

HONDA

THE ALL-NEW

**2013
ACCORD**

IT STARTS WITH YOU.

INTRODUCING THE ALL-NEW 2013 ACCORD.

Every generation of Accord has been made with you in mind, and the latest is no different. Its stylish exterior has been completely redesigned for a bolder, more aggressive look. Its luxurious interior has been restyled to feel more spacious. It's equipped with advanced technology, like the all-new HondaLink,^{TM*} to keep you connected to the people and things you care about, while also having the safety features to help protect them. And, our all-new Earth DreamsTM technology that delivers exhilarating and efficient performance will rekindle your love of driving with every passing kilometre. The 2013 Accord. It's the car made better for you in every way.

*Only compatible with certain devices. Standard data rates may apply.

SEDAN

THE SEDAN THAT WOULDN'T EXIST WITHOUT YOU.

YOU DESERVE A CAR THAT EXCEEDS YOUR EXPECTATIONS.

The 2013 Accord Sedan was designed to do that, and so much more. The all-new exterior gives the vehicle a truly distinct and aggressive look. The engine has been re-engineered, with greater performance and efficiency through our all-new Earth Dreams technology. The Accord is the first Honda model in North America to offer an all-new 2.4-litre, direct-injection i-VTEC® 4-cylinder engine. There's also the option of a 3.5-litre i-VTEC® V6 engine. In addition, the 2013 Accord is our first sedan to offer an available 6-speed automatic transmission. But the firsts don't stop there. The Accord Sedan also has revolutionary new features, like the available LaneWatch™ blind spot display*. And then there's the added comfort of knowing we've created all of these features with you in mind.

*Does not replace driver's responsibility to exercise due care while driving.

COUPE

THE COUPE DRIVEN BY YOU.

WE BELIEVE THE BEST WAY TO MAKE A CAR

IS TO KNOW THE PEOPLE WHO DRIVE IT.

And that you shouldn't have to sacrifice on the famous Accord features and value to get the sporty style and performance of a coupe. This belief is what sparked this stylish redesign, improved performance and exceptional comfort. It's the kind of thinking that led to the all-new Earth Dreams technology, found in the Coupe's 2.4-litre, direct-injection i-VTEC 4 cylinder engine or the re-engineered 3.5-litre i-VTEC V6 engine. It's why you get total connectivity through the all-new HondaLink system. To put it simply, the 2013 Accord Coupe was made to give you everything you need and everything you want.

PERFORMANCE

PERFORMANCE CONTROLLED BY YOU.

THE ACCORD PERFORMS THE SAME WAY WE CREATED IT: WITH PASSION.

It offers the choice of two all-new powertrains, each with their own exceptional level of performance. There's the more powerful, re-engineered 3.5-litre, 24-valve, SOHC i-VTEC V6 engine with 278 hp. Then there's the spirited 2.4-litre, 16-valve, direct-injection DOHC i-VTEC 4-cylinder engine with an available 189 hp. Both feature the first North American application of our new Earth Dreams technology, a revolutionary system based on the belief that a car with great efficiency should also have great performance. And for more immediate acceleration response, the available continuously variable transmission (CVT) offers a wider ratio range to provide the optimum gear ratio for the driving conditions, as well as a more natural driving feel. And with available paddle shifters, gear changes will seem even more responsive, providing greater control over the driving experience. All of these features ensure that when you drive the Accord, you'll feel the passion we put into it.

PADDLE SHIFTERS AVAILABLE ON SPORT SEDAN AND EX, EX-L NAVI AND EX-L V6 NAVI COUPE.

STYLE

STYLE SUITED TO YOU.

THE ACCORD'S COMPLETELY RE-DESIGNED, SOPHISTICATED EXTERIOR DOESN'T JUST PLEASE THE EYES, IT THRILLS THEM.

We sculpted the Sedan and Coupe with a bold, athletic look that suits the car's sporty driving character. The stylish exterior is further highlighted by a chrome grille, available chrome accents, and body-coloured door mirrors. The available projector-beam LED headlights and available LED daytime running lights, both Honda firsts, and available LED taillamps, give you as much style as they do function. Available 18" aluminum-alloy wheels combine with all of these design touches to give the Accord a profile that's completely distinct. Now, other drivers won't just notice that you've arrived, but what you've arrived in.

A wide-angle photograph of the interior of a Honda Accord. The view is from the rear left, looking forward. It shows the front driver's and passenger's seats, which are upholstered in dark leather with visible stitching. The center console features a gear shifter and a touch screen infotainment system. The dashboard is visible, with a digital display showing the time. The rear seats are also upholstered in dark leather and have headrests. The car's interior is well-lit, with sunlight streaming in through the windows.

LUXURY

INSPIRED INDULGENCE.

**THE ACCORD'S ELEGANT INTERIOR INDULGES
EVERY NEED OF DRIVER AND PASSENGER ALIKE.**

From styling to technology to amenities, the Accord is loaded with upgrades that give it a new level of sophistication. There's the standard luxury of heated front seats and the unexpected luxury of available heated rear seats. There's the control of the driver's seat with 8-way power adjustment, lumbar support and available seat position memory. There's the customizable comfort of the available dual-zone automatic climate control with air-filtration system. There's the soothing sounds of the available 7-speaker Premium audio system, which can be enjoyed to the fullest with Active Noise Cancellation (ANC) keeping outside noise at bay. And there's the unmistakable Honda craftsmanship of the available leather-trimmed seating surfaces and available leather-wrapped steering wheel. Take a seat in the Accord and indulge yourself on the road.

TECHNOLOGY

DRIVE ON THE CUTTING EDGE.

TECHNOLOGY DOESN'T ALWAYS HAVE TO BE COMPLICATED.

In the new Accord, there's a host of cutting-edge technology to simplify your life and keep you in the loop, even when you're offline. The 8" i-MID LED backlit LCD TFT display lets you receive text messages** and e-mails** and answer back with preset replies without taking your hands off the wheel. It also provides a host of important vehicle information, like fuel efficiency, trip range plus audio and phone information. The HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface means you can stay on the line while your hands stay on the wheel. And you'll never lose your way with the available Honda Satellite-Linked Navigation System™ with trilingual Voice Recognition and 3D map display. You can do all of this while having a better view of the road with the available new LaneWatch™ blind spot display*. This new Honda innovation uses a camera mounted on the passenger-side mirror, giving you enhanced viewing capability of approximately 80 degrees on your dashboard screen, enough to see two lanes of traffic in your passenger-side blind spot. You can also get a better view when you're in reverse with the standard rearview camera* and available multi-angle rearview camera*. And if that wasn't enough, there's the available proximity key entry system with pushbutton start right at your fingertips. With such abundant technology, the Accord lets you feel in sync with your life as well as the road. The Accord is the first Honda vehicle to feature the available Lane Departure Warning* (LDW) and Forward Collision Warning* (FCW) systems. The Lane Departure Warning system uses an onboard camera to monitor vehicle lane position. If you inadvertently drift out of your lane without using a turn signal, you will be alerted audibly and visually. Similarly, the Forward Collision Warning system uses an onboard camera to determine if the gap between you and the vehicle ahead is closing too quickly. If you're approaching with too much speed, the system uses audible and visual alerts so you can slow down. More firsts for Honda technology. But definitely not the last.

*Does not replace driver's responsibility to exercise due care while driving.

**Text message and e-mail functions are only compatible with certain devices.

FORWARD COLLISION WARNING (FCW) SYSTEM

**HondaLink WITH
AUDIO TOUCH SCREEN**

YOUR LINK TO THE OUTSIDE WORLD.

STAYING CONNECTED IS EASY IN THE 2013 ACCORD.

The all-new available HondaLink with audio touch screen keeps your Accord connected through Aha™ by HARMAN. Making its debut on the 2013 Accord, this cloud-based system lets you bring your favourite online news, music and entertainment along for the ride with minimal driver distraction. Simply download the HondaLink app, connect your compatible smartphone through the USB device connector or Bluetooth and you'll have access to internet music services, podcasts, audio books, restaurant recommendations, social networks and more. Even with all of these features, using HondaLink is easy. You can control it through voice recognition, your audio touch screen or conveniently placed steering wheel-mounted audio controls. Plus, the system incorporates flawlessly the standard HandsFreeLink-bilingual Bluetooth wireless mobile phone interface, text message and e-mail functions. No matter where you take your Accord, HondaLink featuring Aha connects you to the people, places and things that matter most.

EFFICIENCY

THE FUTURE IS IN YOUR HANDS.

EARTH DREAMS TECHNOLOGY

Not only is the 2013 Accord more thrilling to drive than ever, it's also our most fuel-efficient Accord yet. This is the first Honda in North America to feature our revolutionary Earth Dreams powertrain technology applied to an all-new generation of engines and transmissions. The engines now have reduced friction plus improved torque, while the available transmissions enhance acceleration and responsiveness through improvements such as wider ratios and sporty shift programming. Together, they offer improved fuel efficiency and fun-to-drive performance, all of it born from our desire to protect the environment and deliver an unforgettable driving experience.

There's an Earth Dreams 2.4-litre, 16-valve, direct injection DOHC, i-VTEC® 4-cylinder engine paired with either a 6-speed manual transmission or the new continuously variable transmission (CVT). A new 3.5-litre, 24-valve, SOHC, i-VTEC® V6 engine is also available on the Coupe and Sedan, paired to a new 6-speed automatic transmission or a 6-speed manual transmission (Coupe only). With Earth Dreams technology, you can still enjoy an exhilarating driving experience as well as improved fuel economy.

ECON + ECO ASSIST™

If that wasn't enough, the Accord's fuel efficiency is further enhanced by the ECON button and Eco Assist. With a push of the ECON button, your Accord goes into ECON mode and automatically adjusts its engine and other auxiliary systems to go from efficient to ultra-efficient. Eco Assist coaches you to better fuel efficiency as you drive. The white and green bars on either side of the speedometer indicate how efficiently you're driving, so you can adjust your driving style accordingly. The more you keep the bars green, the less gas you'll use. All of these efficiency-enhancing features were created because we believe in building vehicles that do as much as possible to respect the planet we share with you.

ADVANCED VARIABLE CYLINDER MANAGEMENT® (VCM®)

The 2013 Accord is the most efficient Accord yet, with the help of its available VCM system. New for this year, it operates with 3 cylinders in a wider range of situations to maximize fuel efficiency and with 6 cylinders when greater power is needed.

SAFETY

YOUR SAFETY IS OUR RESPONSIBILITY.

AT HONDA, YOUR SAFETY HAS ALWAYS BEEN OUR HIGHEST PRIORITY.

The 2013 Accord continues that proud tradition with a host of features like ACE™ body structure, Vehicle Stability Assist and Smartvent™ side airbags, designed to help keep you and your family safe.

ACE™ BODY STRUCTURE

The Accord features a new Advanced Compatibility Engineering™ (ACE) body structure that disperses frontal impact energy to increase occupant protection. The ACE frame design also allows for collision compatibility between vehicles of different weights and sizes.

STANDARD AIRBAGS

The Accord comes with six standard airbags, surrounding you with safety features. It features Smartvent side airbags, a Honda safety innovation designed to deploy safely in a manner that mitigates the risk of injury to smaller occupants. On top of all that, it's the first Honda to feature the new side curtain airbag with a wider deployment profile to enhance ejection mitigation.

PEDESTRIAN SAFETY

Innovative pedestrian safety features include energy-absorbing hood and front fenders and breakaway wiper pivots.

CONTROLLED BRAKING

For safer stopping, the 4-wheel Anti-lock Braking System (ABS) helps you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist further improves braking performance by applying full brake pressure when a panic stop is detected.

VEHICLE STABILITY ASSIST (VSA®) WITH TRACTION CONTROL

Vehicle Stability Assist with Traction Control senses and corrects oversteer and understeer situations to enhance handling and cornering stability, while Traction Control helps to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

CHILD SAFETY

The Accord features childproof rear door locks, as well as rear seat Lower Anchors and Tethers for Children (LATCH) for secure child-seat restraint.

SEAT BELT SAFETY

Be prepared for the unexpected with 3-point height-adjustable seat belts with front pretensioners and a 3-point rear centre seat belt.

Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly secured in the rear seat.

SEDAN ACCESSORIES

PACKAGES AND KITS

2013 ACCORD PROSTYLE PACKAGE

(AS SHOWN 1)

- > All-weather floor mats
- > Illuminated door sill trim
- > Trunk tray
- > Grille trim

PROTECTION PACKAGE

- > All-weather floor mats
- > Rear splash guards
- > Trunk tray

FUNDAMENTAL PACKAGE

- > Cargo hooks
- > Cargo net

REMOTE STARTER KIT

(AS SHOWN 2)

- > Remote engine starter base unit
- > Remote engine starter attachment
 - with/without pushbutton start

OTHER ACCESSORIES AVAILABLE

- > 17" alloy wheels SBC
- > Automatic day/night rearview mirror
- > Engine block heater
- > Fog lights
- > Interior illumination
- > Moonroof visor
- > Rear seat cover
- > Front/Rear/Side skirt
- > Rear wing spoiler
- > Trunk edge and bumper protector

just accessories,
they're extensions
of you.

THE POWER OF DREAMS, IN ALL THEIR FORMS.

AT HONDA, WE'RE COMMITTED TO BEING A LEADER IN INNOVATIVE THINKING, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help make the world around us a bit brighter and a little more fun. We continually strive to do things others think can't be done, because true innovation comes from daring to dream. Here are just some of the technically ingenious things Honda has brought to life through The Power of Dreams.
