2010 Pilot

➤ PILOT YOUR LIFE.

Let's make their world a brighter place today and every day.

At Honda, we have always considered it our responsibility to do our part to help preserve the global environment, for today and for generations to come. This is an environmental vision we call *Blue Skies for our Children*, and you can see it in almost every product we make. And in keeping with our tradition of turning innovative ideas into products that enrich people's lives, with minimal impact on our planet, we look forward to a brighter tomorrow – with *Blue Skies for our Children*.

tomorrow

I want blue skies for everyone

Add a little anywhere
to your life.

This is the Honda Pilot. It's more spacious than most. It's more impressive than ever. It's got adventure for eight written all over it. It's ready to tow with a standard integrated trailer hitch and, with the incredible fuel efficiency of the Variable Cylinder Management™ system, it's in for the long haul. Its MacPherson strut front with multi-link rear suspension makes it handle with car-like precision and rock-like stability. While its smart, storage-wise versatility allows you to pack more into your Pilot than you can into a single weekend. This is the Honda Pilot. This is going to be fun.

EX-L model shown.

PILOT YOUR LIFE.

Pilot

Get more than an eyeful.

This is Pilot style. As bold as it is beautiful and as rugged as it is refined, the Pilot doesn't just stand out – it breaks free. From its larger body style and bevelled aerodynamic lines to its available body-coloured heated folding power side mirrors and integrated turn signals, the Pilot was designed to offer you the best of many worlds in one stylish SUV.

> Touring model shown with accessory chrome alloy wheels and side step bars – chrome.

PILOT YOUR LIFE.

Pilot

Weekends need heroes.

This is Pilot capability. What makes the Pilot's available Variable Torque Management™ 4-wheel drive system (VTM-4) unique? It's simple. Unlike some systems that only engage when the wheels actually slip, the VTM-4 system anticipates the need for all-wheel drive and automatically engages the rear wheels whenever the vehicle is accelerating. All you have to do is enjoy the confidence that comes from outstanding traction, stability and control in all kinds of conditions. And what makes the Pilot's Hill Start Assist so great? It's easy. It helps prevent the Pilot from rolling when you switch from the brake to the accelerator pedal while the vehicle is stopped on an incline greater than 10 degrees. And that, combined with its unit-body platform, fully independent suspension and integrated trailer hitch, is where the Pilot with VTM-4 gets its available 4500 lb. (2045 kg) towing capacity.

The Anatomy of the Available **VTM-4®** System

Front Differential

When extra traction isn't needed, all the power is directed to the front differential, enhancing fuel efficiency in daily use.

Centre Propeller Shaft

The propeller shaft constantly sends power to the rear differential. But the rear wheels are not engaged until directed by the VTM-4 electronic control unit (ECU).

Rear Differential

When added traction is needed, while accelerating or on slippery surfaces, the VTM-4 ECU signals the rear differential to engage, seamlessly transferring power to the rear wheels.

Pilot your life from the inside out.

If it's adventure you're after, you'll find it faster with the Pilot's available Honda Satellite-Linked Navigation System™ with bilingual Voice Recognition and rearview camera. Responding to over 800 verbal commands, it can guide you with voice prompts and a moving-map display to your destination. And when it comes to turning around and heading for home, there's a built-in rearview camera that provides you with a clear picture of what's behind you before you back up.

This is Pilot luxury. More than just a refined, spacious place where elbow room and legroom abound, the Pilot's interior was designed to take the driver's and seven passengers' comfort level to new heights, lengths and widths. Clean lines, an available leather-trimmed interior and richly textured surfaces give the cabin an air of modern sophistication. While the available Honda DVD Rear Entertainment System with 9-inch display and 10-speaker DTS® Surround Sound gives the interior an air of awesome. And for luxury of a more practical nature, the available leather-wrapped shift knob is mounted on the dash to allow room for the extra-large multi-functional centre console storage area.

> Driver's seat with available 8-way power adjustment and power lumbar support / Front passenger seat with available 4-way power adjustment / Available heated second-row outboard seats / Available tri-zone automatic climate control with air-filtration system

Touring model shown.

PILOT YOUR LIFE.

Pilot

Seating for 8. Fun for the whole family.

For the perfect balance of form and function, all you have to do is take a look inside the Pilot. Its form is felt in the available heated front seats and in the driver's seat with available 8-way power adjustment and power lumbar support. Plus, there are three rows of very form-fitting seats: two front bucket seats and two rows of three-person bench seats. Function-wise, the theatre-style design of the second- and third-row seats offers passengers improved sightlines, increased legroom and easier access. So whether you're into form or function, you'll experience both perfectly in a Pilot.

Touring model shown.

1> Rear cabin temperature controls and an available household 115-volt power outlet keep passengers comfortable and connected to devices such as laptops or game consoles.

2> An available 10-speaker, 512-watt AM/FM/CD/MP3/WMA Premium audio system with 6-disc in-dash CD changer makes anywhere sound better.

3> For stargazing, there's an available power moonroof with tilt feature and glare-reducing sunshade.

4> The available Honda DVD Rear Entertainment System with 9-inch display, integrated remote control and wireless

headsets with personal DTS® Surround Sound lets rear passengers pick their own audio or video. A perk the whole family will enjoy.

5> In the event of window fogging, the Pilot's humidity control system compensates before fogging even occurs by automatically activating the heat/defrost mode, adjusting the fan settings and turning the air conditioning on or off.

6> Even when the third row is in use, the rear storage well offers 71 litres of unique storage area, large enough for a medium-sized cooler, a collapsed baby stroller or a set of golf clubs.

It fits your life like a glove.

This is Pilot versatility. What makes the Pilot perfect for almost any size family outing? For starters, it has a flip-up glass tailgate for easy loading and cargo access. But it also has a 60/40 split-folding second-row seat and a 60/40 split-folding third-row bench seat, so it can go from comfort zone to cargo carrier in seconds. And there's a massive amount of storage in the centre console and 71 litres of cargo space in the rear storage well. Plus, the Pilot can flat-carry items up to four feet wide without tilting or scratching surfaces.

Touring model shown.

Six very smart cylinders.

This is Pilot performance. Imagine a fuel-efficient vehicle that has power when you need it. That's the innovative thinking behind the Pilot's Variable Cylinder Management (VCM) system. To help further increase the fuel efficiency of the Pilot's 3.5-litre, i-VTEC® V-6 engine, the VCM system can operate on three, four or all six cylinders.

Depending on whether you're accelerating, cruising or idling, the VCM system intuitively activates or deactivates the operating cylinders. When you need maximum horsepower, the engine operates on all six cylinders. When you need moderate horsepower, the engine can operate on four. And when horsepower isn't required, the system can operate on three cylinders. The result: 250 hp and 253 lb.-ft. of torque for towing or passing and increased fuel efficiency when cruising or idling.

Plus, the Pilot's 5-speed automatic transmission has been specifically engineered to enhance fuel efficiency even more, with features such as extra-wide gear ratios for good low-end response and comfortable highway cruising and Honda's Grade Logic Control technology that's designed to hold the vehicle in a lower gear for improved hill climbing or descending performance.

> 250-hp, 3.5-L, i-VTEC V-6 engine with Variable Cylinder Management (VCM) using regular fuel / Sequential multi-point fuel injection system / Drive-by-Wire Throttle System™ / 5-speed automatic transmission with Grade Logic Control

Touring model shown.

PILOT YOUR LIFE.

Pilot

This is Pilot protection.

Safety for Everyone is Honda's commitment to providing one of the highest levels of standard safety features to help ensure occupant safety and protection. And through real-world research, Honda is also focusing on developing unequalled measures of protection to enhance the safety of occupants in other vehicles and even pedestrians – an innovative idea that is quickly becoming a reality.

Solid Frame Structure. Like all Honda trucks, the Pilot is built with a rigid unit-body frame for added strength, stability and vehicle handling.

ACE™ Body Structure. The highly innovative Advanced Compatibility Engineering™ (ACE) body structure disperses frontal impact energy, increasing occupant protection. Additionally, the ACE frame design allows for collision compatibility between vehicles of different weights and sizes.

Six Standard Airbags. Six airbags line the vehicle's cabin, including the revolutionary passenger-side Occupant Position Detection System (OPDS) airbag that will not deploy if the system detects a smaller-sized or out-of-position occupant.

LATCH. Standard Lower Anchors and Tethers for Children (LATCH) offer three secure child-seat restraint positions in the second row and one position in the third row.

Honda reminds you and your passengers to always buckle up.
Children 12 and under are safest when properly secured in the rear seat.

Active Front Seat Head Restraints. Active front seat head restraints lessen the potential for neck injuries during rear-end collisions by reducing the space between the occupant's head and the seat head.

Anti-lock Brakes. For safe stopping, the 4-wheel Anti-lock Braking System (ABS) helps you maintain control under hard braking conditions, while Electronic Brake Distribution (EBD) and Brake Assist optimizes braking power based on weight distribution inside the vehicle.

Vehicle Stability Assist with Traction Control. Vehicle Stability Assist (VSA®) senses and corrects oversteer and understeer to enhance handling and cornering stability, while Traction Control ensures grip in slippery conditions.

Tire Pressure Monitoring System. For enhanced safety and fuel efficiency, a Tire Pressure Monitoring System (TPMS) continually monitors the air pressure in each tire. If pressure drops in any one tire, an alert appears on the driver's instrument panel.

A future we share.

At Honda, our goal is to be a company that society wants to exist. And today we are proud to say our existence in Canada is healthier than ever. Whether you're in Nova Scotia, Quebec, Ontario, Alberta or British Columbia, Honda is there. In fact, more than 22,000 Canadians work for Honda, and to date more than 1.2 million Canadians have benefited from charitable programs funded by Honda Canada and the Honda Canada Foundation. All in all, we think these numbers represent a good start.

We are also considerate of what kind of world future Canadian generations will inherit from us. And with this in mind, we thought it was time for something different.

In Canada, we have significantly reduced the total number of brochures we print each year and we are encouraging people to visit honda.ca to experience an interactive approach to our cars and company. We also suggest that you consider the environment after you've finished reading this brochure and please pass it on to others, or recycle it.

Thank you, Canada.

Honda associates and families have helped plant more than 71,000 trees in Canada over the last 5 years.

As the world's largest engine manufacturer, Honda has a proud tradition of turning innovative ideas into products that help make Canada and the world around us brighter and a little more fun. These products are equipped with some of the cleanest, most fuel-efficient engines you'll find on the road, in the water or high above the clouds. And as technically ingenious as these products are, they are all brought to life by The Power of Dreams®.

1> ASIMO™, the advanced life-assisting humanoid robot 2> The high-speed, fuel-efficient HondaJet™ 3> Honda's advanced safety research and development facility in Tochigi, Japan 4> First manufacturer of a full line of cleaner 4-stroke outboard motors 5> The world's first motorcycle safety airbag 6> The Honda FC Sport, our advanced hydrogen fuel-cell concept vehicle

ACCESSORIES

Kits and Packages:

PROTECTION PACKAGE

- All-weather floor mats
- Cargo tray

CHROME PACKAGE

- 17" or 18" alloy wheels – SBC
- Front grille
- Side step bars – chrome

TOWING PACKAGE

- Trailer hitch ball – 17/8" or 2"
- Trailer hitch harness
- Trailer hitch towing kit

REMOTE ENGINE STARTER KIT

HONDA i-LINC® KIT

- 1> Door visor kit
- 2> Automatic day/night rearview mirror without compass
- 3> Front bumper trim
- 4> 18" alloy wheels – SBC
- 5> Corner bumper protector
- 6> Interior trim kit – wood
- 7> Rear backup sensors
- 8> Roof rack – crossbars
- 9> Running boards – with light
- 10> Side step bars – chrome
- 11> Towing package

Other Accessories Available:

- 17" alloy wheels – SBC
- All-weather floor mats – black
- Ashtray – cup holder style
- Bike attachment – roof mount
- Bike attachment – trailer hitch mount
- Cargo cover
- Cargo divider – in-well
- Cargo liner
- Cargo net
- Cargo net – advanced
- Cargo tray
- Door edge guards
- Engine block heater
- Fender trim
- Fog lights
- Front grille
- Front lower garnish
- Full nose mask
- Honda i-LINC®
- Hood edge deflector
- Leather steering-wheel cover
- Locking wheel nuts
- Moonroof visor
- Rear lower garnish
- Remote engine starter
- Roof basket
- Roof box – medium
- Roof box – short
- Roof box – soft top box
- Roof rack, ski attachment
- Roof rack, snowboard attachment
- Running boards
- Second-row seat cover
- Side step bars – black
- Soft cargo organizer
- Steering-wheel garnish – dark metal
- Tent
- Towing spare rim
- Trailer hitch ball – 1 7/8" or 2"
- Trailer hitch harness
- Trailer hitch locking pin

Pilot LX 2WD
250-hp, 3.5-litre, 24-valve, SOHC, i-VTEC® V-6 engine • 17" aluminum-alloy wheels • 4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist • 5-speed automatic transmission with Grade Logic Control • 8-passenger seating • 60/40 split-folding second-row seat and 60/40 split-folding third-row bench seat • Active Control Engine Mount (ACM) system • Active front seat head restraints • Active Noise Cancellation • Advanced Compatibility Engineering™ (ACE™) body structure • 135-watt AM/FM/CD/MP3/WMA audio system with 7 speakers including subwoofer • Automatic on-off headlights • 12-volt power outlets • Dual-stage, dual-threshold front airbags (SRS) • Flip-up tailgate glass • Front and rear air conditioning system • Front side airbags with passenger-side Occupant Position Detection System (OPDS) and three-row side curtain airbags with rollover sensor • Heated folding power side mirrors • Heavy-duty automatic-transmission cooler • Heavy-duty power-steering cooler • Integrated trailer hitch • Maintenance Minder system • MP3/auxiliary input jack • Multi-reflector halogen headlights • Power windows with auto-up/down driver's window • Passenger's seat with 4-way adjustment • Remote entry system • Roof rails • Steering-wheel mounted cruise control • Tinted glass • Tire Pressure Monitoring System (TPMS) • Variable Cylinder Management™ (VCM™) • Vehicle Stability Assist (VSA®) with Traction Control

Pilot LX Adds to or replaces LX 2WD features:
Variable Torque Management™ 4-wheel drive system (VTM-4®) • Towing capacity – 2045 kg

*Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.xmradio.ca.

We’re Here. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will keep your vehicle in terrific shape. Honda accessories installed at the time your vehicle is purchased are covered under the 3-year/60,000-km limited warranty. If you need more information or assistance, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to “design” your Honda and personalize it with items from a list of quality accessories.

Quality Honda Accessories give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

Genuine Honda Replacement Parts are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty.

Honda Financial Services. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

We’re ready to help. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you or anyone else driving your vehicle 24 hours a day, 7 days a week, anywhere in Canada or the continental U.S. Coverage is for 3 years, unlimited distance and includes towing, battery boosting, lockout assistance plus many other helpful services. Ask your dealer for more information.
