

2013 CROSSTOUR

MAKE IT A COMBO.

IT'S BOTH SIDES OF THE EQUATION.

It's showing up in style in the middle of a snowstorm. An exhilarating drive along country roads with stops at every yard sale along the way. Power when you want it and fuel efficiency when you need it. Confident handling, in ideal or not so ideal conditions. Luxury that says you've arrived, with the versatility to send you on your way again. It's all this, and all that. It's the Crosstour.

STYLE

BEAUTY AND BRAWN.

WHETHER YOU'RE DRIVING THE BACKROADS TO THE COTTAGE OR HEADED OUT ON THE TOWN, THE CROSSTOUR WILL LOOK THE PART.

The all-new front bumper and grille have a look that's rugged with a sense of refinement. Lower body cladding with painted door garnish carries the vehicle's aggressive stance through to the newly styled rear bumper, featuring dual exhaust with chrome finishers. Front and rear bumper underguards, fog lights, and rear privacy tinted glass all help round out the luxurious look. Add a power moonroof, chrome door handles and available 18-inch aluminum alloy wheels, and you get a striking statement piece that is the perfect marriage of form and function.

VERSATILITY

DON'T SWEAT THE BIG STUFF.

SIZE AND AGILITY.

Open the rear tailgate and the Crosstour reveals its versatile nature. In its upright position, the rear cargo area has more than enough space for your golf gear and groceries. Pull the discreet release levers and the 60/40 split rear seats fold flat to accommodate longer items. In fact, you get 1,453 litres of cargo space with the seats down¹. For even more handy storage, lift the floor panel. That's where you'll find a removable water-resistant under-floor storage box. It's perfect for keeping your stuff out of sight – and then taking it with you when you're ready to go. To complete this picture of versatile utility, flip over the reversible floor panels. There's luxury carpet on one side and wipe-clean, all-weather rubber on the other.

- › 60/40 split fold-down rear seatback / Rear-seat centre armrest with locking pass-through / Removable water-resistant under-floor storage box

PERFORMANCE

ABSOLUTE POWER DELIGHTS ABSOLUTELY.

THE CROSSTOUR MANAGES TO BE POWERFUL, AND STILL ONE OF THE MOST FUEL-EFFICIENT VEHICLES IN ITS CLASS.

You can get that power served up in two ways: a 2.4-litre, DOHC i-VTEC® 4-cylinder engine provides 192 horsepower² on 2WD models, using a 5-speed automatic transmission with Grade Logic Control. Or step up to the 3.5-litre, SOHC i-VTEC V6 engine with 278 horsepower;² using a 6-speed automatic transmission with Grade Logic Control and new steering wheel-mounted paddle shifters, for an even more spirited drive, plus the reassurance of 4WD. The V6 also features electric variable power-assisted rack-and-pinion steering (EPS) for even better driving stability.

All that power can still be efficient, thanks to the Variable Cylinder Management® (VCM®) system of the V6 engine. When you want raw power, the system engages all six cylinders for a truly invigorating drive. For more moderate highway or country road driving, the engine can operate with 3 cylinders in a wider range of situations to maximize fuel efficiency. It's the Crosstour at its versatile best: serious horsepower when you want it and greater fuel efficiency overall.

HANDLING

ALL-YEAR DRIVE.

GO ANYWHERE AND DO ANYTHING.

All-weather, all-conditions handling is the goal of the Crosstour's available Real Time 4WD[®] system. It helps to give you traction in low-grip driving conditions, along with a faster, more intuitive initial response when a loss of traction is detected. For added control, the Crosstour is equipped with an independent double-wishbone front and multi-link rear suspension for a refined, smoother ride.

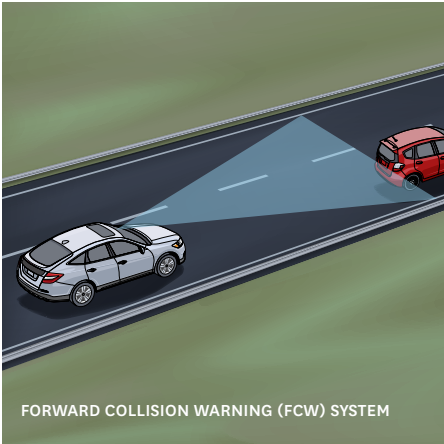

INTERIOR

PLEASE BE SEATED.

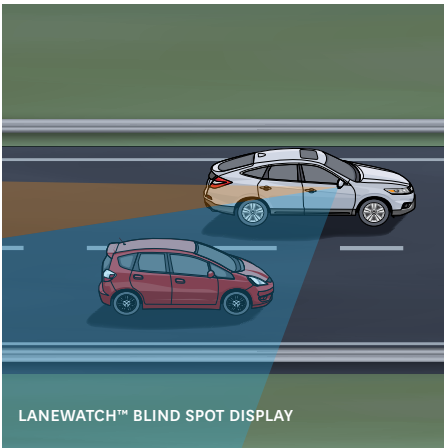

IF LUXURY IS IN THE DETAILS, THE CROSSTOUR HAS CONSIDERED EVERY LAST ONE OF THEM.

First, step into your sanctuary using the available smart entry with pushbutton start. Then, sink into the 10-way power-adjustable driver's seat with power lumbar support, also available in a heated and leather trimmed version. Other available upgrades include a heated 4-way power-adjustable passenger seat, leather-wrapped steering wheel and shift knob, plus woodgrain and metallic finish on the instrument panel and centre console. All of these features just bolster the Crosstour's well-crafted, premium feel. For ample cabin storage, there's a handy centre console with storage compartment and roomy door pockets on each of the four doors. Ultimately, every carefully contoured inch of the cabin is designed to complement the vehicle's performance and confident drive.

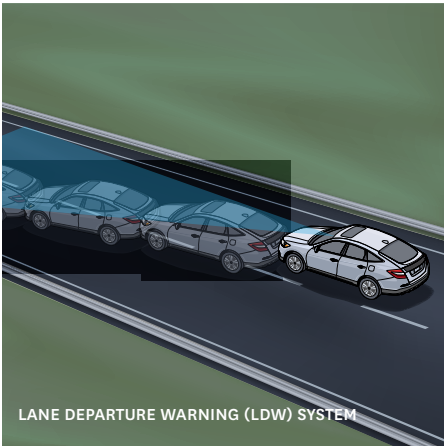

› Driver's seat with 10-way power adjustment including power-adjustable lumbar support and available memory system for seats and mirrors / Available front passenger's seat with 4-way power adjustment / Illuminated steering wheel-mounted audio controls / Steering wheel-mounted cruise control / Expanded view driver's mirror

FORWARD COLLISION WARNING (FCW) SYSTEM

LANEWATCH™ BLIND SPOT DISPLAY

LANE DEPARTURE WARNING (LDW) SYSTEM

TECHNOLOGY

AT HOME ON THE ROAD.

THE CROSSTOUR IS A MARVEL OF TECHNOLOGY, LOADED WITH INNOVATIVE THINKING.

Some notable new features for 2013 include Lane Departure Warning³ (LDW) and Forward Collision Warning³ (FCW) systems. The Lane Departure Warning system uses an onboard camera to monitor vehicle lane position. If you inadvertently drift out of your lane without using a turn signal, the system is designed to alert you audibly and visually. Similarly, the Forward Collision Warning system uses an onboard camera to determine if the gap between you and the vehicle ahead is closing too quickly. If you're approaching with too much speed, the system uses audible and visual alerts so you can slow down. The new LaneWatch™ blind spot display³ uses a camera mounted on the passenger-side mirror that relays an enhanced view of the road to your in-dash display, enough to see two lanes of traffic in your passenger-side blind spot. The view improves in reverse too, with a standard rearview camera³ and available multi-angle rearview camera³, which has three different angles, including wide, normal and top-down, for added perspective and easier reversing.

With the available 8" i-MID LED backlit display, you can receive text messages⁴ and emails⁴ and answer back with preset replies, keeping your hands on the wheel. It also provides important vehicle data like fuel efficiency and trip range, as well as audio and phone information. The HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface⁴ allows you to keep your hands on the wheel and your eyes on the road. An available Honda Satellite-Linked Navigation System™ keeps you on the right path with 3D map display and FM Traffic feature, which offers continuously updated traffic information with zero subscription fees⁹.

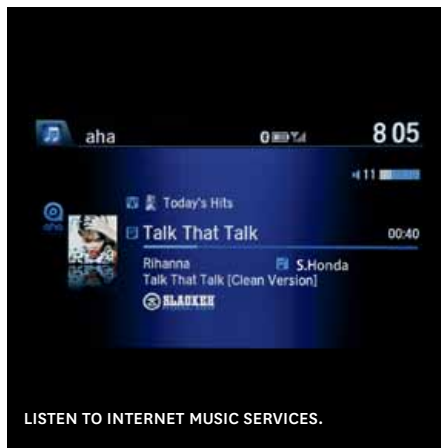

On the audio spectrum, there's a 360-watt AM/FM/CD/MP3/WMA Premium audio system with 7 speakers including subwoofer. In addition to SiriusXM radio⁷, MP3/auxiliary and USB input jacks, the cabin is equipped with Active Noise Cancellation (ANC) to filter out undesirable engine and road noise. Models with HondaLink™ can also take advantage of available Bluetooth Streaming Audio⁴. All of these features should be more than enough to keep technophiles happy.

HondaLink™ WITH AUDIO TOUCH SCREEN^{4,5}

STAY CONNECTED TO THE OUTSIDE WORLD.

THE ALL-NEW AVAILABLE HondaLink WITH AUDIO TOUCH SCREEN KEEPS YOUR CROSSTOUR CONNECTED THROUGH AHA™ BY HARMAN.™

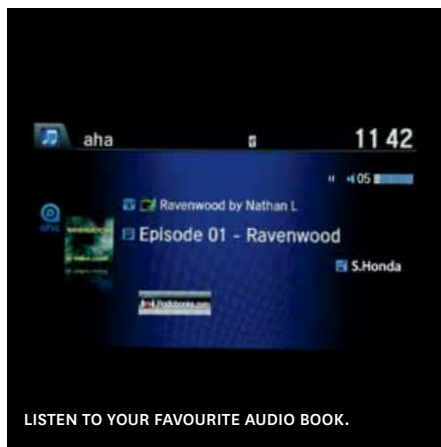

This cloud-based system lets you bring your favourite online news, music and entertainment along for the ride with minimal driver distraction. Simply download the HondaLink app, connect your compatible smartphone through the USB device connector or Bluetooth and you'll have access to internet music services, podcasts, audio books, restaurant recommendations, social networks and more. Even with all of these features, using HondaLink is easy. You can control it through voice recognition, your audio touch screen or conveniently placed steering wheel-mounted audio controls. Plus, the system incorporates flawlessly the standard HandsFreeLink-bilingual Bluetooth wireless mobile phone interface⁴, available text message⁴ and available email functions⁴. No matter where you take your Crosstour, HondaLink featuring Aha by HARMAN helps keep you connected to the people, places and things that matter most.

SAFETY

SAFETY FOR EVERYONE.

Honda is committed to providing one of the highest levels of standard safety features to help ensure occupant safety and protection. And through real-world research, Honda is focused on developing solutions designed to enhance the safety of occupants in other vehicles and even pedestrians – an innovative idea that is quickly becoming a reality.

ACE™ BODY STRUCTURE.

The highly innovative Advanced Compatibility Engineering™ (ACE™) body structure is designed to disperse frontal impact energy to increase occupant protection. Additionally, the ACE frame design allows for collision compatibility between vehicles of different weights and sizes.

VEHICLE STABILITY ASSIST (VSA®) WITH TRACTION CONTROL.

VSA senses and corrects oversteer and understeer situations to enhance handling and cornering stability, while Traction Control helps to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

PEDESTRIAN SAFETY.

Innovative pedestrian safety features include energy-absorbing hood and front fenders, and breakaway wiper pivots.

TIRE PRESSURE MONITORING SYSTEM.

For enhanced safety and fuel efficiency, TPMS continually checks the air pressure in each tire. If pressure drops in any one tire, the driver receives a dashboard alert.

CONTROLLED BRAKING.

To assist with safe stopping, the 4-wheel Anti-lock Braking System (ABS) is designed to help maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. Brake Assist further improves braking performance by applying full brake pressure when a panic stop is detected.

HEAD RESTRAINTS.

Active front seat head restraints are designed to lessen the potential for neck injuries during rear-end collisions by reducing the space between the occupant's head and the seat head restraint.

SIX STANDARD AIRBAGS.

Six airbags line the Crosstour interior, including the passenger-side Occupant Position Detection System (OPDS) airbag, which is designed to not deploy if the system detects a smaller-sized or out-of-position occupant.

CHILD SAFETY.

The Crosstour features childproof rear door locks, as well as three rear seat Lower Anchors and Tethers for Children (LATCH) for secure child-seat restraint.

ACCESSORIES

PACKAGES AND KITS

PROTECTION PACKAGE

- > All-season floor mats
- > Cargo tray
- > Rear splash guards

TOWING PACKAGE

- > Trailer hitch
- > Trailer hitch harness
- > Trailer hitch ball – 1 7/8" or 2"

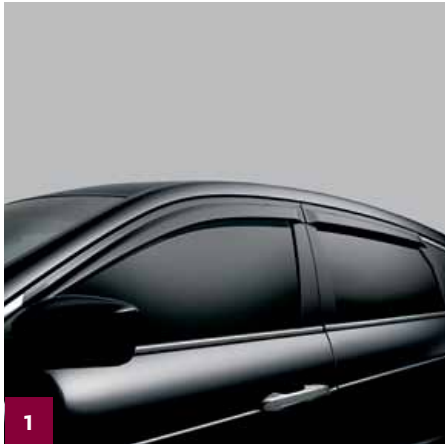

REMOTE ENGINE STARTER PACKAGE

- > Remote engine starter base unit
- > Remote engine starter attachment

CARGO COVER KIT

Accessories listed in the packages may also be added individually to your Crosstour.

- 1** DOOR VISORS
- 2** ROOF RACK, SKI ATTACHMENT
- 3** 18" ALLOY WHEELS –
SUPER BRIGHT CHROME
- 4** REAR BUMPER PROTECTOR
- 5** ILLUMINATED DOOR SILL TRIM
- 6** MOONROOF VISOR

OTHER ACCESSORIES AVAILABLE

- > Ashtray – cup holder style
- > Cargo net, advanced
- > Door edge film
- > Door sill trim
- > Engine block heater
- > Interior illumination, blue
- > Rear bumper appliqué
- > Rear seat cover
- > Rear splash guards
- > Roof rack
- > Roof rack, bicycle attachment
- > Roof rack, short roof box
- > Roof rack, snowboard attachment
- > Soft cargo organizer
- > Wheel locks

- 7** BODY SIDE MOULDING
- 8** REAR BACK UP SENSORS
- 9** HOOD EDGE DEFLECTOR
- 10** TOWING PACKAGE
- 11** CARGO TRAY
- 12** ROOF RACK, ROOF BOX – MID-SIZE

THE POWER OF DREAMS, IN ALL THEIR FORMS.

AT HONDA, WE'RE COMMITTED TO BEING A LEADER IN INNOVATIVE THINKING,

from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help make the world around us a bit brighter and a little more fun. We continually strive to do things others think can't be done, because true innovation comes from daring to dream. Here are just some of the technically ingenious things Honda has brought to life through The Power of Dreams.

¹Honda reminds you to properly secure all items stored in the cargo area. ²Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures. ³Does not replace the driver's responsibility to exercise due care while driving. ⁴Only compatible with certain devices. ⁵Standard data rates may apply. ⁶HomeLink* can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.). Additional control devices not provided by Honda may be required. ⁷Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.siriusxm.ca. ⁸Based on 2013 EnerGuide Fuel Consumption Guide ratings published by Natural Resources Canada. Transport Canada approved test methods used. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. ⁹Honda FM Traffic traffic-flow data and incident-reporting coverage vary by market.

Honda brochures are produced with the planet's future in mind. That's why we've printed this brochure on acid-free paper that contains a minimum of 25% post-consumer waste and is produced with the lowest carbon footprint of any coated paper manufacturer in North America. The greenhouse gas emissions generated by the manufacturing of this paper have been counter-balanced with verified carbon offset credits. This paper has also been certified as having ensured responsible use of forest resources during its manufacture.
