

GENESIS GV80 GENESIS GV80 COUPE

COMBINING THE ATHLETIC DYNAMISM OF AN SUV WITH THE ELEGANCE OF A SEDAN,
GV80'S PROFILE HAS BEEN ENRICHED WITH ADVANCED DESIGN DETAILS AND
CUTTING-EDGE CONVENIENCE FEATURES THAT DELIVER UNPARALLELED PRESENCE.

Uyuni White (Gasoline 3.5 Turbo/AWD/22-inch Wheels (Copper Calipers) & Michelin Tires/Panoramic Sunroof/Full Package)

GENESIS GV80

A BOLD AND PROGRESSIVE LUXURY SUV FROM THE GENESIS BRAND

Genesis' first SUV, GV80, was the starting point for the next step as the Genesis Brand and our answer to those who have been waiting.

We've built our own set of bold choices by constantly venturing into uncharted territory. The perfect balance between grandeur and elegance, the first implementation of a two-line design with a unique interpretation. The Genesis GV80 carved out a niche for itself and set a new trend.

Now we bring the Genesis GV80, the benchmark we set for ourselves, to you who pursue the boldest dreams.

GENESIS GV80 COUPE

A LUXURY SUV CAPTURING THE DYNAMIC SILHOUETTE OF COUPE DNA

Line is its simplest form. Coupe emphasizes the lines more than any other vehicle.

From a single, finely executed line, a timeless beauty emerges. To preserve the simplicity of the line, we go deeper, we let go of the obvious, and we choose to do things differently.

Genesis GV80 Coupe perfectly silhouetted with an attention to detail for those who know what they deserve.

PERFORMANCE

Based on differentiated comfort, the GV80 COUPE delivers an image of a dynamic and elegant premium SUV through balanced driving and powerful engine performance, allowing the driver to experience the joy of driving.

01 Preview Electronic-Controlled Suspension

By combining road surface information detected by the forward-facing camera and map information from the navigation system, the suspension damping force is automatically adjusted to control the vehicle's movement. When encountering situations like driving over speed bumps that can cause significant impact, the system adjusts to the driver's driving style to ensure a comfortable and smooth ride.

Max Torque(kgf·m/1,300~4,500rpm)

02 Lateral Wind Stability Control

During high-speed driving influenced by strong lateral winds, steering and brake control are used to stabilize the vehicle's lateral movements and prevent lane departure, enhancing driving stability.

03 All-Wheel-Drive (AWD) System

In slippery and unstable road conditions like snowy or rainy roads, the system automatically detects driving conditions and actively distributes power between the front and rear wheels, ensuring stable driving performance in situations difficult for the driver to perceive.

04 Auto Terrain Mode

Using AI to recognize the road surface in real-time, the system automatically switches to the optimal mode to enable stable driving. The driving mode status can be checked through the cluster and the infotainment system.

05 Active Road Noise Control

When road noise comes into the interior, a control sound with the opposite phase is emitted to reduce the perceived noise level and increase interior serenity.

Discover more about
PERFORMANCE

01 Brake Mode (Exclusive to COUPE)

The driver can choose between Comfort Mode, which offers a comfortable and stable braking feel, and Sports Mode, which emphasizes precise braking control.

02 High-Performance Cluster Mode

(Exclusive to COUPE Gasoline 3.5 Turbo with 48V Electric Supercharger)
This mode monitors the vehicle's status such as engine oil temperature, torque, and turbo boost pressure through the cluster and navigation screens, providing intuitive information for effective vehicle performance.

03 Sports+ Mode

(Exclusive to COUPE Gasoline 3.5 Turbo with 48V Electric Supercharger)
This mode offers early downshifting during sudden braking and inhibits upshifting during cornering. It also implements quick downshifting through Engine Torque Increase control (ETI). An active sound design philosophy emphasizing mid-to-low tones enhances the dynamic driving sound, elevating driving pleasure.

04 Sports Active Sound Design (Exclusive to COUPE)

Engine sound is coordinated with driving mode, vehicle speed, and accelerator pedal response to provide a differentiated sound experience.

01

CONVENIENCE

Discover an optimized infotainment environment through an integrated panoramic display on a single screen, enhancing user convenience and providing a premium, future-oriented experience with upgraded advanced features.

01 GENESIS Infotainment System

Discover a next-generation infotainment system (ccIC27, connected car Integrated Cockpit) that links the cluster and navigation via a 27-inch panoramic display, naturally connecting the content between the cluster, navigation, and head-up display. The cluster displays essential information required for safe driving, such as maps, navigation (regular/augmented reality mode), and advanced driver assistance systems. The split screen on the right can show GPS navigation content such as driving information, radio, phone, and media based on the driver's choice.

02

02 Built-in Cam 2

Cameras mounted in the front and rear of the vehicle allow real-time viewing of recordings through the navigation screen and smartphone. Recordings can also be played back, downloaded, and ploaded to SNS.

03

03 Digital Center Mirror

Offers a clearer rear view through the digital center mirror's dedicated camera.

04 GENESIS Digital Key 2

Provides vehicle access, engine ignition, and remote-control features, based on ultra-wideband wireless connectivity.

04

05

05 Indoor Fingerprint Authentication System

Allows for quick profile customization and enables vehicle ignition/driving without a smart key. It also facilitates the convenient use of personalized features like In-car Payment and Valet Mode.

06 Independently Controlled Full Auto Air Conditioner

Reduces indoor fine dust levels through features including fine dust sensor, engine room pre-filter, and high-performance antibacterial combi filter. Allows climate control across all seats and enables independent control of temperature, mode, and airflow for the 1st, 2nd, and 3rd rows.

06

CONVENIENCE

01

01 Rear Seat Smart Entertainment System

Offers content suited to individual tastes through independently adjustable 14.6-inch large wide-angle monitors. Supports a variety of content through wireless streaming services and allows for a personal home theater setup through Bluetooth. The system can be controlled via remote control or touchscreen, and the monitor angle can be adjusted based on the front seat tilt.

02

03

02 Direct Grip Sensing System

Determines grip based on the current when the driver's hand touches the surface of the steering wheel. Touching the steering wheel lightly makes it easy to deactivate some of the advanced driver assistance system-related warnings.

03 Bang & Olufsen Sound System (18 Speakers)

Features the high-fidelity Bang & Olufsen sound system, providing delicate and dynamic sound of the highest quality through a total of 18 speakers. The surround sound function offers an immersive listening experience.

04

05

04 3rd Row Electric Folding Seats

Both women and children can easily fold the 3rd-row seats via a one-touch button located on the luggage side. The back seat control function also allows the folding of only the 3rd-row head rests, enhancing convenience.

05 Front Console Armrest Heating

Heating mats are integrated within the front console armrest, synchronized with seat heating to allow users to adjust the heating in different temperature stages, providing precise heated comfort.

06

06 1st Row Ergo Motion Seat

Both the driver and passenger seats in the 1st row feature ergonomic Ergo Motion Seats, utilizing seven air pockets within the seat to provide comfort and optimal seating during driving. The seat offers an upgraded second-generation smart posture control system, offering tips on optimal posture and comfort to reduce driver fatigue.

INTELLIGENCE

The Advanced Driver Assistance System autonomously analyzes driving conditions and detects hazardous situations to assist the driver in preventing collisions before they happen. Additionally, it assists with the driver's acceleration, brake pedal, and steering wheel operations to enable stress-free driving under a wide range of road conditions.

01 Highway Driving Assist 2

Helps maintain a safe distance on the highway from the vehicle in front, steering the vehicle so it remains centered within its lane even on the curved sections of the road at a speed preset by the driver. When driving above a certain speed, you can automatically change lanes by holding the steering wheel and moving the turn signal switch in the direction of the lane you want to change to.

02 Remote Smart Parking Assist 2(including parking compartment line recognition and diagonal parking)

It assists the driver in parking the vehicle by allowing them to remotely drive and reverse using the smart key from outside the vehicle. It uses the vehicle's sensors to find a parking space and automatically assists with steering, acceleration, deceleration, and gear shifting while parking. Additionally, it automatically brakes if it detects an object in the path. Compared to previous versions, parking accuracy and remote forward/reverse performance have been improved, and diagonal parking has been added.

03 Rear Collision Avoidance Assist

An alarm sounds when there is a risk of collision with a vehicle approaching from the rear when changing lanes or while backing out of a parking space. If the risk persists, the brakes are activated automatically.

04 Lane Keeping Assist

An alarm sounds if the vehicle deviates from its lane without the turn signal being activated when driving above a certain speed. Additionally, it automatically assists with steering to prevent lane departure immediately prior to unintended lane changes.

05 Rear Cross-Traffic Collision Avoidance Assist

Monitors areas to the left and right when the vehicle is in reverse and alerts the driver of any approaching traffic on either side. The brakes activate automatically, if necessary, to avoid an impending collision.

06 Navigation-based Smart Cruise Control

When driving on highways, the Cruise Control helps you drive at a safe speed based on road conditions, automatically slowing down before entering a safe driving zone, curved section of road or ramp. Then, once you've passed through associated stretch of road, it returns to the speed you originally set.

* Advanced driver assistance systems are intended to assist the driver in performing operations, so always drive cautiously.
 * Depending on the surrounding environment and driving as well as operating conditions, functions may not operate smoothly.
 Refer to the owner's manual for details.
 * The above specification configuration varies depending on trim, powertrain and optional equipment.

GENESIS BLACK

Just as everything was created out of darkness, black signifies the color of the purest source and another beginning for Genesis. For it is the most delicate and mysterious color, it took more time and challenge to achieve the flawless Black, and, in its pure blackness, the essence of the Genesis design became more apparent. Enjoy the unique experience Genesis Black has to offer in every part of the vehicle inside and out.

SPECIFICATIONS

* Unit: mm

Maintain constant speeds for driving efficiency. | Fuel efficiency figures are for standard mode. Actual figures may vary depending on factors such as road conditions, driving patterns, vehicle load, ambient temperature, and maintenance status. | Vehicles portrayed in this publication may have optional features and differ from actual vehicles purchased. | Options, colors, and specifications shown in this publication may change to improve the appearance and performance of the vehicle. | For detailed information and notes on the specifications, please refer to the user’s manual. | Engine performance figures are net values. Net values are based on a new measuring system legally imposed by the Korean Ministry of Transportation since 1997 that takes into account the resistance of exhaust gases, which may lead to a slight decrease from conventional gross output figures. | Leather seats make partial use of artificial leather. | The vehicle colors printed in this brochure may differ from the actual colors. | GENESIS is sold exclusively through regional branches, official distributors, and certified car masters to ensure reliable product quality and pricing nationwide. | Use of engine oil or fuel that is of low quality may result in damage to the vehicle. | For more information on new technology and new specifications presented in this publication, please refer to the user’s manual. | This publication shows top models and options to help customers’ understanding. | Options apply differently according to the trim, package, power train, and exterior color selected. Please refer to the monthly price list for detailed specifications for each model.
