

GENESIS GV60

ABOUT GENESIS

WELCOME TO GENESIS

We understand your time is precious, so we have rewritten every detail of owning a luxury car, to make owning a Genesis as simple as possible. We believe simplicity is the ultimate sophistication.

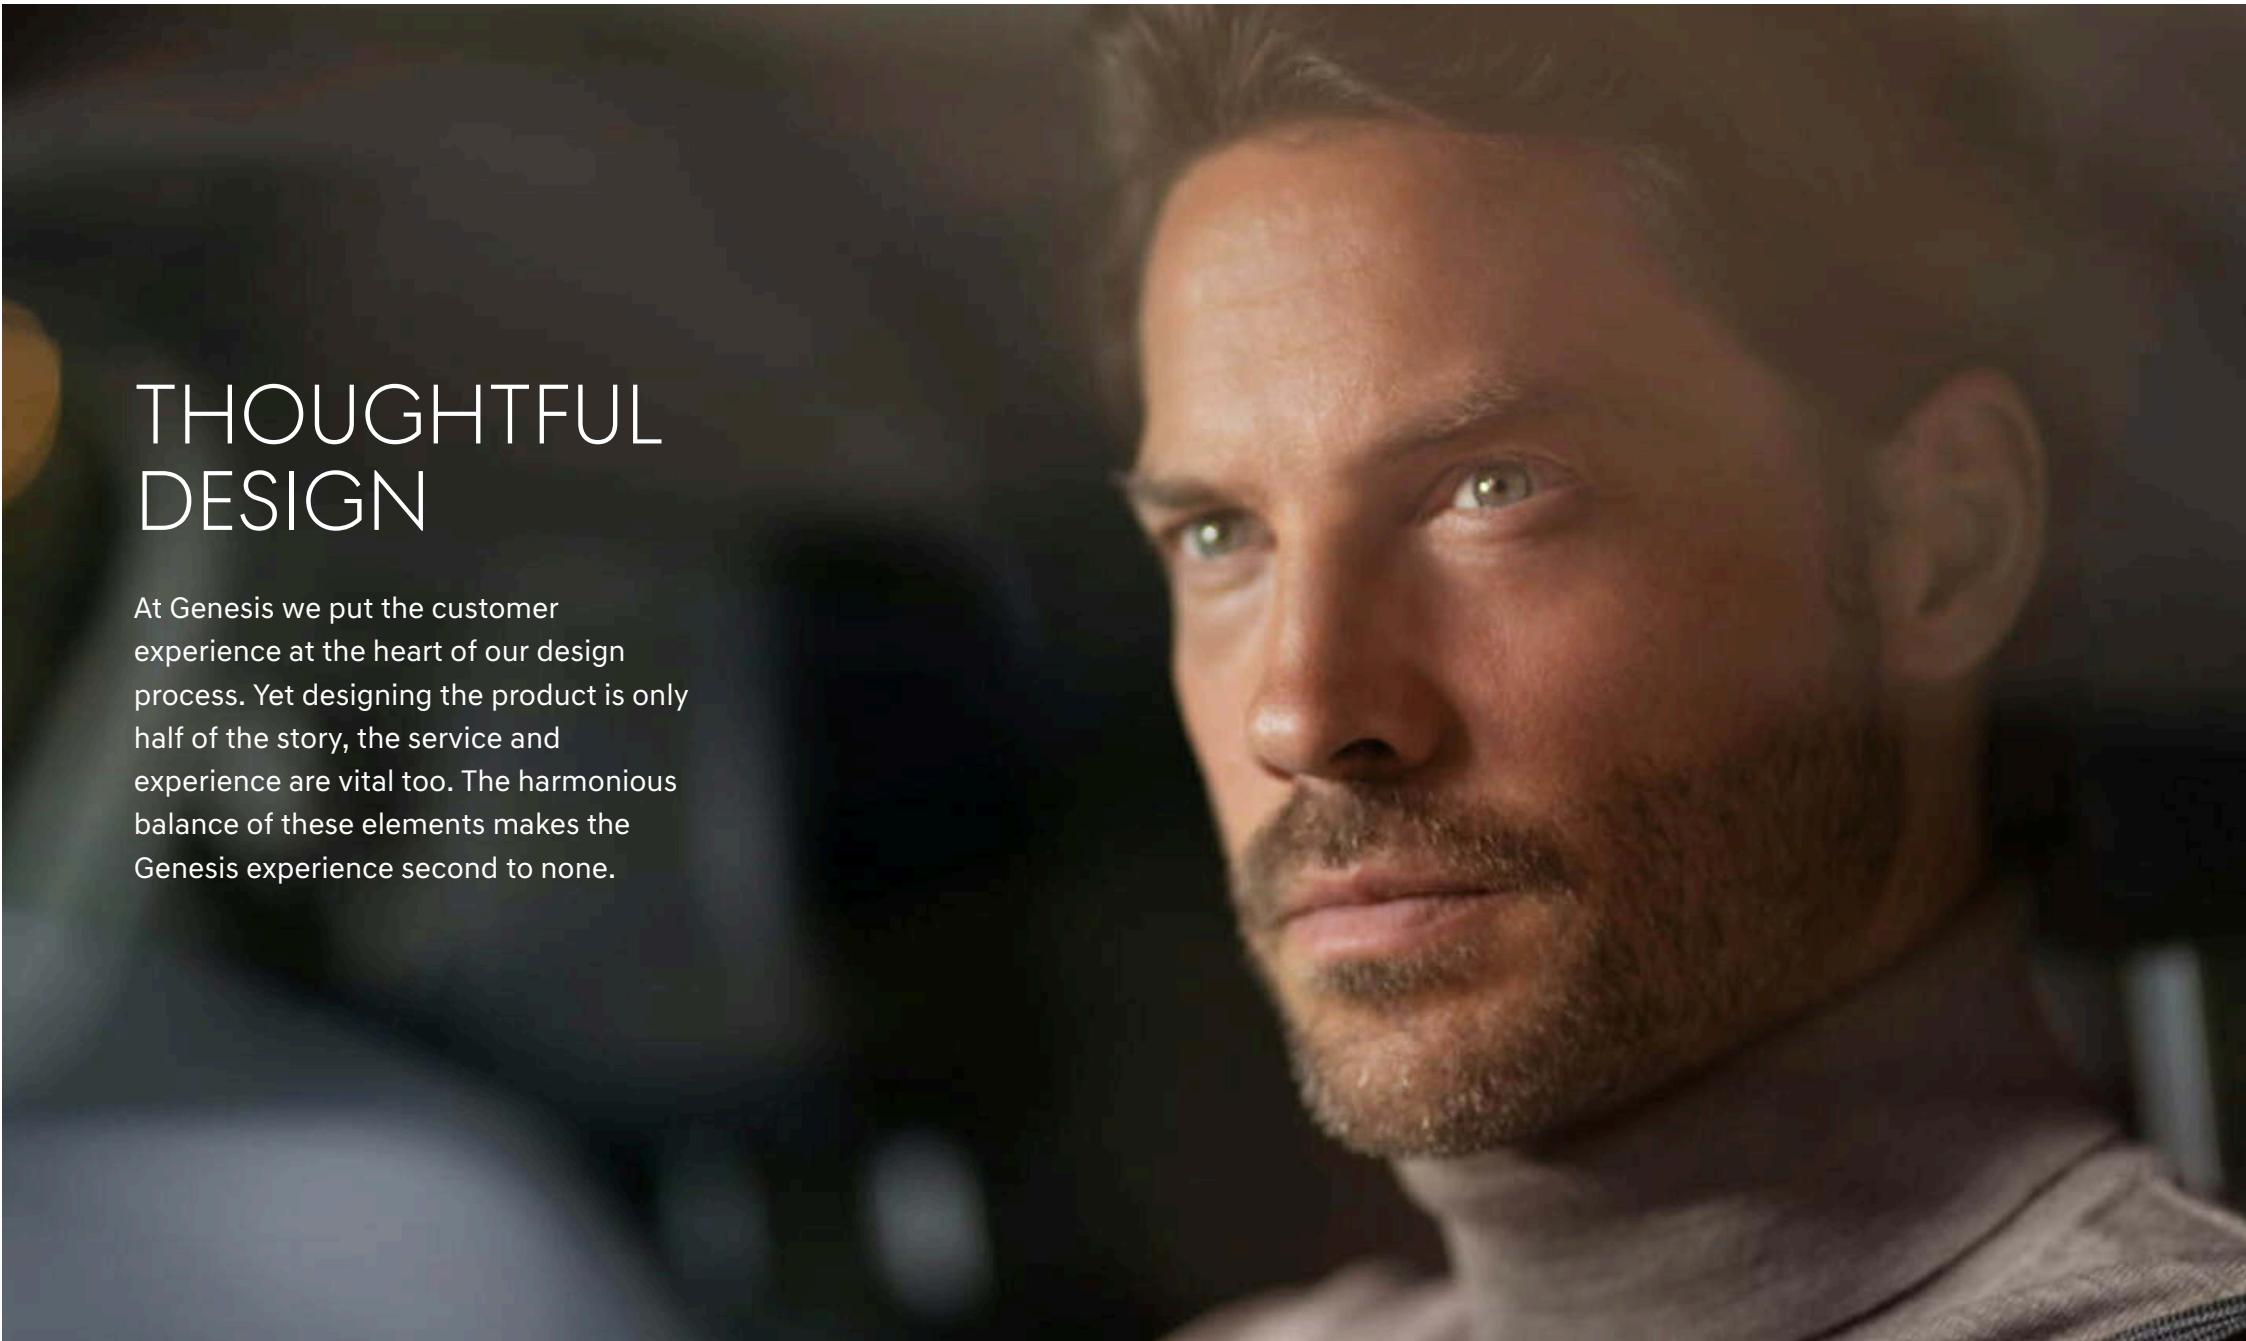

LET US TAKE CARE OF YOU

We consider our customers to be our guests, which comes from the Korean principle of son-nim 손님. From the moment we deliver your test drive car to your home, to the feeling of calmness sitting in your new Genesis, we want you to feel at ease.

THOUGHTFUL DESIGN

At Genesis we put the customer experience at the heart of our design process. Yet designing the product is only half of the story, the service and experience are vital too. The harmonious balance of these elements makes the Genesis experience second to none.

THE BEAUTY OF EAST MEETS WEST

Korea is renowned as a country of contrasts. Genesis embraces this contrast. Outside the form is athletic and elegant, reminiscent of classic European designs. Inside our cars the latest technology is blended with traditional craftsmanship to give a distinctly Korean softness and harmony.

DISTINGUISHED BY DESIGN

THE GENESIS HALLMARK

The Genesis winged emblem combines the Crest Grille shape in its body, with the wings forming the two lines represented in our iconic light design.

UNMISTAKABLE PRESENCE

You can always spot a Genesis by the distinctive parallel lines formed by the front and rear lights. These two lines of light are all it takes to stand out.

ELEGANT SOPHISTICATION

Designed to look fast while standing still, the dynamic parabolic waistline defines a Genesis. It describes the "athletic elegance" that gives all our models their dynamic stance.

GENESIS EMBLEM

Our winged emblem combines the iconic elements of the Crest Grille and Two Lines design.

GENESIS DESIGN AT A GLANCE

CREST GRILLE

The Genesis signature Crest Grille is inspired by the emblem's crest, emphasizing the distinct identity of Genesis.

QUAD LAMPS

The Quad lights are inspired by the wings of the emblem. When viewed from the side, the iconic two lines clearly display the Genesis identity whether day or night.

PARABOLIC LINE

A single line defines the side. We call this the Parabolic line and perfectly highlights the reductive design that elevates the purity of the Athletic Elegance design philosophy.

BEAUTY OF WHITE SPACE

Inspired by Korean architecture, "The Beauty of White Space" defines our interior design, harmoniously balancing personal space and state of the art technology.

THE GENESIS
DIFFERENCE

THE GENESIS DIFFERENCE: MORE THAN A CAR. A SIMPLER WAY OF LIFE.

GENESIS PERSONAL ASSISTANCE

Genesis Personal Assistants are there for you – every step of your personal Genesis journey. Completely attuned to your needs, we will guide and support you to make the experience as pleasant and convenient as possible. And most importantly, we'll also save you time by coming to you – for a test drive, for your car delivery or for anything else you may need.

GENESIS 5 YEAR CARE PLAN

Included in the price of your new car is the Genesis 5 Year Care Plan¹ - a comprehensive package for a seamless ownership experience.

5 yrs warranty

5 yrs scheduled servicing

5 yrs roadside assistance

5 yrs access to courtesy cars

5 yrs navigation and software updates

¹ 5 Year Care Plan T&Cs apply.

TRANSPARENT PRICING & TAILORED FINANCE

We don't consider searching out the best offer for hours to be time well spent. That's why the price of a Genesis is always the same. Forget stressful negotiations. All you need to do is decide on a model and the desired specifications. Not quite ready to commit? Then explore our a range of finance options. With a variety of concepts including our Genesis Flexibility subscription plan, we make it easy to drive a Genesis without owning one.

GENESIS MEMBERS. JOIN A LIKE-MINDED COMMUNITY

As part of the Genesis community, you can enjoy a range of exclusive social and automotive experiences. These include priority access to inspiring events and exhibitions.

WE COME TO YOU

A core principle of the Genesis Difference is "we come to you" - not the other way around. With at-home test drive² new car delivery, and collection and delivery for scheduled servicing and warranty³.

² UK Mainland, subject to availability, location and insurance criteria. ³ UK mainland only.

GENESIS GV60

GV60 DESIGN

THE NEW ELECTRIC
VEHICLE STANDARD

EXTERIOR

FRONT DESIGN

From the front you notice the distinctive clamshell bonnet above the iconic Genesis quad lamps and crest grille. The lights form the distinctive two-line design that distinguishes all Genesis models. The GV60's crest grille sits wider and lower to emphasise its dynamic performance.

REAR DESIGN

The GV60's silhouette is streamlined from the bonnet to the distinctive rear spoiler. The bold rear fender and wheel arches shape create a purposeful stance that emphasises the vehicle's performance. The finishing touch is the continuation of the two-line design through the rear lights.

SIDE PROFILE

From the side the body is sleek and smooth. The wheels are placed to the corners of the GV60, planting it to the ground, enhancing its athletic profile. There are subtle details everywhere, like the distinctive V shape in the chrome Day Light Opening (DLO). Called the 'Volt', it symbolises electricity and energy and is unique to the all-electric GV60.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

EXTERIOR

CLAMSHELL BONNET

The GV60 is the first Genesis to feature a clamshell bonnet. This single-panel design removes the gap between the bonnet and front fenders to increase aerodynamic efficiency.

GENESIS EMBLEM

The emblem embodies the philosophy of Genesis, combining performance with luxury. The logo is finished with a detailed Guilloche pattern¹ - this kind of finishing is typical for high end luxury watches.

DIGITAL EXTERIOR MIRROR

The GV60's sleekness is accentuated by the digital side mirrors that are both aerodynamic and high tech. Compared to traditional mirrors they reduce drag and noise, and give the driver a clearer view.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.¹ A decorative technique in which a very precise, intricate and repetitive pattern is mechanically engraved.

EXTERIOR

HIDDEN EXTERIOR DOOR HANDLES

The handles sit flush with the door to keep the body panels as smooth as possible. They automatically pop up when the driver either approaches with their smart key or touches the handle.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

INTERIOR

INTERIOR

Thanks to the unique electric vehicle layout, the GV60 has a flat floor and spacious cabin that makes the interior feel light and calm. The interior is the perfect example of our 'Beauty of White Space' design ethos. This sense of space is further enhanced by the use of unique "floating" architecture.

CRYSTAL SPHERE

The Crystal Sphere is not only distinctive but also a physical connection between the driver and the GV60. When the GV60 is turned off, the Crystal Sphere is part of the mood lighting, enhancing the interior ambience. When the car is ready to drive the sphere rotates 180° to reveal the Shift By Wire controller.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

INTERIOR DETAILS

FLOATING CONSOLE

To further increase the sense of openness, the "floating" console, housing the Crystal Sphere, is designed to appear as if hovering in the air.

NEXT GENERATION INFOTAINMENT SYSTEM

The connected car Integrated Cockpit connects the dashboard instruments and navigation into a panoramic display. This makes it easier for the driver to quickly see important information at a glance.

ECO-FRIENDLY AND RECYCLED MATERIALS

Eco-friendly materials make the GV60 more sustainable. The fabric we use is made of up to 15% recycled PET and nylon yarn and up to 15% of our eco-friendly leather is made from polymers extracted from natural products such as corn.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

GV60 SAFTEY

SAFETY WITHOUT
COMPROMISE

SAFETY

SAFETY FEATURES

To make driving easier, safer and less stressful, the GV60 uses intelligent hazard-avoiding innovations including autonomous driving technology.

[DOWNLOAD RESCUE SHEET](#)

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

DRIVING TECHNOLOGY

DIGITAL SIDE MIRRORS

The digital side mirrors are connected to the camera and OLED monitor system to provide a wide, crystal-clear view of the rear of the vehicle. The driver's view can be enhanced with features including 'Lane Change Assist Line Display' and 'Reverse Parking Screen Magnification'.

DRIVING TECHNOLOGY

HIGHWAY DRIVING ASSIST

This feature helps to keep a safe distance and speed from the car in front, using the front view camera, radar sensors and navigation data. Lane Changing Assist is also included to help change lanes automatically (over a certain speed), simply by holding the steering wheel and moving the indicator stalk.

NAVIGATION-BASED SMART CRUISE CONTROL

The GV60 uses navigation data to analyse the road ahead and check that your cruising speed is appropriate. Say there is a sharp bend up ahead, to keep your speed within safe limits it will automatically decelerate, reaccelerating once it is safe to do so.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

SAFE DRIVING FEATURES

FORWARD COLLISION-AVOIDANCE ASSIST

This system is designed to detect potential hazards like pedestrians, cyclists, and vehicles. It assists the driver's steering and will apply the brakes to avoid incidents. The GV60 will also automatically apply the brakes if a side hazard is detected at an intersection.

BLIND-SPOT COLLISION-AVOIDANCE ASSIST

This system is designed to detect unseen hazards in your rear blind spot when changing lanes or leaving a parallel parking space. For leaving the parking you can select whether the system either alerts you or alerts you and then automatically applies the brakes if an incident is imminent.

BLIND-SPOT VIEW MONITOR

To increase safety when the driver indicates to turn left or right, an additional view of the GV60's blind spot is shown on the main dash display.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

SAFE DRIVING FEATURES

MULTI-COLLISION BRAKE

This feature is to prevent secondary accidents. If the airbags deploy after an impact, the system immediately checks whether the brakes are being used and if not, applies them.

REAR-CROSS TRAFFIC COLLISION-AVOIDANCE ASSIST

When reversing, sensors alert the driver to potential hazards on both sides. If no action is taken by the driver, the system automatically assists by braking.

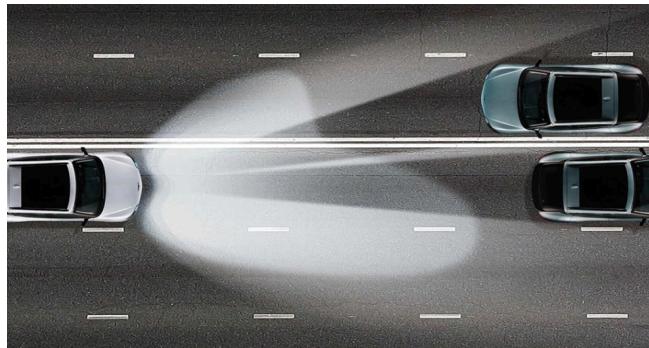

REAR GUIDE LAMPS

To alert other vehicles and pedestrians when reversing, the LED rear guide lamps project onto the road for increased presence.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

SAFE DRIVING FEATURES

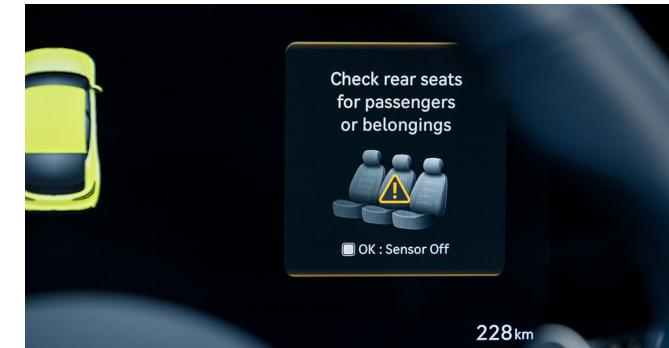

INTELLIGENT FRONT LIGHTING SYSTEM

The GV60's individually-controlled headlight LEDs can be brightened or dimmed as required. The driver can now use high beams without the risk of dazzling either oncoming vehicles or vehicles ahead.

SAFE EXIT ASSIST

If the GV60 is stopped and it detects a vehicle approaching from the rear, the rear door is automatically locked.

REAR OCCUPANT ALERT

To prevent infants or animals being left in the vehicle, the system uses radar to detect minute movements and alerts you before you leave the vehicle.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

PARKING ASSISTANCE

REMOTE SMART PARKING ASSIST

This system lets you remotely park in, or leave, a tight space simply by pressing the button on the key fob. Activated from outside the vehicle, it works for both parallel and perpendicular parking.

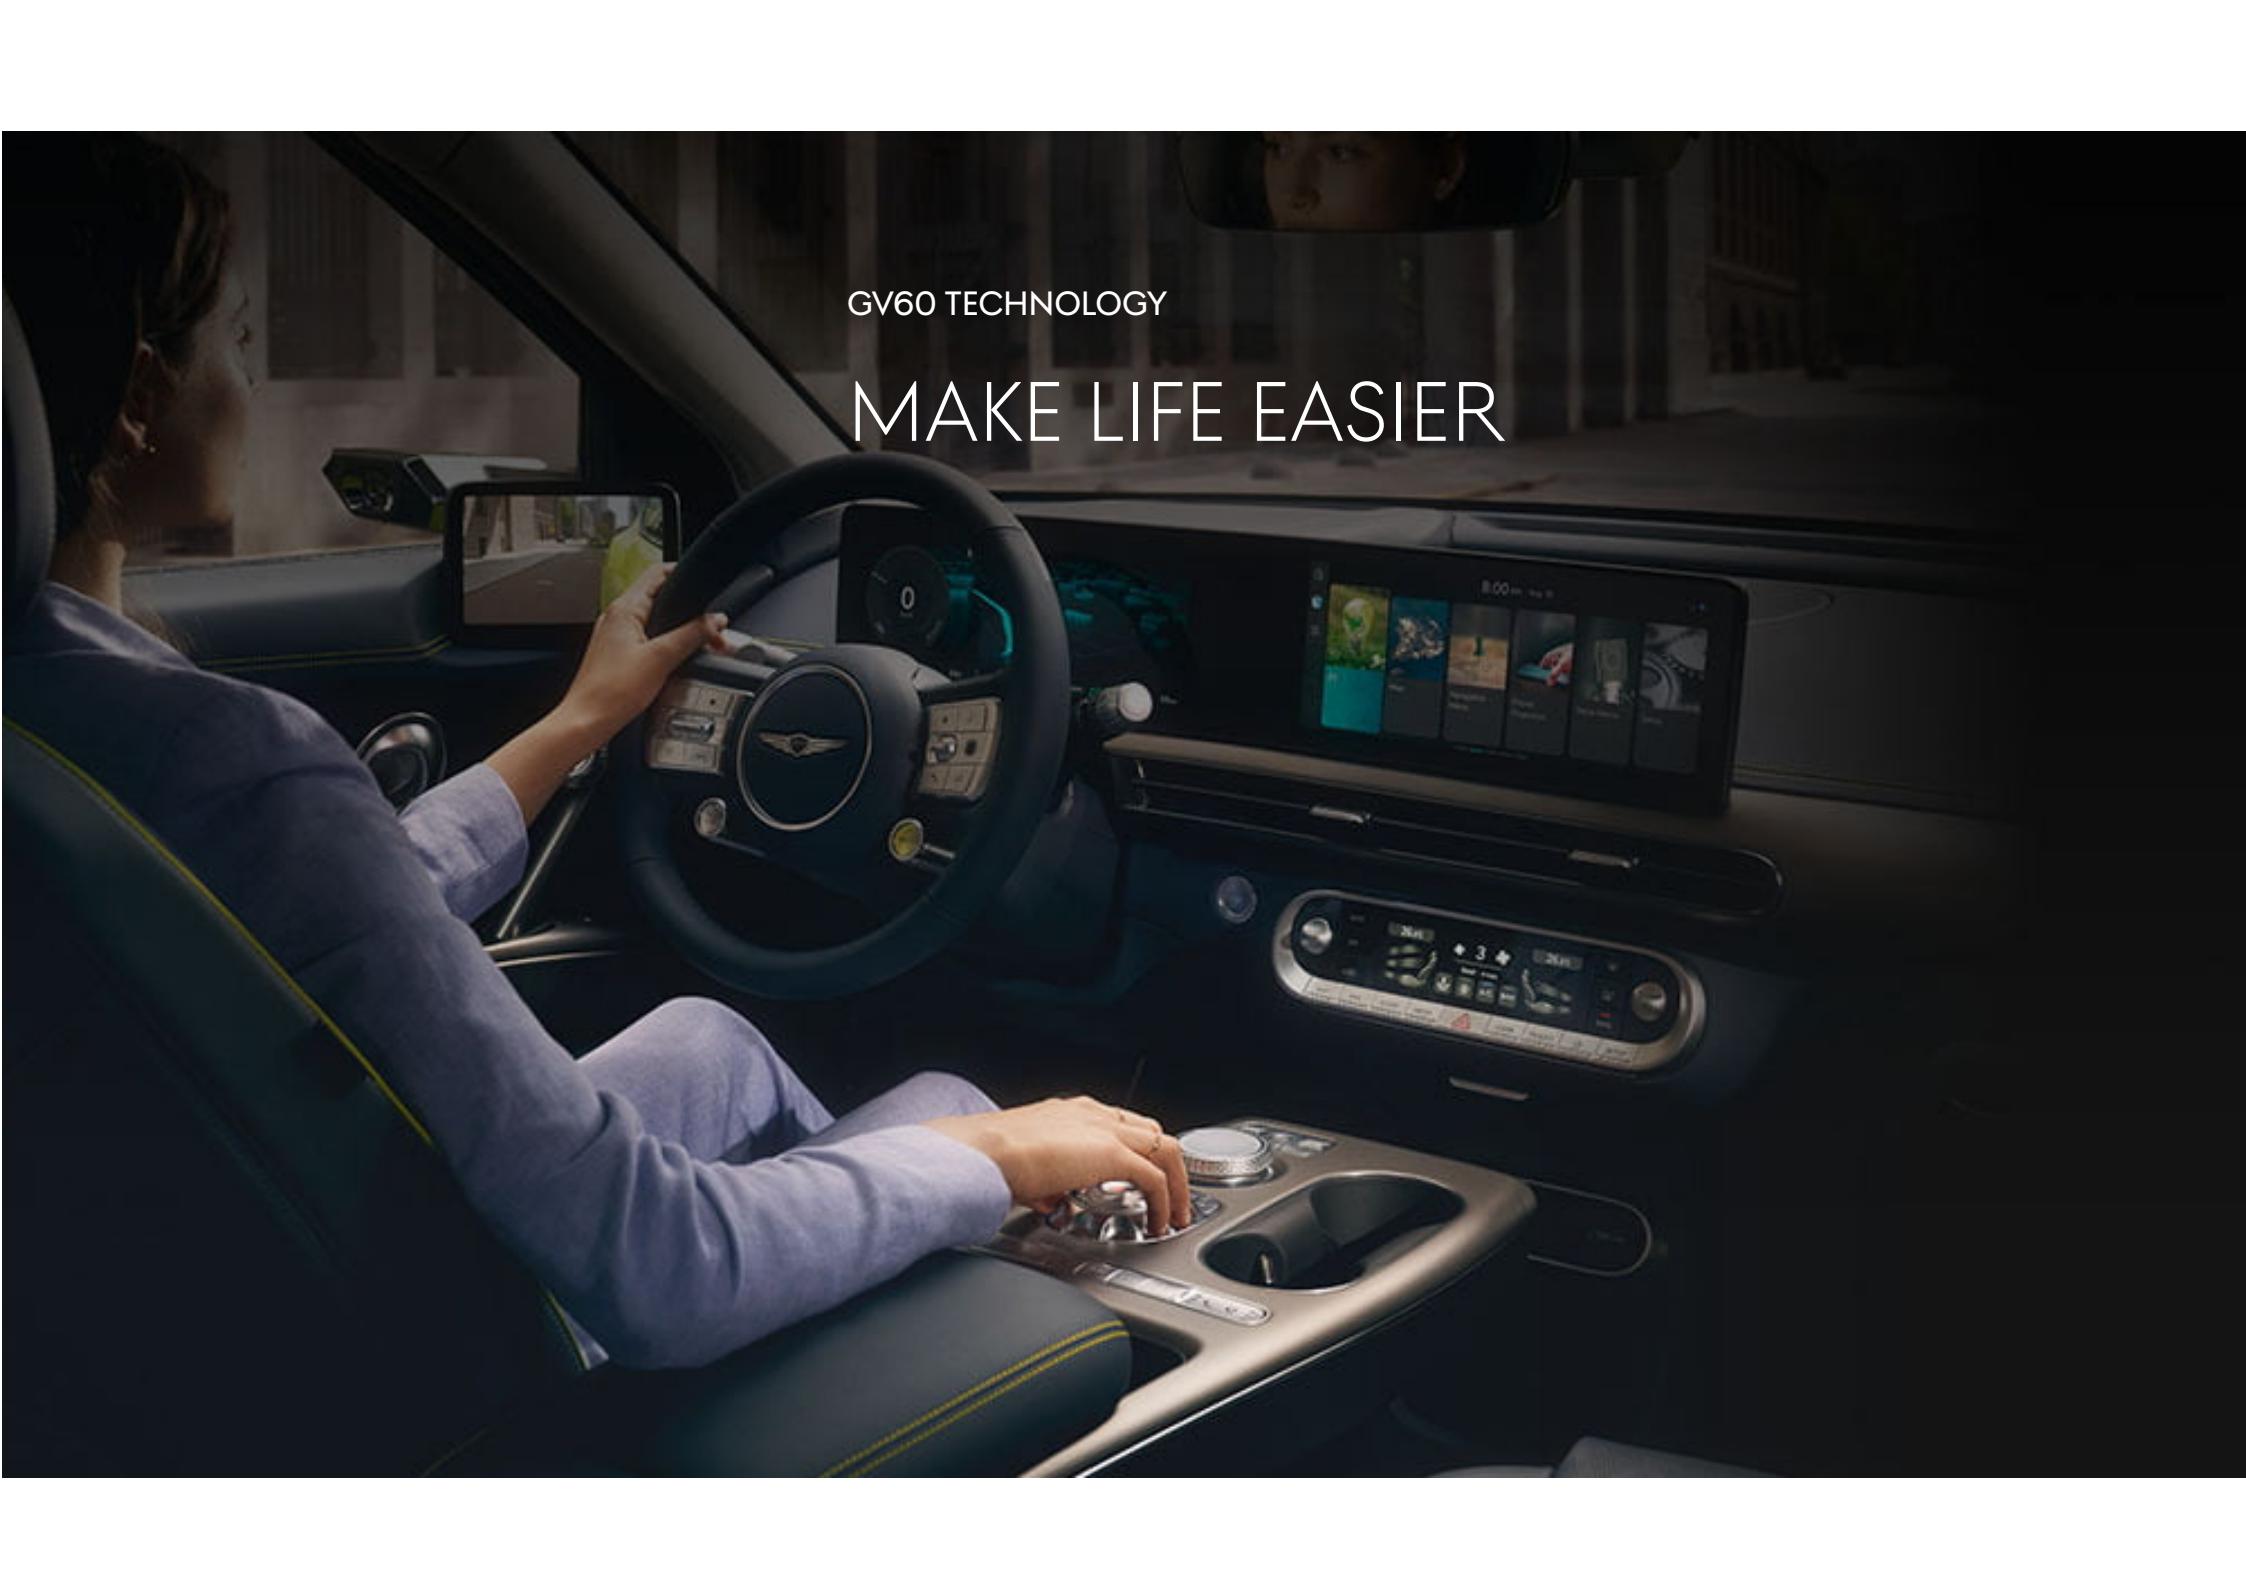

SURROUND VIEW MONITOR

The driver has a 360-degree view around the GV60 thanks to cameras on each corner. This makes it easier and safer to park in (and leave) tight spaces.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

A woman is driving a Genesis GV60 electric SUV at night. The interior is illuminated by the car's own lights, showing a modern dashboard with a digital instrument cluster and a large infotainment screen displaying various apps and information. The steering wheel has the Genesis logo in the center. The center console features a rotary dial and a small display screen. The woman is wearing a light blue shirt and is focused on the road ahead.

GV60 TECHNOLOGY

MAKE LIFE EASIER

TECHNOLOGY

DRIVER-FIRST TECHNOLOGY

The GV60 features the latest innovations for drivers. The vehicle's interactive technology lets you effortlessly enjoy a more comfortable experience, with infotainment and connected car services uniquely designed for these state-of-the-art electric vehicles.

PERSONALISED FEATURES

FINGERPRINT AUTHENTICATION SYSTEM

With just your fingerprint you can recall your individual settings such as seat position, phone contacts, navigation points and even speaker volume.

OVER-THE-AIR SOFTWARE UPDATE

The software update ensures the GV60 is always up to date with the latest features without visiting a service center. This technology works on major electronic devices including the electric vehicle integrated control device, suspension, brakes, steering wheel, Advanced Driver Assistance Systems, instruments, navigation and infotainment system.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

INFOTAINMENT FEATURES

NEXT-GENERATION INFOTAINMENT SYSTEM

The GV60 is the first Genesis to feature Connected Car Integrated Cockpit, the next-generation infotainment system that provides ultimate convenience and usability. Connected Car Integrated Cockpit seamlessly links the instrument dash and navigation screen into a panoramic display that shares all content with the Head-Up-Display.

SOUND SYSTEM

BANG & OLUFSEN 17-SPEAKER SYSTEM

A premium 17-speaker Bang & Olufsen sound system has been custom-designed for the GV60 to provide a subtle but rich, high-quality sound. With a tap of the finger, using Bang & Olufsen's dedicated sound control interface, drivers and passengers can choose a sound mix to create specific atmospheres covering four 'moods' (Relax, Energetic, Bright, and Warm).¹

The Bang & Olufsen sound system, also provides a comfortable ride thanks to the Active Road Noise Cancellation.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time. ¹ Available when selecting Bang & Olufsen Sound System.

ENVIRONMENTAL COMFORT

FRONT PASSENGER SEAT DOOR HANDLE DIFFUSER

To keep the interior environment refreshing there is a membrane-type air diffuser subtly fitted in the passenger door handle.

2-ZONE AUTOMATIC AIR CONDITIONING

To keep the interior comfortable in all conditions, the air conditioning system controls individual temperature for front passengers and separate air vents for the rear, and prevents outside air coming in.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

PASSENGER COMFORT

DRIVER'S ERGO MOTION SEAT

The ergonomic seat system uses inbuilt air-cells to massage the driver gently. This effectively reduces tiredness and discomfort on long journeys.

FRONT RELAXATION COMFORT SEATS

The Relaxation Comfort seats recline to a supportive stress-relieving position. This feature helps the driver and front passenger to comfortably relax while charging or when the vehicle is parked.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

MAXIMISING SPACE

REAR PASSENGER SEATS

Thanks to the unique electric vehicle platform, the GV60 has ample interior space. This means the rear seats can have a reclining feature whilst still usefully folding 60:40 for more carrying capacity.

SMART POWER TAILGATE

The smart power tailgate recognises the Digital Key and opens automatically. The driver can customise the opening speed and height for additional convenience. For extra security while unloading, the tailgate auto-closes when the Digital Key leaves the area.

MULTI-FOLDING LUGGAGE BOARD

Beneath the luggage area is a second "hidden" floor for your charging cables which also has space for storing small items out of view.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

GV60 CHARGING

CONNECTED
TECHNOLOGY

SIMPLE TO USE

CHARGER COMPATIBILITY

The GV60 has the most up-to-date technology and is compatible with standard chargers, fast chargers, and super-fastchargers.

ELECTRONIC POWER CHARGING DOOR

Every detail has been considered to make the switch to electric vehicle effortless, even the electronic power charging door. The smooth-opening door reveals an eight-level battery charge indicator. The door itself can be operated manually, as well as with a smart key, Genesis Connected Services app, and AVN voice recognition.

FAST AND STANDARD CHARGING

When fast charging at 240 kW with the ultra-speed charging function, the battery can be charged from 10% to 80% in just 18 minutes.¹ To optimise charging time at a normal AC public charger or wallbox at home the GV60 is charging at 11 kW.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time. ¹18 minute charge is based on 800V from ultra-fast charger (240kW).

CHARGING SYSTEM AND VEHICLE-TO-LOAD

STANDARD & MULTI-CHARGING SYSTEM

The 400V/800V architecture enables the GV60 to be compatible with standard chargers, fast chargers, and super fast chargers.

OUTDOOR VEHICLE-TO-LOAD CONNECTOR

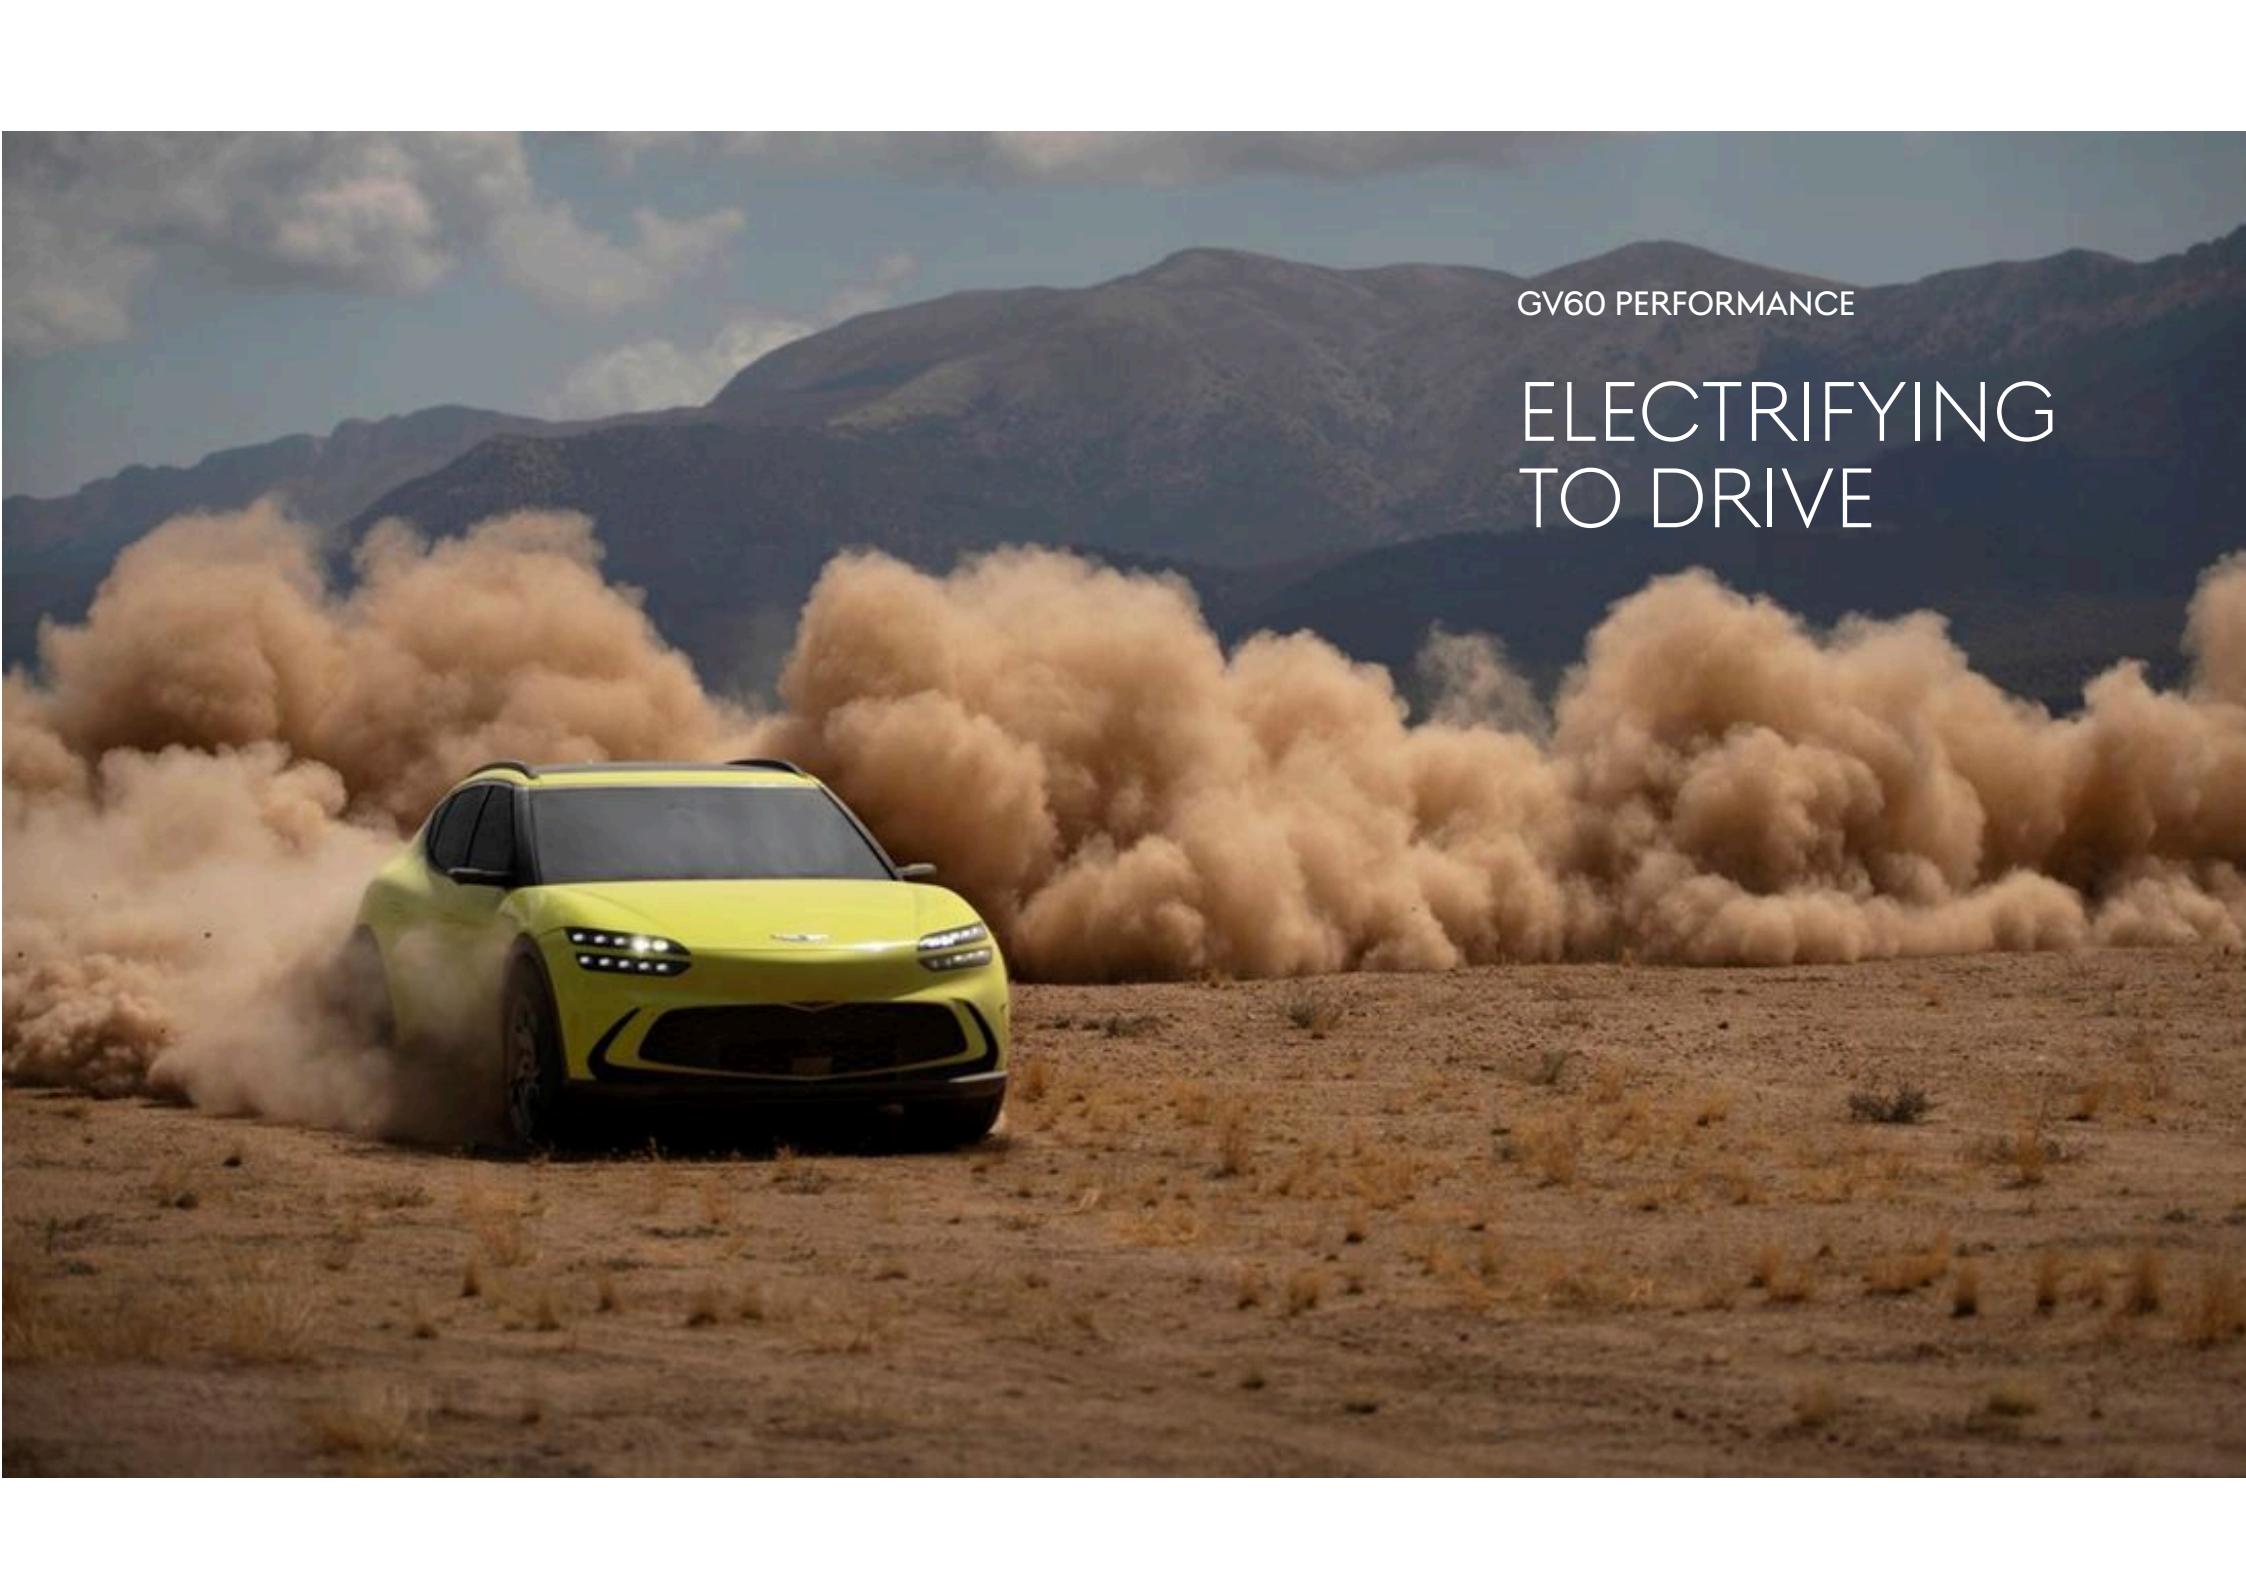

With the GV60's Vehicle-to-Load feature it is possible to easily use 240V electric appliances outside the vehicle.

BATTERY CONDITIONING

Controlled through the infotainment system, battery conditioning technology improves battery performance for shorter charging time and increased range. When the battery temperature is low, it will preheat the battery to ensure better performance. It also adjusts the battery temperature to ensure the shortest amount of charging time required.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

GV60 PERFORMANCE

ELECTRIFYING
TO DRIVE

DRIVING PERFORMANCE

BOOST MODE

The GV60 Sport Plus comes with a Boost Mode to give it a more dynamic and luxurious element. The mode immediately increases the performance of the vehicle's maximum output, making the driving experience more dynamic.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time. The Genesis GV60 is shown here on a closed track with a professional driver. Please do not imitate.

DRIVING PERFORMANCE

PERFORMANCE

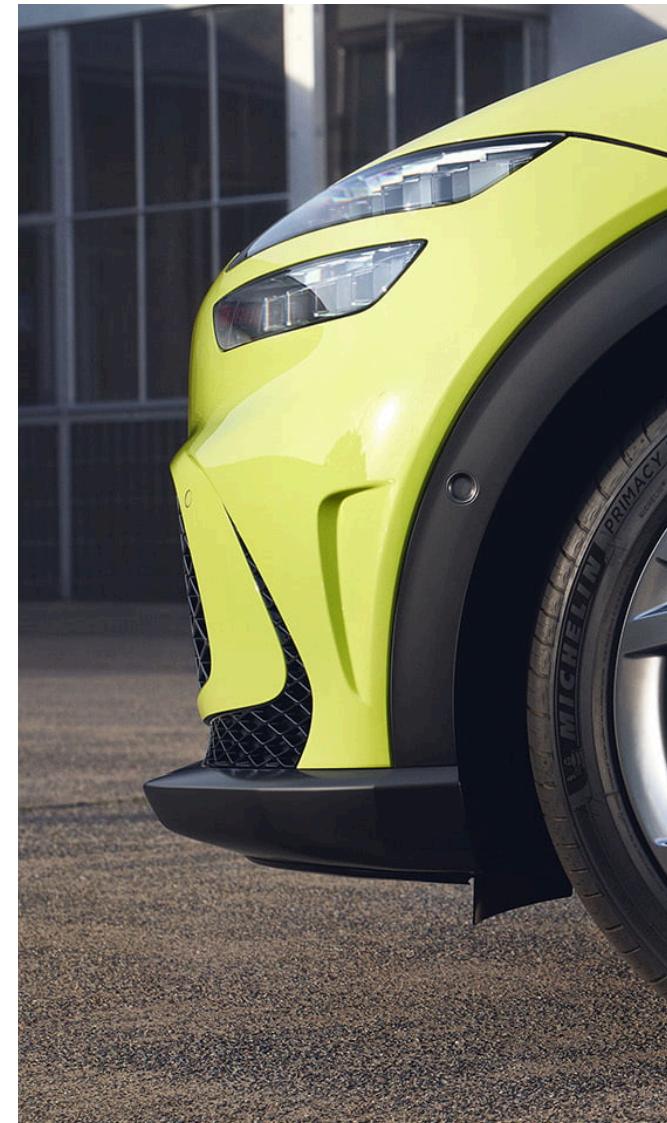

There are no compromises with the GV60 driving experience. Thanks to the latest technology, the calm, luxurious interior belies the dynamic performance and precise handling.

ELECTRONIC LIMITED-SLIP DIFFERENTIAL¹

The torque vectoring system sends the optimal amount of torque to the wheels to maximise grip when starting off or cornering. Additionally E-LSD is built for stable performance and control on slippery roads or in snowy or rainy weather.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time. ¹ Electronic limited-Slip differential is only available on Sport-Plus.

DRIVING TECHNOLOGY

ROAD ACTIVE NOISE CONTROL¹

On long journeys, driving noise from the tyres on the road can be tiring. To overcome this, the technology creates sound waves that are out-of-phase with the road noise. This effectively cancels out the road noise, keeping the interior quieter and the driver more alert.¹

ELECTRIC ACTIVE SOUND DESIGN

To enhance the driving experience, the unique e-ASD system creates virtual engine noises. Genesis sound designers created three distinctive voices for the GV60: 'Futuristic' symbolizes the direction of future mobility; 'G-Engine' is a soft, sporty sound based on engine noises; and 'E-Motor' reimagines the vehicle's motor sounds. Their volume and responsiveness can be customised to the driver's preference.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.¹ Specifications may vary depending on model and/or country. Road Active Noise Cancellation available only with Bang & Olufsen audio system.

DRIVING TECHNOLOGY

REGENERATIVE BRAKING CONTROL PADDLE SHIFT

This feature enables the customer to use the so called i-Pedal to accelerate/decelerate and stop using only the accelerator pedal.

PREVIEW ELECTRONIC CONTROL SUSPENSION

For optimum passenger comfort the GV60 features Preview-ECS. This system uses information from the front camera and navigation system to recognize potential bumps and potholes, like speed bumps, then adjust the suspension accordingly.

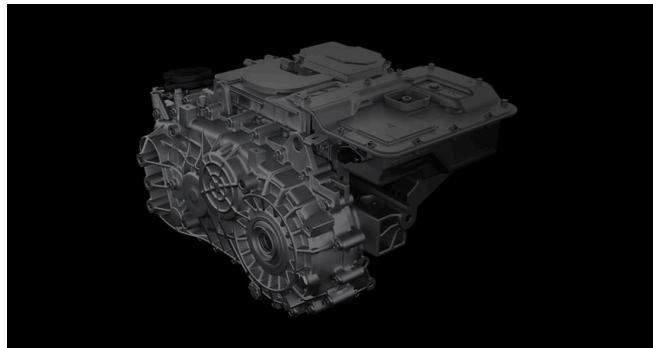

INTEGRATED DRIVE MODE

Depending on traffic and road conditions, the driver can choose the most suitable drive mode. Options include 'Comfort' for a smooth ride, 'Sport' for better acceleration performance, or 'Eco' for more efficiency.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

ELECTRIC POWERTRAIN

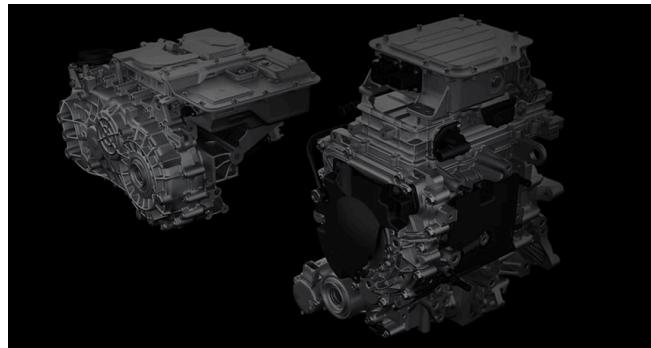

GV60 PREMIUM1

Max. power 168 kW / 226 bhp single motor rear-wheel drive

Max. torque 350 Nm

For long-range efficiency, the Premium model has single motor rear-wheel drive providing up to 321 miles combined range (WLTP).

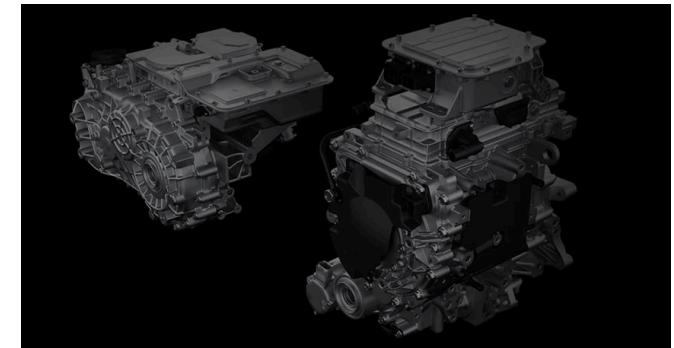

GV60 SPORT2

Max. Power 234 kW / 314 bhp dual motor all-wheel drive

Max. Torque 605 Nm

For all-condition confidence without compromise, the Sport's all-wheel drive motor, reducer, and inverter are integrated to minimise the size and reduce weight.

GV60 SPORT PLUS3

Max. Power 360 kW / 483 bhp dual motor all-wheel drive

Max. Torque 700 Nm

The high-performance Sport Plus features boost mode, to take you from 0-60mph in just 4 seconds.

The technical features and trims of the described or depicted vehicles throughout in this brochure and our website are examples only. They may not be standard or available for all engines styles, may vary in specific countries and are subject to change at any time.

¹ Electric energy consumption for the Genesis GV60 Premium 168kW (226 bhp) (combined according to WLTP): 17,0 kWh/100km; CO₂ emissions (combined according to WLTP): 0 g/km; Electric Range (combined according to WLTP): 321 miles (based on a full charge)*.

² Electric energy consumption for the Genesis GV60 Sport 160kW RR + 74kW FF (314 bhp) (combined according to WLTP): 18,8 kWh/100km; CO₂ emissions (combined according to WLTP): 0 g/km; Electric Range (combined according to WLTP): 292 miles (based on a full charge)*.

³ Electric energy consumption for the Genesis GV60 Sport Plus 180kW RR + 180kW FF (483 bhp) (combined according to WLTP): 19,1 kWh/100km; CO₂ emissions (combined according to WLTP): 0 g/km; Electric Range (combined according to WLTP): 289 miles (based on a full charge)*.

*The values are based on the Worldwide Harmonised Light Vehicles Test Procedure (WLTP). Further information on the WLTP measurement procedure can be found at <https://www.genesis.com/uk/en/wltp.html>.
