

2007 THE NEW SPORT TRAC

Energetic, strong, versatile

The new 2007 Ford Sport Trac is *the ride* for hittin' the trails, dominatin' the slopes, hangin' in Red Rock country, and every other bold move you dare to dream up.

For the first time ever, Sport Trac can be equipped with a 292-hp V8 engine. That's 42% more available power than before. You also get tons of rugged new standards like a 427% stiffer, fully boxed frame that contributes to its agile handling and quiet ride, and a 26.7% larger, dent- and scratch-resistant composite cargo box with 3 integrated gear bins.

Inside, you'll find front-seat side airbags and a new auxiliary audio input jack for your MP3 player, now standard on both models. Also new for 2007, a smooth-riding Independent Rear Suspension (IRS) and our industry-exclusive AdvanceTrac® with RSC® (Roll Stability Control) are both standard.

Perfectly in line with our company-wide dedication to innovation, the new Sport Trac is in a class of its own.

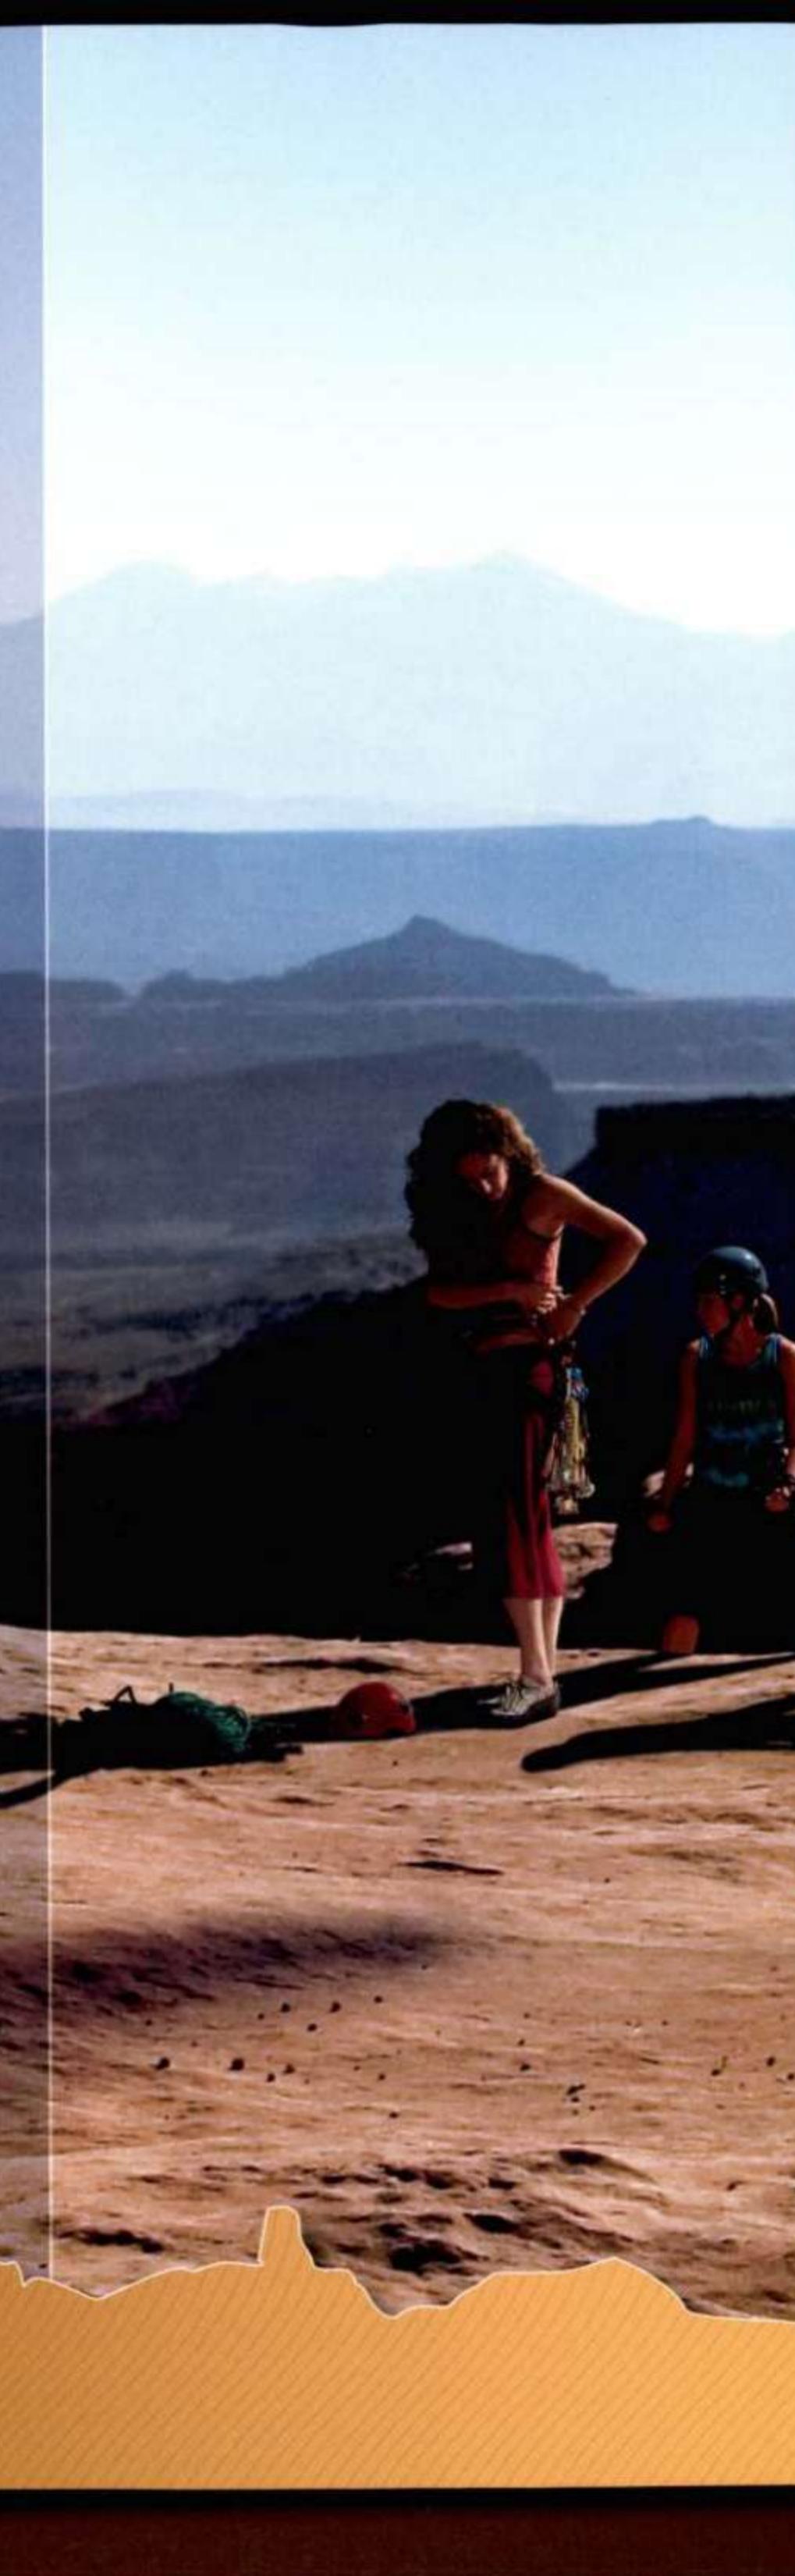

5-Star Safety Ratings

The new 2007 Ford Sport Trac received 5-Star ratings for its performance in the National Highway Traffic Safety Administration's (NHTSA) Frontal and Side-Impact crash tests.

BOLDMOVES

Rock on with new V8 power

Sport Trac's first-ever V8 powertrain option has arrived. It's a gutsy new 292-hp 4.6L 3-valve V8 engine mated to a new 6-speed automatic transmission for exceptional performance and fuel economy. Whether you need peak power for accelerating or peak efficiency for saving fuel, the electronically controlled 6-speed can deliver.

For an EPA-estimated 15 mpg in the city and 21 on the highway, go with Sport Trac's standard 4.0L SOHC V6 engine and 5-speed automatic transmission. This thrifty team runs more smoothly and quietly than the previous V6 powertrain, while still giving you a substantial 210 hp and 254 lb.-ft. of torque.

The new Independent Rear Suspension (IRS), another first for Sport Trac, helps improve handling and performance with either powertrain. It gives Sport Trac 8.8" of combined wheel travel (bounce + rebound) in the back, which contributes to its extreme flexibility and helps it tackle rough terrain and uneven road surfaces with ease.

For extra traction on demand, look to the optional new Control Trac® 4-wheel-drive system. It can take you from everyday driving in 4x4 AUTO to serious rock-crawling in 4x4 LOW at the touch of a button. It's all about versatility.

42% More HP —

Thanks to its optional new 4.6L 3-valve V8 engine with 6-speed automatic transmission, the new Sport Trac can crank out 292 hp and 300 lb.-ft. of torque. The V8's free-breathing, 3-valve head design and variable camshaft timing help it deliver an innovative blend of performance and fuel efficiency. The 4x2 gets an EPA-estimated 15 mpg in the city and 21 on the highway.

Revere its remarkable agility

New industry-exclusive AdvanceTrac® with RSC® (Roll Stability Control), standard on every Sport Trac, is a comprehensive electronic stability enhancement system that actually measures what other systems ignore or estimate. Our system features a vehicle-roll motion sensor in addition to AdvanceTrac's Anti-lock Brake System (ABS), traction control and yaw control. RSC uses the sensor to directly measure the vehicle's roll-rate at least 100 times every second, which helps determine when and how the system will apply individual brakes and modify engine power to help keep all 4 wheels firmly planted. AdvanceTrac with RSC can help in many real-world situations, such as when you have to make an emergency maneuver, or when you're driving on slippery or uneven surfaces.

Sport Trac's new suspension system supplies the smooth ride and road-hugging agility you deserve, while also delivering the rugged durability your active life demands. The Short- and Long-Arm front and trailing-arm rear fully independent suspensions feature a coil-over-shock design with optimized steel control arms that are both stronger and lighter than the previous generation.

Every 2007 Sport Trac is built on the solid foundation of a new, fully boxed frame with 427% more torsional stiffness than its predecessor. This frame features a tube-through-tube design in which certain crossbeams actually pass through the frame rails before being welded in place. This dramatic improvement helped set the stage for numerous others, including new suspension and body mounts, all of which help give Sport Trac its remarkably agile, responsive handling and notably quiet ride.

Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. For more information on AdvanceTrac with RSC, visit www.fordvehicles.com.

Sport Trac Limited in Redfire Metallic with available equipment

Gear up for good times

Think you might need it? Better toss it in. Sport Trac's new, 26.7% larger, composite cargo box holds up to 37.5 cu. ft. of gear. So you can pack to your heart's content. In fact, the optional cargo cage bed extender can help you stow another 6+ cu. ft. with the tailgate open, or just section off the box with the tailgate closed.

The cargo box's corrosion-proof, sheet-molded, composite exterior takes muddy trails in stride, while the dent-proof, scratch-resistant, molded inner liner is also designed to take a beating. The box includes a total of 10 integrated tie-down hooks and special notches inside that can help create tiered storage, perfect for transporting 4' x 8' sheets of plywood with the tailgate open.

As always, Sport Trac's standard cargo box power point is ready to supply the juice for your portable air compressor, cooler or anything else with a compatible adapter cord.

Got some smaller essentials to take along? Stow 'em below deck in Sport Trac's rugged new gear bins. All 3 bins feature weather-resistant lids and removable drain plugs. Let the adventures begin.

Cargo and load capacity limited by weight and weight distribution.

More Power 2 You —

Sport Trac's optional, new power-sliding rear window can be opened to allow rear-seat passengers to access the cargo box from inside, or just to get some air flowing. The choice is all yours.

www.fordvehicles.com

3 Simple Steps —

The optional, locking hard tonneau cover is hinged in the middle, so you can access just the front or back of the box, as needed. Want to access the entire thing? The tonneau cover can be removed in just 3 steps.

Unwind in rugged refinement

Because getting back to nature doesn't *have* to mean roughing it, we sought out every opportunity to increase the peace inside Sport Trac, starting with its foundation. The new frame boasts a 427% increase in torsional stiffness and greatly contributes to the extremely quiet interior experience. The latest lightweight materials help add extra insulation to key areas like the doors, instrument panel and headliner. Even the standard molded-rubber flooring and heavy-duty berber floor mats help keep road noise where it belongs — outside.

We also completely redesigned the front bucket seats, giving them new contours and increased track travel for long-term comfort. The standard overhead and center floor consoles give you plenty of storage options for smaller items, while the 2nd-row 60/40 split bench seat folds down to create 44.4 cu. ft. of interior cargo space. The 2nd row also comfortably seats up to 3 adults and includes articulating head restraints for outboard passengers. The optional new Rear-Seat DVD Entertainment System features a large 8" color LCD screen, 2 sets of wireless headphones and a remote control to keep them happily occupied. Riding in the new Sport Trac is an adventure for everyone.

2 Tones + 10 Ways —

This new high-contrast, leather-trimmed seating is optional on Sport Trac Limited. It's packaged with the new **10-way power, heated driver's seat** (including power-adjustable lumbar and recline) and a 4-way manual, heated passenger's seat, both of which include handy seatback map pockets.

MP3s, 6 CDs and More —

For your listening pleasure, all of Sport Trac's sound systems feature a **new auxiliary audio input jack** for use with your MP3 player.

The optional **Audiophile® Sound System** includes a 6-disc in-dash CD changer with MP3 capability and an 8" subwoofer that's powered by its own dedicated amplifier.

SIRIUS Satellite Radio® service can also be added to any of Sport Trac's sound systems to give you over 125 channels of coast-to-coast music, news, sports and entertainment.

*See your Ford Dealer or contact SIRIUS at 1-888-539-7474 for more information.

Take charge with ease

Whether you're ridin' fresh powder or hittin' the road in your new Sport Trac, control is essential. So we made sure the clean, modern design and intuitive layout of Sport Trac's new instrument panel put you instantly in command.

The optional Convenience Package gives you an auto-dimming rearview mirror, keyless-entry keypad, and automatic headlamps (automatic headlamps are standard on Limited). Power-adjustable pedals are optional for those who need help perfecting their driving position. And Sport Trac's available new DVD-based Navigation System with intersection programming actually calls out upcoming street names rather than just telling you in which direction to turn — that's one less thing for you to remember. To help raise your awareness, our optional Reverse Sensing System uses new technology to detect, and alert you to, the presence of objects behind the vehicle when you're in reverse.

Sport Trac Limited's new Dual-zone Electronic Automatic Temperature Control allows you and your front passenger to select different temperature settings, then automatically maintains them. It's included in the available Limited Electronics Package, which also gives you a 4-line message center and secondary steering wheel-mounted audio and climate controls. 'Cause control rules.

1/2 the Time —

Sport Trac's optional **new, class-exclusive,™** heated windshield uses micro-thin tungsten heating elements embedded in the glass to help clear your windshield in approximately half the time it takes a conventional forced-air system.

**Truck-based Midsize SUV class.

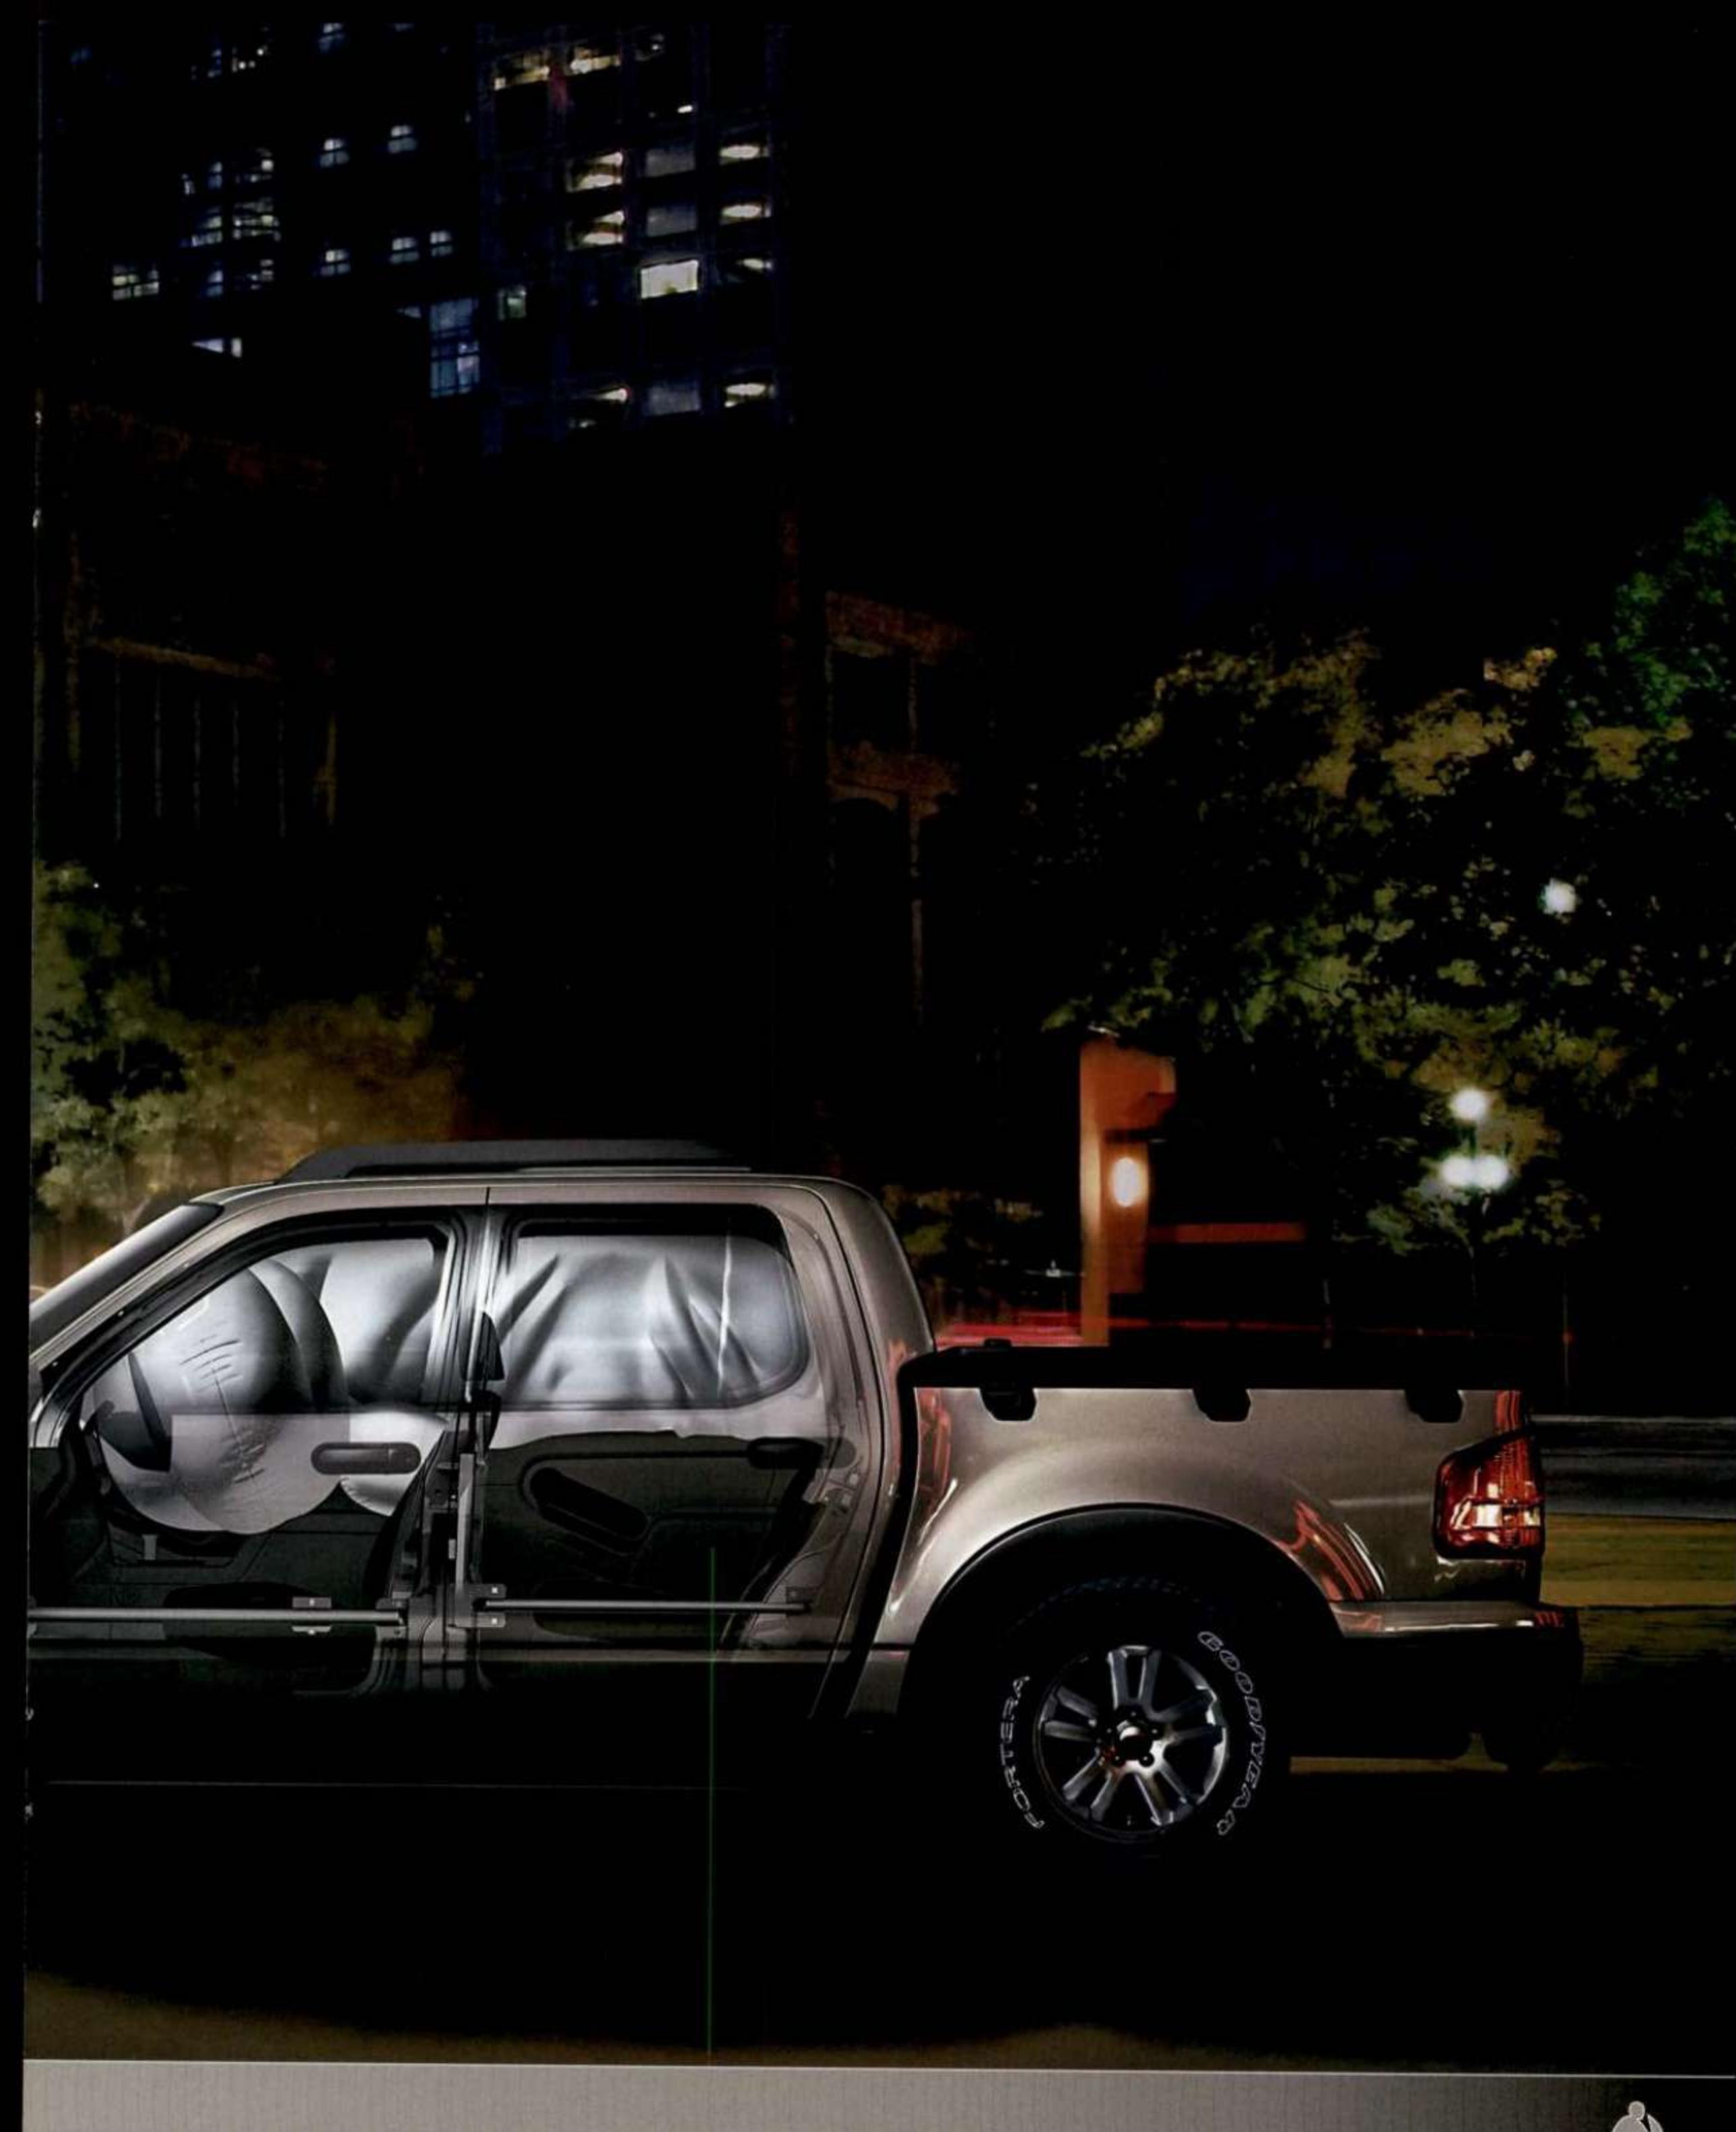

Sport Trac Limited leather-trimmed interior in Camel with available equipment

Get serious about safety

Whether adventure leads you down quiet country lanes or around bustling city streets, you can be sure Ford Sport Trac's cutting-edge safety and security features are always there, behind the scenes, helping to protect you and your loved ones. In fact, Sport Trac has earned 5-Star ratings in the National Highway Traffic Safety Administration's (NHTSA) Frontal and Side-Impact crash tests. And it's already designed to meet all known U.S. Government frontal and side-impact crash requirements through the 2010 model year.

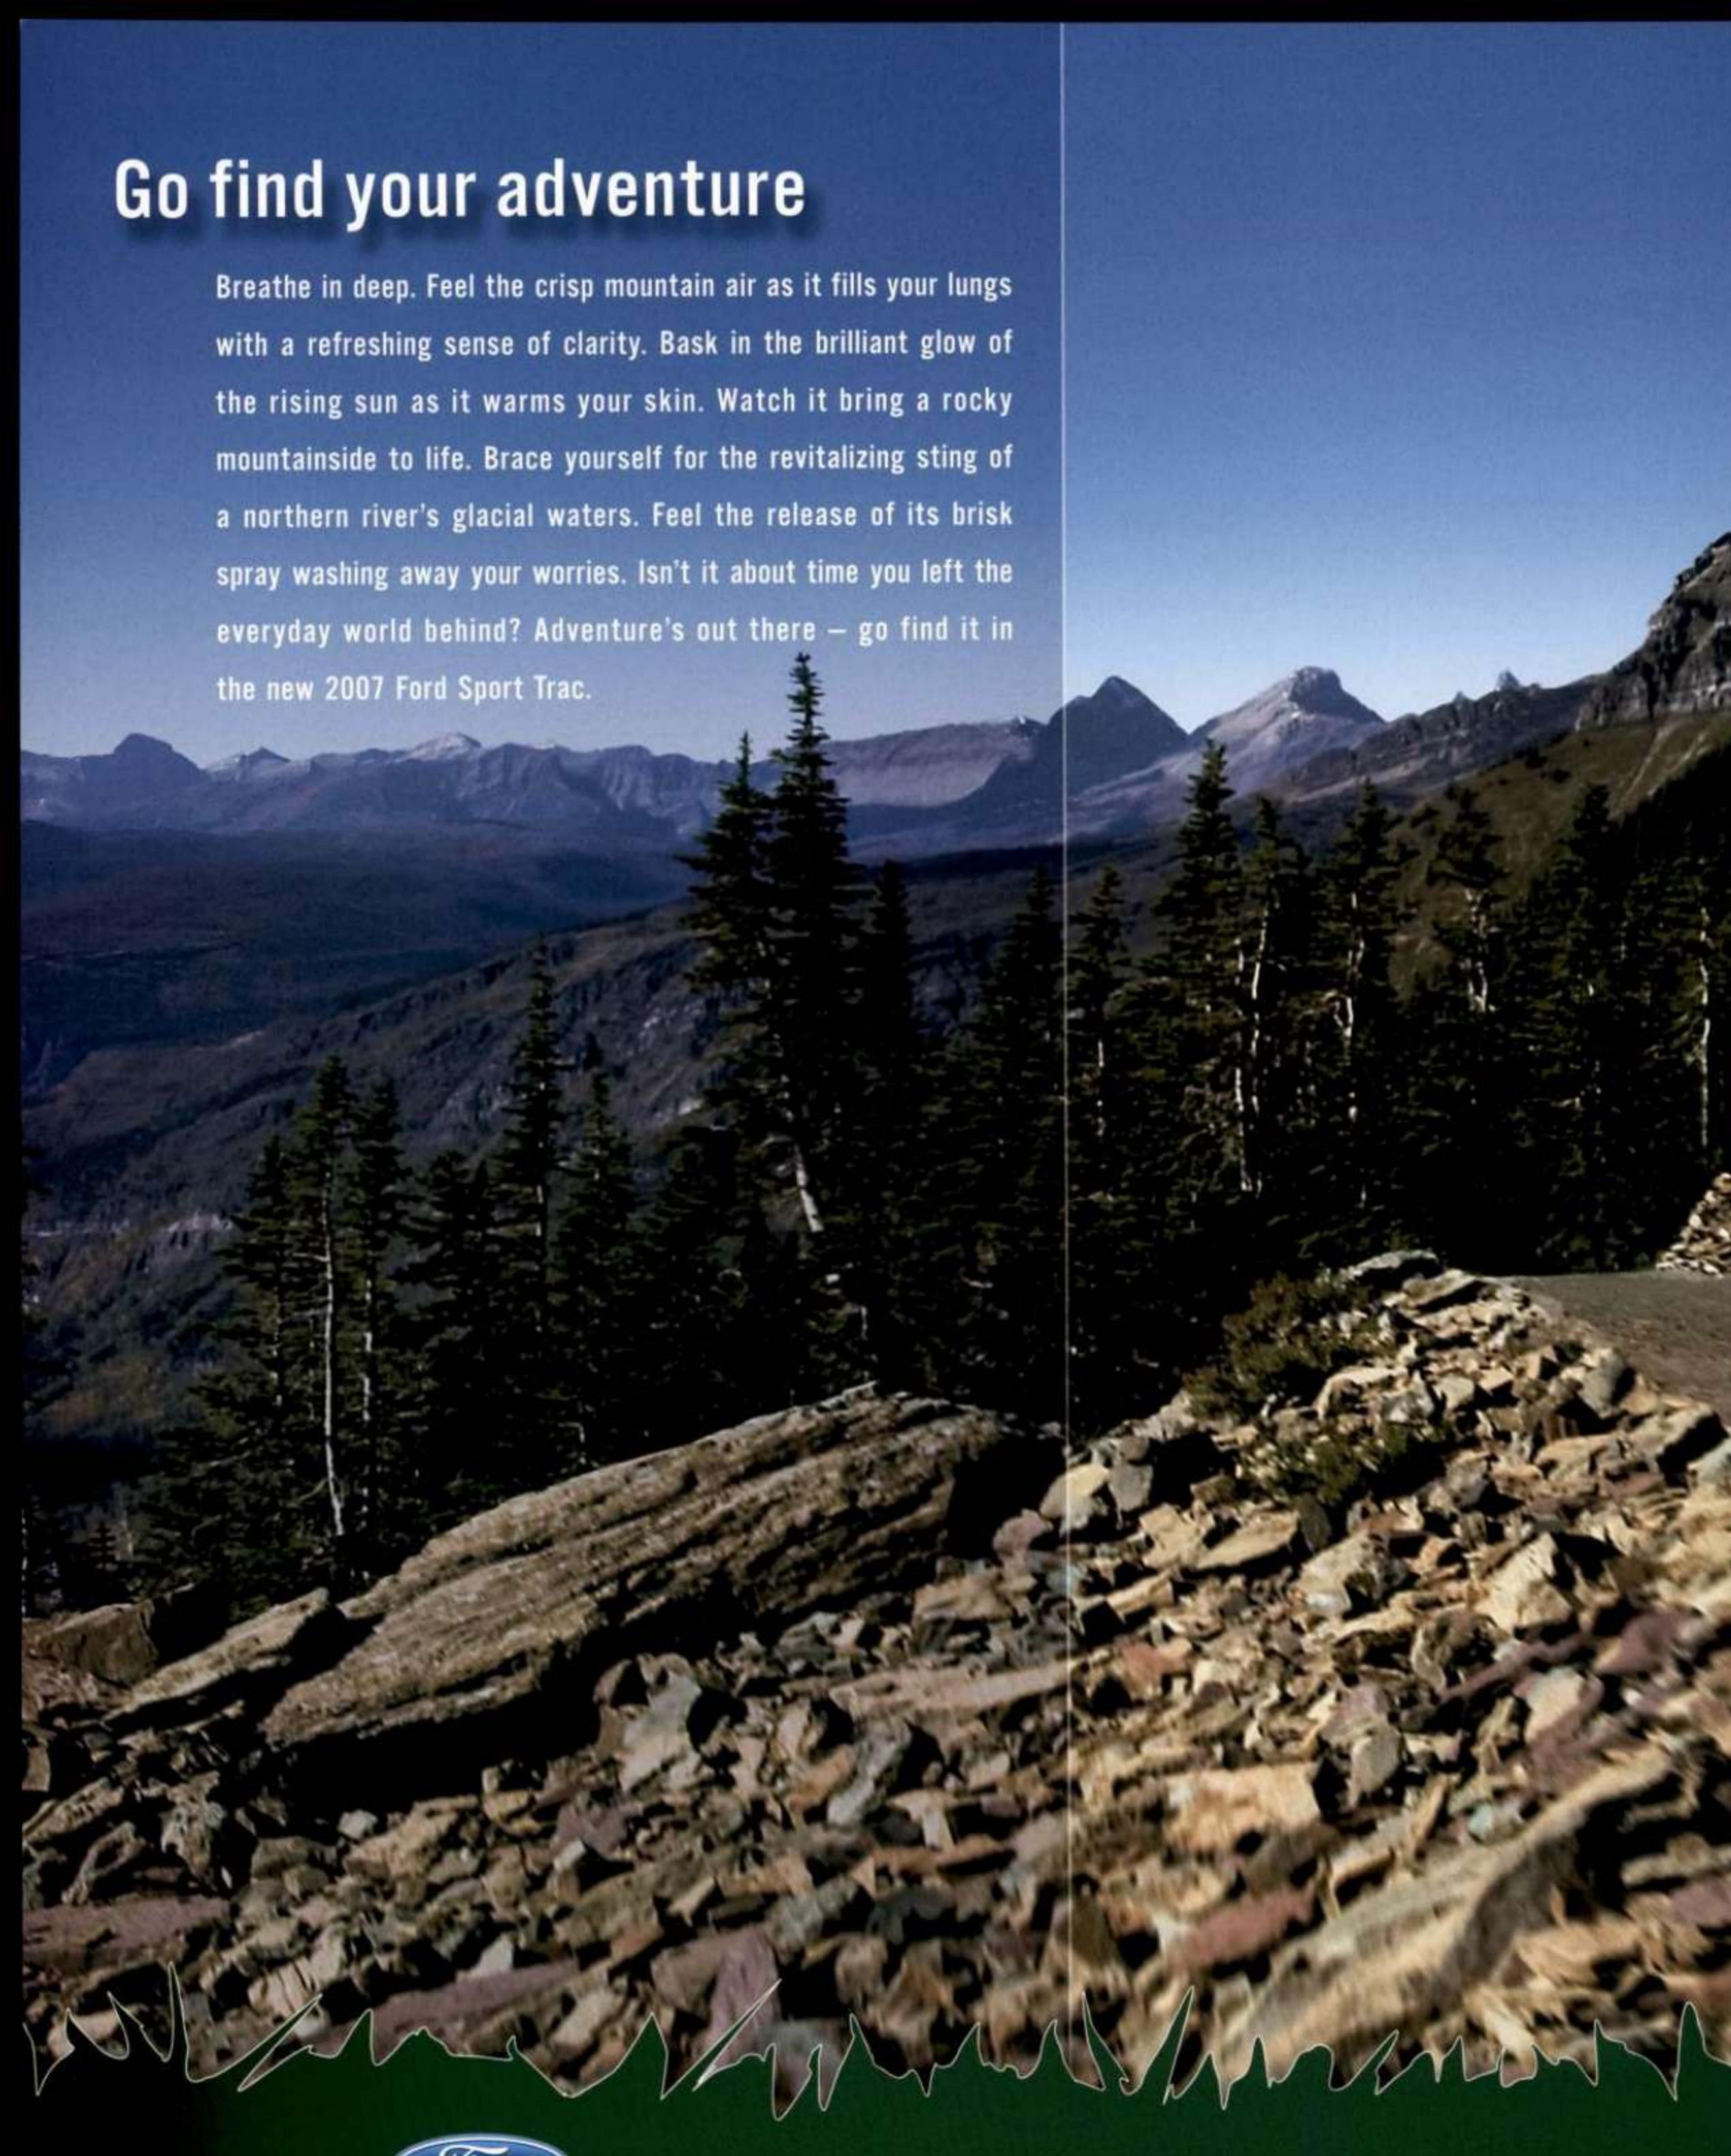

New for 2007, front-seat side airbags and our Intelligent Safety System™ (ISS) are both standard. The ISS processes information from a suite of sophisticated sensors and adjusts the performance of Sport Trac's adaptive front airbags, adaptive load-limiting front safety belt retractors, and adaptive steering column to enhance your protection in the event of certain frontal collisions. Both front airbags feature adaptive venting to help tailor airbag power to specific occupants' needs. Plus, the front-passenger airbag features an adaptive tether that helps tailor the airbag's shape and size. In addition, the Front-Passenger Sensing System can identify if a passenger is present and his/her approximate weight, and then send a signal to automatically activate or deactivate the airbag accordingly.

To enhance protection for outboard-seated occupants in the 1st and 2nd rows, add our patented Safety Canopy™ System. This optional system features larger, 2nd-generation side-curtain airbags and a rollover sensor that directs their deployment in certain types of side-impact collisions or rollover events.

Go find your adventure

Breathe in deep. Feel the crisp mountain air as it fills your lungs with a refreshing sense of clarity. Bask in the brilliant glow of the rising sun as it warms your skin. Watch it bring a rocky mountainside to life. Brace yourself for the revitalizing sting of a northern river's glacial waters. Feel the release of its brisk spray washing away your worries. Isn't it about time you left the everyday world behind? Adventure's out there – go find it in the new 2007 Ford Sport Trac.

Make the right call

Choosing a destination is a very personal experience, one made all the more unique when you customize the journey. Ready to plan your next adventure in the new 2007 Sport Trac? Start with your choice of these well-equipped models: the spirited XLT and the luxurious Limited.

Sport Trac XLT

16" cast-aluminum wheels • Black exterior accents • Power sideview mirrors with security approach lamps • Power windows • Auxiliary audio input jack • Cloth seats • Molded-rubber flooring • Heavy-duty berber floor mats • 2-line message center with outside temperature display and compass • Cruise control

Sport Trac Limited

18" machined-aluminum wheels • Monochromatic exterior appearance • Fog lamps • Silver-painted roof side rails and step boards • 2-tone cloth seats with 6-way power driver's seat • Leather-wrapped steering wheel and floor shifter • Automatic headlamps

Limited includes the standard equipment of XLT, except where additions/exceptions are noted.

New Vehicle Limited Warranty

We want your Ford Sport Trac ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile Bumper-to-Bumper Coverage, 5-year/50,000-mile Safety Restraint Coverage, and 5-year/unlimited-mile Corrosion (Perforation) Coverage — all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Get the ride you want. Whether you plan to lease or finance, you'll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details, or check us out at www.fordcredit.com.

Choose the insurance program that's designed for your vehicle — Ford Motor Company Insurance Services. Our program helps you receive the rates and service you deserve. Call 1-877-367-3847, or visit us at www.fordvip.com.

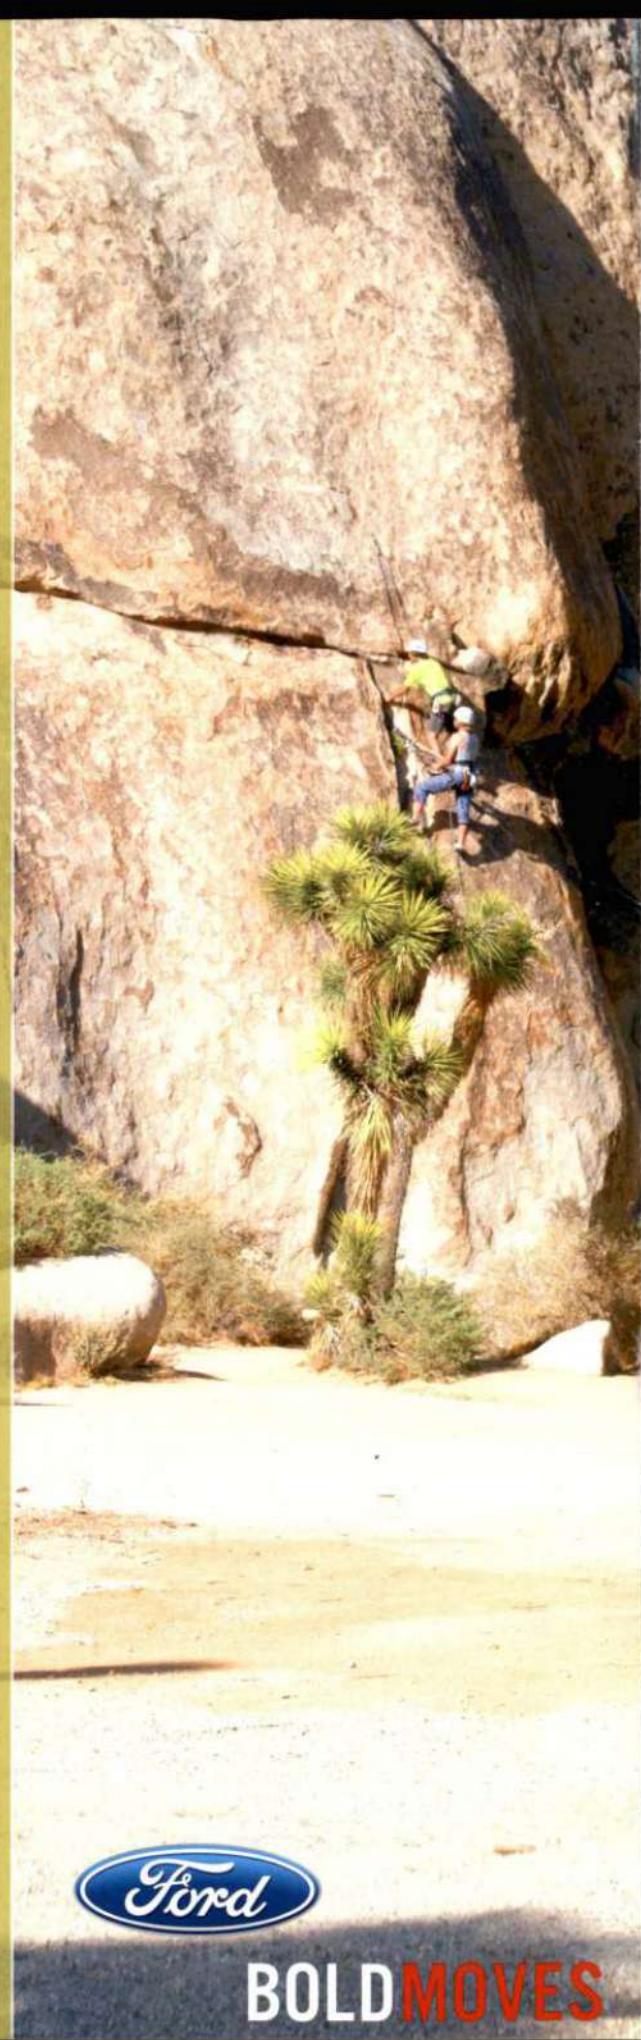

Genuine Ford Accessories are designed and engineered specifically for Ford vehicles. Visit our website at www.fordaccessoriesstore.com to use the Accessorizer, and to learn about complete accessory details and purchase instructions.

For a purchase or lease, the Ford Extended Service Plan (ESP) gives you "Peace-of-Mind" protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for an ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln Mercury dealerships.
