

2021 GENESIS FULL LINE

GENESIS

WELCOME TO GENESIS.

In just a few short years, Genesis has transformed the level of design, innovation and safety you can expect from a luxury vehicle – all while setting new benchmarks for quality.

What started with the Genesis G90 has now grown to include two more acclaimed luxury sedans, the G70 and G80. And this year, we introduced our first-ever luxury SUV, the GV80.

Beyond these highly refined automobiles is an equally exceptional level of service and support, driven by innovations that are transforming the very idea of personal mobility.

GENESIS

GV80

G70

G80

G90

QUALITY BY DESIGN.

From the first impressions a vehicle makes to the satisfaction it delivers over time, J.D. Power Awards are the automotive industry's leading benchmark for measuring quality.

According to J.D. Power, Genesis was the #1 Ranked Premium Brand for Long-Term Quality in 2020. And for the fourth year in a row, Genesis was the #1 Ranked Premium Brand in Initial Quality in the U.S. for 2020.¹

Our focus on creating the world's best vehicles is matched by a desire to offer equally exceptional customer conveniences. We refer to them as the Genesis Experience. And we invite you to experience what Genesis luxury is all about.

CAPABILITY X DESIGN

GV80

Going beyond the objective of rethinking luxury, the Genesis GV80
ushers in a new era of what a modern luxury SUV should be.

GENESIS GV80

EYES WIDE OPEN.

As a young luxury brand, we look with a sense of wonder at the future, our eyes wide-open to new possibilities. In creating the first Genesis SUV, we wondered, “How comfortable, how capable, and how secure can personal travel be?”

The answers are found in the all-new GV80. Its shape is born of a design language that expresses the essence of Genesis: Boldness taking flight.

It’s an attitude you’ll find throughout the GV80, from the aggressive stance of its exterior design to the intelligent technologies artfully integrated into its sleek, modern interior.

GENESIS GV80

THE NEW FACE OF YOUNG LUXURY.

An SUV unlike any other, the all-new GV80 is where modern meets expressive. Aggressive proportions formed by a long hood and setback cabin combine with the GV80's low, wide design to give it a dynamic stance and potent presence.

The 3.5T's agile handling and astonishingly smooth ride comfort blend with the seamless power of a 375-hp Twin-Turbo V6 channeled through standard All Wheel Drive and an available electronically controlled limited-slip differential.² It's also equipped with a standard Electronically Controlled Suspension that counteracts body roll and pitch by continually adjusting the firmness or softness of its shock absorbers.

Pre-production model with optional features shown

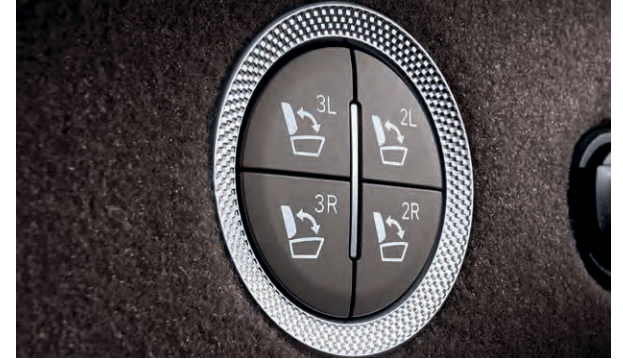

GENESIS GV80

YOUR COMFORT ZONE. AND THEIRS.

Modern luxury is about finding elegant ways to simplify your life. Remote Smart Parking Assist is available to help master the toughest parallel parking spaces.³ Hands full as you approach your GV80? No problem. A power hands-free smart liftgate senses your Proximity Key and opens automatically.⁴

From the driver's seat of a GV80 2.5T or 3.5T Prestige, everything you see and touch brings a sense of pleasure. You're surrounded by the soft, supple look and feel of expertly crafted leather. The heated steering wheel and heated seats offer soothing warmth at the press of a button. Want your seat cooled instead? Smart ventilated seats increase their fan speed as you accelerate, ensuring your comfort keeps pace.

Passengers in the 2nd row won't take a backseat to anyone up front. Heating elements in the available 2nd-row heated seats cover larger areas for extra warmth. Together with available power slide and cushion tilt adjustment, the 2nd row feels first class. With an available 3rd row, the GV80 can seat up to seven in spacious comfort and convenience.

ATHLETICISM X DESIGN

G70

With a commitment to pushing limits, the G70's track-bred DNA gives you the confidence to conquer every corner, on or off the track.

GENESIS G70

REINVENTING THE WHEEL. ALL FOUR, IN FACT.

The true measure of performance isn't raw power. It's how power is harnessed at the point of contact, where the rubber meets the road. Which is why the Genesis G70 is available with an All Wheel Drive system sporting some of the most advanced engineering concepts.

One example: The G70's AWD incorporates a Dynamic Torque Vectoring Control technology that optimizes traction at all four of the available 19" wheel contact patches, improves agility in corners, and adds plenty more carpe to your diem.

GENESIS G70

DRIVING IS ITS OWN REWARD.

In a 2020 J.D. Power survey of vehicle owners, Genesis G70 ranked highest in its segment as the #1 Compact Premium Car in Initial Quality for the second year in a row.⁵

In fact, the Genesis G70's trophy case is flush with awards from the automotive press. But the opinion that matters most to us is yours.

Look at the G70's sleek lines and athletic stance. Take your place in the 3.3T Sport's 16-way power driver seat clad in diamond-quilted Nappa leather. Grip the thick steering wheel, slide the wide sunroof open and let the light fall across the cockpit's luxurious surfaces and textures.

Use the navigation system's floating touchscreen to pinpoint an epic stretch of twisty road. Connect your playlist to the G70's 15-speaker Lexicon® premium audio system via Apple CarPlay® or Android Auto™.⁶ Then put the performance of its engine, suspension and braking to the test. And enjoy the profound feeling of comfort that comes from being in precise control.

GENESIS G70

PRESS THE PEDAL. LEAVE AN IMPRESSION.

In the G70 2.0T, a 2.0L Turbo GDI 4-cylinder engine unleashes 252 hp,² which flows through an 8-speed electronic transmission complete with race-inspired paddle shifters on the steering wheel.

Rev-matching helps ensure engine RPMs are automatically elevated to match the optimum speed of the next gear, resulting in smoother downshifting for peak performance.

Behind the wheel of the G70 3.3T, you'll command 365 hp and 376 lb-ft of torque from a 3.3L Twin-Turbo GDI V6.² Like the 2.0T, it includes Intelligent Drive Mode, which lets you select a driving dynamic (Eco, Comfort, Sport, Smart or Custom) to suit your mood.

The G70 driver can even adjust the engine sound for maximum sonic effect via Active Sound Design technology. Ready to slow things down? An available Brembo® braking system delivers high-performance stopping power.

INTELLIGENCE X DESIGN

G80

Resetting what you can expect from a midsize luxury sedan, the G80 blends athletic styling and performance with the roomiest interior in its class.⁷

Pre-production model with optional features shown

GENESIS G80

EFFORTLESS INTERACTION.

Genesis vehicles create a seamless interplay between you and technologies that make driving as effortless as it is enjoyable. A new Genesis Digital Key is available for unlocking your vehicle by touching your Android™ smartphone or NFC Card Key to the front door handle.⁸

The driver seat, steering wheel, side mirror and audio presets instantly adjust to the preferences stored in your driver profile. You can create multiple driver profiles, securely share your digital key with multiple drivers and even set restrictions like time frames for accessing your vehicle.

Once inside, placing your phone on the center console's available wireless device charger enables the engine's push button start.

GENESIS G80

THE MOST DEPENDABLE MIDSIZE PREMIUM CAR IN THE U.S.

That's not just a headline. It's the conclusion of the 2020 J.D. Power Vehicle Dependability Study,SM a survey after three years of ownership. The Genesis G80 received the lowest rate of reported problems among midsize premium cars.¹

Press the accelerator, and you'll feel the response of your G80's turbocharged engine as you're pressed firmly into the driver's seat. For 2021, power is delivered by two new engines: A 375-hp 3.5L Twin-Turbo V6 and a 300-hp 2.5L Turbo 4-cylinder² – the most potent 4-cylinder engine in its class.⁹ Traction is offered with two options as well: Rear Wheel Drive or an available – and highly advanced – All Wheel Drive.

An electronic 8-speed automatic transmission transfers power to the pavement with quiet precision. Turning the dial in the center console to engage the transmission delights your senses in another way: As you touch the knurled textures engraved around the edge of the dial, shifting from Park into Drive or Reverse changes the dial's illumination.

GENESIS G80

PURE HARMONY.

In the G80, lines, textures and illumination inform your sense of space, comfort and control. Each material is applied with exquisite restraint, forming elegant surfaces that are pleasing to the touch. And soothing to the eye. An available Ergo Motion driver seat soothes your entire body – air cells inside the seat help support your body and stretch your back as you drive.

Technologies are placed at your fingertips without a multitude of buttons. A capacitive touch control panel lets you adjust the G80's key climate system settings with a simple swipe. The 14.5" split-screen infotainment display's controller can even recognize your handwritten commands.

Ready to have a conversation with your car? New Dynamic Voice Recognition lets you change temperature settings, change music channels and more using natural, conversational tones instead of truncated voice commands.¹⁰

Remote Smart Parking Assist is also available to help negotiate tight parking spaces – even without you being in your car.³

GENESIS G80

REFINEMENT X DESIGN

G90

As our full-size flagship luxury sedan, the G90 takes elegance to a place where your every conceivable need is anticipated.

GENESIS G90

STUNNING MODERN SCULPTURE.

Confident. Magnetic. A powerful presence formed of steel, glass and imagination.

The face of a Genesis is unmistakably bold. Its front styling greets you with the penetrating gaze of its distinctively narrow quad lamps. The diamond-shaped pattern of its G-Matrix grille design is accentuated with intersections that sparkle like jewelry.

It's time for designs of elegant simplicity. Time for power that's intelligent and efficient. And innovations that make everything you experience seamlessly satisfying.

GENESIS G90

LUXURY TAKES A NEW TURN.

The 2021 G90 lets you define luxury on your terms. What's your preference – the 3.3T Premium with its 365-hp Twin-Turbo V6? Or the 5.0 Ultimate, with a 420-hp V8?² Either way, power transfers to the pavement through a fluid 8-speed automatic transmission.

As you are driving, data sensors linked to your G90's Adaptive Control Suspension read the road surface below and signal your car's Continuous Damping Control to micro-adjust the shocks for a smooth ride with minimal body roll.

Intelligent Drive Mode with Smart Shift lets you choose your preferred driving dynamic: Comfort, Sport, Eco or Custom. A fusion of sensors analyzes your driving patterns and adapts your G90's engine, suspension, Electronic Stability Control and available All Wheel Drive to your preferred driving style. A new Rear Comfort Drive Mode even makes your rear passengers feel more relaxed, especially during acceleration.

GENESIS G90

YOUR OASIS FROM THE WORLD.

Settle into your G90's 22-way power driver seat, and you'll feel comfort so profound, it's certified by Aktion Gesunder Rücken – renowned for rating products based on how well they support overall back comfort and health. Smart Posture Care technology sets and stores the most ergonomic seating position for the driver based on an analysis of his or her physical profile.

In the G90 5.0 Ultimate, the rear cabin features a 12-way power-adjustable left rear seat and 14-way power right rear seat. The right rear seat includes a one-touch relax mode that reclines to your preferred seating position. Both rear-seat passengers are entertained by dual 10.3" high-definition video monitors that tilt and adjust to optimize individual viewing.

A three-zone climate control system gives G90 rear seat passengers even more control over their comfort. Turn on the soothing heat, raise the power rear window and rear side-window sunshades, and your tranquility is complete.

SAFETY

Safety isn't a feature. It's our culture. Which is why Genesis vehicles come standard with the most advanced safety features in their class.⁷

SAFETY

TURNING “WHAT IF” INTO “WHAT’S NEW”.

Genesis approaches driving safety with a sense of possibility.

We wondered, for example, if we could use machine learning to gauge how you drive – and program your vehicle’s Smart Cruise Control to mimic your driving habits.¹¹ Could it automatically adjust its speed to posted speed limits using GPS as well?

What if, when you are changing lanes and another vehicle in your blind spot starts to enter the same lane, your car could automatically apply braking to help avoid a collision? These possibilities – and more – are now realities.

Standard and available safety features vary by model and trim level. Refer to [Genesis.com](https://www.genesis.com) for more information.

BLIND-SPOT VIEW MONITOR

While changing lanes with the turn signal on, your Genesis G80, GV80 or G90 displays video with a rear view of the adjacent lane in the instrument cluster, revealing blind spots not typically seen by traditional side mirrors.¹²

REAR CROSS-TRAFFIC COLLISION-AVOIDANCE WARNING/ASSIST

Backing out of a parking space and wondering whether there's cross traffic coming your way? This feature warns you of another vehicle approaching from the side. If necessary, your Genesis automatically applies braking to help prevent a collision.¹³

LANE FOLLOWING ASSIST

Using the front-view camera to detect lane markers on the road, this feature assists the driver's steering to help keep your G80, GV80 or G90 centered in its lane. Even when lane markings aren't visible, your Genesis can determine a virtual path based on movements of the preceding vehicle.¹⁴

SAFETY

TURNING “WHAT IF” INTO “WHAT’S NEW”.

Genesis approaches driving safety with a sense of possibility.

We wondered, for example, if we could use machine learning to gauge how you drive – and program your vehicle’s Smart Cruise Control to mimic your driving habits.¹¹ Could it automatically adjust its speed to posted speed limits using GPS as well?

What if, when you are changing lanes and another vehicle in your blind spot starts to enter the same lane, your car could automatically apply braking to help avoid a collision? These possibilities – and more – are now realities.

Standard and available safety features vary by model and trim level. Refer to [Genesis.com](https://www.genesis.com) for more information.

FORWARD COLLISION-AVOIDANCE ASSIST

Your Genesis keeps a watchful eye on the road ahead and warns you of slowing or stopped vehicles, pedestrians and cyclists in your path. If necessary, braking is automatically applied to help avoid a collision.¹⁵

HIGHWAY DRIVING ASSIST

Onboard your G80, GV80 and G90, Highway Driving Assist helps keep you in the center of your lane while maintaining a set speed and distance from the vehicle in front of you. It automatically adjusts for changing speed limits and automatically reduces your speed when it detects you're approaching a curve in the road on highways.¹⁶

LANE CHANGE ASSISTANCE

In the G80 and GV80, Forward Collision-Avoidance Assist technology now includes other innovations that help avoid drifting into the opposing or adjacent lane of traffic.¹⁷ It can also detect vehicles two lanes over that begin merging into the same lane you are moving into while changing lanes.

SAFETY

TURNING “WHAT IF” INTO “WHAT’S NEW”.

Genesis approaches driving safety with a sense of possibility. We wondered, for example, if we could use machine learning to gauge how you drive – and program your vehicle’s Smart Cruise Control to mimic your driving habits.¹⁸ Could it automatically adjust its speed to posted speed limits using GPS as well?

What if, when you are changing lanes and another vehicle in your blind spot starts to enter the same lane, your car could automatically apply braking to help avoid a collision? These possibilities – and more – are now realities.

Standard and available safety features vary by model and trim level. Refer to [Genesis.com](https://www.genesis.com) for more information.

EVASIVE STEERING ASSIST

When a pedestrian is detected along the side of the road, and it’s possible for your G80 or GV80 to stay in its lane, this new feature automatically initiates steering input to help position your vehicle toward the edge of your lane, giving pedestrians space and avoiding a possible collision.¹⁸

SURROUND VIEW MONITOR

Four cameras display the perimeter around your vehicle, helping to guide your way into tight parking spaces and improving your view of the curb when parallel parking. A remote image capture feature even lets you check your G80 or GV80’s surroundings on your smartphone while you’re away.¹⁹

CURBSIDE SAFETY

The new G80 and GV80’s Blind-Spot Collision-Avoidance Assist monitors vehicles as far as two lanes over to help prevent collisions when you are exiting a parallel parking spot.²⁰ Before stepping out of your Genesis, Safe Exit Assist warns you if it detects a vehicle approaching alongside an opening door.²¹

GENESIS CONNECTED SERVICES

YOUR MOBILE DEVICE UPGRADE IS HERE.

Genesis was born in the age of the smartphone. So it's only natural that we created an app for Genesis owners.

With the Genesis Intelligent Assistant®, you can remotely check to see if you've left the doors unlocked or a window open.²² Want your cabin to be the perfect temperature when you slip behind the wheel? Ask your Genesis app, or your Amazon Echo® or Google Home™ device, to remotely start the engine and climate controls from the comfort of your kitchen or office.²³

The app also lets you check your vehicle's fuel level and includes a valet alert to help keep tabs on your Genesis.

Sync the app with your calendar of events, and it can send timely updates to your phone in preparation for upcoming drives. These are just some of the ways Genesis Connected Services (complimentary for your first three years of ownership) act as your conduit to the information, services and assistance you want and need on the go.²⁴

THE GENESIS EXPERIENCE

Our thoughtfully crafted suite of owner benefits is designed to elevate not just the way you drive, but the way you live. It reflects our profound commitment to meeting your needs and wants precisely. And while we can't help you make more of it, we'll help you make the most of your precious time.

FOOTNOTES

¹The Vehicle Dependability Study is an evaluation of three-year-old vehicle dependability based on 2017 model-year vehicles. For J.D. Power 2020 U.S. award information, visit [jdpower.com/awards](https://www.jdpower.com/awards). ²Horsepower rating with premium fuel. ³Remote Smart Parking Assist (RSPA) can help remotely park the vehicle. However, several factors can impact RSPA performance. RSPA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for further details and limitations. ⁴The hands-free smart liftgate will open when your Proximity Key is within 40 inches of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with the normal operation of this feature. See Owner's Manual for further details and limitations. Always close your liftgate before operating vehicle. ⁵Genesis G70 received the lowest rate of reported problems among compact premium cars in the J.D. Power 2019-2020 U.S. Initial Quality Studies of new vehicle owners' experience with their own vehicle after 90 days of ownership. Visit [jdpower.com/awards](https://www.jdpower.com/awards). ⁶Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. ⁷Claim based on comparison of specifications on manufacturer websites. ⁸Near Field Communication (NFC) digital smartphone key requires a compatible Android smartphone and an appropriately equipped 2021 G80 vehicle. Not all Android devices are compatible. The Genesis G80 must be equipped with smart key with push button start and wireless device charging. Lock/unlock functionality works on front doors only. Features and specifications subject to change. See Owner's Manual for further details and limitations. ⁹Claim versus 4-cylinder engine competitors based on comparison of specifications on manufacturer websites. ¹⁰Dynamic Voice Recognition varies by unit. Speak in a normal voice and minimize background noise for best results. See Owner's Manual for further details and limitations. ¹¹Smart Cruise Control (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. The driver remains responsible to slow or stop the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for further details and limitations. ¹²The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and an audible alert if another vehicle is detected. Turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for further details and limitations. ¹³Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for further details and limitations. ¹⁴Lane Following Assist (LFA), when actively engaged with Smart Cruise Control or Highway Driving Assist, can help keep the vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist, and does not replace the need for extreme care and attention by the driver. See Owner's Manual for further details and limitations. ¹⁵Forward Collision-Avoidance Assist (FCA) with Pedestrian and Cyclist Detection helps detect pedestrians and cyclists, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. The system is not designed to detect certain stationary objects such as trees or poles, and may not detect all vehicles, pedestrians and cyclists under certain road, weather and vehicle conditions. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. The driver is responsible for being attentive and maintaining control of the vehicle, and should not wait for the system's alerts before braking as there may not be sufficient time to brake safely. See Owner's Manual for further details and limitations. ¹⁶Highway Driving Assist (HDA), when used in conjunction with Lane Following Assist and Smart Cruise Control, is for highway use only and can help keep your vehicle centered in its lane while maintaining a safe distance from other vehicles ahead when the lane markings are clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for further details and limitations. ¹⁷The Lane Change Oncoming feature helps the driver avoid collisions involving drifting into an oncoming traffic lane by applying the opposing front brake only when the lane markings are clearly

visible on the road. There are limitations to the function, detection, range and clarity of the system. Lane Change Oncoming may not function correctly if one or more of the parking sensors is damaged, dirty or covered or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner's Manual for further details and limitations. ¹⁸Evasive Steering Assist (ESA) can help the driver avoid cyclists or other pedestrians in a traffic lane when there is room within the lane and there are no vehicles in the adjacent traffic lane. There are limitations to the function, detection, range and clarity of the system. ESA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. Always drive carefully and use extreme caution when cyclists and other pedestrians are present. See Owner's Manual for further details and limitations. ¹⁹Surround View Camera System (SVCS) is a parking support system. SVCS cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for further details and limitations. Remote image capture requires active Genesis Connected Services account. ²⁰Blind-Spot Collision-Avoidance Assist (BCA) helps prevent collisions when exiting parallel parking spots. It can alert the driver to a potential hazard. Never rely exclusively on BCA when exiting a parking space, as it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm clearance. There are limitations to the function, detection, range and clarity of the system. BCA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. See Owner's Manual for further details and limitations. ²¹When the vehicle is parked, Safe Exit Assist (SEA) can alert the driver when a vehicle is approaching from behind. When Child Locks are active, SEA prevents initial disabling of the child safety locks if a vehicle approaching from behind is detected. SEA is not a substitute for driver or passenger attentiveness. Always be aware of your surroundings and attentive of approaching vehicles. See Owner's Manual for further details and limitations. ²²Remote features are subject to adequate cellular coverage, signal strength and battery power, and only available in the 50 United States. You must be an active subscriber or within the initial free-trial period to receive Genesis Connected Services. ²³Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Home and Google Assistant are trademarks of Google Inc. ²⁴Genesis Connected Services are complimentary for 3 years and require an active subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use and is available for new 2021 model-year vehicle purchases and leases, as well as transferable to subsequent owners subject to the Terms and Conditions. Only use Genesis Connected Services and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications, and fees are subject to change. For more on details and limitations, visit [Genesis.com](https://www.genesis.com) or an authorized retailer of Genesis branded products. ²⁵All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after the trial period has elapsed. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at [siriusxm.com](https://www.siriusxm.com). All fees and programming subject to change. Satellite and outside-the-car lineups vary slightly. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc.

Genesis Experience Notes: Genesis Service Valet is for 2021 model-year vehicles for maintenance for 3 years/36,000 miles and for warranty repairs. Coverage area varies by retailer. Mileage and ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Genesis Complimentary Maintenance is for 2021 model-year vehicles for factory-recommended scheduled maintenance for 3 years/36,000 miles. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Multimedia and Navigation Map Care updates are available annually for 2021 model-year vehicles for 3 years after purchase with a regularly scheduled maintenance appointment. Availability timing of software updates may vary. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Genesis Connected Services are available for 3 years complimentary for 2021 model-year vehicles. Enrollment is required. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. SiriusXM® audio trial is 90 days. Ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. Roadside Assistance is complimentary for 5 years/unlimited miles for 2021 model-year vehicles. Mileage and ownership limitations may apply. Genesis reserves the right to change program without notice. Exclusions may apply. See your retailer for details on any of the programs or services listed here.

GENESIS
