX. The versatility and space you need. The driving pleasure and confidence you deserve. The style you will want to be seen in.

Room for everything except compromise.

*Note: A child seat should never be placed in the front passenger seat when the vehicle is equipped with an operational front passenger's airbag. The safest place for children is properly restrained in the rear seat.
