WHEN WE INNOVATE, THE CAR IS NOT TOP OF MIND

We admit it. You fascinate us. We think and talk about you all day. Everything about your life – its ups and downs, joys and disappointments, needs, demands, frustrations and hopes – captivates us.

So when we innovate, every detail – from service design right down to the smallest screw – has to justify itself to you. Does it add anything? Is it useful?

We know you always want to feel in control. Our IntelliSafe technologies not only help to save lives, but also give you more enjoyment behind the wheel.

We know you want to stay connected to the world around you. Our Sensus solutions ensure you are.

We also know you care about the future of the planet. That's why our Drive-E technologies allow you to drive sustainably – without compromising on performance.

And we know you're interested in self-driving cars. Each day we take pioneering steps in our quest to deliver a safe and relaxing autonomous driving experience. The same goes for fully electrified powertrains. And even smarter services.

We happily walk the extra mile to give you what you want.

At Volvo, everything we do is designed around you.

You are why we innovate.

THE SCANDINAVIAN ATHLETE

Refined strength and style

The Volvo XC60 is the perfect balance between comfort and control. It's the SUV where bold design meets a beautiful interior, where technology is natural and where every drive is a pleasure.

With its dynamic, commanding presence, the XC60 is the SUV with a unique Scandinavian attitude. The exterior mixes muscular dynamism with clean, elegant Scandinavian design. One glance tells you this is a car that's ready for whatever activity or challenge awaits. And the interior is crafted from the finest Swedish materials, making sure it's full of natural light and packed with clever touches to make every day easier.

Behind the wheel, you can enjoy technology with a human touch. You're connected, and our most advanced safety technology will help in looking out for you, your passengers and other road users.

This is the dynamic Swedish SUV experience. Evolved.

T6 AWD | Inscription
Pine Grey Metallic | 20" 8-Spoke
Black Diamond Cut Alloy Wheels

The XC60 possesses all the qualities of good Scandinavian design – understated yet confident, uncluttered and beautiful. It is an SUV that projects poise and power. In profile, the hood, rising side window line and sharply angled tailgate highlight its dynamic nature. Large wheels and pronounced wheel arches express the car's athleticism and capability.

Up close, the sharp creases and sculpted side panels

emphasize its muscular, contemporary character. Full-LED headlights with distinctive "Thor's Hammer" daytime running lights create an unmistakable impression, day or night, while rear lights that flow into the tailgate are a Volvo design cue that emphasizes the car's strength. Everywhere you look there is something to delight. The XC60 is a car that you will always be proud to own, and which you will never tire of looking at.

DYNAMIC DRIVING

Pleasure for your senses

The XC60 is built for enjoyment, because we think you should enjoy every drive in your car, no matter how short or long the journey. That's why we crafted the XC60 to be a car that lets you feel inspired and confident when driving. One where you always feel in control, and where technology is there to support you and make every interaction second nature.

With its strong, lightweight construction and sophisticated suspension components, the chassis of the XC60 allowed us to find just the right balance between comfort and control. To create a car that offers great driver feedback, but which leaves you feeling fresh, even after a long journey.

Experience the rewards offered by the dynamic handling in a cabin that provides outstanding comfort and a calm, restful environment. With seats designed to perfectly complement the human form, quiet powertrains and first-class sound systems that let you enjoy your favorite music as the artist intended, the interior of the XC60 is a haven. This is the Volvo approach to driving enjoyment.

YOUR COMMAND CENTER

When you sit in the driver's seat of the XC60, you're in control. In control of everything the car can do for you and in control of your journey, from the driving position to the way you interact with the navigation system.

The experience starts with the driving environment. The dashboard and center console wrap around, creating the feeling of a cockpit and putting you in command. Beautifully designed and finished controls make every interaction with the XC60 a pleasure.

We put as much thought into materials as we do into design. The tailored dashboard with contrast stitching, gear selector made from Orrefors® crystal, and wood and metal inlays allow the materials to speak for themselves. You're surrounded by skilled craftsmanship, where everything works with accuracy and precision. In the XC60, it's effortless to be in command.

YOUR SANCTUARY

When designing the interior of our cars, we apply the same principles you would when designing a living room. High-quality materials, intelligent use of space and attention to detail work together to create a warm, inviting environment. Everyone who travels in the XC60 gets the same standards of comfort, space, light and design.

Exceptional seating is at the heart of the experience. We build all our seats to give the same high standards of comfort and support, with plenty of adjustment so everyone can find a position that suits them.

The design of the interior is as important as the way it's built. Light floods in during the day and stars twinkle at night through the standard Panoramic Moonroof. It makes the cabin bright, airy and expansive. Reducing the number of buttons and switches creates a feel of uncluttered calm. And the clever use of space, such as the storage compartments under the rear seats, is typical Scandinavian ingenuity. They're just the right size to store electronic devices, like a tablet, out of sight.

Unlock the car and the door handles light up to make getting into the XC60 quick and easy. At night, the cabin glows with the warmth of its interior lighting, welcoming you into the car.

CleanZone technology means the air you breathe inside the car is clean and fresh, regardless of the air quality outside the vehicle. It filters dust, pollen, particulates and odors while monitoring the air quality and closing the intakes if pollutant levels rise too high. It happens automatically – all you need to do is set the temperature you want and the XC60 does the rest.

The standard Panoramic Moonroof extends the full length of the cabin, flooding the interior with natural light – so everyone gets the benefit.

Rich materials and intricate detailing, like the Driftwood inlays and Kevlar speaker cones, provide contrast and visual interest.

The combination of clear, easy-to-read instruments and the distinctive lines of the dashboard look great and work beautifully. They exemplify the meeting of form and function.

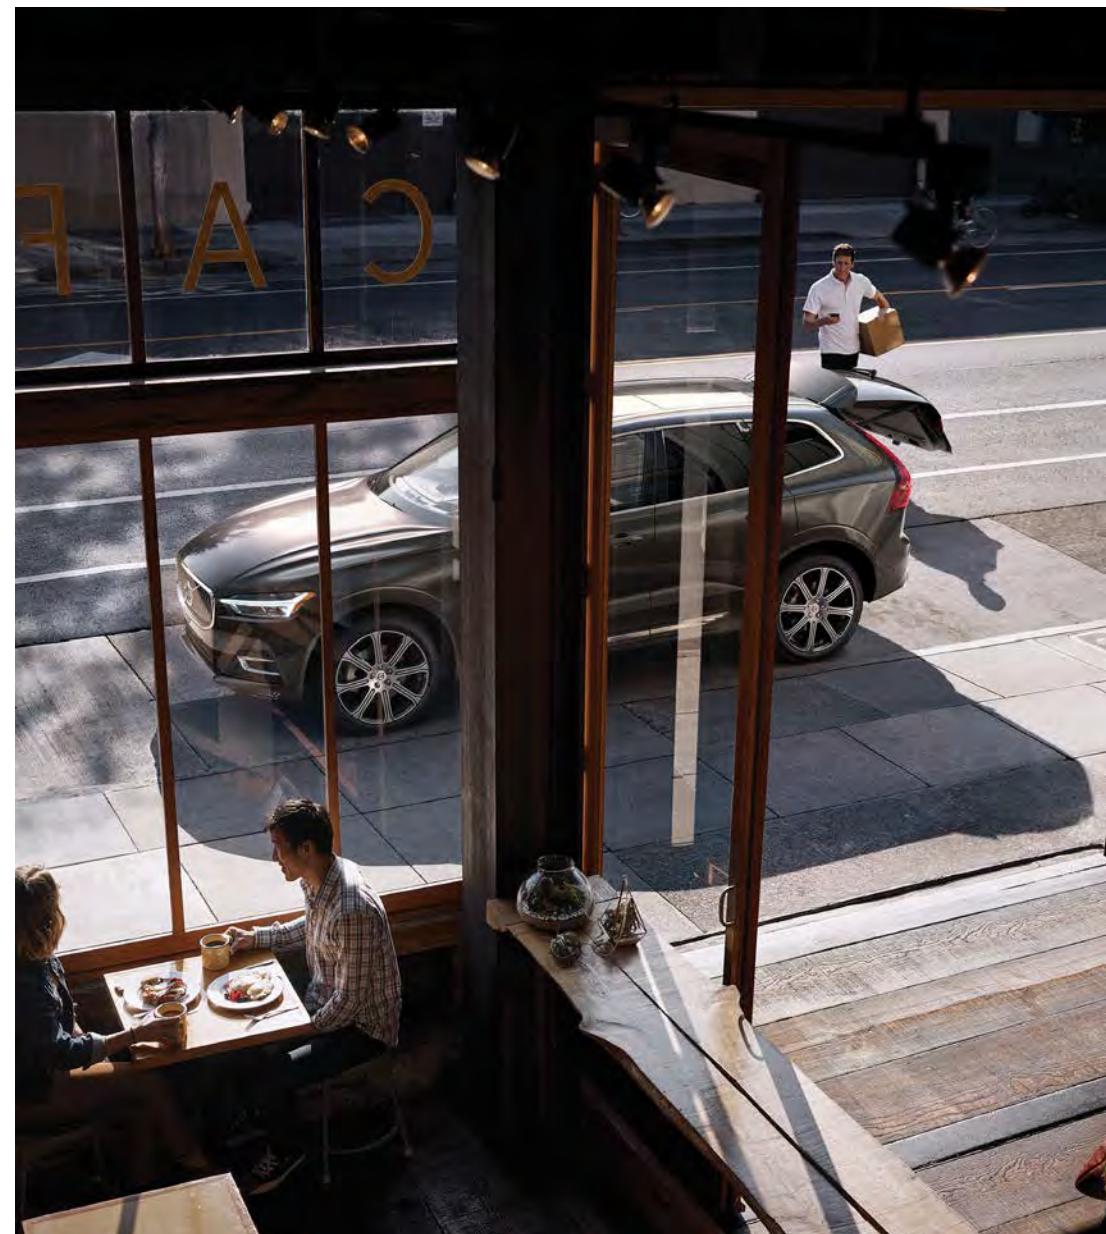

The way we've reduced the number of buttons has created a clean, uncluttered cabin reminiscent of the traditional, functional design of Swedish homes.

VERSATILITY'S NEW LOOK

A car has to be more than great design and a rewarding driving experience – the XC60 is versatile, a place which complements and copes with your active life, with extra usefulness built in.

Even getting into the XC60 is easy – you can open the powered tailgate by waving your foot under the rear bumper. Inside you'll find a large, evenly shaped load compartment that makes it easy to accommodate irregular-sized objects. Fold the seats at the push of a button and you get a fully flat load floor – and you can do this from the rear of the car, so you don't have to open the doors to fold the seats.

A loading hatch in the seats means you don't have to fold the seats to carry long objects, so you can still carry passengers. And, to make your XC60 even more useful, add extra equipment from our range of accessories, which are designed to complement the car's interior.

SENSUS

Stay connected and in command

We create technology to serve you and make life easier. Everything that's complicated or doesn't add to your experience is removed.

You control your Volvo intuitively and easily. And seamlessly connected with the car and the world around you, you're in command of every aspect of your journey.

Instead of a multitude of physical buttons, you find the large 9" Sensus Touchscreen. It's as easy and straightforward to operate as your smartphone, with bold, clear graphics so you can keep your attention on the road. The touchscreen blends seamlessly with the car's clean interior design and is easily operated. You can even use it wearing gloves.

Essential driving information is clearly presented in our 12.3" Digital Driver Display. It adapts to your needs, preferences and surrounding light, so information is always shown on your terms.

For even better control, our Graphical Head-Up Display projects vital driver information at a comfortable viewing distance. It looks as if the graphics hover in front of the car, which allows you to stay informed without taking your eyes off the road.

Your Volvo also listens to you. Keep both hands on the steering wheel and speak naturally: our voice control will carry out your command to operate climate control, navigation, entertainment and your smartphone.

In a Volvo, you and your car act as one.

Sensus Navigation

Let Sensus Navigation guide you, inform you and help you find the best route. Road directions are clearly shown in the driver display, center display and Graphical Head-Up Display. Touchscreen controls allow you as well as your passenger to operate the system conveniently and safely. Free life-time map updates ensure your navigation system is always up to date.

Voice control

Controlling Sensus is as easy as telling it what to do. Talk to your Volvo, and voice control will carry out your instructions.

FEEL THE MUSIC

Inside the cabin of your Volvo you can enjoy an audio system designed to put you closer to the music you love, wherever you're seated.

All our audio systems are tailored to the acoustics of your Volvo. Our audio philosophy is very simple: it's all about the soul of music, not the number of speakers or watts. And together with the audio specialists at Bowers & Wilkins® and Harman/Kardon®, we have created some of the best-sounding audio systems in the class.

Our audio system, Harman/Kardon® Premium Sound, delivers a beautifully balanced, powerful sound. This immersive experience is enabled by 14 hi-fi speakers,

including an air-ventilated subwoofer that produces a bass sound you'll feel in your body.

If you're truly passionate about music, the Bowers & Wilkins audio system will take the experience to an even higher level. The 15 separate high-end speakers – including a tweeter-on-top center speaker that minimizes acoustic reflection from the windscreens and our unique air-ventilated subwoofer – will surround you with a powerful, pristine sound that feels more spacious and true to life than ever.

It's all about music, and making it possible for you to experience it just as it was intended when it was created.

Harman/Kardon® Premium Sound is developed together with the hi-fi specialists at Harman/Kardon®. Powered by a 600W digital amplifier, the 14 speakers are tailored to the acoustics inside your Volvo and deliver a powerful, high-fidelity surround sound experience. A unique sound-processing software – Dirac® Unison Tuning – optimizes the response of each individual speaker as well as the speakers all together to ensure they perform in perfect harmony. So wherever you're seated, you and your passengers can enjoy a seamless first-class listening experience in all conditions and – not least – an extremely unified and tight bass sound.

Our Bowers & Wilkins® audio system integrates seamlessly with the cabin architecture of your Volvo to deliver the most realistic and immersive sound possible. Innovative audio processing technology with three room modes allows you to recreate the acoustics of a specific room, including the Gothenburg Concert Hall, inside your Volvo, bringing you even closer to the music. And to enable extremely low and undistorted bass tones, the air-ventilated subwoofer uses innovative technology that allows it to pulse large amounts of air, actually turning the cabin into one big woofer.

Smartphone integration. Use your smartphone in a smarter way. Via standard Apple CarPlay® or Android Auto®, you simply integrate the familiar functions and interface of your smartphone* with the car's center display. You can enjoy music, make calls and send messages easily via the car's touchscreen, steering wheel buttons or voice control.

*Supports iPhone® (5 or later) or Android smartphones (5.0 Lollipop or later).

Intuitively connected. You operate the audio system and hands-free phone easily using the touchscreen controls, steering wheel buttons or voice control. Bluetooth® connection also allows convenient streaming of music via your phone. Within easy reach on the car's touchscreen, there's also a Spotify® in-car app that makes finding new music quick and easy without you having to connect your phone. Using Volvo On Call, you can also create a Wi-Fi hotspot in your car with a stable internet connection for you and your passengers' mobile devices.

VOLVO ON CALL

Your personal assistant

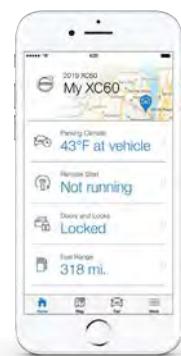

The Volvo On Call app connects your car with the rest of your world, helping make life less complicated. It's there when you need it, so your car becomes more than just a means of travel – it's your personal assistant.

You can use it to make your car ready for the drive to the office, or the drive home, by using remote start to heat or cool the cabin. It can even accept packages on your behalf. You can sync your Volvo On Call app with your calendar, so if you've got appointments it will tell your car where they are and how to get there. And it keeps you safe, automatically contacting emergency services if you're involved in an accident and telling them where you are.

YOUR DAY MADE EASIER WITH VOLVO ON CALL

From saving you time in the morning to helping you relax on the way home, Volvo On Call becomes an indispensable part of your daily routine.

THE PERFECT START
When you get into the car in the morning it's warm and defrosted, thanks to the Volvo On Call app's remote start function.

7:30 am

11:00 am

WHERE TO NEXT?
A calendar card shows your next meeting. You push a button in the app, sending the address to the car's navigation system.

FIND YOUR CAR
You've forgotten where you parked, so you use the car locator map to find the street and then use the flash lights function to pinpoint the car.

12:00 pm

1:00 pm

DELIVERIES TO YOUR CAR
The shoes you ordered yesterday using In-Car Delivery are delivered to the trunk of your Volvo.

**REMOTE CONTROL
COMFORT**
You set the remote start function to automatically warm the car interior so it's ready for when you leave the office.

5:15 pm

5:45 pm

WIFI ON THE GO
You head for home. Using the Wi-Fi hotspot, you can stream music via your phone to the car's audio system.

READY FOR A NEW DAY
A notification reminds you that you've got a meeting in the morning. You send the location to the Sensus Navigation system so you are ready to go in the morning.

10:20 pm

PILOT ASSIST

Designed to make driving safer and easier

Our latest advances in driver assistance technologies allow you to enjoy smooth, intuitive driving from standstill up to highway speeds.

To make driving in demanding traffic less stressful, we offer Pilot Assist and Adaptive Cruise Control. This means your Volvo automatically helps you maintain a safe distance from the car in front of you by adapting your speed while helping to keep you centered in the lane by automatically making small steering adjustments.

This technology also makes driving in stop-and-go traffic more effortless. Maintaining the set distance, your car follows the car ahead of you and brakes automatically to a full stop when needed. And if the car in front just makes a short stop, your car starts following it as it takes off again.

This is driving made safe and easy, with the aim to optimize your control, comfort and convenience.

Please note: The driver is always responsible for how the car is controlled; the functions described here are only supportive.

CITY SAFETY

Your proactive partner on the road

With advanced proactive safety technology we add extra power to your senses and enhance the confident feeling of being in control.

At the heart of our safety technologies is City Safety. By helping you to keep a lookout and braking and steering away if necessary, it makes driving more enjoyable while helping to prevent accidents.

City Safety can identify other vehicles, pedestrians, cyclists and large animals ahead of you, even at night. It warns you if needed and can brake automatically to help you avoid a collision or reduce the impact. And our advanced Oncoming Mitigation by Braking technology – a Volvo safety world first – can detect if there's another vehicle driving towards you and brakes automatically to help mitigate the impact.

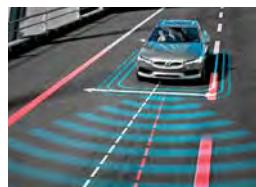

Your Volvo can also provide support if you're forced into a rapid evasive action at speeds between 31 and 62 mph. As you begin to steer away, City Safety can help you do it as effectively and safely as possible by braking the inner wheels individually and reinforcing your steering input.

City Safety is simply your perfect copilot: proactive when it's needed, and staying discreetly in the background the rest of the time.

Oncoming Lane Mitigation

Using automatic steering assistance, this system helps you avoid collisions with oncoming vehicles. If you drift across the lane markings in the way of an oncoming vehicle, your car steers back.

Lane Keeping Aid

If you're about to cross a lane marking unintentionally, the Lane Keeping Aid will gently steer your car back into its lane. If this is not enough or you keep steering across the lane markings, you'll be alerted with vibrations in the steering wheel.

Run-Off Road Mitigation

Stay safely on the road with this Volvo Cars safety innovation. If Run-Off Road Mitigation detects that you're about to leave the road unintentionally, it uses steering input and, if necessary, brake support to guide you back on track.

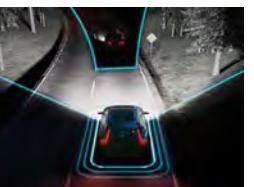

BLIS™ with Steer Assist

BLIS™ alerts you when a vehicle enters your blind spot or approaches fast from behind. If you nonetheless drift into the path of another vehicle, BLIS™ can gently steer you back into your lane.

Cross Traffic Alert

Cross Traffic Alert is included on all vehicles equipped with BLIS, and alerts you of crossing traffic from the sides when reversing out of a parking space.

Full-LED Headlights with Auto High Beam

To give you the best view, our Full-LED headlights allow you to drive with the high beams on all the time, without blinding others. It detects road users ahead of you and automatically switches to low beam lights to avoid blinding them.

PROTECTING WHAT'S MOST IMPORTANT

Protecting you and your passengers has always been at the heart of every car we make, and the advanced safety features in your Volvo are the result of decades of passionate innovation.

In a Volvo, it's the interaction between all the safety features that determines how efficiently the car will protect you and your passengers in a collision. Everything, from the design of the seats to the surrounding safety cage and the seat belts and airbags, works together to help minimize the strain on all occupants and maximize protection.

The front seats not only provide world-class comfort. They are also designed to protect you in the event of an

impact. Our unique whiplash injury protection helps protect your back and neck if your car is hit from behind. And in a run-off road scenario, the energy-absorbing front seat structure will help protect your spine in a hard landing, should the car become airborne.

Your Volvo can even sense and prepare for impact. The prepared front seat belts tighten automatically if the car detects that a collision is likely, to ensure you're in the safest position should one occur.

It's this range of safety technologies and attention to detail that makes your Volvo a safe place to be.

Crash-absorbing front seats

The sculpted front seats in your Volvo are more than just beautiful to look at. Their unique structure helps to absorb vertical impacts, helping to protect your spine if the car lands heavily after leaving the road. It's another example of how we make every part of a Volvo work harder for your safety.

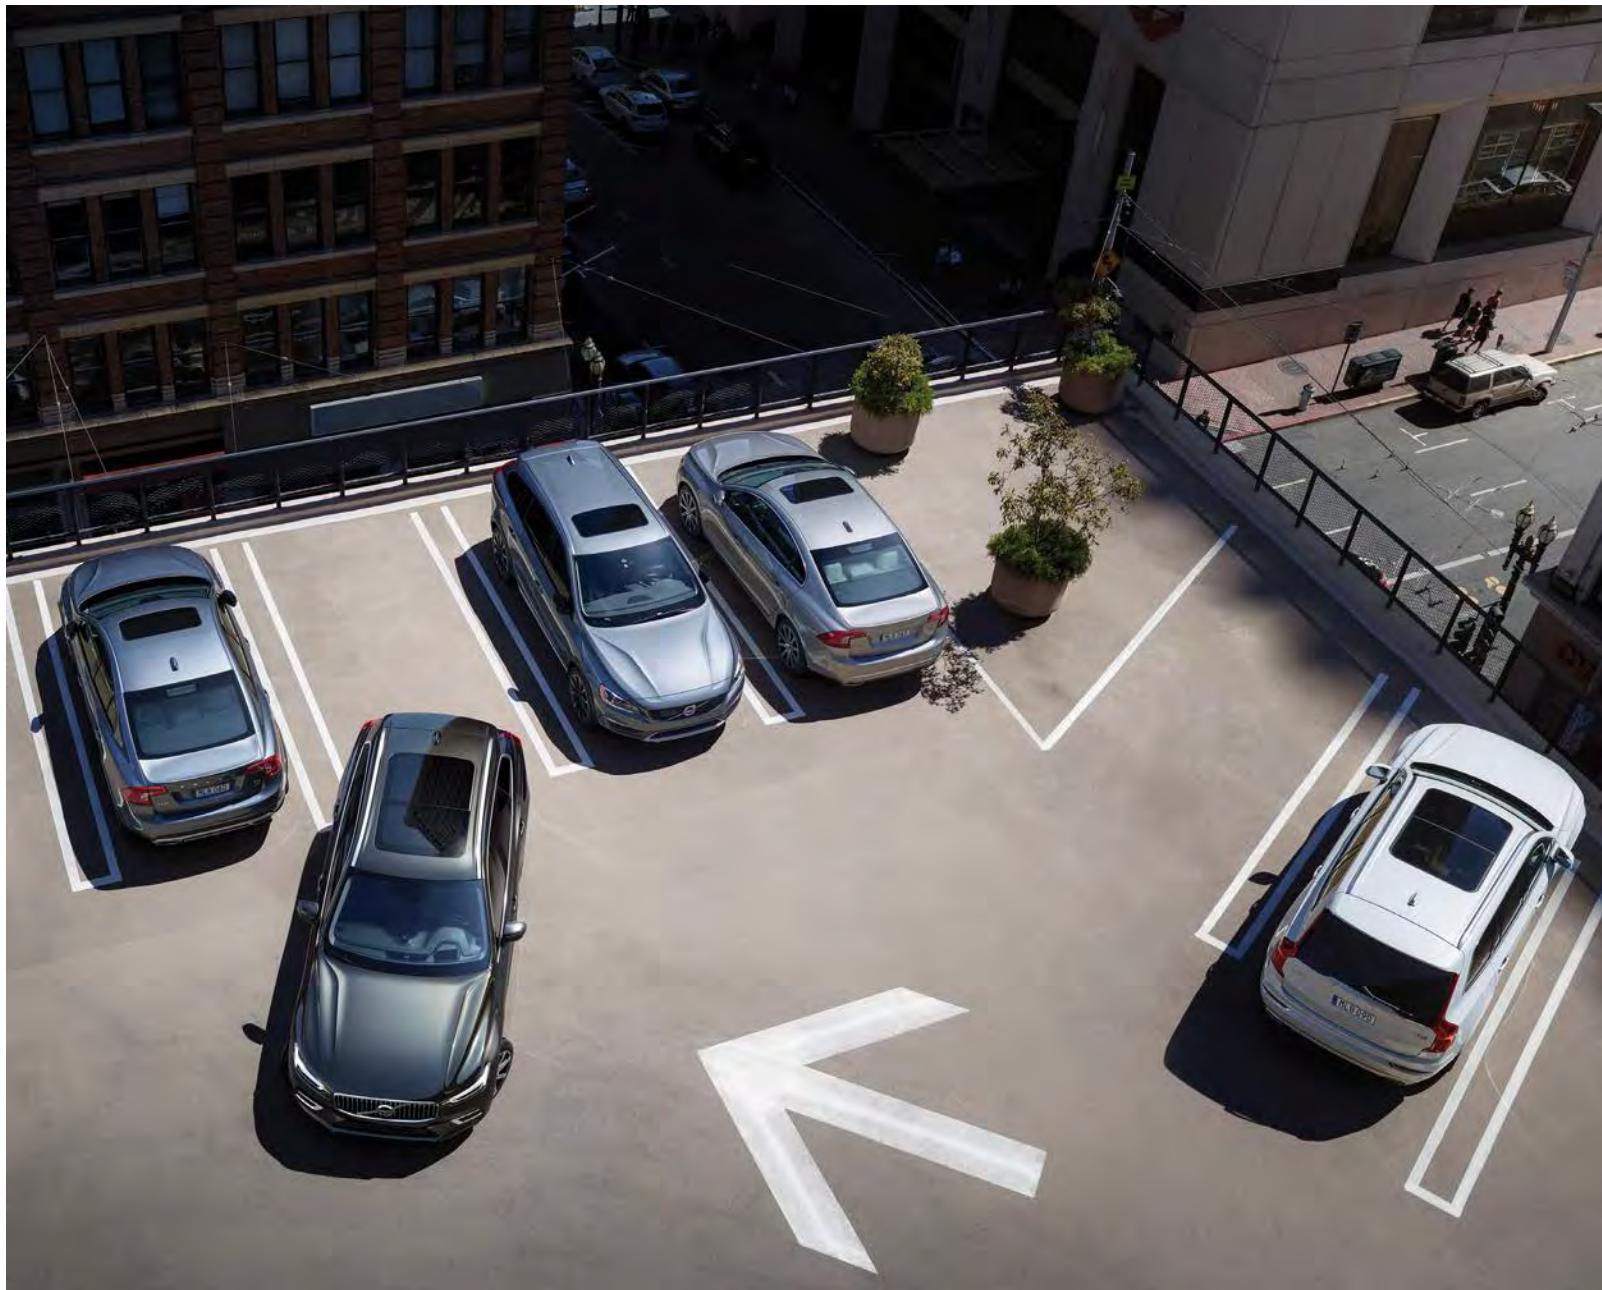

Volvo safety cage

The passenger compartment uses a high percentage of ultra high-strength boron steel to create a protective cage around everyone inside the car, while front and rear deformation zones help dissipate the crash energy. The seat belts and airbags work together to cushion you and your passengers in a controlled fashion.

A legacy of safety

In 1959, Volvo Cars engineer Nils Bohlin created the world's first 3-point seat belt. Knowing that this innovation was too important to keep to ourselves, Volvo Cars waived the patent rights so that everybody could benefit. Since then, it's estimated that over one million lives have been saved as a result of this Volvo Cars innovation.

INTELLISAFE SURROUND

*Perfect parking,
every time*

In a Volvo, you can enjoy smooth parking.

When parking, you're supported by front and rear park-assist sensors that alert you if there are obstacles in your way. And by adding our 360° SurroundView Camera, you get a detailed bird's-eye view of the area surrounding your Volvo – a great help when you reverse or maneuver in confined areas with impaired visibility.

If you want, our Park Assist Pilot can park the car for you. It measures the parking space, and if the space is at least 1.2 times the length of your car, it can park by taking over the steering. Park Assist Pilot handles both parallel and perpendicular parking, and can also assist when leaving a tight parallel-parking parking space.

And to make it easier when you reverse out of a parking space, Cross Traffic Alert helps you keep a lookout for approaching vehicles in your blind sectors.

360° SurroundView Camera

The 360° SurroundView Camera uses images from discreetly mounted cameras to create a bird's-eye view of your car and its closest surroundings. In the center display, you can see obstacles all around you, which makes it easier to park and maneuver in tight spaces.

DRIVE-E

Enjoying more, using less

With the perfect balance between performance and efficiency, every Volvo powertrain gives you a great drive with low fuel consumption and reduced emissions. The combination of lightweight, low-friction engine design and advanced boosting technology allows you to enjoy outstanding performance and a smooth, agile driving experience. Reduced size and weight also frees up interior space and contributes to the car's dynamic handling.

The key to this is our lightweight, low-friction, turbo and supercharged engine, which is coupled with our beautifully designed 8-speed Geartronic™ automatic transmission.

This technology enables us to offer the power of a much larger engine from a compact powertrain to achieve the perfect mix of power and efficiency.

The powertrain can also adapt to the mood you're in. Select Comfort, Eco, Dynamic, Off Road or Individual mode with our drive mode control, and the powertrain, steering and optional active chassis with air suspension adapt instantly to your preferences.

Whichever powertrain you choose for your Volvo, you will enjoy the benefits of responsive power and uncompromised efficiency – simply a great drive.

T8 e-AWD Plug-In Hybrid | R-Design
Crystal White Metallic

T8 E-AWD PLUG-IN HYBRID

Two hearts, one car

Our high-performance powertrain, the T8 e-AWD Plug-In Hybrid, turns the XC60 into a true performance car but, with its combination of turbocharged and supercharged gas engine with an electric motor, it also has class-leading fuel economy.

With 400-hp, the combination of a lightweight gas engine and powerful electric motor offers the power and performance of a much larger engine, but uses much less fuel. The gas engine drives the front wheels and the electric motor powers the rear, giving instantaneous acceleration and on-demand all-wheel drive.

With just the electric motor powering the car, you benefit from silent, emissions-free driving and an electric-only range ideally suited to daily commuting.

Four different drive modes offer precise control over the car's powertrain. Hybrid mode uses gas and electric power for the best balance of power and efficiency, while Pure uses the electric motor only for zero-emission driving.

Power combines the full output of the gas engine and the electric motor for the best performance, while AWD switches to full-time all-wheel drive. Blend your favorite elements of each mode and create a mode that's tailored to your needs by selecting Individual.

Controlling this technology is intuitive and straightforward. A beautiful diamond-cut roller switch allows you to flick easily between modes. And if you've chosen our active chassis with air suspension, your car automatically selects the best chassis settings to complement the drive mode, allowing you to enjoy the drive while your Volvo does the work.

Charging the battery is quick and easy. Drive the car and it charges the battery with a generator and regenerative braking. If you need to top it up, plug it into the power grid and the battery can be fully charged in under three hours.

The T8 e-AWD Plug-In Hybrid gives you the best of both worlds. Power without compromise.

The power of a turbo and supercharged gas engine combined with a responsive electric motor makes the T8 e-AWD Plug-In Hybrid a true performance SUV.

Plug in and charge up. Use the charging port to connect the car to the power grid, and enjoy the refinement of the electric motor wherever you go.

T8 e-AWD Plug-In Hybrid | R-Design
Crystal White Metallic

The way we've designed the T8 e-AWD Plug-In Hybrid gives you more than just efficiency – you will notice how well balanced and responsive the car feels on the road, and how quickly it reacts to changes of direction. By mounting the electric motor over the rear axle and fitting the battery along the car's centerline, we've given the XC60 near-perfect weight distribution, a key element in creating agile handling.

The battery's location helps create a low center of gravity in the middle of the XC60, so the car is stable, sure footed, and comfortable. And because the battery is not in the trunk, you get the same luggage capacity in the T8 e-AWD Plug-In Hybrid as you do in all other XC60 models. Our cars are designed from the outset to use plug-in hybrid technology, so your experience with them is never compromised.

ADVANCED CHASSIS

Drive, don't compromise

We believe a car can be both great to drive and comfortable, so we built the XC60 to strike that balance between control, precision and comfort. It's a car that rewards the way you drive with response and control. A car for long distances and memorable journeys.

The sophisticated double-wishbone front suspension and our innovative integral-axle rear suspension work together to put you in control of every drive. You get a car that responds to your commands, but doesn't sacrifice the comfort you need.

Full air suspension makes the XC60 even more capable, isolating the car's body from the road and soaking up uneven surfaces. By keeping the ride height constant, the air suspension increases stability, making the XC60 easier and more predictable to control. The car body's height is adjusted according to its drive mode and speed. In Comfort or ECO drive mode, the body is lowered 10–20mm at higher speeds, using less fuel and making it quieter. In Dynamic mode the body is lowered constantly by 20mm in order to enhance handling and road holding.

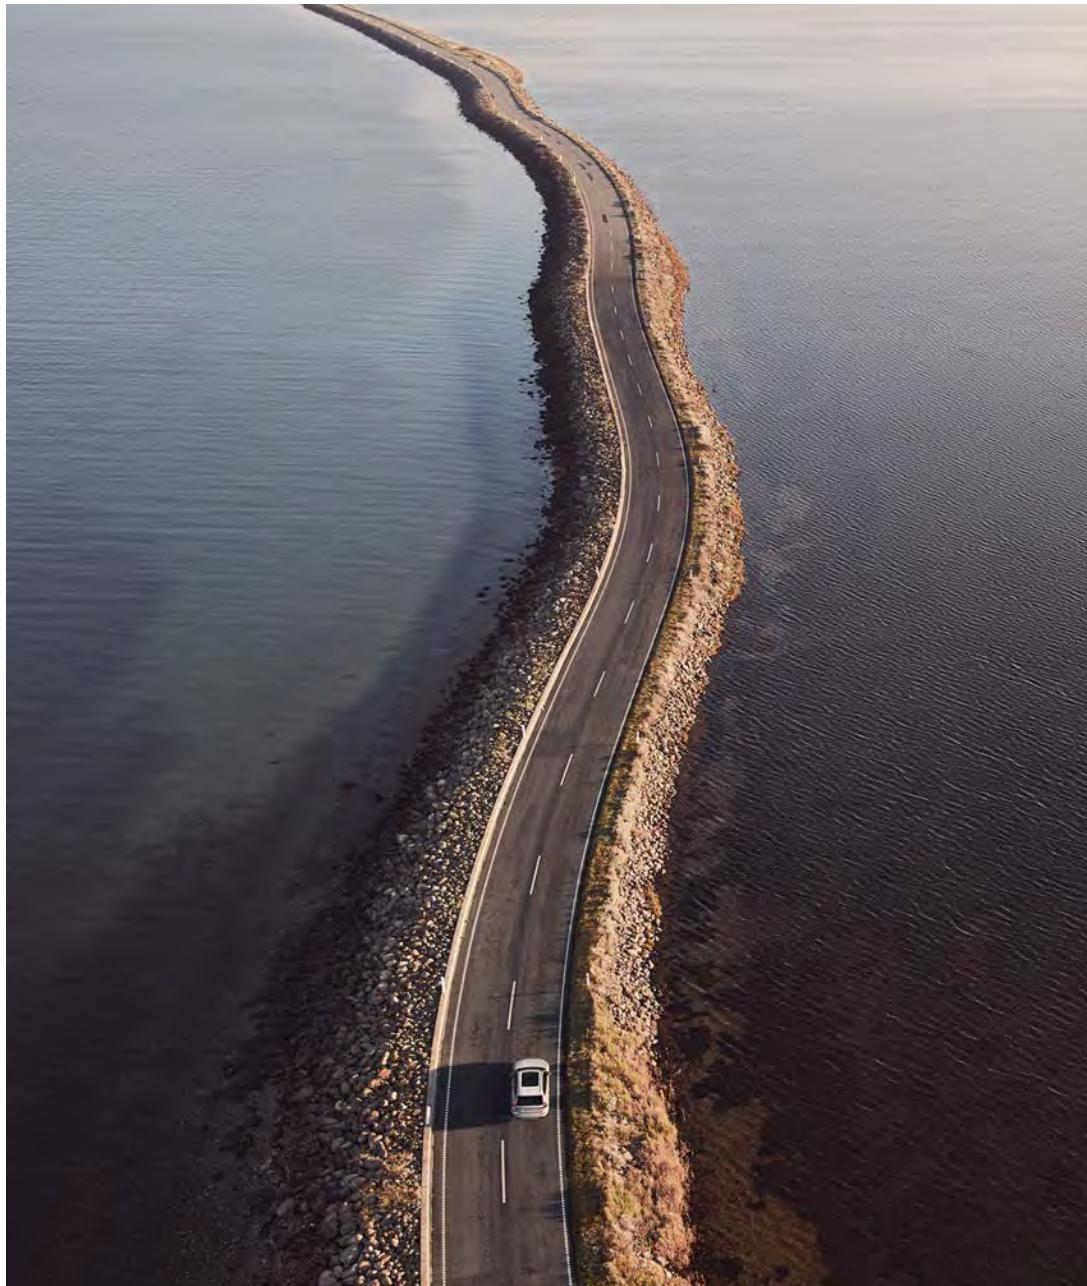

Our AWD technology with Instant Traction™ gives you an edge by increasing driving stability and traction – on all road surfaces and in all weather. As conditions change, wheels with the best grip get the most power to optimize your drive.

The drive mode selector with five different drive modes allows you to tailor the car's behavior to your mood and find the perfect setting for the road you're on. Altering the engine, transmission, accelerator and steering response changes the way the car behaves and, in the case of the optional active chassis with full air suspension, even how it rides and handles. On rough roads, Off Road mode makes the XC60 easier to control at the low speeds needed to tackle bad surfaces, and engages Hill Descent Control to make descending slopes safer and simpler.

Air suspension on all four wheels gives the XC60 outstanding ride comfort – the air springs absorb imperfections in the road – and make the car stable by keeping the ride height constant, regardless of the load. With the active chassis you can alter the way the car rides and handles to suit your mood or the road.

T8 e-AWD Plug-in Hybrid | R-Design
Crystal White Metallic

YOUR JOURNEY BEGINS HERE

We created the XC60 with one single purpose: to provide you with an SUV that perfectly fits you and your lifestyle. A car that meets your expectations of a dynamic drive with refined comfort and confident design.

At the heart of your XC60 is a dynamic, efficient powertrain. Whichever you choose, you will enjoy our latest Drive-E technology that gives you instant response and a comfortable ride. Fuel consumption and CO₂ emissions are kept low, and our powertrains already comply with future exhaust emission legislation.

Our Drive-E powertrain range includes advanced gas engines mated to our smooth 8-speed Geartronic™ automatic transmission. The responsive all-wheel drive technology gives you an edge by increasing driving stability and traction – on all road surfaces and in all weather. And for the ultimate combination of performance and efficiency, there's the option of our T8 e-AWD Plug-In Hybrid powertrain.

Make your choice, and enjoy the journey wherever it takes you.

T8 e-AWD Polestar Engineered Plug-in Hybrid

The XC60 T8 Polestar Engineered is a performance SUV with a powerful plug-in hybrid powertrain, for a pure, dynamic experience. Polestar optimization for the XC60 includes upgraded suspension and braking components for a thrilling drive.

T8 e-AWD Plug-in Hybrid

T8 e-AWD Plug-in Hybrid powertrain delivers an exhilarating drive with uncompromised efficiency. Combining a high-performance gasoline engine and an electric motor, this 400 hp/472 lb-ft powertrain provides outstanding highway performance and zero emission commuting – with all-wheel drive capability when needed.

T6 AWD

This high-performance 316 hp/295 lb-ft gas powertrain provides excellent driving dynamics without compromising on efficiency. Combined supercharger/turbo technology, responsive all-wheel drive and our smooth 8-speed Geartronic™ automatics transmission put you in control of your drive.

T5 FWD / AWD

The 250-hp/258 lb-ft turbocharged gasoline engine is as responsive on the highway as in the city. This superb all-rounder delivers generous power just where you need it, ensuring excellent driveability in combination with our smooth 8-speed Geartronic™ automatic transmission and all-wheel drive or front-wheel drive.

T8 e-AWD Plug-in Hybrid | R-Design
Crystal White Metallic

Momentum
The high level of standard equipment meets your demands on style, comfort, safety and sophisticated design.

R-Design
The thrill of a spirited drive, characterized by style, responsiveness and control.

Inscription
The highly sophisticated expression of Swedish luxury.

T8 Polestar Engineered
The electrified performance SUV like no other.

CREATE THE SUV OF YOUR CHOICE

To ensure you get your new XC60 exactly as you want it, we have created a range of options, trim levels and design expressions. The standard Momentum trim level provides you with everything you need for inspired traveling. Maybe you want to

indulge your senses in the finest Swedish luxury. Then you'll feel at home with Inscription. Or if you're up for a sportier style inside and out – take a look at R-Design. Whatever you prefer, you can rest assured there's a Volvo XC60 for you.

MOMENTUM

THE RIGHT EQUIPMENT FOR YOUR DRIVE

Generously equipped at standard Momentum trim level, the XC60 will provide you with a high level of equipment that will meet your high demands on technology, style, comfort, safety and distinctive design.

Unique exterior design cues, such as our signature "Thor's Hammer" design LED headlights, the high-gloss black grille and integrated roof rails in satin silk metal finish, contribute to the both powerful and stylish appearance of the XC60 Momentum. The 18", 19" or 20" Alloy Wheels add to the car's exclusiveness and road presence, while the dual stainless steel tailpipes add a powerful finish.

On the inside, aluminum tread plates welcome you every time you enter the cabin of your XC60. You can enjoy the control provided by Sensus Connect with enhanced connectivity – such as the intuitive operation of our 9" Sensus Touchscreen with voice control – while everybody on board will appreciate the clear sound reproduction of our high performance audio system including Bluetooth® music streaming and Apple CarPlay® and Android Auto®. Our 2-zone climate system ensures you and your passengers can enjoy a comfortable cabin climate in all temperatures – the driver and front seat passenger can adjust the temperature to suit individual preferences. As driver you will enjoy the feel of a leather steering wheel, a leather gear lever and ergonomic Comfort Seats with power lumbar support.

Heated front seats ensure you are always traveling

MOMENTUM

Includes:

Exterior:

in comfort. Iron Ore aluminum decor inlays further complement the interior ambience. And when it's dark, the interior illumination enhances the luxurious feeling inside your XC60 Momentum.

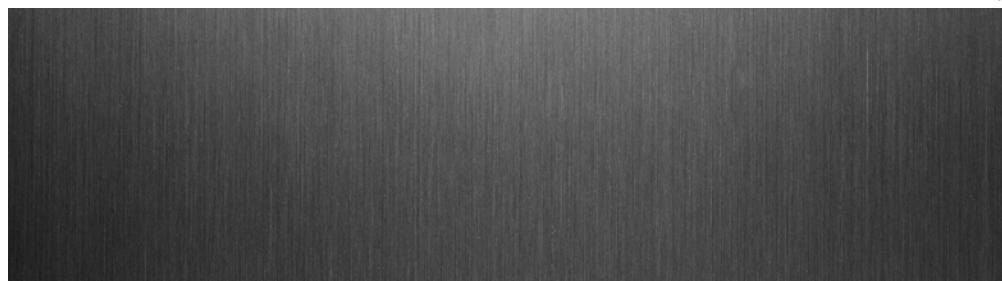

And of course: you get our world-leading IntelliSafe technologies including the City Safety Collision Avoidance Technology with Steering Support, Lane Keeping Aid, Road Sign Information, Run-off Road Mitigation, Oncoming Lane Mitigation and Driver Alert Control as standard. To further enhance your feeling of relaxed control whether you're driving in the city or on the highway, you can add our semi-autonomous driving technologies such as Adaptive Cruise Control with Pilot Assist. Available BLIS™ (Blind Spot Information System) with Steer Assist and Cross Traffic Alert helps increase your awareness of what's going on around your car.

Available power-retractable door mirrors and rear park assist support your parking, and adding our 360° SurroundView Camera and Park Assist Pilot you'll enjoy perfect parking with total confidence – even in tight spaces.

To make your XC60 Momentum suit your adventures as well as your everyday challenges, the rear seat backrests fold individually to create a flat load compartment floor. And to further facilitate loading and unloading, a power-operated tailgate is standard with an available hands-free function – just move your foot beneath the rear bumper and the tailgate opens and closes at your convenience.

1. The XC60 Momentum with "Thor's Hammer" LED illumination headlights, integrated roof rails in satin silk metal finish, 19" (T6/T8) Alloy Wheels, seat memory (standard T8) and bright deco exterior details. **2.** Standard Back-up Camera supports you when reversing and the chrome dual tailpipes give your XC60 Momentum a more dynamic look. **3.** The standard 12.3" Digital Driver Display allows you to choose between different visual appearances. To provide optimum visibility, the display's brightness automatically adapts to exterior light conditions. **4.** Inside the XC60 Momentum, you can enjoy the contemporary spirit of our Comfort Seats and Iron Ore decor inlays. **5.** The integrated roof rails in satin silk metal finish add an extra touch of exclusivity to your XC60 Momentum. **6.** Sensus Connect includes the large 9" Sensus Touchscreen, voice control, USB/AUX inputs, internet maps and our 330 W High Performance audio system with 10 excellent speakers, Bluetooth® audio streaming, and Apple CarPlay® and Android Auto®.

21" 5-Double Open Spoke Tech Matte
Black Diamond Cut Alloy Wheels**R-DESIGN****INSPIRED BY THE ART OF DRIVING**

If you love to drive, the XC60 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterized by style, responsiveness and control. A wealth of distinguished design details raises the dynamic soul of your Volvo and gives it a sportier, more distinct road presence. It's an expression that catches the eye from every angle and hints at the promise of an amazing drive, every time. And you can rest assured that the XC60 R-Design will deliver.

Surrounded by meticulously crafted and expressive interior design details, you can feel it right from the moment you take your position in the sculpted R-Design driver seat. Everything – from the R-Design steering wheel with gearshift paddles to the Charcoal headlining – is there to inspire and support your driving. And for an even more energetic, road-hugging drive, the XC60 R-Design benefits from an advanced sport chassis.

R-DESIGN

Includes Momentum trim level features plus:

Exterior:

19" Alloy Wheels | Keyless Entry with Hands Free Tailgate | Door Mirror Caps in Matte Silver Finish | Dual Integrated Tailpipes | Lower Front, Unique Sporty Design | Grille with Unique Mesh in Glossy Black and Frame in Silk Metal Finish | Lower Outer Grilles, Unique Design and Glossy Black | Side Window Trim in Silk Metal Finish | Body-Colored Rear Lower Insert | Sport Chassis | Bright Integrated Roof Rails | Fog Lights (T5 and T6 Only)

Interior:

1

R-DESIGN

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in high gloss black with Silk Metal frame, front spoiler, stylish Silk Metal window trim, Bright Silver Tech Matte finish door mirror caps, prominent dual taillights and Tech Matte R-Design 19" and 21" Alloy Wheels in striking Diamond Cut design. Our signature "Thor's Hammer" headlights with LED illumination provide excellent vision and a distinctive attitude on the road. And for an even better uninterrupted vision in the dark, there's the option of the Full-LED Active High Beam illumination.

A refined sporty theme is present throughout the vehicle with Metal Mesh aluminum decor inlays, Charcoal headlining, and sculpted R-Design Contour Seats with unique Perforated Fine Nappa Leather/Nubuck upholstery. Together, these features give the cabin a technical, cockpit-like feel. R-Design logotypes and

distinct contrast stitching in the seats, the gear shifter and the steering wheel in leather all reinforce the sporty yet elegant ambience. The adjustable front seat cushion extensions further enhance your thigh support for improved comfort during long drives.

Further adding to your sense of being in control, the R-Design also provides you with our largest 12.3" Digital Driver Display. Conveniently positioned in the tunnel console between the front seats, there's also a drive mode control that allows you to shift between five driving modes – Comfort, Dynamic, Eco, Off-Road and Individual Mode.

Behind the R-Design sport steering wheel in Perforated Fine Nappa Leather, you can enjoy the dynamic response and feedback from a finely tuned sport chassis. This chassis features stiffer springs and dampers for more responsive handling and less roll when cornering.

The XC60 R-Design is available with all powertrains, including our 400 hp T8 e-AWD Plug-In Hybrid.

1. The XC60 R-Design in Crystal White Metallic with optional 21" 5-Double Spoke Tech Matte Black Diamond Cut Alloy Wheels. **2.** The R-Design interior featuring the Contour Seats with exclusive Perforated Fine Nappa Leather/Nubuck upholstery, and Metal Mesh Aluminum Decor Inlays. **3.** The Metal Mesh Aluminum Decor Inlays. **4.** 21" Tech Matte Black Diamond Cut Aluminum Wheels for the ultimate R-Design experience. **5.** The R-Design sport steering wheel in perforated leather with gearshift paddles and the 12.3" Digital Driver Display with four graphic modes. **6.** Dual integrated taillights for a distinctive road presence. **7.** R-Design door mirror caps in contrasting silver look. **8.** Our Signature headlights with LED illumination, and the gloss black R-Design grille with frame in Silk Metal finish and unique gloss black lower outer grilles add to the dynamic character of your XC60 R-Design.

INSCRIPTION

A HIGHER GRADE OF REFINEMENT

We created the exclusive XC60 Inscription to meet your highest expectations of Swedish luxury. It's a highly personal expression that evokes a strong sense of elegant refinement. Each detail is carefully selected to give you and your passengers a stylish and invigorating experience. Distinguished exterior design cues enhance the luxurious look and feel of the XC60, while the

meticulously crafted interior with leather seats gives you ample room for a relaxed driving experience. The XC60 Inscription epitomizes our proud heritage of human-centric design. And when it comes to intelligent luxury with distinctive style and fresh thinking, the XC60 Inscription is in a class of its own.

INSCRIPTION

Includes Momentum trim level features in addition to:

Exterior:

19" Alloy Wheels | Keyless Entry with Hands-Free Tailgate | Bright Deco Exterior Trim | Bright Deco Molding with Embossed Inscription logotype, Side | Bright Integrated Roof Rails | Dual Integrated Tailpipes | Foglights in Front Spoiler (T5 and T6 only) | Illuminated Door Handles

Interior:

3

INSCRIPTION

The highly sophisticated XC60 Inscription expresses the essence of contemporary luxury. Instantly recognizable thanks to its distinctive chrome-finish grille and lower door bright deco molding, this expression sets the XC60 apart thanks to a number of well-judged exterior design cues that correspond with the car's timeless Scandinavian design. The 10-Spoke 19" Alloy Wheels in distinctive Diamond Cut design harmonize perfectly with the dynamic and exclusive character of your XC60 Inscription. Together with the elegant dual integrated tailpipes, the wheels also contribute to the car's confident stance. Our signature "Thor's Hammer" LED Headlights contribute to both a strong visual identity and excellent vision in the dark. And for an even better and uninterrupted light pattern, you can opt for our advanced Full-LED Active High Beam illumination technology.

On the inside, the luxurious theme continues with finely crafted materials that create a lounge-like atmosphere of sumptuous well-being. You and your passengers can lean back in sculpted power-operated Comfort Seats with Leather upholstery. Unique Driftwood inlays in genuine wood and our most advanced interior illumination add to the rewarding Inscription experience.

For you as driver, the large 12.3" Digital Driver Display and convenient drive mode settings in the console between the front seats add to your feeling of being in command. And to enhance your driving experience, our optional active chassis with air suspension optimizes comfort and handling – select between five different chassis settings with the Drive Mode control.

For an even higher level of luxury, you can upgrade to our front seats in Perforated Fine Nappa Leather with front ventilation and massage function. The 4-zone climate control (T5 and T6 only) allows both the driver and the front seat passenger as well as the outer rear seat passengers to set their individual cabin temperature. With the Panoramic Moonroof everyone inside your XC60 will enjoy a superb experience of air and light – the front section can be opened at a push of a button, and during sunny days a power-operated sunshade in perforated textile will reduce the heat and glare while maintaining the airy feel inside the cabin. And turning your XC60 into a concert hall, the standard Harman/Kardon® Premium Sound and optional high-end Bowers & Wilkins® audio system brings exceptional clarity and realism to your music, wherever you're seated.

1. The power-operated Comfort Seats with leather upholstery and the exclusive Driftwood genuine wood decor inlays add to the sensory experience of contemporary luxury (Optional Leather Nappa Seat Shown). **2.** Made from Orrefors® crystal, the gear selector in the T8 e-AWD Plug-In Hybrid blends traditional Swedish materials with advanced design and technology. **3.** The exclusive Inscription leather-clad remote control shell is an excellent example of thoughtful Scandinavian craftsmanship and clean design. **4.** The XC60 Inscription with dynamic yet elegant 20" Inscription 8-Spoke Alloy Wheels (optional) in distinctive Black Diamond Cut design. **5.** Dual integrated tailpipes and bright decor trim add to an elegant and powerful impression. **6.** The intuitive 12.3" Digital Driver Display with four graphic modes and the 9" Sensus Touchscreen puts you in the center of the action. **7.** Inscription front grille in elegant chrome finish and the signature headlights with LED illumination. **8.** The lower door bright deco molding with Inscription logotype. **9.** The lower outer grilles with chrome trim and fog lamps complement the elegant front design of your XC60 Inscription (T5 and T6 Only).

POLESTAR ENGINEERED PURE PERFORMANCE

We created the Volvo XC60 T8 Polestar Engineered with one single-minded ambition – to give you the most precise and involving driving experience, period.

To achieve this, we joined forces with the engineers at Polestar – our exclusive electric performance car brand. Refinement, human centric innovation and world-class safety combined with Polestar's applied performance expertise enable what we call advanced driving dynamics.

This means we've fine-tuned and engineered each

component to act as one for your driving enjoyment. Everything, from the even further enhanced powerful T8 e-AWD Plug-In Hybrid plug-in hybrid powertrain to the exclusive Polestar Engineered Öhlins chassis and the high-performance Polestar Engineered Akebono brakes, work together to optimize performance, handling and control. Combined with lightweight, Polestar Engineered Alloy Wheels and distinctive styling, this will provide you with a high-precision driving experience that's simply electrifying.

XC60 POLESTAR ENGINEERED

Includes XC60 R-Design trim level plus the following:

Polestar Engineered 19" 5-Y Spoke Forged Wheels | Polestar chassis with Öhlins dampers | Polestar Engineered front strut bar | Rear brake calipers in Öhlins gold color | Heated steering wheel | Painted high gloss black grille insert with horizontal mesh pattern | Sport steering wheel | Integrated double tailpipes

in black chrome with Polestar Engineered emblem | Polestar Engineered front Akebono brakes with calipers in Öhlins gold color | Gear Shift paddles | Crystal gear shifter | Sill moulding Volvo metal | Polestar Engineered emblem, front and rear

T8 | Polestar Engineered
Crystal White Pearl

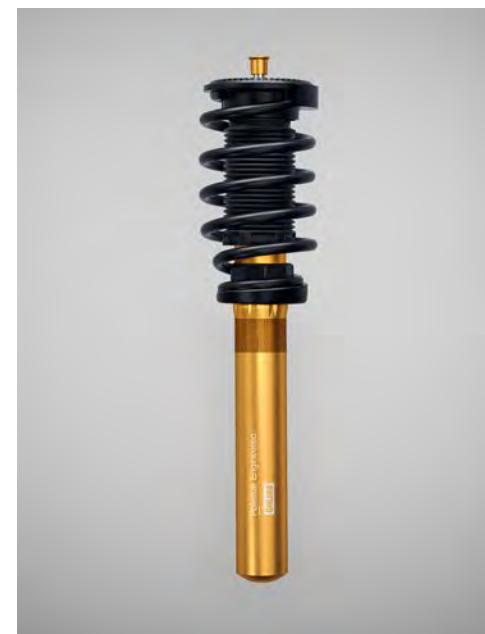

The Volvo XC60 T8 Polestar Engineered takes the driving precision and performance of the XC60 to a higher level. The Polestar optimized 415 hp combined T8 e-AWD Plug-in Hybrid powertrain gives you uncompromised power and efficiency. Together with the engineers at Polestar, we have upgraded the highly capable XC60 chassis with adjustable springs by Polestar and high-end suspension technology by Öhlins – the renowned

Swedish manufacturer of shock absorbers for performance and racing cars and motorcycles. This gives you precise and consistent handling characteristics together with maximum road contact in all road conditions, while still providing supple ride comfort. And the Polestar Engineered Akebono brakes maximize braking performance in all conditions.

We created the Polestar Engineered Öhlins Chassis to give you the perfect balance of agility, control and comfort. The advanced Öhlins shock absorbers work together with the Polestar Engineered front and rear springs that stiffen up the chassis and lower the ride height. This gives a somewhat firmer and more composed ride with less roll and more grip when cornering. And for stable and predictable handling, the technical layout of the T8 e-AWD Plug-in Hybrid powertrain adds to even weight distribution and a low center of gravity.

The advanced, hand-made Öhlins shock absorbers deliver the perfect mix of agility and comfort. The unique Dual Flow Valve technology means the shock absorber can react more quickly, allowing the wheel and tire to regain road contact instantly after passing a bump or a pot hole without losing traction. You can enjoy sporty handling and great control without compromising comfort.

Reducing the unsprung weight by up to 15%, the Polestar Engineered 19" 5-Y Spoke Forged Wheels contribute to responsive driving characteristics and excellent road holding. Milled out of a solid block of aluminum, these wheels are of an exclusive design normally found on high-end performance cars and race cars.

The front suspension is further stabilized by a Polestar Engineered strut bar. This contributes to even more precise, responsive steering characteristics at all speeds and more controlled handling through the curves.

The Polestar Engineered Akebono brakes feature 6-piston brake calipers and 14.6" ventilated and slotted floating discs at the front. They're designed to maximize your control and braking performance with a minimum of fading, even during hard driving.

1

The exterior of the Volvo XC60 T8 Polestar Engineered subtly reveals the soul of a finely tuned, high-precision performance car.

Distinctive glossy black design details such as the grille with Silk Metal frame, side window trim and door mirror caps highlight the dynamic capacity of the XC60 T8 Polestar Engineered. Unique Polestar Engineered 19" 5-Y Spoke Forged Wheels and visible, gold colored Akebono brake calipers add an engineered, high-tech touch. And from the rear, the Polestar Engineered Exhaust pipes in black chrome connect visually with the wheels and glossy black design details for a distinct road presence.

Inside the Charcoal interior of the Volvo XC60 T8 Polestar Engineered, you can focus on driving surrounded by fine materials and excellent craftsmanship. You're in control of every aspect of the drive, and can enjoy the car's perfectly balanced performance. The deeply sculpted Contour seats in Fine Nappa Leather/Open Grid Textile with adjustable seat cushion extensions keeps you firmly in place and provides excellent long-distance comfort. Behind the Leather steering wheel, you can enjoy a steering that connects you with the road while the steering wheel mounted gearshift paddles allow intuitive manual gearshifts.

MAKE IT YOURS

Add your own style to the XC60 with Volvo styling accessories; the perfect addition to your new car. Designed to perfectly complement the lines of the XC60, the exterior styling kit allows you to create an exclusive, individual look – no matter which trim level you've chosen.

At the front, a stainless steel skidplate wraps around the leading edge of the lower bumper, adding definition. At the rear, a matching stainless steel skidplate and integrated dual split tailpipes give the car a powerful presence. The stainless steel bumper protector looks great and stops the paint from being damaged during loading.

The 22" wheel accessory option combines delicate, technical forms with a high-tech look. Both the 5-Double Spoke and 10-Open Spoke wheels are finished in black with a diamond cut finish, a technique that provides a striking contrast between the dark recesses and bright faces. Body-colored wheel arch extensions cover the wheels' extra width and help to create a more powerful visual statement. And to maintain that powerful look all year round, choose our winter wheels for your winter tires.

T8 e-AWD Plug-In Hybrid | R-Design
Crystal White Metallic | 22 5-Double Spoke
Tech Matte Black Diamond Cut Alloy Wheels

Coupled with R-Design trim, the exterior styling kit accentuates the car's athletic, dynamic design. With just the right amount of stainless steel detailing to contrast with the body color and complement the R-Design silver mirror covers, it's a great way to add your own touch to the XC60. The accessory option 22" 5-Double Spoke Wheels in distinctive Tech Matte Black Diamond Cut design add a rugged, sporty edge to your XC60 R-Design.

LUXURY, YOUR WAY

The XC60 Inscription is about elegant, Swedish luxury. To make your SUV an even stronger and more personal statement, you can add our exterior styling kit. Front and rear skidplates in stainless steel combined with the integrated dual split tailpipes and body-colored wheel arch extensions enhance

your car's exclusive and powerful presence. And adding our large 22" 10-Open Spoke Alloy Wheels as an accessory option lends the elegance of your XC60 Inscription a more rugged touch – perfectly harmonizing with the stainless steel design elements of the exterior styling kit.

FOR ALL OF LIFE'S JOURNEYS

Create an XC60 that's perfect for your life, with Volvo accessories that are designed around you and your car.

The sleek iPad® holder complements the car's interior. It allows rear-seat passengers to watch, read or play, and has two USB ports for charging devices.

Our child seats are a comfortable and stylish accessory option. They are covered with a unique Volvo fabric – Wooltextile cloth – which is 80% wool, so it's both soft and durable. They also represent state-of-the-art safety: the child seat has side impact protection and is

rear-facing for maximum safety. We apply the same stringent standards to our child seats as we do to building our cars, so you know your children are well protected. We also offer our booster cushion and backrest in a luxurious leather and Nubuck Textile that is designed to match your car's interior and is easy to clean.

Your car and its load are also protected. A steel grille provides a sturdy barrier between trunk and passenger compartment, and load compartment mats help protect the car interior.

1. Protective steel grille. **2.** Load compartment mat, plastic.

WORKS HARDER WHEN YOU NEED IT

Make the XC60 work for you with Volvo Cars' range of exterior accessories, designed to look good and work flawlessly. Made from tough, high-quality materials, they're built to withstand the punishment inflicted by Sweden's winter.

Take advantage of our range of roof-mounted accessories by adding a pair of tough, low-profile load carriers. Easy to fit (they clip onto the car's roof rails), they instantly allow you to fit our load carrier accessories, from the bike rack to the canoe holder. Our lightweight, stylish roof

box fits straight onto the load carriers, adding 12 cu ft to the carrying capacity. Ideally suited to carrying skis (and capable of carrying up to six pairs), its low weight and Quick Grip mountings make it possible to load with one hand, while neat touches such as LED lighting in the lid help you load in the dark.

The bumper cover protects the paint from damage caused by loading objects into the trunk. Made from stainless steel with a high-gloss finish, the cover looks great and works well.

1. Bicycle holder. **2.** Load carriers. **3.** 22" 5-Double Spoke Tech Matte Black Diamond Cut Alloy Wheel. **4.** 22" 10-Open Spoke Black Diamond Cut Alloy Wheel. **5.** Bumper cover.

POLESTAR OPTIMIZATIONS

Polestar engineers have taken a holistic approach to form a complete software solution that takes your driving to a new level. Five key functions have been optimized to provide faster response, better balance and more intuitive driving. This results in a car that responds quickly and predictably, which is important for those who engage in active driving, whether on the racetrack or on the road. This software upgrade is available through your local Retailer upon request.

Throttle Response

Throttle response has been recalibrated to provide improved feedback and accelerator reaction – ideal for overtaking or during active driving on a winding road.

Off-Throttle Response

The engine and transmission have been calibrated to provide faster responses when the driver suddenly releases the throttle, providing improved predictability and control.

Gearshift Speed

Shift speed has been increased, allowing the car to accelerate faster and react more directly to driver input.

Gearshift Precision and Gear Hold

Shift points have been optimized to provide a more precise driving experience with faster acceleration. Gearshift points have been calibrated to utilize the optimized mid-range engine performance, while the gear hold function maintains the same gear when cornering with high lateral g-force.

Engine Performance

All Drive-E optimizations are made to provide greater performance in the engine's mid-range powerband – perfect for the sporty driver when overtaking, joining a highway or exiting a corner.

Engine	Transmission	Model Year	Original	Polestar Optimized	Difference
T6 Drive-E	8-Speed Geartronic™	2020	316 hp / 295 lb-ft	330 hp / 325 lb-ft	+ 14 hp / + 30 lb-ft

Service By Volvo

Taking care of you and your Volvo is our top priority. With a unique approach to service that's personal, professional and efficient, we get you everything you need in the simplest way possible. To make your life less complicated.

Knowing your vehicle is always up to our highest standards for as long as you own it – that's the driving force behind Service by Volvo. To help you get the most out of your Volvo, we'll ensure each service or maintenance provides peak conditioning through our expertly trained technicians, field-tested repair methods, and precision-engineered genuine parts. That's because we focus on our promises to service your car and simplify your life.

OUR SERVICE BY VOLVO PROMISES

When you have your car serviced at an authorized Volvo dealer, we promise to provide you with a premium ownership experience for the life of your vehicle. Enjoy our Lifetime Parts and Labor Warranty,* so you pay only once, knowing your car is always up to our highest standards. Get technical software updates** and more. No sign-up required.

* Excludes consumable parts due to normal wear. See dealer for details. Non-transferable.

** New software required as part of a repair or accessory installation is not included.

The most carefree way to own a car

LEASING OPTIONS

FLEXIBLE TERMS

Leasing is available for terms as short as 24 months or up to 48 months. You can drive a new Volvo car every few years while within the manufacturer warranty and maintenance plans, and without the burden of negotiating trade-in values.

CHOICE OF MILEAGE PLANS

The standard mileage option allows up to 15,000 miles per year; however, several other mileage plans are available to tailor to your commuting needs. Under the low mileage plan options are available as low as 7,500 miles per year, and we also offer a high mileage plan with options as high as 30,000 miles per year.

SINGLE PAYMENT LEASE

A single payment lease provides convenience and savings. You make only one payment, one time, freeing you from monthly payments. It permits you to prepay all monthly payments in a single payment at lease signing. This single total lease payment is less than the amount you would pay over the term of a conventional lease.

MULTIPLE SECURITY DEPOSIT LEASE*

A multiple security deposit lease allows you to place a lump sum refundable security deposit at lease inception, which reduces your monthly rent charge, resulting in substantial savings over the term of the lease. The additional security deposits are refunded to you at the end of the lease term.

* Multiple Security Deposit Lease is not available in NY.

BUSINESS LEASE

Under our business lease option, owners have the flexibility to lease the vehicle as the business.

GUARANTEED AUTO PROTECTION (GAP) WAIVER

Our GAP Waiver is included in your lease agreement at no additional cost to you. It is provided to give you peace of mind. If your leased Volvo car is declared a total loss due to theft, accident, or natural disaster, we will cover the difference between the insurance proceeds and the balance owed to Volvo Car Financial Services less any deductible.

EXCESS WEAR AND USE PROTECTION PLAN **

As a part of everyday driving, normal wear and use can be expected. However, when turning in your leased vehicle, you may be responsible for any excess wear and use damage; therefore, Volvo Car Financial Services offers an optional plan to protect you and your car from unexpected occurrences that happen from nature and chance.

** Excess Wear and Use Protection Plan is optional and not available in AK, NM, NY, TX, UT and VT.

SPECIAL PROGRAMS

COLLEGE GRADUATE PROGRAM

You've worked hard to earn your degree. Now the Volvo Graduate Program can make it easy for you to drive a Volvo car. With flexible and competitive financing options available for graduates, Volvo Car Financial Services can help you to step into the luxury of driving a Volvo car with only a 5 percent down payment upon credit approval.

INTERNATIONAL STUDENT PROGRAM

The International Student Program is the easiest way to acquire a vehicle while studying in the US, only from Volvo. Instead of purchasing a car outright, make one easy, upfront payment and drive a brand new Volvo during your school term. After graduation, drop the car off at your local Volvo retailer. No hassles. You'll only pay for the portion of the car you use. It's as simple as that. Visit www.volvcarsforstudents.com for program details.

VOLVO MOBILITY PROGRAM

The goal of the Volvo Mobility Program is to assist persons with physical disabilities or hearing impairment. For those with exceptional transportation needs, this can be facilitated within the extraordinary comfort and safety of a specially adapted Volvo car. For additional information on this program, please contact **Mobility by Volvo Customer Care at 1-800-550-5658.**

PERSONAL SHOPPER

The Volvo Personal Shopper is dedicated to providing you with a whole new level of shopping convenience. Whether you'd like help identifying the Volvo model that best fits your lifestyle, detailed information on any Volvo model, or a comparison against the competition, Volvo is there to help. We can arrange a Guest Drive for you at your nearest Volvo Retailer.

So make the most of your shopping time and call the **Volvo Personal Shopper at 1-800-550-5658.**

SERVICE AND WARRANTY

VOLVO ROADSIDE ASSISTANCE

Whenever you need us, we're just a phone call away. Our nationwide network of retailers and authorized service providers are ready to assist. Whether you require roadside assistance or maps and routing information for your next trip, refer to your Volvo Roadside Assistance card and dial

1-800-63-VOLVO at any time. Your complimentary four-year membership activates the moment you become a Volvo owner. A connection to Volvo Roadside Assistance/US is available through your App Store.

VOLVO NEW CAR WARRANTY

Your new-car warranty provides comprehensive coverage for four years or 50,000 miles, whichever occurs first. Additional warranties cover corrosion, seat belts, the supplemental restraint system, hybrid components, emission systems, genuine Volvo car replacement parts and genuine Volvo accessories. Should you encounter any problem with your Volvo car, simply contact the nearest retailer for assistance. Where your warranty ends, Volvo Increased Protection (VIP) plans begin. To purchase the additional protection of a VIP plan, contact your local retailer.

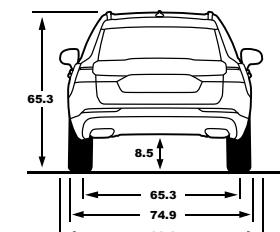

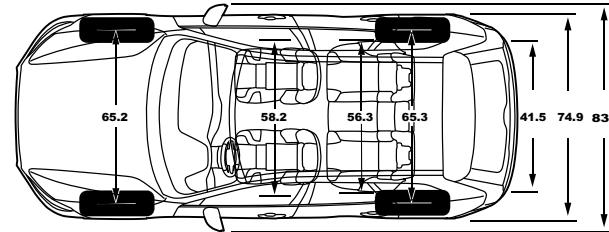

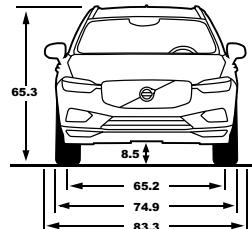

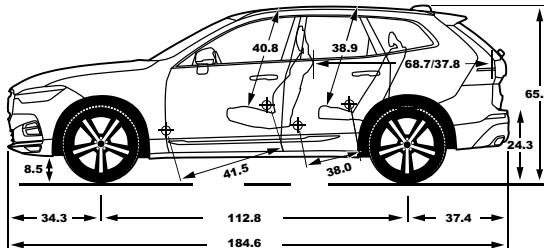

COMPLIMENTARY FACTORY SCHEDULED MAINTENANCE

Volvo Cars is committed to a premium ownership experience for its customers. To further enhance your ownership experience, all 2018 model year Volvo Cars sold in the United States will include Complimentary Factory Scheduled Maintenance. This program provides scheduled maintenance coverage for the first three years or 36,000 miles, whichever occurs first, and is designed to complement your Volvo warranty, helping ensure trouble-free operation of your Volvo. Coverage includes factory-recommended maintenance including oil and filter changes, checks and adjustments as listed in your Warranty and Maintenance Records Information booklet, for the first three maintenance services at intervals of 10,000, 20,000 and 30,000 miles.

Each service must be performed within 1,500 miles before or after each scheduled interval. Coverage is limited to scheduled maintenance items listed in the 2018 model year Warranty and Maintenance Records Information booklet. An authorized retailer must perform maintenance. Offer is transferable. Optional Prepaid Maintenance Plan upgrades are also available that will allow you to customize coverage to meet your driving needs. See your Volvo retailer for details.

FINANCE OPTIONS

Volvo Car Financial Services (VCFS) offers affordable and competitive financing on new and Volvo Certified Pre-Owned cars. Our low rates and flexible terms can get you behind the wheel of the Volvo you want to drive with finance terms up to 75 months. Volvo Car Financial Services also offers financing on vehicles purchased under the Overseas Delivery Program.

Polestar Engineered Optimization. The Polestar Engineered Optimization powertrain software allows you to enjoy a more precise and balanced driving experience. Together with Polestar's engineers, we have optimized important performance areas such as mid-range engine performance, gearshifts and throttle response. To get the most out of the Polestar Engineered Optimization software, we strongly recommend you to add our optional drive mode selector.
