

CR-Z

CR-Z.
Three letters
that spell fun

Safety

The CR-Z comes with a raft of safety features to assist in protecting you in the event of an accident (and others to actively assist you to avoid collisions altogether).

Engaging drive

Real-time drive information display allows you to engage with the CR-Z in the manner you'd expect from its sporty handling and agility.

Fuel efficiency

By pairing performance and fuel efficiency, Honda's Eco Assist system helps you have a good time and do good at the same time.

Styling and
interior design

The CR-Z's deeply sculpted body, wrap-around cabin and stylish finish make this curvaceous coupe an artistic creation as well as a car.

Technology

With features like its 3-Mode Drive system and Honda's clever Integrated Motor Assist (IMA) system, the CR-Z is hi-tech fun.

CR-Z Luxury shown in Premium White.

CR-Z Luxury shown in Premium White.

CR-Z Luxury shown in Premium White.

A single glance tells you the whole story

It's often said you should never judge a book by its cover.

But the all-new Honda CR-Z is one glaring exception to this age-old rule.

This aerodynamic coupe combines agile handling and sporty acceleration to deliver a fantastically fun drive on twists and turns, and in any conditions.

And it's all thanks to its 3-Mode Drive system that lets you tailor your journey to the open road, heavy traffic or a cruise.

But no matter what conditions are like outside, it's ever enjoyable inside.

Inviting cockpit seats, 3D gauges, and elegant appointments compliment the CR-Z's modern design.

The result is a space so comfortable you'll find yourself turning short trips into long drives.

Which is no problem in the CR-Z, because thanks to its 1.5L i-VTEC engine and unique IMA system, it uses as little as 4.7 litres of fuel per 100km.*

With all that to offer plus a 5-star ANCAP safety rating, you'll live happily ever after with a CR-Z.

*Fuel consumption figure based on ADR81/02 combined test results for CR-Z with CVT.

CR-Z Luxury shown in Premium White.

A new design movement

When Honda's engineers and stylists began designing the CR-Z, they set themselves a challenging task.

Their aim? To create not merely a stylish car, but a piece of kinetic sculpture with dynamic driving at its core.

And they've succeeded, because at the heart of the CR-Z's design is the 'One-Motion Wedge' concept.

With deeply sculpted curves, this unique shape incorporates a steep raked windscreens, shallow roofline and a low, wide stance.

The result is a balanced, visually stunning and aerodynamic form.

You'll find stylish touches from head to tail, too, thanks to its LED daytime running lights and LED brake lights.

So you could say this distinctive coupe is a very moving work of art.

Let the
games begin

Honda's designers had a grand old time working on the CR-Z's interior.

Small wonder then, that it's full of fun features and aesthetic appointments.

Case in point, the cockpit-style cabin wraps important instruments around you, including a Multi-Information Display, iPod® and Bluetooth® connectivity.[°]

But the fun is also functional.

For example, the upper section of its hi-tech dash puts drive details in your field of vision without distracting you.

All that along with designer touches like its attractive, low-angled, body-hugging seats, and metallic finishes, make the CR-Z a particularly stylish place to be.

And a highly adaptable place, at that, with a stack of storage areas including a sunglasses compartment, climate controlled glove box and, courtesy of its one-touch-motion folding rear seats and adjustable tonneau cover, a clever boot space, too.

So let the good times roll.

°The Bluetooth word mark is owned by the Bluetooth SIG, Inc. and use of such mark by Honda is under licence. Please check the list of compatible phones at honda.com.au/bluetooth. [®]iPod® is a trademark of Apple Inc. iPod is integrated through audio display for iPod Nano and iPods from 5th Generation onwards. Older iPod models will only operate through the audio system and firmware updates may be required for audio display compatibility. Please refer to your iPod User Guide for information on iPod firmware updates.

CR-Z Luxury shown with optional Deluxe tailored mat set.

Touches of class

Honda's engineers are just as enthusiastic about driving as they are designing (and that's saying something).

So, when it comes to interiors they don't just know how to put the features in, they know what to include and the best place to put them.

And there's no more fitting example than the inside of the CR-Z.

2. 6-speaker stereo

A 6-speaker stereo is music to any ears. And there's much more to this audio system, too.

3. iPod integration

With the CR-Z's USB/iPod[®] compatibility, every drive can have a personal soundtrack.

4. Steering wheel controls

The steering wheel controls cater to mobile phone and stereo control, so you can tune in without tuning out.

5. Alloy sports pedals

Inspired by Honda's racing heritage, rubber studs dot the surface of these alloy pedals, so your feet grip instead of slip.

6. Climate control

It doesn't matter if the weather's cooling down or warming up – you create your own conditions in the CR-Z.

7. Rear cargo space

One-touch-motion folding rear seats make it quick and easy to increase storage space from a useful 225L to a boastful 401L.^b

8. Touch screen with Sat Nav

The CR-Z Luxury's Navigation unit includes DVD^f; Bluetooth[®] audio streaming^g and SUNA live traffic updates^h so you'll always get where you're going with a grin.

9. Reversing camera

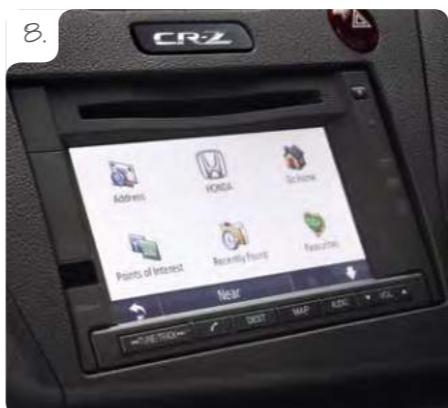

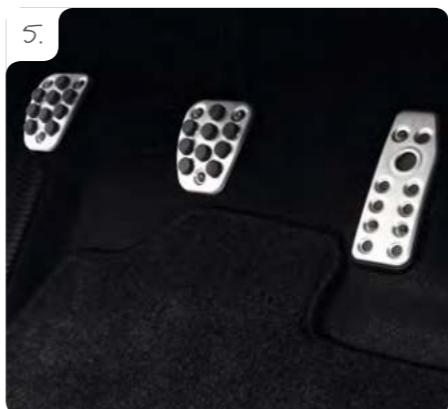

While the CR-Z is a forward thinking coupe, when it comes to reversing, it also looks back with a camera showing directly behind the car. (Luxury only).

10. Heated leather[®] front seats

The CR-Z Luxury's heated leather[®] front seats warm up quickly, when you're ready to ride.

1. Interactive dash

Floating displays, 3D gauges and ambient light meters make sense of your driving style and deliver real-time information.

^bIncludes under trunk box. ^cThe Bluetooth word mark is owned by the Bluetooth SIG, Inc. and use of such mark by Honda is under licence. Please check the list of compatible phones at honda.com.au/bluetooth. ^diPod[®] is a trademark of Apple Inc. iPod is integrated through audio display for iPod Nano and iPods from 5th Generation onwards. ^eSUNA is a registered trademark of Intelematics Pty. Ltd. Coverage includes Melbourne, Sydney, Brisbane, Gold Coast, Adelaide, Perth and Canberra metropolitan areas. Refer to www.sunatravel.com.au for full details. ^fLeather includes some vinyl materials. ^gDVD player operates only while vehicle is stationary.

A powerfully efficient performer

Nothing gets a Honda engineer's oil pumping faster than a performance puzzle.

So when tasked with generating extra power without using more fuel or creating more emissions, their answer came quickly.

Supply the CR-Z's 1.5L, multi-valve, SOHC i-VTEC engine with additional acceleration from an electric motor – part of Honda's hybrid IMA system.

So when you need power during acceleration, you get an extra charge, at no charge.

But all that power is pointless without a quality transmission.

And the CR-Z's smooth, quick-shifting 6-speed manual efficiently transfers torque from the engine to the road.

As does the automatic's Continually Variable Transmission, which comes with steering wheel mounted paddle shifters for more hands-on drivers.

That's precisely who'll love the CR-Z's 3-Mode Drive system.

With Econ, Sport and Normal modes you can adapt to changes in traffic, terrain and even your frame of mind.

When you're in city traffic (or just feeling frugal), Econ mode optimises output to save fuel and lower emissions.

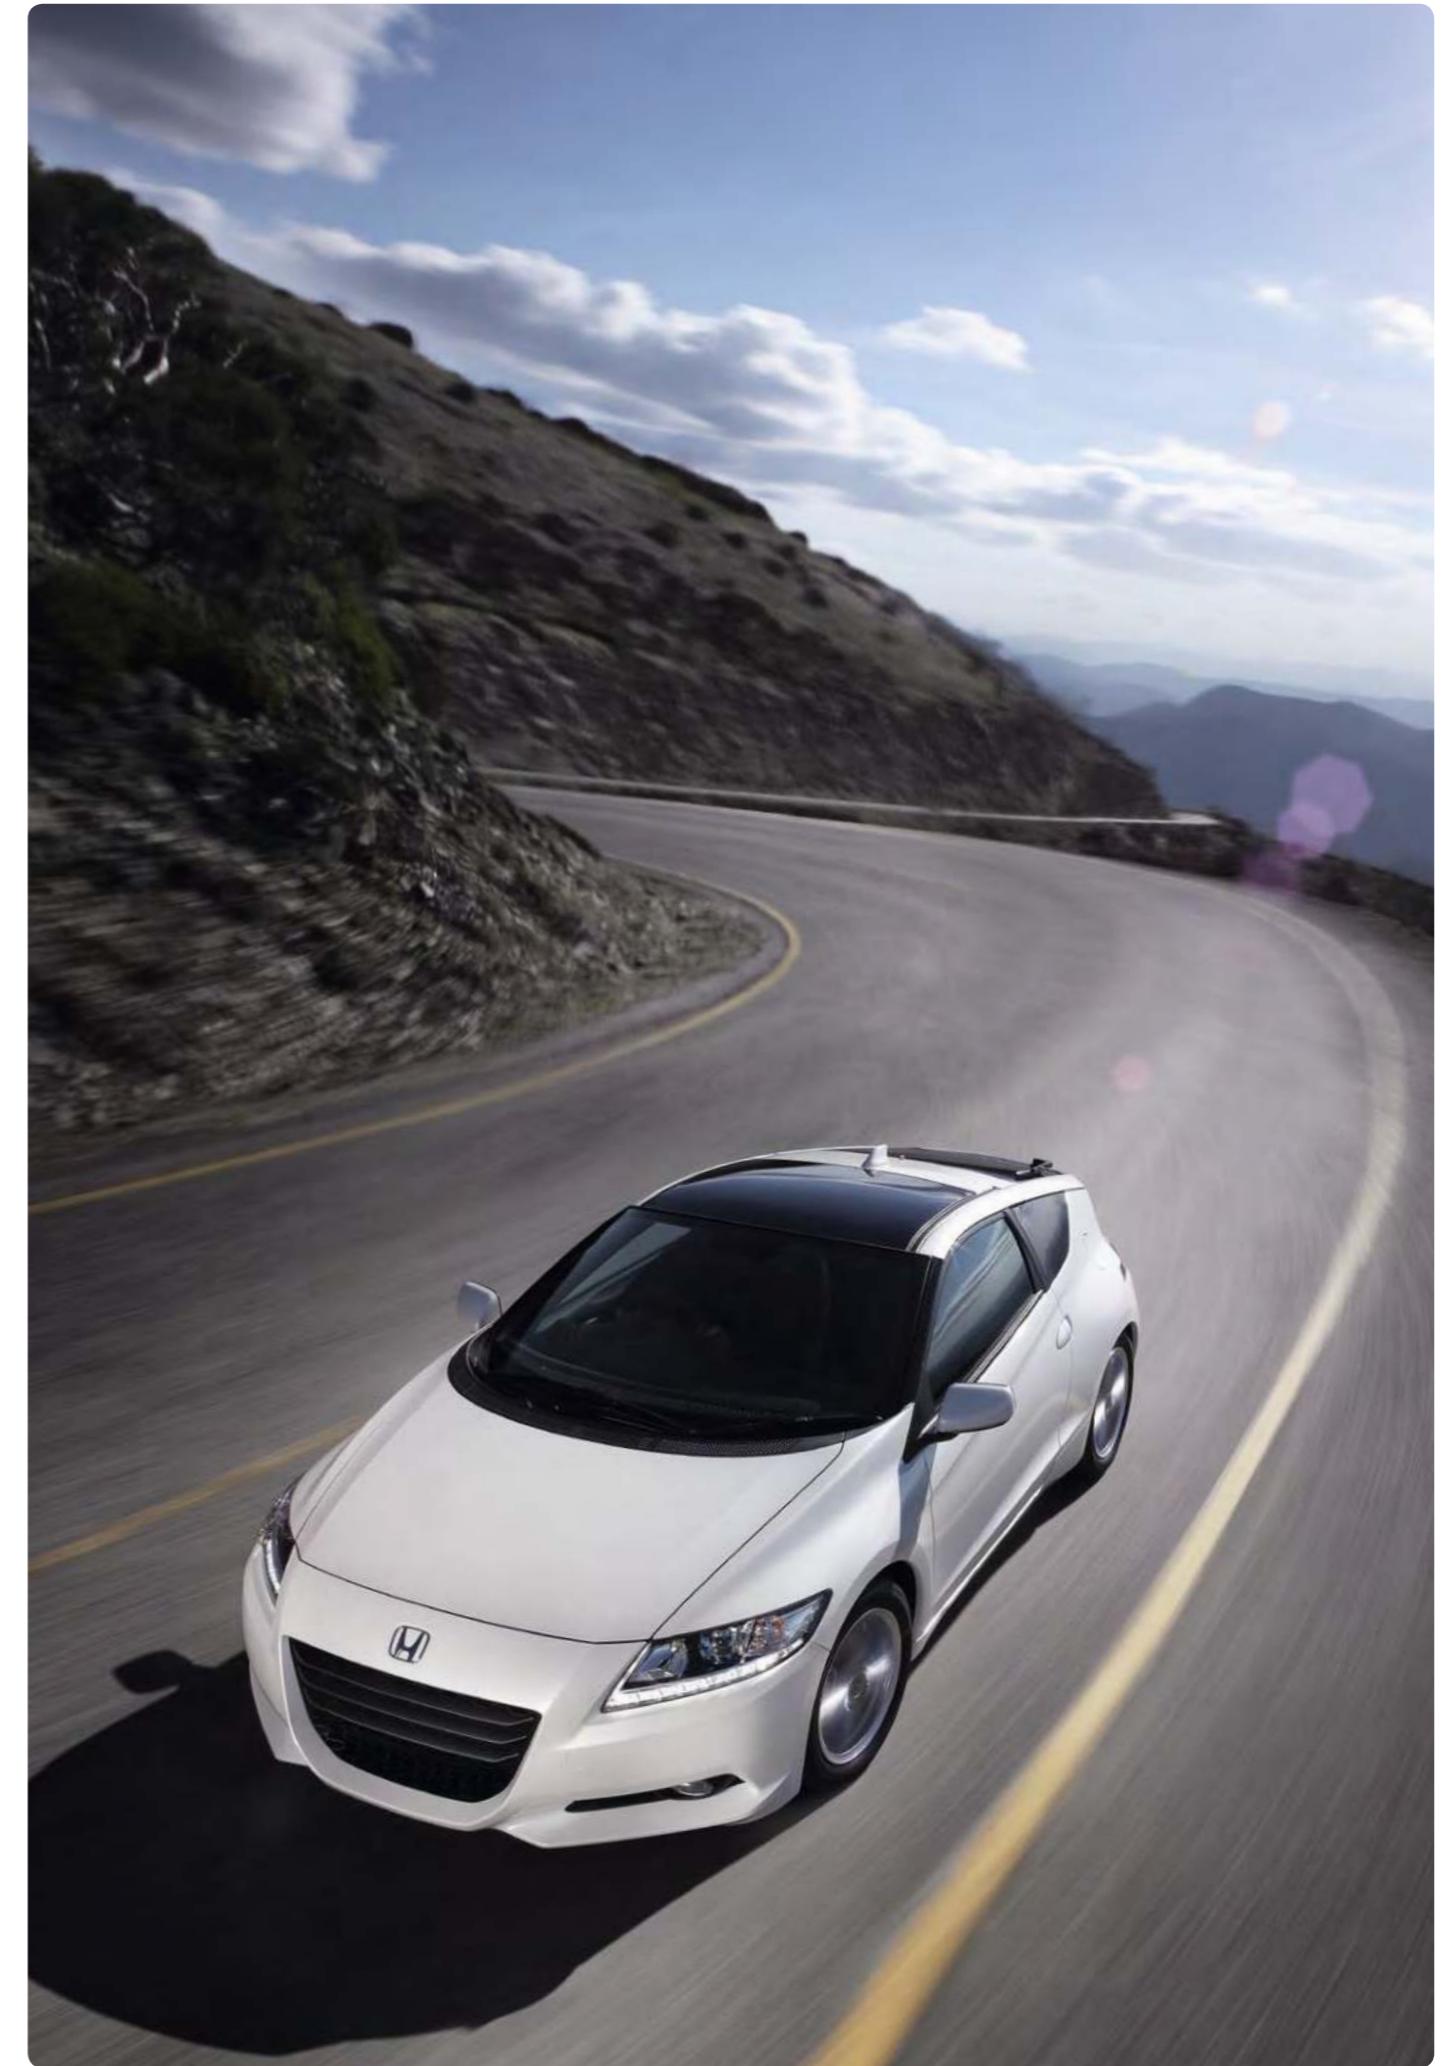

In Sport mode, the throttle response is sharper, the IMA system actively boosts performance and the steering feedback is increased for a joyful ride on the open road.

While Normal mode provides the best everyday balance between performance and economy – that's why it's the default start-up mode.

But no matter which mode you're in, the CR-Z acts as your personal efficiency expert thanks to the Eco Assist coaching system and the ambient meter that glows red in Sport mode, and fluctuates between blue and green in Normal and Econ modes depending on your driving behaviour.

And the CR-Z even has an auto stop feature to help save fuel while you're idle at the traffic lights.

Which is how the energy crisis is solved in the CR-Z.

CR-Z Luxury shown in Premium White.

A sixth sense for the drive

Honda's simple philosophy states that driving is as much about feel as it is features.

But what makes a car feel right?

In the CR-Z it's a cache of details combined in just the right way.

For instance its low centre of gravity, rigid chassis, wide track and short wheelbase keep the tyres gripped to the ground.

Which, along with its sharp suspension, short overhangs and direct-feel steering, is why turning into corners will soon turn into an addiction.

You'll love coming out of them too, given the active acceleration from its broad torque band.

And with an exhaust system designed to hit a race-inspired note, it's as exciting as it sounds.

But an excitement machine needs a calming influence, too.

So to complement the heart-racing impulses that the CR-Z inspires, its cockpit cabin's unique glowing gauges and designer details offer up a sensory feast.

So the CR-Z makes sense in every sense.

CR-Z Luxury shown in Premium White.

Safety in letters

There's little doubt about the rollercoaster-like excitement of driving the CR-Z. But Honda prefers you to get the thrills without the spills.

And in a safety sense, the alphabet of acronyms in the CR-Z (from ABS to EBD, and VSA to ACE) feel like a warm blanket.

Because when you put them all together you get a level of safety performance and occupant protection worthy of its 5-star ANCAP safety rating.

So you're well and truly covered.

Active safety features

Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD)

The Anti-lock Braking System (ABS) allows you to maintain steering control during hard braking, while Electronic Brake-force Distribution (EBD) monitors and adjusts brake force accordingly.

Vehicle Stability Assist (VSA)

Vehicle Stability Assist (VSA) helps by watching out for oversteer and understeer, adjusting brake pressure and reducing engine power as needed.

Traction Control System (TCS)

The Traction Control System (TCS) maintains traction on slippery surfaces by monitoring each wheel and, when a front wheel loses grip, it simply applies the required pressure to control the spinning wheel and delivery of engine torque.

Passive safety features

G-Con technology

Developed at Honda's omni-directional crash test facility, this unique technology offers maximum protection from vehicles of varying bumper heights impacting from a range of angles.

ACE body structure

A major part of G-Con is the Advanced Compatibility Engineering (ACE) body structure. It directs the energy of an impact up, over and around the cabin frame, and includes an injury mitigation design to assist in protecting you, your passengers and pedestrians.

Airbags

Sitting in the CR-Z, you're surrounded by the safety of six airbags including standard front-side airbags with a passenger-side Occupant Position Detection System (OPDS), which prevents the airbag from deploying if it detects a passenger sitting in an unsafe position.

Active head restraints

Collisions cause enough headaches without potential whiplash worries. So the Active Head Restraint System in the front seats move forward and up, to assist protecting the neck and head from possible injury in an accident.

Other

Hill Start Assist

Hand brake starts and hills can be a troublesome twosome. But by slowly releasing brake pressure, Hill Start Assist prevents the manual transmission CR-Z from unintentionally rolling back. Giving you greater control and eliminating those hilly street blues.

LED Daytime running lights

The CR-Z's LED daytime running lights are a simple way to increase car visibility. And they look great, too.

Omni-directional Crash Test Facility

At Honda's Tochigi R&D facility, the CR-Z chassis is put through a series of realistic crash tests with objects at varying heights, angles and speeds. Ensuring that in a real-life collision, the CR-Z provides maximum protection in impacts with vehicles of different bumper heights.

Modulo accessories.
If the shoe fits

It makes sense for a sporty coupe to come with a range of sports accessories. Available as a set, or individually, the Modulo Sports Pack lets every owner accentuate the CR-Z's athletic attributes in their own way.

CR-Z Sport in Milano Red shown

featuring Modulo Sports Pack:

- Front under spoiler
- Rear under spoiler
- Side skirt set
- Rear tailgate spoiler

See your Honda Dealer for advice regarding Genuine Honda Accessories. Pictured accessories are all sold separately. All Genuine Honda Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3-Year/100,000km Warranty. If installed after retail sale, they are covered for the remainder of the warranty or a minimum of 12 months – whichever is greater – provided that the accessory is fitted only to the vehicle for which it was intended by Honda Motor Co.

Make your own fun

Genuine Honda Accessories help preserve your CR-Z or enhance its stylish assets. Choose the combination that suits you best. To find out more, simply contact your local Dealer or visit honda.com.au/crz

Other accessories include:

- Ashtray
- Body cover
- Cargo tray
- Cigarette lighter
- Door visor set
- Leather maintenance kit
- Organiser box
- Rear bumper and bootlip protector
- Rear park assist (Luxury only)
- Roof rack ski/snowboard attachment
- Touch-up paint
- Wheel lock nut set

Door styling guard set

Car doors see a lot of action and these sporty buffers safeguard against wear and tear, so you'll always make a stylish entrance to your CR-Z.

Mud guard set

Help protect the CR-Z's paintwork from debris and dirt damage.

Deluxe tailored mat set

These high quality, durable mats complement the stylish interior and help reduce the daily wear and tear on your carpeting.

Roof rack set[‡]

These aerodynamic roof racks are simple to install and remove and can hold up to 50kg of skis or snowboards.

Arm rest console

The padded arm rest[‡] offers a versatile and convenient storage compartment.

Illuminated door sill garnish set

Branded with the CR-Z logo, this garnish set helps preserve an area that sees a lot of foot traffic.

Illuminated door pocket and speaker ring garnish set

This illuminated set lines the door pockets and speakers adding a soft glow to the CR-Z's already stylish ambience.

See your Honda Dealer for advice regarding Genuine Honda Accessories. Pictured accessories are all sold separately. All Genuine Honda Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3-Year/100,000km Warranty. If installed after retail sale, they are covered for the remainder of the warranty or a minimum of 12 months - whichever is greater - provided that the accessory is fitted only to the vehicle for which it was intended by Honda Motor Co.

[‡]Fitment of centre console accessory deletes one cup holder. [†]In the interest of aerodynamics, Honda recommends the roof rack set be removed when not in use.

You're never alone
in a Honda

Buy a CR-Z and you'll be amazed at how well you'll be looked after.

The care starts with a 3-year/100,000km warranty and 6-year rust perforation warranty.[§]

And for a small extra investment, you can enjoy a huge amount of peace-of-mind with Honda Warranty Plus[§] including Premium Roadside Assist.

Plus, as a CR-Z owner you're entitled to a five year subscription to *Honda. The Magazine* and access to our exclusive HondaONE website. This secure site gives you all the important information you never knew where to find, like up-to-date service history, vehicle records, maintenance tips and personalised service reminders.

And by using your Honda Dealer, you'll also be sure that they'll protect your investment by using Honda Genuine Parts.

So with all these benefits, your CR-Z will be as pleasurable to own as it is to drive.

Insurance and Finance

Whether you are buying a Honda for yourself or a business, we have a wide range of flexible finance, leasing and insurance options.

So see your Honda Dealer to find financial and insurance solutions that suit you as perfectly as your CR-Z does.

Honda Approved Pre-owned Hybrids

Buying a pre-owned Honda hybrid from a Honda Dealership means you can buy with confidence. Every certified pre-owned Honda hybrid receives a one-year warranty extension and roadside assistance. Not to mention Honda Hybrid Rewards, which entitle you to a \$100 rebate for each of the next four scheduled services^Δ conducted at a Honda Dealership.^γ For more information contact your participating Honda Approved Pre-owned Car Dealership.

What's next?

As a CR-Z owner, you're part of a brand that's always doing something new.

Because if there's one thing Honda prides itself on, it's always asking, "What's next?"

It was this inventive spirit that led to developing the CR-Z, the world's first sporty hybrid coupe. And that's not our first 'world first' either.

There's the FCX Clarity, which is powered by a hydrogen cell and whose only emission is water vapour.

Or the unique CIGS solar cells that produce twice as much energy than they take to make.

Then of course there's ASIMO, the world's most advanced humanoid robot and the incredibly fuel-efficient HondaJet.

And now there's a glimpse of the future with the altogether different U3-X, a personal mobility device that takes you in any direction by simply shifting your weight.

All of these things, which were once dreams, are now realities thanks to Honda.

So what's next?

[§]Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the Owner's Warranty and Service Manual. Please visit honda.com.au/warranty for full terms and conditions. ^ΔOffer valid at participating Honda Approved Pre-owned Car dealerships only. ^γValid for up to 4 scheduled services and/or 2 years. Please refer to the Owners Warranty and Service Log Book for schedule services. Used Honda hybrid vehicle must have passed a 100 point inspection check, be less than 5 years old and under 125,000kms.
