

GENESIS

# 2021 GENESIS GV80

## HERE'S TO WHAT'S NEXT.

When it comes to automobiles, the brands that have traditionally defined luxury were born 100 or more years ago. And while we admire those that came before us, Genesis is not bound by their way of looking at things.

As a young luxury brand, we see the world through new eyes. We're driven by a sense of wonder that leads to new possibilities of how comfortable, secure and satisfying personal travel can be.

It's why our first SUV, the all-new Genesis GV80, is unlike any other vehicle. And it's why, in just a few years, we've transformed the level of innovation you can expect from a luxury brand – all without sacrificing quality.

According to J.D. Power, Genesis is the #1 Ranked Premium Brand for Long-Term Quality in 2020. And for the fourth year in a row, J.D. Power has ranked Genesis as the Best Premium Brand in Initial Quality in the U.S. in 2020.<sup>1</sup>

It's all supported by the Genesis Experience, a suite of thoughtfully conceived owner benefits designed around how you actually live. After all, isn't true luxury about your complete experience?

# THINKING OUTSIDE OF THE BOX.

As a Genesis SUV, the all-new GV80 blends the refinement, precision and performance of our luxury sedans with enhanced versatility and cargo capacity. Conceived by some of the industry's most renowned luxury designers, the GV80 will never be mistaken for one of those box-on-wheels SUVs.

Stylish quad headlamps frame the GV80's crest grille, projecting the distinct identity of Genesis design – a signature element repeated in the dual lines of the fender's side garnish and quad taillights.

The front grille's exquisite G-Matrix pattern – inspired by the beautiful orchids seen when diamonds are illuminated by light – is artfully interpreted inside the cabin by the available quilted Nappa leather seats.

The athletic elegance formed by a long hood and setback cabin combine with the GV80's low, wide design to give it a dynamic stance and potent presence. It's an attitude further amplified by available 22" aluminum alloy wheels that also echo the G-Matrix pattern.<sup>2</sup>

# DRIVING IN PERFECT HARMONY.

With its turbocharged power, agile handling and smooth ride comfort, our GV80 SUV delivers the same driving pleasure so prized in Genesis luxury performance sedans.

Press the accelerator, and the GV80 2.5T pours 300 horsepower onto the pavement via Rear Wheel Drive or available All Wheel Drive.<sup>3</sup> The GV80 3.5T's 375-hp twin-turbo V6 channels its power through standard All Wheel Drive and an available electronic limited-slip rear differential.<sup>3</sup> It's also equipped with a standard Electronically Controlled Suspension that counteracts body roll and pitch by continually adjusting the firmness or softness of its shock absorbers.

A jewel-like rotary dial on the center console engages the electronic 8-speed automatic transmission. Another dial – Drive Mode Select – lets you calibrate the driving dynamics of your GV80 to Comfort, Sport, Eco, Smart or Custom settings. Drive Mode Select syncs with the available Ergo Motion seat's power side bolsters to be tighter in Sport mode or more open in Comfort mode. You can even set the side bolsters to automatically adjust based on your speed. Harmony, indeed.

## THIS IS YOUR SAFE SPACE.

From our inception, Genesis vehicles have received the industry's premier safety ratings. Maintaining the highest standards for safety requires a continual raising of the bar. And a steadfast refusal to rest on our laurels. The new GV80 comes standard with safety innovations that help protect you and your passengers from every angle – in parking lots, on freeways, and everywhere in between. A new front center airbag that enhances front-seat occupant protection is augmented by an array of technologies that alert the driver to potential hazards or actively assist in helping avert a collision.

### DRIVING SAFETY

If you can see trouble coming, you stand a better chance of avoiding it. The GV80 helps its driver see the unforeseen with an available Blind-Spot View Monitor, which helps negotiate lane changes by showing video of either blind spot on the instrument display after you activate your turn signal.<sup>4</sup>

### PARKING SAFETY

A standard rearview camera with parking guidelines is enhanced by Rear Cross-Traffic Collision-Avoidance Assist<sup>5</sup> and an available feature called Parking Collision-Avoidance Assist.<sup>6</sup> Both technologies apply braking to help prevent a mishap if a hazard is detected while backing out of parking spaces.

### CURBSIDE SAFETY

Blind-Spot Collision-Avoidance Assist monitors vehicles as far as two lanes over to help prevent collisions when you are exiting a parallel parking spot.<sup>7</sup> Before passengers step out of your GV80, Safe Exit Assist warns the driver if a vehicle is detected to be approaching alongside an opening door.<sup>8</sup>

# FUELED BY IMAGINATION.

When you're young, you imagine things. And you wonder what it would take to make them possible. At Genesis, we wondered if the new GV80 could use machine learning to gauge how you drive and adapt its Smart Cruise Control to mimic your driving habits. Could it automatically slow down when it senses you're approaching a curve on the highway? Or automatically adjust its speed to posted speed limits using GPS and map data?<sup>9</sup>

We wondered what if, when you signal your intention to change lanes, the GV80 could automatically help steer your vehicle to complete the maneuver? And what if your GV80 could automatically help reposition you in your driving lane on the highway when it detects a vehicle in the adjacent lane is too close?<sup>10</sup> These possibilities are now realities – part of the GV80's extensive array of advanced safety technologies.

## FORWARD COLLISION-AVOIDANCE ASSIST

The GV80 can instantly assess the risk of colliding with oncoming traffic while turning left in an intersection – or help detect cross traffic approaching from either side of an intersection – and bring you to a stop. It also helps detect pedestrians and slowed or stopped vehicles in front of you, applying emergency braking if necessary.<sup>11</sup>

## FORWARD-THINKING REFLEXES

The GV80's Forward Collision-Avoidance Assist also helps prevent collisions with an oncoming vehicle if you inadvertently drift across the center lane, or with a vehicle two lanes over attempting to merge into your intended lane during a lane change. An alert sounds, and corrective steering is automatically engaged.<sup>12</sup>

## SURROUND VIEW MONITOR

An available Surround View Monitor uses four cameras to display a 3D view of the perimeter of your GV80. Use it to guide your way into tight parking spaces and for clear views of the curb when parallel parking. A remote image capture feature lets you check your car's surroundings on your smartphone while you're away.<sup>13</sup>

## LANE FOLLOWING ASSIST

To help GV80 drivers stay centered in their lane, Lane Following Assist technology identifies and tracks lane markings. If the markings aren't clear, the system can also create a virtual path based on movements of the vehicle traveling ahead.<sup>14</sup>

## EVASIVE STEERING ASSIST

When a pedestrian is detected along the side of the road, and it's possible for your GV80 to stay in its lane, this feature automatically initiates steering input to help position your vehicle toward the edge of your lane, giving pedestrians space and avoiding a possible collision.<sup>15</sup>

## FORWARD ATTENTION WARNING

An infrared camera in the dashboard checks the GV80 3.5T driver's eye gaze direction to help limit the dangers of fatigue and drowsiness. If your eyes aren't focused on the road ahead, the system sounds a warning and generates a pop-up message.<sup>16</sup>

## VIEW LIFE FROM A NEW POINT OF VIEW.

From the driver's seat of a GV80 3.5T Prestige, everything you see, touch and interact with brings a sense of pleasure. You're surrounded by the soft, supple look and feel of quilted Nappa leather on the seating surfaces. The heated steering wheel and heated seats offer soothing warmth at the press of a button. Want your seat cooled instead? Smart ventilated seats increase their fan speed as you accelerate, ensuring your comfort keeps pace. The GV80's intelligence extends to an infrared camera that tracks the driver's eye movements, then displays a stereoscopic 3D image within the digital instrument cluster that your eyes can easily follow. Now that's seeing luxury in a whole new way.

### AIR SUPPORT

The GV80's available Ergo Motion driver seat is equipped with an automatic posture correction function and a "stretching mode" that helps fend off fatigue during long drives. By adjusting inflatable air cells in the seat cushion and seatback, it helps provide optimal comfort behind the wheel.

### NICE TOUCH

A capacitive touch control panel lets you adjust key climate system settings like fan speed with a simple swipe of your finger. The GV80's available 3-zone automatic temperature controls include intuitive graphics that let the driver adjust heating or cooling for 2nd-row passengers.

### UP ON THE BIG SCREEN

The command center for the GV80 is one of the largest screens you'll find this side of a cineplex. A 14.5" LCD split screen displays navigation, audio and climate control functions in high definition. The navigation system includes real-time traffic flow and incident data from a subscription-free HD Radio™ service.

# YOUR COMFORT ZONE. AND THEIRS.

In the GV80, passengers seated in the 2nd row won't take a back seat to anyone up front. Heating elements in the available 2nd-row heated seats are designed to cover larger areas for extra warmth. Together with available power slide and back tilt/cushion tilt adjustment, the 2nd row feels first class.

Need to quickly transform the rear of your GV80 to carry cargo? No problem – one-touch folding seats create cavernous storage room at the press of a button. The 2nd row can split-fold 40/20/40 for flexible combinations of seating and cargo capacity. An available 3rd row allows up to seven passengers to be seated in spacious comfort and convenience.

The new GV80 is also astonishingly quiet inside. Available Road Active Noise Cancellation technology counteracts road noise in real time by analyzing information from both microphones and accelerometers in 0.002 seconds, then producing sound waves of opposite phases.

# BUILT FOR YOU AND THE WORLD AROUND YOU.

The world is a complex place. Modern luxury is about finding elegant ways to simplify your life. Remote Smart Parking Assist is available to help master the toughest parallel parking spaces without breaking a sweat.<sup>17</sup> Hands full as you approach your GV80? No problem. A power hands-free smart liftgate recognizes your key fob and opens automatically.<sup>18</sup>

New Dynamic Voice Recognition lets you activate your GV80's climate controls, open the windows, change music channels and more using natural, conversational tones instead of truncated voice commands. Another new feature called Connected Routing delivers faster cloud-based navigation with the latest traffic and road conditions.<sup>19</sup>

## MAGIC WAND

A new Genesis Digital Key is available for unlocking your GV80's front doors and starting the engine using your compatible Android™ smartphone.<sup>20</sup> Your digital key can be shared with up to three people. Driver and guest preferences for driver seat position, audio presets and more are maintained in the Genesis cloud.

## FIGHTER JET TECHNOLOGY

An available Heads-up Display feature projects critical driving information onto the windshield for at-a-glance updates. Not just the GV80's speed, but also icons for navigation and safety features like Blind-Spot Collision-Avoidance Assist, Lane Keeping Assist, Smart Cruise Control and more.

## SMARTPHONES MADE SMARTER

Tap into your smartphone using the familiar interface of Apple CarPlay® or Android Auto™ while keeping your eyes on the road. The GV80 makes it easy to access maps and navigation, contact lists, texts, calls, your music library and more via its 14.5" touchscreen or simple voice commands.<sup>21</sup>

## NICE PAD

A wireless device charger is available to help keep your phone powered up without messing with cords.<sup>22</sup> The GV80 also offers power to the people with four USB charging ports – two in front, and two in the 2nd row.

## REMOTE SMART PARKING ASSIST

How smart is this? With our new Remote Smart Parking Assist feature, you can park your GV80 using the key fob as a simple remote control. As you stand at the curb, your GV80 moves effortlessly into tight parking spots.

## REAR OCCUPANT ALERT

An available ultrasonic sensor in the headliner scans for rear seat movement after you exit and lock your GV80. If movement by a child or pet is detected, it sounds the horn, flashes lights and sends an alert to your phone.<sup>23</sup>

# GENESIS CONNECTED SERVICES

Genesis was born in the age of the smartphone. So it's only natural that we created an app for GV80 owners. With the Genesis Intelligent Assistant,<sup>®</sup> you can remotely check to see if you left your car doors unlocked or a window open – even view an overhead snapshot of your vehicle and its surroundings – on your mobile device.<sup>24</sup> Want your GV80's cabin to be the perfect temperature when you slip behind the wheel? Ask your Genesis app, or your Amazon Echo<sup>®</sup> or Google Home<sup>™</sup> device, to remotely start the car's engine and climate controls from the comfort of your kitchen or office.<sup>25</sup>

The app also lets you check your vehicle's fuel level and includes a valet alert that helps you keep tabs on your GV80. Sync the app with your calendar, and it can send timely updates and recommendations to your phone in preparation for upcoming drives. These are just some of the ways Genesis Connected Services (complimentary for your first three years of ownership) act as your conduit to the information, services and assistance you want and need on the go.<sup>26</sup>

# IT'S LIKE YOU WERE IN THE RECORDING STUDIO.

With 21 speakers in 17 locations, the sonic experience inside the new GV80 has to be heard to be believed. Genesis has partnered with Lexicon,<sup>®</sup> whose advances in audio technology are so respected, they've won a Grammy award. Among the strategic placement of audio

components is a 5-speaker "soundbar" center channel and a pair of subwoofers located beneath the front seats. All to ensure that in the new GV80, you don't just hear the power of the music – you feel it. No matter where you're seated, Lexicon's high-performance 14-channel amplifier makes

the boundaries of your vehicle seemingly disappear. QuantumLogic<sup>®</sup> Surround Sound technology identifies and re-authors individual voices and instruments into a precise multi-channel soundstage, resulting in a wider and more dynamic listening experience.

21-SPEAKER LEXICON<sup>®</sup> QUANTUMLOGIC<sup>®</sup> SURROUND SOUND AUDIO SYSTEM

# THE GENESIS EXPERIENCE

True luxury enhances your entire experience, on and off the road. Our thoughtfully crafted suite of owner benefits are designed to elevate not just the way you drive, but the way you live. It reflects our profound commitment to meeting your needs and wants precisely, in a way that values your time.

## WE CAN'T MAKE MORE OF IT. BUT WE'LL HELP YOU MAKE THE MOST OF YOUR PRECIOUS TIME.

### COMPLIMENTARY SERVICE VALET

You may never need to bring your vehicle to a Genesis service center. Allow your Genesis retailer to pick up your GV80 and deliver a courtesy replacement vehicle, perform any required maintenance, then return it to your location – while you enjoy more pleasurable pursuits. Complimentary for 3 years or 36,000 miles.

### COMPLIMENTARY SCHEDULED MAINTENANCE

Enjoy a worry-free Genesis ownership experience with Complimentary Scheduled Maintenance for 3 years or 36,000 miles, whichever comes first. Complimentary oil changes are also included with your normally scheduled maintenance appointments at a Genesis service center.

### 24/7 ENHANCED ROADSIDE ASSISTANCE

Peace of mind is another essential luxury. Should your travel plans take an unexpected turn, five-year complimentary Roadside Assistance provides tire changes or transportation to the nearest Genesis retailer. Reimbursement for an overnight stay is included if needed.

### GENESIS CONNECTED SERVICES

Every new GV80 includes three years of complimentary Genesis Connected Services. It's an exclusive suite of safety, car care, guidance and remote features that help keep you connected to your digital life and the things you need on the go.

### SIRIUSXM ALL ACCESS SATELLITE RADIO

Complimentary for your first three months, SiriusXM All Access offers one of the widest varieties of entertainment anytime, anywhere. Enjoy every channel available on your satellite radio – including personalized stations powered by Pandora® – and listen in your GV80 or on your computer, smartphone or tablet with the SiriusXM app.<sup>27</sup>

### NAVIGATION AND MULTIMEDIA UPDATES

To ensure you're accessing up-to-date driving directions, your GV80 navigation system comes with annual map updates – complimentary for three years during routine maintenance visits with Genesis. Over-the-air updates are available through Genesis Connected Services.<sup>28</sup>

2021 GENESIS GV80 OPTION PACKAGES

GV80 2.5T ADVANCED RWD

2.5T Standard features plus:

- + Panoramic power tilt-and-slide sunroof
- + Ventilated front seats
- + Heated steering wheel
- + Matte-finish wood trim
- + Manual 2nd-row side window sunshades
- + 2nd-row 110V AC power outlet
- + Rear Occupant Alert
- + Wireless device charger
- + Genesis Digital Key
- + 21-speaker Lexicon® QuantumLogic® Surround Sound System

GV80 2.5T PRESTIGE RWD

2.5T Advanced features plus:

- + 20” alloy wheels with all-season tires
- Front & rear: 265/50R20
- + Leather seating surfaces
- + Surround View Monitor
- + Blind-Spot View Monitor
- + Remote Smart Parking Assist
- + Parking Collision-Avoidance Assist – Rear
- + Power driver seat bolster and cushion extension
- + Ergo Motion driver seat
- + Three-zone climate control
- + Heated 2nd-row seats

GV80 2.5T AWD

2.5T Standard features plus:

- + All Wheel Drive
- + Panoramic power tilt-and-slide sunroof
- + Ventilated front seats
- + Heated steering wheel
- + Matte-finish wood trim
- + Manual 2nd-row side window sunshades
- + 2nd-row 110V AC power outlet
- + Rear Occupant Alert
- + Wireless device charger
- + Genesis Digital Key

GV80 2.5T ADVANCED AWD

2.5T Standard AWD features plus:

- + 20” alloy wheels with all-season tires
- Front & rear: 265/50R20
- + Leather seating surfaces
- + Surround View Monitor
- + Blind-Spot View Monitor
- + Remote Smart Parking Assist
- + Parking Collision-Avoidance Assist – Rear
- + 21-speaker Lexicon® QuantumLogic® Surround Sound System

GV80 3.5T ADVANCED

3.5T Standard features plus:

- + Surround View Monitor
- + Blind-Spot View Monitor
- + Remote Smart Parking Assist
- + Parking Collision-Avoidance Assist – Rear
- + 21-speaker Lexicon® QuantumLogic® Surround Sound System
- + Heads-up Display
- + Leather seating surfaces
- + Heated 2nd-row seats
- + Power driver seat bolster and cushion extension
- + Ergo Motion driver seat
- + Three-zone climate control

GV80 3.5T ADVANCED+

3.5T Advanced features plus:

- + 50/50 power split-folding 3rd-row seating
- + Tire Mobility Kit

GV80 3.5T PRESTIGE

3.5T Advanced features plus:

- + 22” alloy wheels with all-season tires
- Front & rear: 265/40R22
- + Electronic limited-slip differential (rear)
- + Nappa leather seating surfaces
- + Microfiber suede headliner and pillars
- + 12.3” 3D digital instrument cluster
- + Forward Attention Warning
- + Power 2nd-row seat recline, slide and cushion tilt
- + Ventilated outboard 2nd-row seats
- + Power 2nd-row side window sunshades
- + Power door closure
- + 2nd-row vanity mirrors
- + Road Active Noise Cancellation
- + Tire Mobility Kit

GV80 2.5T PRESTIGE AWD

2.5T Advanced AWD features plus:

- + 22” alloy wheels with all-season tires
- Front & rear: 265/40R22
- + Electronically Controlled Suspension with Road Preview
- + Heads-up Display
- + Power driver seat bolster and cushion extension
- + Ergo Motion driver seat
- + Three-zone climate control
- + Heated 2nd-row seats
- + Road Active Noise Cancellation
- + Tire Mobility Kit

FOOTNOTES

<sup>1</sup>The VDS study is an evaluation of three-year-old vehicle dependability based on 2017 model-year vehicles. For J.D. Power 2020 U.S. award information, visit [jdpower.com/awards](https://www.jdpower.com/awards) for more details. <sup>2</sup>Available on Genesis GV80 2.5T AWD Prestige and 3.5T Prestige trim levels. <sup>3</sup>Horsepower ratings with premium fuel. <sup>4</sup>The Blind-Spot View Monitor (BVM) assists the driver in changing lanes by providing a live view of the blind spots on either side of the vehicle and an audible alert if another vehicle is detected. Turn signal must be activated, and other system limitations apply. Do not rely exclusively on BVM. It is the driver's responsibility to be aware of the surroundings and ensure it is clear before changing lanes or directions. See Owner's Manual for details. <sup>5</sup>Rear Cross-Traffic Collision-Avoidance Assist (RCCA) is designed to notify drivers of approaching cross traffic behind their vehicle. When another vehicle is detected while you are backing out of a parking spot, it provides audible and visual display warnings and applies braking if it senses a collision is imminent. RCCA is active when the vehicle is in reverse gear and backing at a speed less than 6 mph. It only engages during the first activation of reverse gear from park and may not detect all vehicles, depending on the size, angle, distance and speed of the other vehicle. Never rely exclusively on RCCA. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. See Owner's Manual for details. <sup>6</sup>Parking Collision-Avoidance Assist (PCA-R) can alert the driver of a potential hazard by providing an audible warning and, if deemed necessary, applying light braking. PCA-R is active when the vehicle is in reverse gear and operating at low speeds. Never rely exclusively on PCA-R when exiting a parking space, as it is not a substitute for attentive driving. Always look over your shoulder and use your mirrors to confirm rear clearance. There are limitations to the function, detection, range and clarity of the system. PCA-R may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. See Owner's Manual for further details and limitations. <sup>7</sup>Blind-Spot Collision-Avoidance Assist (BCA) warns the driver of other cars in the blind spot region. If BCA detects an unsafe lane change being attempted, it applies braking on the opposite side of the attempted lane change to help avoid a collision. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot and may not operate if sensors are obscured in any way. Do not rely exclusively on BCA. BCA is a supplemental system, and it is the driver's responsibility to exercise caution when changing lanes. Refer to your Owner's Manual for details and limitations. <sup>8</sup>When your vehicle is parked, Safe Exit Assist (SEA) can alert occupants planning to exit when a vehicle is detected approaching from behind. When Child Locks are active, SEA helps prevent the rear doors from opening if a vehicle approaching from behind is detected. SEA is not a substitute for attentive driving. See Owner's Manual for details and limitations. <sup>9</sup>Smart Cruise Control (SCC) is not a collision-avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. SCC initiates a full stop when the traffic ahead stops and reengages if the vehicle ahead moves forward within 3 seconds. See Owner's Manual for details and limitations. <sup>10</sup>Highway Driving Assist (HDA), when used in conjunction with Lane Following Assist and Smart Cruise Control, is for highway use only and can help keep your vehicle centered in its lane while maintaining a safe distance from other vehicles ahead when the lane markings are clearly visible on the road. HDA should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. HDA will not work under all circumstances and will not prevent loss of control. Driver remains responsible to slow or stop the vehicle to avoid a collision. See Owner's Manual for details and limitations. <sup>11</sup>The Forward Collision-Avoidance Assist (FCA) with Pedestrian Detection helps detect pedestrians, but not in all conditions. FCA is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist and does not replace the need for extreme care and attention by the driver. FCA may not stop the vehicle completely and will not avoid all collisions. See Owner's Manual for further details and limitations. <sup>12</sup>Forward Collision-Avoidance Assist (FCA) helps the driver avoid collisions involving drifting into an oncoming traffic lane or merging into another lane by applying the opposing front brake only when the lane markings are clearly visible on the road. There are limitations to the function, detection, range and clarity of the system. FCA may not function correctly if one or more of its sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. It will not prevent loss of control. This driver assistance system is not a substitute for safe driving. See Owner's Manual for further details and limitations. <sup>13</sup>Surround View Camera System (SVCS) is a parking support system. SVCS cannot completely eliminate blind spots, may not detect every object and does not warn of moving objects. Always check your surroundings before moving your vehicle. See Owner's Manual for further details. Remote image capture requires active

Genesis Connected Services account. <sup>14</sup>Lane Following Assist (LFA), when actively engaged with Smart Cruise Control or Highway Driving Assist, can help keep the vehicle centered in its lane when the lane markings are clearly visible on the road. LFA will not work under all circumstances and will not prevent loss of control. LFA is a supplemental assist, and does not replace the need for extreme care and attention by the driver. See Owner's Manual for details and limitations. <sup>15</sup>Evasive Steering Assist (ESA) can help the driver avoid cyclists or other pedestrians in a traffic lane when there is room within the lane and there are no vehicles in the adjacent traffic lane. There are limitations to the function, detection, range and clarity of the system. ESA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) are interfering with the sensor operation. Always drive carefully and use extreme caution when cyclists and other pedestrians are present. See Owner's Manual for further details and limitations. <sup>16</sup>Forward Attention Warning (FAW) is available on the GV80 3.5T. FAW helps monitor the driver's eye position using an infrared camera and provides an audible warning if it detects a potential lack of driver attention. It does not detect and provide an alert in every situation. It is the driver's responsibility to remain alert at all times. See Owner's Manual for details and limitations. <sup>17</sup>Remote Smart Parking Assist (RSPA) can help remotely park the vehicle. However, several factors can impact RSPA performance. RSPA may not function correctly if one or more of the parking sensors is damaged, dirty or covered, or if weather conditions (heavy rain, snow or fog) interfere with sensor operation. Always inspect the parking area with your own eyes. See Owner's Manual for details and limitations. <sup>18</sup>The smart trunk will open when your Proximity Key is within 40 inches of the detection area for at least 3 seconds. Radio transmitters and other vehicle smart keys may interfere with the normal operation of this feature. See Owner's Manual for further details and limitations. Always close your trunk before operating vehicle. <sup>19</sup>Connected Routing helps drivers access the latest traffic and road conditions. It requires an active subscription to Genesis Connected Services and a wireless connection. See Owner's Manual for further details and limitations. <sup>20</sup>Near Field Communication (NFC) digital smartphone key requires a compatible Android smartphone and an appropriately equipped 2021 GV80 vehicle. Not all Android devices are compatible. The Genesis GV80 must be equipped with smart key with push button start, wireless device charging, and Audio Video Navigation System 5.0 (or newer) or Display Audio 2.0. Lock/unlock functionality works on the front doors only. Features and specifications subject to change. See your Owner's Manual or visit your local Genesis retailer for details and limitations. <sup>21</sup>Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. Google, Android, Android Auto, Google Play and other marks are trademarks of Google Inc. Apple CarPlay works with iPhone 5 and later models running the latest version of iOS 7.1 and above. Apple is a registered trademark of Apple Inc. <sup>22</sup>Qi wireless charging function is based on smartphone compatibility and/or specific accessory cases. <sup>23</sup>When the vehicle is parked and the driver has exited the vehicle, Rear Occupant Alert can alert the driver if the rear seat sensors detect passengers or pets still in the rear seats of the vehicle. Never leave a child unattended in a vehicle. See Owner's Manual for important details and limitations. <sup>24</sup>Remote features are subject to adequate cellular coverage, signal strength and battery power, and only available in the 50 United States. You must be an active subscriber or within the initial free-trial period to receive Genesis Connected Services. <sup>25</sup>Amazon, Alexa and all related logos and motion marks are trademarks of Amazon.com, Inc. or its affiliates. Google Home and Google Assistant are trademarks of Google Inc. <sup>26</sup>Genesis Connected Services are complimentary for three years and require an active subscription agreement subject to the Connected Services Terms and Conditions. Three-year term starts from the new vehicle date-of-first-use and is available for new 2021 model year vehicle purchases and leases, as well as transferable to subsequent owners subject to the Terms and Conditions. Only use Genesis Connected Services and corresponding devices when safe to do so. Cellular and GPS coverage is required. Features, specifications and fees are subject to change. For more on details and limitations, visit [genesis.com](https://genesis.com) or an authorized retailer of Genesis branded products. <sup>27</sup>All SiriusXM services require a subscription sold separately, or as a package, by Sirius XM Radio Inc. after the trial period has elapsed. The subscription plan you choose will automatically renew, and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at [siriusxm.com](https://siriusxm.com). All fees and programming subject to change. Satellite and outside-the-car lineups vary slightly. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. <sup>28</sup>Over-the-air updates require a Genesis Connected Services Guidance package subscription. <sup>29</sup>EPA estimates for comparison only. Your actual mileage will vary with options, driving conditions, driving habits and vehicle condition.
