## PERFORMANCE

In addition to Genesis' unique riding comfort, the G80 delivers dynamic driving. It uses diverse technologies to improve silence in the cabin and reduce vibration for a more refined driving experience.

Gasoline 2.5 turbo

**304**

Max. power (PS/5,800rpm)

**43.0**

Max. torque (kgf-m/1,650~4,000rpm)

Gasoline 3.5 turbo

**380**

Max. power (PS/5,800rpm)

**54.0**

Max. torque (kgf-m/1,300~4,500rpm)

### 01 Electronically controlled suspension with road preview

Information is synthesized to automatically adjust the damping force of suspension and control the vehicle's movement. Incidents that can impact the vehicle such as speed bumps are preempted and the vehicle responds proactively while reflecting the drivers tendencies to ensure a comfortable ride.

### 02 Rear Wheel Steering (RWS) system\*

Actively controls the rear-wheel steering angle coupled with front-wheel steering depending on driving conditions. In low-speed cornering, the rear wheels are steered in the opposite direction of the front wheels to reduce the steering radius. In mid- or high-speed cornering, the rear wheels are steered in the same direction as the front wheels to reduce body slip, improving turning stability and lane following.

### 03 Sport+ Mode\*

Prevents early downshifting in sudden braking and upshifting while turning. Uses engine torque increase control (ETI) to downshift and a launch control function to maximize acceleration and deliver a powerful start. Amplifies mid-bass sounds with Active Sound Design to create dynamic driving sounds and augment the pleasure of driving.

### 04 Electronic Limited Slip Differential (e-LSD)\*

Limits slippage of left and right wheels and optimizes the distribution of power to improve handling while turning at high speeds. Improves traction and skid prevention while driving in rain or snow.

# CONVENIENCE

Interior convenience features have been thoughtfully upgraded to please all five senses and satisfy the lifestyle of customers who use diverse smart devices and value personalized experiences.

## 01 Genesis Infotainment System

The cluster and navigation are combined through a 27" panoramic display. A next-generation infotainment system, or connected car Integrated Cockpit (cclC), seamlessly links the contents of the cluster, GPS navigation, and Head-Up Display.

## 02 Genesis Digital Key 2

Lock/unlock the doors and start the engine without a smart key using an iPhone, Apple Watch, or Android-based smartphone. Share access for up to 15 devices.

\* Please refer to the Genesis website for specific supported models.  
\* Currently, the only compatible smartwatch is the Apple Watch.

## 03 Built-in Cam 2

Front and rear cameras capture high-resolution driving/parking videos and voice recordings that can be viewed in real-time through the navigation screen and smartphone. Contents can be replayed, downloaded, and uploaded to SNS.

## 04 Fingerprint authentication system (personalization, ignition, payments, etc.)

Users can select user profiles, make In-car Payment, disable valet mode, and start the engine using fingerprint authentication.

## 05 Independently controlled full auto air conditioning system

The air purification system includes a micro-dust sensor, pre-filter, and high-performance antibacterial combination filter to reduce micro-dust in the cabin. Front and rear seat temperatures, control modes, and air volume can be adjusted independently while the driver can also control all seats.

## 06 Hands On Detection (HOD)

Electrostatic changes on the steering wheel's surface are detected to determine whether the steering wheel is being gripped. Certain warning chimes from the advanced driver assistance system can be deactivated by lightly touching the steering wheel.

CONVENIENCE

01

#### 01 Rear seat smart entertainment system

14.6" large screen monitors with a wide viewing angle on the left and right sides can be operated independently for users to enjoy content according to their taste. Home theater configuration is possible with wireless OTT and Bluetooth content, facilitated by user-friendly touch input or remote control.

- ※ A remote controller is provided when the rear seat smart entertainment system option is selected.
- ※ To use streaming services, a separate paid subscription to each content platform is required.

02

03

#### 02 Bang & Olufsen sound system (18 speakers)

High-resolution audio certification and Beosonic EQ deliver high-resolution sound and intuitive sound adjustment. The iconic aluminum grille of the Bang & Olufsen sound system blends seamlessly with the stylish interior to create a more exclusive acoustic

#### 03 Heated front seat console armrest

The console armrest is fitted with a heating pad that works in conjunction with the heated seats. It can be controlled in stages to achieve the desired temperature for added comfort.

04

#### 04 UV sterilization for the front seat console armrest storage box

UV-C LEDs prevent the growth and reproduction of harmful bacteria on personal belongings and keep them sterilized.  
 ※ Based on in-house test results verified by Intertek, an international certification agency. Results may vary depending on the actual usage environment.

05

#### 05 3-zone+ climate control

A touch-sensitive climate control system in the rear seats allows independent control of temperature, wind direction, and air volume to suit the needs of rear seat passengers.

# INTELLIGENCE

Advanced driver assistance systems and safety features detect dangerous situations that the driver may be unaware of and help maneuver the vehicle to ensure comfort and safety at all times.

## 01 Forward Collision-avoidance Assist 2 (FCA) system

Alerts the driver in diverse circumstances where there is a risk of a collision (below). Helps to brake or steer the car automatically if the risk of a collision continues to increase.

- A vehicle, motorcycle, pedestrian, or cyclist is in front.
- A vehicle, motorcycle, or cyclist is approaching from the opposite lane while making a left turn in an intersection.
- A vehicle is approaching from the left or right while crossing an intersection.
- A vehicle or motorcycle is approaching straight ahead from the opposite direction.
- A vehicle or motorcycle is approaching from the opposite direction while changing lanes.
- A vehicle or motorcycle is in an adjacent lane while changing lanes.
- A vehicle, motorcycle, pedestrian, or cyclist is in front of the car on the edge of the road.

## 02 Lane Keeping Assist (LKA) system

Alerts the driver if the car drifts out of the lane while traveling above a given speed without a turn signal. Helps to steer the car automatically to prevent an unintended lane departure.

## 03 Blind-spot Collision-avoidance Assist (BCA) system

Detects vehicles behind the car in adjacent lanes while driving above a certain speed. It alerts the driver with an alarm and a flashing warning light and assists with steering if there is a risk of a collision. In addition, it helps to brake the car automatically if there is an increasing risk of collision while starting off the vehicle.

## 04 Highway Driving Assist 2 (HDA) system

Helps to maintain a preset speed, a safe distance from the vehicle in front, and the center of the lane (including on curved roads) while cruising on expressways or highways. Steers the car away from vehicles in adjacent lanes that come dangerously close without overrunning the lane. Automatically changes the lane if the driver activates the turn signal while holding on to the steering wheel and is cruising above the minimum required speed.

## 05 Rear Cross-traffic Collision-avoidance Assist (RCCA) system

Alerts the driver if a car is approaching from the left or right while pulling out in reverse. Helps to brake the car automatically if the risk of colliding increases even after sounding an alarm.

# GENESIS BLACK

Just as the world originated from darkness, Genesis perceives black as being the purest color of the original creation that signals a new beginning.

Mastering the subtle and enigmatic qualities of black and perfecting it took significant time and effort, but the essence of Genesis' design became increasingly apparent in pure black.

Discover the beauty of black that permeates every detail of Genesis, the visible and the not visible.

※ \* applies to the Genesis G80 Sport

**Drive efficiently: Maintain a constant speed** | Fuel efficiency corresponds to standard mode. Actual figures may vary depending on road conditions, driving habits, vehicle load, maintenance, and outside temperature. | Images may depict options that can lead to differences with the actual vehicle purchased. | Specifications, colors, and equipment depicted in this publication are subject to change to improve the appearance and performance of the vehicle. | Refer to the owner's manual for details and notes on specifications. | Engine performance figures are net figures required by the Ministry of Land, Infrastructure, and Transport since 1997. They take into account the resistance of exhaust gas, possibly resulting in a slight decrease compared to conventional gross figures. | Leather seats make partial use of synthetic leather. | Vehicle colors in this publication are printed and may therefore vary slightly from the actual colors of the vehicle. | Genesis is sold exclusively through car masters at branches and dealerships. Products and prices are transparent and identical nationwide. | Using low-quality or low-performance oils and fuels can cause damage to the vehicle. | Please refer to the owner's manual for details on new technologies and specifications featured in this Catalog. | This Catalog is illustrated for customer understanding and focuses on top-of-the-line models and options. | This brochure screen layout/design of the infotainment system may change with the updates. | Specifications may vary according to the trim, package, powertrain, and exterior color that are selected. Please refer to the current month's price list for detailed specifications of each model.
