

2014 CIVIC

WE'VE RETHOUGHT OF EVERYTHING. AGAIN.

It's a part of our lives. For over 40 years, the Civic has brought us together, taken us on adventures, and helped us create memories we'll never forget. And, as the best-selling car in Canada for the past 16 years, the stories are never-ending. Well, this year, the evolution continues. The Coupe is looking more aggressive than ever with its bold exterior restyling. The available Display Audio System¹² is a Honda-first, with its 7" touch-screen that works like a tablet and revolutionizes the way you interact with your vehicle. Also a first for Honda is the available HondaLink™ Assist^{5,11,12,32} automatic emergency response system, while available features like the LaneWatch™ blind spot display⁹ and proximity key entry system with pushbutton start make their Civic family debut, and the available multi-angle rearview camera² with dynamic guidelines continues to help make backing up a breeze. This year, the Civic wants it all and gets it, boasting excellent fuel economy with improved power compared to last year. The available continuously variable transmission (CVT) helps keep your engine running efficiently while enhancing that fun-to-drive character. Meanwhile, the Civic has even more horses to play with, thanks to a retuned exhaust. Add in the fact that last year's Civic was awarded the 2013 IIHS Top Safety Pick+ designation with the highest rating on the small-overlap barrier crash test, and it's clear that the Civic will never stop propelling the driving experience to new heights.

17" ALUMINUM-ALLOY WHEELS

The Coupe has just the right amount of flash. The available 17" aluminum-alloy wheels complete the package and tell the world that your car is one to watch.

POWER MOONROOF

For those days when you want to feel the wind in your hair, the Civic Coupe has an available power moonroof with tilt feature.

HEATED FRONT SEATS

The Civic Coupe is a comfortable ride in any weather. Take the bite out of winter driving with the standard heated front seats.

RESTYLED. REFINED. REMARKABLE.

A RIDE EVEN PEDESTRIANS CAN ENJOY

The 2014 Civic Coupe is utterly striking, in the best way possible. True to its energetic, fun-to-drive character, the Coupe's restyled exterior fully captures the spirit of the lively engine within. Unapologetically bold, the all-new front and back bumpers set a sporty tone, leading into a freshly sharpened, snarling grill and a hood that's been updated to play nicely with the distinctly rounded front fenders. Add in the new headlights and garnish plus available features such as 17" aluminum-alloy wheels, fog lights and power moonroof, and no matter where you take it, the Coupe will always get noticed.

INNER BEAUTY

The innovation continues on the inside, where the available Display Audio System's sleek 7" touch-screen acts as the focal point. With it, you can control your audio system, check important vehicle information and view available features like the LaneWatch™ blind spot display⁹ and the multi-angle rearview camera² with dynamic guidelines. Beyond the console, comfort and convenience is the theme of the Coupe's interior. Premium soft touch materials are used throughout, and the available leather-trimmed seating surfaces are a luxurious touch. Add in the driver's seat with 6-way adjustment and available features such as automatic climate control with air filtration system, sliding armrest and chrome accents, and it will become clear why the 2014 Civic Coupe is not only a sensation to drive, but a sensation to see and feel as well.

STYLED TO MOVE YOU.

Style is an important part of the driving experience, and the Civic Sedan has it in spades. Its finely sculpted profile is as stunning as ever, and it maintains the clean lines and aggressive styling that make it a standout in four-door style. Once you're through admiring the sleek exterior, the available proximity key gets you in and you're only a button-push away from ignition. Inside, premium soft touch materials have been used throughout the cabin to delight drivers and passengers alike. Available features like the leather-wrapped steering wheel with mounted controls, leather-trimmed seating surfaces, 60/40 split fold-down rear seatback and heated front seats give the interior a style that strikes the perfect blend of elegance and convenience. Find your groove in the driver's seat with available 8-way power adjustment, and keep things comfortable using the available automatic climate control with air filtration system. Simply put, the Sedan is a premium experience inside and out.

DELUXE FINISHES

The interior is styled to not only look good, but feel good too. The premium soft touch materials are a luxurious detail, while the available leather-trimmed seating surfaces put comfort above all.

PREMIUM LIGHTS

See and be seen with the Civic Sedan's halogen headlights with available automatic on/off. Available fog lights offer better visibility in tough weather and add an extra splash of style to your front bumper.

STEERING CONVENIENCE

The available leather-wrapped steering wheel adds an extra degree of comfort to your ride. And, with wheel-mounted controls, you'll never have to take your hands off it.

SERIOUS FUN FOR SERIOUS DRIVERS.

It's your turn to benefit from Honda's decades of race experience. The Civic Si's 2.4-litre, 4-cylinder DOHC i-VTEC® engine is perfect for drivers who appreciate the not-so-little things, and thanks to a retuned exhaust, the Si now performs at a pulse-accelerating 205 horsepower with 174 lb.-ft of torque.¹ The engine's i-VTEC system delivers instant response and optimum power by producing low-rpm responsiveness as well as high-rpm power. The unique power monitor lets you track the percentage of engine power you're using, the i-VTEC meter shows you when the i-VTEC system engages the power band and the redline indicator lets you know when you need to switch gears. The finely engineered 6-speed manual transmission makes every shift feel smooth and fluid, and the helical limited slip differential helps make wet conditions and hard corners a breeze. Finally, the front suspension and independent multi-link rear suspensions were also retuned on the Coupe. Due to arrive in Spring 2014, the Civic Si is a ride that race car drivers would appreciate on the track, let alone off it.

Si

A THRILL FOR THE SENSES, EVEN IN PARK.

The Civic Si is pure sport, through and through. On the outside, the restyled Si Coupe is adrenaline at first sight. With bold, athletic styling upgrades to its front and rear bumpers, hood, grille and fenders, it's sure to get your heart revving. Both Coupe and Sedan also feature sporty styling points like the all-new 18" aluminum-alloy wheels, rear wing spoiler and exhaust finisher. But that style doesn't end on the exterior. Inside, you'll find an environment that nurtures your desire for high-adrenaline driving with its unique black and red interior. The carbon print style dash, red-illuminated gauges and sport seats with side bolsters and new red inserts set a pulse-accelerating ambience for you and your co-pilots. At centre stage is the Display Audio System,¹² a touch-screen that works like a tablet and gives access to audio features, important vehicle information and the embedded Honda Satellite-Linked Navigation System^{TM7} with bilingual voice recognition. The proximity key entry system with pushbutton start is a convenient addition, while the LaneWatchTM blind spot display⁹ and multi-angle rearview camera² with dynamic guidelines offer new perspectives on your surroundings. The Civic Si also comes with heated seats and a Premium 7-speaker audio system with subwoofer, and it arrives in Spring of 2014.

RESTYLED FRONT

With a freshly sharpened, more aggressive front bumper, headlights and grille, your first impression will always be true to the high-performance engine and race-inspired design of the Civic Si Coupe.

DYNAMIC DASHBOARD

The sporty detailing comes alive on the Si's dynamic dashboard, which features red-illuminated gauges, an i-VTEC[®] indicator light and the six-stage rev indicator.

POWER MONITOR

Keep an eye on your engine's output with the power monitor and you'll always be informed as you go.

A light blue 2014 Honda Civic Hybrid is shown from a rear three-quarter view, driving on a paved road that curves along a body of water. The car is in motion, with a slight blur on the wheels and the background to convey speed. The sky is a pale blue with soft, wispy clouds. The water in the background is calm, reflecting the light from the sky. The foreground shows a grassy area with some motion blur, suggesting the car is moving quickly.

MINIMIZE EMISSIONS. AND GAS STATION APPEARANCES.

The 2014 Civic Hybrid builds on Honda's legendary fuel efficiency, allowing you to cover more distance between visits to the pumps. At the heart of the Hybrid is the Integrated Motor Assist (IMA[®]) system, which controls the balance between the 1.5-litre, i-VTEC[®] 4-cylinder gasoline engine and the electric motor. The fuel economy is heightened further by the continuously variable transmission (CVT), which manages ratios to help ensure maximum efficiency and provide a smooth ride. The Hybrid retains the sleek exterior lines of the Civic Sedan while adding a flair all its own, highlighted by the sporty lightweight aluminum-alloy wheels and rear deck lid spoiler. Plus, with LED daytime running lights and LED taillights adding to its sophisticated look, the Hybrid is a bona fide head-turner. Due to arrive in early 2014, the Civic Hybrid has benefits that will please drivers while keeping the environment in mind.

Visit honda.ca for updates and details.

KEY TECH FEATURES.

INTRODUCING THE DISPLAY AUDIO SYSTEM

Here for the first time on the 2014 Honda Civic, the available state-of-the-art Display Audio System¹² is technology worthy of a keynote address. Intuitive and easy to use, it features a 7" touch-screen and works just like a tablet. This means you can swipe, pinch and tap to navigate through the audio system, display settings, advanced features and the next generation of HondaLink.^{TM5,11,12,33} With so much content at your fingertips, the Display Audio System is innovation you can touch.

PROXIMITY KEY ENTRY WITH PUSHBUTTON START

The Civic comes with an available proximity key entry system that lets you unlock your door without taking your keys out of your pocket or purse, and makes starting your engine as simple as pushing a button.

MULTI-ANGLE REARVIEW CAMERA

The available multi-angle rearview camera² always has your back. With dynamic guidelines and three different views to choose from, taking the right line has never been easier.

LaneWatchTM BLIND SPOT DISPLAY

New to the Civic and exclusive to Honda, this available feature uses a camera on the passenger's side mirror designed to greatly reduce your blind spot on that side.⁹ Signal right or push the button on the end of the indicator lever and live video comes up on your Display Audio screen, revealing nearly four times more area than the mirror alone.

i-MID

The intelligent Multi-Information Display not only keeps you connected to the Civic's text message functionality,^{11,20} it also houses important vehicle information such as fuel efficiency and trip range.

NAVIGATION SYSTEM

With pinch-to-zoom gestures and over 7 million points of interest, the available Honda Satellite-Linked Navigation System^{TM7} with bilingual Voice Recognition is the best co-pilot a driver could ever ask for.

AUDIO SYSTEM

The available 6-speaker audio system (Premium 7-speaker system with subwoofer on the Si and EX-L Navi Coupe) features AM/FM/CD with MP3/Windows Media[®] Audio playback capability and Bluetooth[®] Streaming Audio.⁵ Access it via the available Display Audio System¹² and you'll tap and swipe your way through your favourite entertainment on the go.

HANDLE WITH CONFIDENCE.

Whichever Civic you choose, there's a race-inspired engine to suit your performance needs. The 4-cylinder i-VTEC® engine in both the Civic Coupe and Sedan is extra lively and responsive, ensuring fun-to-drive performance across the board. New to the Civic Sedan and Coupe is the available continuously variable transmission (CVT) (paired with paddle shifters on select Coupe trims). The CVT improves passing power and acceleration from a stop, all while simulating the feel of a conventional automatic transmission. The independent strut front and independent multi-link rear suspensions have been retuned for sharper handling (on the Coupe), while Motion-Adaptive Electric Power-Assisted Rack-and-Pinion Steering (EPS) brings lightning-fast responsiveness. These features all work together to give the Civic exceptional handling and dynamic performance that will take your pulse for a joyride.

DRIVE WITH FEWER PUMP INTERRUPTIONS.

Efficiency is hardwired into the Civic year after year. The 2014 edition builds on that legacy by offering exceptional fuel economy with increased horsepower and maintaining its fun-to-drive performance. The available continuously variable transmission (CVT) does wonders for fuel efficiency by cycling through virtually endless ratios to help ensure that your engine is running at the most efficient RPM possible in practically any conditions. Push the ECON button (on all trims except Si) to make the engine and other non-essential functions go from efficient to ultra-efficient. Let the innovative Eco Assist™ system (on all trims except Si) coach you to more economical driving habits, with blue and green bars on either side of the speedometer giving you feedback on how efficiently you're driving so you can adjust accordingly. The more green you see, the farther you'll go. And while the i-VTEC® engine has big oomph, it also has low emissions. All this fuel-saving technology leads to efficiency you'll notice every time you drive past a gas station.

SOLID ON SAFETY.

Honda is committed to providing one of the highest levels of standard safety features to help ensure occupant safety and protection. And through real-world research, Honda is focused on developing solutions designed to enhance the safety of pedestrians – an innovative idea that is quickly becoming a reality.

NEXT GENERATION ACE™ BODY STRUCTURE

The next generation Advanced Compatibility Engineering™ (ACE) body structure disperses frontal impact energy to increase occupant protection. The ACE frame design also allows for collision compatibility between vehicles of different weights and sizes. It was designed to pass the stringent IIHS small-overlap barrier crash test, allowing the Civic to become the first small car ever to pass it.

SIX STANDARD AIRBAGS

Six standard airbags line the Civic's cabin. It features side curtain airbags with a sensor to deploy in the event of a rollover and dual-stage, dual-threshold front airbags (SRS). Plus, it has Smartvent™ side airbags, which are designed to deploy safely in a manner that mitigates the risk of injury to out-of-position or smaller occupants.

CONTROLLED BRAKING

To assist with safe stopping, the 4-wheel Anti-lock Braking System² (ABS) helps you maintain control under hard braking conditions, while Electronic Brake-force Distribution (EBD) helps to optimize braking power based on weight distribution inside the vehicle. In addition, Brake Assist further helps to improve braking performance by applying full brake pressure when a panic stop is detected.

VEHICLE STABILITY ASSIST (VSA®) WITH TRACTION CONTROL

Vehicle Stability Assist² with Traction Control senses and helps to correct oversteer and understeer scenarios to enhance handling and cornering stability, while Traction Control is designed to minimize wheel spin when accelerating on loose or slippery surfaces, helping to inspire greater driver confidence.

PEDESTRIAN SAFETY

Innovative pedestrian safety features include energy-absorbing hood and front fenders, and breakaway wiper pivots.

CHILD SAFETY

The Civic comes equipped with two Lower Anchors and Tethers for Children (LATCH) that offer secure child-seat restraints. The Sedan also features childproof rear door locks.

SEAT BELT SAFETY

The Civic helps you be prepared for the unexpected with 3-point front seat belts (height-adjustable on Sedan) with pretensioners and a 3-point rear centre seat belt.

HondaLink™ ASSIST

The available HondaLink Assist^{5,11,12,32} automatic emergency response system helps you get the help you need when you need it most. If the airbags deploy, your Display Audio System is engineered to automatically attempt to put you on a call with an operator who will forward your location to first responders if needed. It works with any compatible Bluetooth®-paired phone as long as it has reception, does not require a subscription and gives you peace of mind while you're on the road.

COUPE ACCESSORIES

PACKAGES AND KITS

AERO KIT PACKAGE

- > Front underbody spoiler
- > Rear underbody spoiler
- > Side underbody spoiler

PROTECTION PACKAGE

- > All-weather floor mats
- > Rear splash guards
- > Trunk tray

REMOTE ENGINE STARTER PACKAGE

Accessories listed in the packages may also be added individually to your Coupe.

OTHER ACCESSORIES AVAILABLE

- > Ashtray – cup holder style
- > 16" alloy wheels
- > 18" alloy wheels
- > Auto day/night mirror
- > Blue interior illumination kit
- > Body side moulding
- > Car cover
- > Cargo hook
- > Door edge film
- > Door edge guards

THE POWER OF DREAMS, IN ALL THEIR FORMS.

At Honda, we're committed to being a leader in innovative thinking. It's part of everything we do, from the design of our vehicles to the way we work. We have a proud tradition of turning ideas into products and initiatives that help move and improve people's lives in every conceivable way. Today, our innovation manifests itself in many forms: our revolutionary Earth Dreams™ technology, the race-inspired performance of our motorcycles and automobiles, the mobility-assisting robot ASIMO, the high-flying HondaJet and the first full line of fuel-efficient, low-emission, 4-stroke outboard motors. We continually strive to do things others think can't be done, because true innovation comes from daring to dream.

Beyond dreaming up new products, Honda believes we have a responsibility to do everything we can to help preserve our planet. This belief is why we make every effort to ensure preservation of the environment in all of our company's activities. It's why our head office in Markham, Ontario was designed and built to be LEED® (Leadership in Energy and Environmental Design) Gold Certified. It's why our Alliston, Ontario plant is ISO 14001 certified. And it's why Honda, along with our associates and families, has helped plant more than 76,000 trees in Canada over the last 7 years.

As we move forward, we will continue to honour our responsibility and tradition of turning innovative ideas into products that help make our world a better place. That's what we do. That's The Power Of Dreams.

BIG THINGS HAPPEN WHEN YOU DO THE LITTLE THINGS RIGHT.

How does a vehicle earn the title of Canada's best-selling car 16 years in a row? By knowing what drivers want today, and anticipating what they'll want down the road. If you'd like to learn more, visit us at honda.ca. With downloads, a robust selection of images and the handy Build & Price page, you'll see why the 2014 Civic is showing no sign of slowing.

16
CIVIC | Canada's
best-selling car
16 years in a row.

WE'RE HERE. At Honda, assistance and support are always available. The team of trained technicians at your Honda dealership will help keep your vehicle in terrific shape. If you need more information or assistance relating to your warranty, call us at 1-888-9-HONDA-9. For all of the latest Honda information, including product specifications, pricing, photos and more, visit honda.ca. It has everything you need to "design" your Honda and personalize it with items from a list of quality accessories.

WE'RE READY TO HELP. When you purchase a new Honda, you automatically receive Honda Plus Roadside Assistance. This service is available to you, or any authorized driver, 24 hours a day, 7 days a week, anywhere in Canada or the continental United States. Coverage is for 3 years over an unlimited distance and includes a 24-hour toll-free Honda Plus Roadside Assistance number, mechanical breakdown towing, emergency roadside service and many other helpful features. Ask your dealer for more information.

HONDA PLUS EXTENDED WARRANTY. Experience added protection with Honda Plus coverage that is behind you for the road ahead. With available coverage options of up to 8 years/200,000 km, you can choose the one that best suits your needs. With a plan this wide-ranging, the only thing that's uncertain is where it will take you.

HONDA FINANCIAL SERVICES. Whether you buy or lease a Honda, Honda Financial Services can assist you with the process. Ask your dealer which lease or purchase plan best suits your needs.

NEW HONDA VEHICLE WARRANTY. The Honda warranty protection makes Power Train components a minor concern with the Honda 5-year/100,000-km No Nonsense Warranty. In addition to the Honda 5-year/100,000-km No Nonsense Warranty, you and your new Honda are protected by a Honda 3-year/60,000-km Distributor's Warranty as well as an additional series of warranties for such items as emission controls, body corrosion and more.

GENUINE HONDA ACCESSORIES give you the opportunity to fine-tune your new Honda just how you like it. Whether you want to turn up the style, the versatility or the exclusivity, every accessory is designed and built to adhere to the strictest Honda standards. See your dealer for full details.

GENUINE HONDA REPLACEMENT PARTS are made to the same exacting standards as original Honda components and are guaranteed by the Genuine Honda Parts Warranty. Using Genuine Honda Parts will help to maintain the quality, reliability and performance of your vehicle.

NEED MORE INFORMATION? GET THE LATEST PHOTOS, MSRPS, FEATURES, ACCESSORIES, SPECS AND MORE AT **HONDA.CA**

Always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in a rear seat. Honda reminds you to properly secure all items stored in the cargo area. ¹Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures. ²Does not replace the driver's responsibility to exercise due care while driving. ³Only compatible with certain devices and operating systems. Devices, cables and adapters are not included and must be purchased separately. ⁴Map Database of the Honda Satellite-Linked Navigation System covers major metropolitan areas in southern Canada and the 48 contiguous U.S. states. For a list of current detailed coverage areas, refer to the Honda web site, www.honda.ca. ⁵Display accuracy will vary based on weather, size of object and speed, and the display may not show all relevant traffic. The display is not a substitute for your own direct visual assessment of traffic conditions before changing lanes. ⁶Cellular data and/or voice charges may apply, including roaming charges and/or other amounts charged by your wireless carrier. ⁷Some laws prohibit the operation of electronic devices while operating a vehicle. Launch applications and perform other operations on electronic devices only when the vehicle is safely parked. Certain functionalities may be locked while vehicle is operational. ⁸Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.siriusxm.ca. ⁹Based on 2014 EnerGuide Fuel Consumption Guide ratings published by Natural Resources Canada. Transport Canada approved test methods used. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. ¹⁰Text message function is only compatible with certain devices. Only use this function when conditions allow you to do so safely. ¹¹HondaLink™ Assist services are dependent upon cellular data and/or voice connection availability, HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface connectivity with the vehicle, and GPS satellite signal reception, each of which can limit the ability to reach either HondaLink™ Customer Care or receive support. The HondaLink™ Assist service uses location data. By using this service, you are consenting to and permitting your wireless carrier to share your location with others. Honda makes no representation, warranty or guarantee of accuracy, completeness or timeliness of any location data, product or service. For a full explanation of HondaLink™ Assist functionality and Honda's data use and privacy policy, see www.honda.ca/hondalinkassist. ¹²Registration required. Application download may be required. Depending on use, HondaLink™ can transmit to Honda and its providers: (i) a vehicle's location, speed and other operating conditions; and/or (ii) information that may be tied to the vehicle identification number (VIN). Such information can be combined to track a vehicle. For a full explanation of HondaLink™ functionality and Honda's data use and privacy policy, see www.honda.ca/hondalink. HandsFreeLink™-bilingual Bluetooth® wireless mobile phone interface may be required for certain services, features and/or applications. Some services, features and/or applications are dependent upon cellular data and/or voice availability and may require use of GPS for location-based content. Continued use of GPS running in the background can decrease battery life. Subject to applicable law, Honda reserves the right to terminate HondaLink™ services, features and/or applications at any time or for any reason, and in the future may not be able to provide services, features and/or applications due to changes in technology, law or government regulation. For a full list of vehicles, devices and operating systems currently compatible with HondaLink™, please visit www.honda.ca/hondalink.
