NISSAN ALTIMA

IMAGINE YOUR DRIVE BEING THE BEST PART OF YOUR DAY.

Imagine a car that just 'gets' you. A car that, from the second you see it, and the moment you sit in it, feels just right. Performance that gives you a rush of pleasure every time. Intuitive technology that means you don't have to second guess. A seat that's been designed and engineered to actually reduce fatigue, no matter how long the journey. The all-new Nissan Altima is all this and more. You'll be driven to perfection.

Ti-S model shown in White Diamond.

THE FEELING OF STOPPING. AND LETTING THEM STARE.

Altima's deep creases and dramatic lines started on a designer's sketchpad, and were brought to life by an innovative metal-stamping process. Creating something average would have been easier, sure. But who wants to be average? Style and substance are the order of the day. And a little breathtaking beauty doesn't hurt either.

Ti model shown in Ebony.

ZERO GRAVITY-INSPIRED SEATS.

COMFORT THAT'S OUT OF THIS WORLD.

Whether you're on a long trek cross-country or braving the daily commute, sitting for too long can fatigue every part of your body. To remedy this, Nissan engineers looked to the cosmos, where astronauts float weightlessly in space.

In zero gravity humans naturally default to a relaxed posture that minimises stress on the body. To emulate this neutral posture, Nissan designed articulated front seats that give continuous support from pelvis to the chest, along with cushioning that flexes in response to your unique pressure points. The result? Stellar comfort and fatigue-free driving, anywhere in the universe.

Ti-S interior shown.

A detailed view of the front interior of a Nissan Altima. The dashboard is dark with silver trim around the air vents and center console. The center console features a large infotainment screen displaying a navigation map, with climate controls and buttons below it. The steering wheel is black with silver accents and the Nissan logo. The seats are black with a textured pattern. The overall design is modern and sleek.

SURRENDER TO LUXURY.

Welcome to the luxurious heart of Altima. A deep, rich ebony centre stack and console. Sumptuous soft feel leather-accented[^] centre armrest and door trims. A tailored steering wheel with embedded controls for intuitive operation of Nissan's interactive Advanced Drive Assist Display (ADAD). Dual zone automatic climate control for enhanced individual comfort. Push button ignition. And there's even more to discover in this eternally surprising interior...

[^]Leather accented features may contain synthetic material.

Ti-S interior shown.

NISSAN ADVANCED DRIVE ASSIST DISPLAY.

INNOVATION THAT'S RIGHT IN FRONT OF YOU.

Work stress. Weekend plans. Everyday dilemmas and more. With so much happening around you, it's easy to lose sight of what's happening in the here and now. Advanced Drive Assist Display* gives you a whole lot less to worry about. Turn-by-turn directions, caller ID, Lane Departure Warning and more – everything you need to know is right in front of you. An intuitive 3D depth and tilt design display minimises the time needed to take it all in, so you can focus on what really matters - enjoying the drive.

*Display features vary by model.

TURN-BY-TURN NAVIGATION*

LANE DEPARTURE WARNING*

IPOD CONNECTIVITY*

CALLER ID*

NISSAN AROUND FOUR CAMERAS

VIEW MONITOR ONE 360° VIEW

CAMERA 1

The perfect pull in. When in Drive, camera 1 gives both a front and overhead view so you can confidently go all the way in to your parking space.

CAMERA 1

1

CAMERA 2

2

CAMERA 2

Don't scratch your wheels. In Drive or Reverse, choose to switch to camera 2 for a side view - brilliant for seeing just how close you are to the kerbside.

CAMERA 4

4

CAMERA 4

Complete the picture. Camera 4 is located under your driver's side mirror, to give you on the ground coverage in either Drive or Reverse, completing your virtual 360° birds-eye view.

CAMERA 3

3

CAMERA 3

No turning back. In Reverse, camera 3 shows what's directly behind you, whilst the overhead view helps with lower objects that can't be seen out of your window.

WHAT IF PARALLEL PARKING WAS EASIER?

A rearview monitor is great when reversing, but when it comes to parking, it's good to see more than just what's behind you. Altima Ti and Ti-S give you a class-exclusive Around View

Monitor, with four cameras delivering a virtual 360 degree bird's-eye view of your vehicle*. It also boasts selectable split-screen close-ups of the front, rear and kerbside views, so the perfect level of assistance is at your beck and call.

*AVM is a driver's aid only. It cannot completely cover blind spots and may not detect moving objects. Always check surroundings before moving vehicle.

NISSANCONNECT

CONNECTED TO MORE THAN JUST THE ROAD.

NissanConnect* uses hands-free technology with your smartphone and your Nissan display screen, to help you stay in touch with the outside world from inside your vehicle. Free for the first 3 years, it's loaded with features and comes with a growing list of apps to keep you connected.

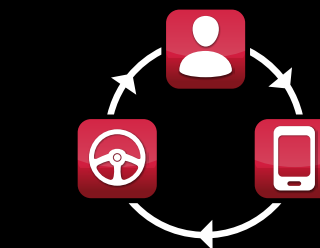

NISSAN NAVIGATION SYSTEM.

Altima's available 7-inch touch-screen display delivers traffic messages for real-time advisories to keep you on the move.

ONLINE SEARCH - POWERED BY GOOGLE®.

Based on the latest information, Google® Online Search helps you pinpoint your desired destination, even if you don't know the name or category – so you can find that new restaurant or brilliant beach in a snap.

PANDORA® RADIO CAPABILITY.

Looking for something new? Explore the latest tunes using Pandora® radio capability. Connect your Pandora®-equipped smartphone through the audio system to listen to Pandora® free internet radio and use the 'thumbs up' or 'thumbs down' icons to rate songs.

FACEBOOK.

Launch the Facebook app and your Nissan's got room for 200+ of your closest friends. Follow your news feed to find out what everyone's up to, check in with your network on arrival at your destination and you can even update your status to suit.

*Not available on ST model.

Driving is serious business. Only use NissanConnect™ services when safe to do so and in accordance with local Road Rules. Never program while driving. Use of NissanConnect™ services is subject to agreeing to a Subscription Agreement containing important restrictions, terms and conditions (see nissan.com.au/nissanconnect for details). 36 month subscription starts on vehicle registration date, subsequently a paid subscription is required at the then current rate. Standard data usage charges apply. Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone owner's manual for details. Google® is a registered trademark of Google Inc. Pandora® is a registered trademark of Pandora Media Inc.

4-CYLINDER
7.5
L/100KM*

ECONOMIC SUPERPOWER.

Altima's 4-cylinder 2.5 litre QR25 DOHC (Double Overhead Camshaft) petrol engine, coupled with our Xtronic CVT (Continuously Variable Transmission) delivers a whole new level of incredibly fuel-efficient power to your drive. Say goodbye to fixed gear ratios and hello to Nissan's acclaimed CVT, where friction is reduced by up to 40% over previous versions, with ratio coverage greater than some 8-speed automatics.

Enjoy spirited performance from 127kW of power and 230Nm of torque, while keeping it frugal with remarkable fuel economy of just 7.5 litres per 100km*. Responsive acceleration, smooth and seamless performance and outstanding fuel economy. It's a dream drive.

ST model shown in Titanium.

*Figures have been calculated in accordance with ADR81/02. Actual fuel consumption, range and emissions will vary depending on driving conditions, driver behaviour, the condition of your vehicle and the accessories fitted.

V6 ENGINE
183
KILOWATTS

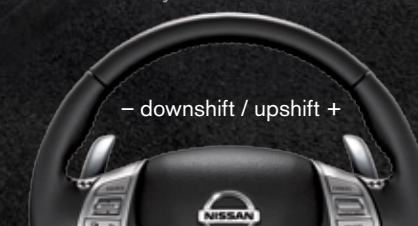

THE POWER AND THE PASSION.

Ready for an adrenalin boost to your everyday drive? Nissan's legendary VQ35 3.5-litre 183kW V6 engine in Altima Ti-S treats you to sportscar like performance every step of the way, with a Continuously Variable Valve Timing Control System (CVTCS) that delivers power on tap.

And apart from amazing acceleration, the Xtronic CVT features four modes for even more thrills; 'Drive' for every day, 'ECO' to further enhance fuel efficiency, 'Ds' for a sportier 'shift' feel or

'M' using the paddle shifters for Formula 1-style action. Unique to the Ti-S, the paddle shifters are mounted right on the steering column, giving you precise control. No clutch needed, just pull a paddle and your 'gear' changes on command. This is no ordinary ride.

Overseas model shown in Brilliant Silver.

TAKING A CORNER WILL NEVER FEEL THE SAME.

Altima knows when you're cornering, and knows just what to do to help you nail it like a pro, every time.

ACTIVE UNDERSTEER CONTROL.

This innovative technology improves control when you take a corner. It reads the cornering situation and, if needed, will imperceptibly brake the appropriate wheel to help you steer through the turn even more smoothly.

SUSPENSION.

Altima's 370Z-inspired multi-link rear suspension is designed for exceptional agility. You'll especially feel it when cornering, as the suspension layout gives you the sensation of riding on rails.

SHOCK ABSORBERS.

Altima's luxury sedan-style shock absorbers significantly reduce vibration for a smooth, flat ride. Individual rebound springs inside each shock absorber greatly reduce roughness and improve cornering to give you ride comfort and control like never before.

Overseas model illustrations shown.

Overseas model shown in Brilliant Silver.

V8 SUPERCAR SENSATION.

After an absence of over two decades, Nissan Motorsport returns to the Australian V8 Supercar Championship – and they're back with a vengeance. The weapon of choice? The all-new Nissan Altima – what greater honour for an all-new model? With four hard-charging racecars, this amazing machine is certainly shaking up the series. Not only does the Altima look outstanding on track, leading aerodynamics and handling prowess have already delivered race winning form in its debut year. Keep a keen eye out as the development of the Nissan Motorsport Altimas go from strength to strength – it's already on track to deliver some seriously stiff competition.

SAFETY THAT SURROUNDS YOU.

With a comprehensive approach to safety that guides the engineering and development of every vehicle we make, Nissan's many safety technologies are an imperative part of your Altima. Whether it's monitoring vehicle systems and surroundings, assisting in handling unexpected situations or simply helping to keep you safe in the unfortunate event of an accident, each and every piece of safety tech included is there to keep you and your family out of harm's way.

SAFETY SHIELD

Whether you need to hit the brakes hard or maneuver around an unexpected obstacle, these standard technologies help you stay in control and respond better to a potentially harmful situation.

- **VEHICLE DYNAMIC CONTROL** helps you maintain your steered path.
- **TRACTION CONTROL SYSTEM** helps reduce wheel spin in low-traction situations.
- **ANTI-LOCK BRAKING SYSTEM** helps you maintain steering control around obstacles while braking heavily.
- **ELECTRONIC BRAKE FORCE DISTRIBUTION** automatically varies the braking force in accordance with load distribution to maximise stopping power.
- **BRAKE ASSIST** helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

When a collision is unavoidable, Nissan's Zone Body construction helps absorb impact, while advanced seat belt and airbag systems help protect passengers.

- **Nissan Advanced Airbag System**
- **Front seat-mounted side-impact supplemental airbags**
- **Roof-mounted curtain side-impact supplemental airbags**
- **Child restraint anchorages** - ISOFIX* low anchorages and top tether

*ISOFIX compatible child seats are subject to Australian Standard Approval. Refer to child restraint manufacturer for more information. Overseas model shown in Storm Grey.

INTELLIGENT TECHNOLOGY SUITE.[^]

Imagine driving a car that's got your back. A car that literally looks out for you. Whether you're changing lanes on a freeway or reversing into a parking spot, the Intelligent Technology Suite uses the rearview camera to act as your second set of eyes, giving you a whole new outlook on safer, smarter driving.

BLIND SPOT WARNING.[^]

If another vehicle is detected in your blind spot area, a warning lamp appears on the driver or front passenger door, as well as on the Advanced Drive Assist Display. If you then indicate, the lamp will flash and a warning chime will sound to further alert you.

LANE DEPARTURE WARNING.[^]

If Altima detects that you're straying from your lane, the Lane Departure Warning system will give both a visual and audible alert. The system is so smart it will then cease the warnings when you indicate to change lanes.

REARVIEW MONITOR WITH MOVING OBJECT DETECTION.[^]

Shift into Reverse, and the next-generation Rearview Monitor displays what's behind you. If it detects something moving near the rear of the vehicle when you're in Reverse, it gives a visual and audible alert.

[^]Available on Ti and Ti-S only.

ST-L model shown in Mineral Blue.

A complete ownership experience to help you get the most out of your Nissan. It includes the following:

3 YEAR/100,000KM WARRANTY

Receive assurance with a 3 year/100,000kms warranty with the option of extending further for up to 6 years.
